Preface

Our Guruji Shri K.N.Rao asked me to write on divisional charts. This was about one year ago. This book is a result of his direction. I am grateful to him for considering me worthy enough for this task.

Divisional charts are the pnde of Hindu astrology. They reflect the depth of knowledge our ancients had. Each divisional chart is a magnified view of a specific area of human life. Our seers have advised us to read each divisional chart in-depth to understand the horoscope holistically.

This study of divisional charts is presented in twenty three chapters. These chapters deal with the sixteen divisions or shodashvargas of parashar. The four non parashar divisional charts are also explained along with higher divisional charts. An interesting chapter of inter linking of divisional charts is also included. The linking of different divisional charts of one individual and of different individuals are given in a simple yet effective way. This linking is useful to provide a complete picture of the horoscope.

I am grateful to the faculty of Institute of Astrology, Bhartiya Vidya Bhavan, who taught me Hindu Astrology. I am grateful to the almighty GOD for directing me towards Astrology.

My special thanks to Sh. Narender Sagar forgiving shape to the book from my hand written notes.

I will feel satisfied if readers are benefitted from this work.

Divisional Charts

> The effect of a horoscope should be predicted according to the strength in divisions of houses without which one cannot take even one step in astrology.
>
> *- Saravali*

True. In this world thousands of birth take place in a span of two hours i.e. having same lagna. The horoscope will be indentical except for some variations in the longitude of lagna and planets. All do not have same fate. The divisional charts seems to be an answer.

The birth chart or the Rashi chart is the main chart. Each sign is divided into predetermined divisions and according to the placement of planets and Lagna in these finer divisions, we erect the divisional chart. The birth chart is the source of light and direction. The divisional charts are the many diffracted rays carrying its own definite waves. Each birth chart has a spark of divinity which makes special people. Yet these cannot be fully ascertained by astrological analysis and only divine can understand divine.

How a divisional charts should be read. Different scholars have different views. We are not going into a debate on these controversies. We are using the following system in this presentation.

1. The divisional charts are presented in the format of horoscope.
2. The horoscopes are based on nirayana system with Lahiri or Chitrapaksha ayanamsha.
3. The divisional charts are analysed as independent chart also.
4. Normal Parashah aspects are considered in the divisional charts also. Saravali have taken the aspects between Sun, Mercury and Venus. These can be astronomically possible in divisional charts only.
5. The Yogas formed in divisional charts give results in the ambit of the divisional chart where they are formed.

6. Dasha results are governed by divisional charts for timing the events.
7. Transits are applicable in divisional charts.

Brihat Parashar Hora Shastra gives sixteen vargas including the birth chart. These are listed above with their names and cod al reference.

These sixteen vargas are classified in four groups. Parashar has recommended the use all the sixteen divisions called shodasvargas. M inimum six vargas or shadvarga must be used for proper delineation.

The four groups along with weightage of each divisional chart in that group on a 20 point scale are given. The weightage of each chart is also called Vimshopak Bala.

Varga Vimshopak Bala

The weightage of each planet in each divisional chart is calculated to assess its strength of giving results. This calculation needs two factors.

1. Vimshopak Bala allotted to the particular divisional chart in the scheme of shadvarga, saptgarga, dasvarga or shodashvarga in which we want to calculate it.
2. Varga Vishwa Bala. This is allotted on the placement of each planet in a sign in the divisional chart. This is based on the panchdha maitri.

Varga Vishwa Bala	
Placement	**Varga Vishwa Bala**
Own or Exaltation Sign	20
Ati Mitra Sign	18
Mitra Sign	15
Neutral Sign	10
Enemy Sign	7
Bitter Enemy Sign	5

Panchdha Maitri

The panchdha maitri (five fold) relation is normally worked out in the birth chart and this relation is applied in all divisional charts. This method is generally followed.

The panchdha maitri is of two parts. The first part is the permanent relation or the naisargika maitri which is based on the mooltrikona sign of a planet and is same for birth chart and divisional chart.

The second part is the temporary friendship which depends upon the placement of planets with respect to each other. Actually this part is changing with each divisional chart. Technically the panchadha maitri for each divisional chart will be unique to it.

It is felt that we should work out panchdha maitri relation for each divisional chart.

The Varga Vimshopak Bala of a planet is

(Vimshopak Bala x Varga Vishwabal)

'"26"

When a planet is in exaltation sign or own sign in any divisional chart, it gets the varga vimshopak bala which is equal to vimshopak bala of that chart. In other words it gets 100% strength in that divisional chart. The minimum varga vimshopak bala is 25% of the vimshopak bala of divisional chart and is given when the planet is in the sign of bitter enemy.

From this mathematical calculation we can derive the fact that any planet placed in exaltation, own, bosom friend, friend and neutral sign is capable of giving 100% to 50% results. This strength of a planet is for that specific divisional for which it is calculated.

We would like to examine the combined strength of a planet in many divisional charts. This have been presented in a very important way by clubbing benefic placement in more than one divisional charts in any of the four classification of vargas. The summary of these is given and is a very important factor.

Any planet falling in the exaltation or in own sign in a divisional chart is considered benefically placed. BPHS have identified this benefic placement of a planet in two or more vargas in the four classifications. These are given in the tabular form.

Shadvarga	
Benefic Placement in number of vargas	**Known as**

Mantreshwar in Phaldeepika have followed the dasvarga classification but with a variation. The benefic positions are exaltation, own sign and in friendly sign.

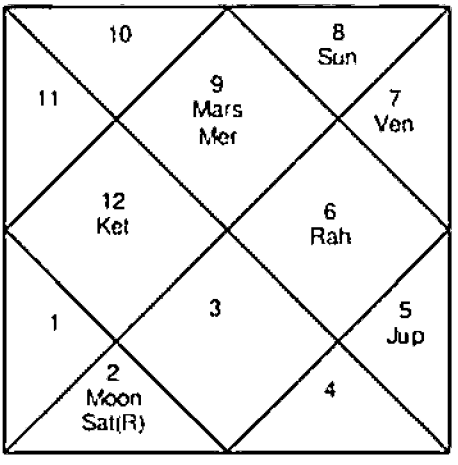

The results given in Phaldeepika are listed below. These are bestowed when even one planet occupy two or more benefic

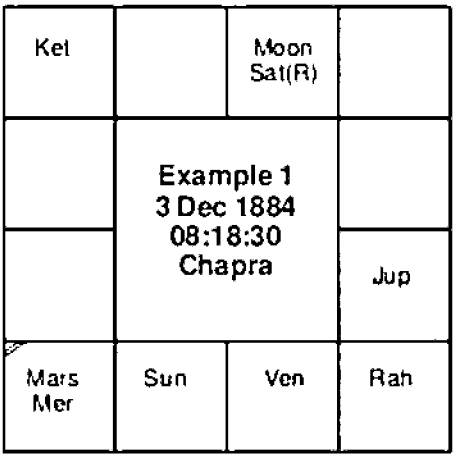

positions in dasvarga scheme.

2. Parijat - Have many virtues, wealthy and honoured.
3. Uttam - Clever, gentle and well behaved (me vlpj.fc
4. Gopur - Wealth of cows, land, houses and thinks well of others.
5. Simhasan - Lives like a king. Loved by king.
6. Parvat - All luxuries like house, vehicles, live in splendour.
7. Devlok - King, governor, has name, fame (I c|hrl£
8. Surlok (Brahmalok) - Very fortunate, maharaja.
9. Iravat - Like Indra, many kings bow to him.

To illustrate the application of the method we take up the horoscope of Dr. Rajendra Prasad. He was bom in a middle class family of rural Bihar and became the first president of Independent India.

The placement of Jupiter in benefic signs in the dasvarga

Lag	Sun	Moon	Mars	Mer

Varga	Sign in Varga	Condition	Remarks
DI	Leo	Atimitra	Sun in 4 " from Jup
D2	Leo	Neutral	With Sun
D3	Sagittarius	Own Sign	-
D7	Scorpio	Atimitra	Mars in 3rd from Jup
D9	Cancer	Exalted	
DIO	Sagittarius	Own Sign	
D12	Capricorn	Friend	Saturn in 4*
D16	Aquarius	Friend	Saturn in 10:h
D30	Sagittarius	Own Sign	
D60	Libra	Neutral	Venus in 2nd

classification is given. The benefic placement is as per Phaldeepika.

In dasvarga Jupiter is not occupying enemy sign in any of the divisional chart in dasvarga. It occupies eight benefic positions. This position is termed as surlok or Brahmlok and gives the status of Maharaja. Is this the method to reveal the divine blessing?

Longitudes in divisional chart

The longitude of Lagna and the planets can be derived for the divisional charts. The pnncipal behind it is "that a planet covers one sign of 30 degrees in one part of the divisional chart."

For example each part of dashamsha is of three degrees. In this three degrees of birth chart any planet covers one sign in dashamsha. The longitude of a planet in dashamsha is thus ten times of birth longitude. Two methods are given for working out the longitudes in divisional charts. These are applicable to all divisional charts except Parashah Trimshamsha.

1st M ethod

Take the longitude of the Lagna or planet in the natal chart without the sign. The sign in D chart is already available.

Multiply this deg ree/min/ seconds by the number of the divisional chart for which the longitude is being calculated. Leave the completed signs and retain the degree/minutes/seconds as the longitude of planet for the divisional chart.

For example if Sun is 13 degree 04 minutes in any sign. We like to calculate the longitude of Sun in Saptamsha. M ultiply 13 degree 4 minutes by 7. We get 91 degrees and 28 minutes. From 91 degrees remove 90 degrees as three completed sign. The remainder is 1 degree 28 min. This is the longitude of Sun in Saptamsha.

2nd M ethod

Take the longitude of the planet in the natal chart without the sign. Call it A.

Note the longitude where the preceding division of the divisional chart have ended. Call it B.

Subtract B from A and take the remainder.

Multiply the remainderby the number of divisional chart and the result will be the longitude of planet for the divisional chart.

We apply this method to calculate the longitude in Navamsha chart of the horoscope of Dr. Rajendra Prasad.

Planet	Longitude (A) D M S	Part Completed (B) D M S	(A-B) D M S	(A-B)9 D M S	Longitude in Navamsha D M S

Rahu	20-01-46	20-00-00	00-01-46	00-09^114	00-15-54

Longitude in Parashari Trimshamsha

In Parashah Trimshamsha each sign is divided into five unequal parts. This means that each part covers 30 degrees or one sign in the trimshamsha. Therefore the longitude of planet is in proportion of the span of the part in which it is placed.

Take the longitude of the planet in the birth chart without the sign. Call it A. Note the ending longitude of the preceding trimshamsha part and call it B. Also note the span of the part in which the planet is placed and call it C.

The longitude of planet in trimshamsha will be

(A-B) x 30 / C.

(Note - convert all longitudes in seconds)

Longitudes of planets in trimshamsha are calculated for the horoscope of Dr Rajendra Prasad.

General Rules

Certain rules for ex amination of a divisional chart are given. These rules are generally applicable on all divisional charts. The specific rules are g iven in the various chapters of each divisional charts.

1. Good placement of a planet is the key factor in giving good results of any chart. The Lagna lord of birth chart, Lagna lord of divisional chart and the significator (Karaka) for the divisional chart should be well placed in the divisional chart. The placement in trine or in angles is the best position. Next in order is the placement in 2nd and eleventh house. Planets placed in 3", 6th, 8th and 12th are not considered good even when they are exalted. Placement of karaka in the Lagna of divisional chart is not good. Other planets are considered good in Lagna.
2. The exceptions to rule 1 are also applicable. Mars in 6tn in any divisional chart, Mercury in 8:r in D4, Saturn in 8" in D8 and Venus in 12th in D9 are considered good. Mercury is favourable when placed in 8th in any divisional chart.
3. The Lagna should be strong to get the effects of the divisional chart. For example, a strong Lagna in D7 assures progeny. Many planets aspecting Lagna also strengthen the Lagna. A subh kartari on Lagna gives benefic results.
4. Raj yoga present gives status to the signification of divisional chart. A Raj yoga in D12 denotes high status of parents.
5. Dhana yoga multiplies the signification of divisional chart. A dhana yoga in D9 can give wealthy spouse or many spouse.
6. The effect of yogas of divisional chart operate throughout but the maximum results are felt during their dasha periods.
7. Any planet badly placed in birth chart and again remains in eighth or 12th house in divisional chart cannot give good effects of the divisional chart. Also if any planet is placed in 8^ house in birth chart or in navamsha chart and becomes the Lagna lord of divisional chart then the auspicious results of that divisional chart are not felt.
8. Vargottam Lagna of any divisional chart gives highly auspicious effect provided the Lagna lord is also well placed. If it is placed in 6th, 8th or 12th house then gives dreams only.
9. A planet who is defeated in planetary war or is combust cannot give good results in divisional chart even when it is well placed. Its placement in 6,8,12 in divisional chart is worst.
10. A debilitated planet when well placed in divisional chart gives good effect only when the debilitation is cancelled.

11. The powerful status of planets are exaltation, vargottam, own sign and digbala. The term vargottam can be applied to all divisional charts.
12. The effects of planets gets modified by conjunction and aspects. For higher vargas when the accuracy of Lagna is doubtful, we should take only natural benefics and malefics. To check the strength of planets, we can examine them from birth lagna sign in the higher divisional charts.
13. If the Lagna is placed in cruel divisions in shadvarga, then the person has short life, is poor and wicked.
14. When Lagna lord of DI, D9, D12, D3 is exalted, own sign, in sign of friend or with benefics the person have many virtues, is intelligent, kind, pure, lives like a king and is wealthy.
15. Any significator of the divisional chart is not welcome in bad position from Lagna of divisional chart. For example Sun in 8^{r} house in D8 kills father.
16. Planets in 3'^{a} or 8" house are death like planets for divisional chart. In D9 it is for spouse, in DIO it is for profession etc.
17. The significator (karaka) of the divisional chart when placed in Lagna of divisional chart is like karaka in bhava and gives bad effect of the divisional chart. Hora D2

Hora is the second divisional chart in the scheme of Shodashvarga. Each sign is divided into two parts of 15° each. The first part 0-15° is the first hora and 15°-30° is the second hora of any sign. Hora chart is the magnified veiw of second house and is used to see the wealth of a person. This means all happiness, problems, gains or losses of or due to wealth. It also indicate the nature of speech and eating habits of a person.

M any scholars have given d ifferent methods of computing a hora chart. We will discuss the most known methods and see their applicability.

Parashari orCancer/LeoorIlmaShambhu Hora

In this computation only Cancer and Leo signs appear in the hora chart. No planet occupies the signs of other five planets. All planets occupy the signs of Sun and M oon who are the significators of father and mother. The wealth can thus be granted through the blessings of parents.

In odd signs the first hora belongs to Sun and the second hora to Moon. In even signs, the first hora belongs to Moon and the second hora to Sun. Lagna or any planet in Sun hora occupy Leo and in M oon hora occupy Cancer in hora chart. A ready table is given for finding the placement of a planet in hora chart.

1. Paras hari Hora											
Sign	**Ari**	**Tau**	**Gem**	**Can**	**Leo**	**Vir**	**Lib**	**Sco Sag**	**Cap**	**Aua**	**Pis**
0- 15°	**Lee**	Can	Leo	Can	Leo	Can	Leo	Can Leo	Can	Leo	Can
15° - 30J	Can	Leo	Can	Leo	Can	Leo	Can	Leo Can	Leo	Can	Leo

The presiding diety of the hora belonging to Sun is Devtas (Gods) and that of Moon is Pitries (Manes, Forefathers, departed elders). Planets in Sun hora indicate wealth by self effort. Those in Moon Hora indicate wealth by blessings of forefathers. Jupiter is significator of wealth and its placement in the hora is important. In a real sense wealth is which gives us happiness. It can be good sanskaras, good family, good health etc.

Sun, Mars and Jupiter are considered to give good effect when they occupy hora of Sun. Moon, Venus and Saturn are good when they occupy hora of Moon. Mercury is considered well paced in both the horas. Each hora can be further divided into three parts of 5° each. A planet in first part (i.e. 0°-15° or 15°-20°) is considered strongest, in second part (5°-10° or 20°-25°) is average and in the third part (10°-15° or25°-30°) is the weakest.

Lagna, Lagna lord and M oon are examined in the hora chart. If a cruel Lagna lord occupies an odd sign in rashi chart and goes to Sun hora in D2, the person is cruel, strong and wealthy. A benefic placed in even sign in rashi chart and goes to M oon hora in D2, the person is bright, soft-spoken and fortunate. For mixed placement, the result will also be of mixed nature. We can examine the dasha lord to assess the speech, nature, wealth etc. in the hora chart during its dasha period. The basic nature of a person is seen from LL and M oon. This is the inborn nature if a dasa period is at vanance with basic nature, it shows the period of change. Any planet in even sign in birth chart and in Moon hora will make a person soft spoken. Next we see the part of the hora the planet occupies. Any planet in first part, even sign and Moon hora will make a person bright, soft-spoken and fortunate. As an example, Mars is the mahadasha lord, placed in Piseces, occupies Moon hora and is at 4°longitude i.e. the first part ofhora will makethe person extremely adjustable in M ars dasha. Jupiter in Leo, in Sun hora and in first part of hora will make a person use harsh speech during dasha of Jupiter.

General effect of hora placement (Mansagri)

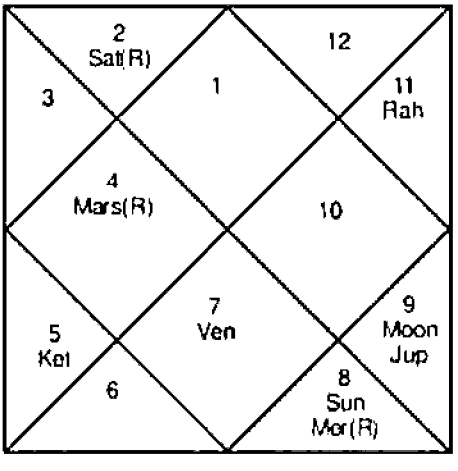

1. If Sun is placed in Moon hora then the person will have all comforts and wealth acquired by own effort, will be dignified and feminine in disposition, troubled by venereal disease.
2. Sun placed in own horamakes a person courageous, hardworking, commands his senses, learned and does valorous deeds.
3. If Moon is placed in Sun hora then the person gets trouble from female and is lustful. He is troubled by enemies and does not have many friends and has low intelligence.
4. Mars in the hora of Sun makes a person beloved of all, brave, wealthy and preserving. Mars in Moon hora - wife will die and the person is irreligious.
5. Mercury in Sun hora - the person is poor and is a back biter. When in Moon hora - the person is famous and the spouse will be chaste.

6. Jupiter in Sun hora - the person will die in sickness. Jupiter in M oon hora - will be noble, good character but poor.
7. Venus in Sun hora - likes to cohabit with unchaste women. Venus in Moon hora - his wife will be a good woman.
8. Saturn in Sun hora - Husband of a sterile woman. Saturn in Moon hora - the person will be a henpecked husband.
9. If there are strong malefic planets in Sun hora - they confer wealth and luxuries. He will be dear to king due to his good conduct and truth. He will be sick and will have difficulty in having sexual union.
10. If a benefic planets occupy M oon hora - the person is affectionate to female and will enjoy the comfort of females for a long time.
11. A person bom in Sun hora is considered good. The person will be religious, truthful, earns by his own efforts and enjoys it. Such person will be a proficient musician. He will have sons and grandsons and will live upto 100 years.

Example 1 - Yogi Bhaskaranand

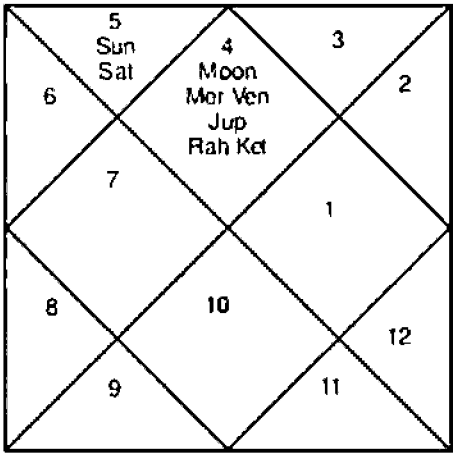

The Lagna is odd sign and is in second hora. The second hora of odd sign falls in Moon hora i.e. Cancer. The placement of other planets in hora chart is similarly worked out in the hora chart. The hora chart can be drawn in the following two ways.

The Lagna, Lagna lord and Moon are in Cancer hora. This gives softness and makes the person polite. Seven planets are in M oon hora and only Sun and Saturn are in Sun hora. Strong malefics in Sun hora make a person hard working and he earns through self effort. The monetary satisfaction comes easily but one has to put in hard work to earn it.

Labh Mandook Hora orKerala Hora

This method is a sound method of casting hora chart.

For any sign, the first hora remains in the same sign and the second hora goes to the eleventh sign from the sign occupied by it.

Rules

1. This hora chart can be independently analysed for wealth of a person. This chart indicates the gains, losses, source of wealth etc.
2. Dhana yogas present in hora chart indicate a wealthy chart. This combination in a good house will promote and helps to retain the wealth.
3. The Lagna/Lord and 3ra house/Lord if related gives skill and inclination to earn wealth.
4. Relation of Lagna/Lord with 9H/9L makes a person earn by luck. A strong ninth house and Lagna is a must for earning easily.
5. These three factors i.e. combination of wealth, skill to earn wealth and the luck to earn, all are to be analysed. If all three are strong then the person has lot of wealth.

6. The combination of wealth having involvement of eighth house/ lord can give wealth by inheritance.
7. Vimshottari dasha periods of the planets involved in these yogas will confer wealth.
8. Looks - When second lord is in angles or trines and has a benefic PAC, the person is good looking. A benefic planet when placed in second house also gives good looks as well as good speech. The scene is reversed when benefics are replaced by malefics.
9. The words (promises) are also the domain of hora. To check whether the person will keep his words or back out, we can use the hora chart. The second lord has to be in angles or trines with malefic associations to make a person go back on his words. Lagna should also have malefic PAC.
10. Voracious eater - The lagna lord or the second lord is with a malefic and is placed in Dandayudha or Devagni or Kaal Shashtiamsha then the person eats too much. The type of food eaten is seen from 2rd house. Malefic aspect or conjunctions with 2nd house make a person indulge in eating and drinking forbidden things. Saturn gives intoxication, Mars gives animal foods.
11. Expenditure - The expenditure is seen from 12th hosue. When there is a malefic sign in 12tr house, a malefic is placed in 12tn house, lord of 12th house has an association with malefic, the person spends on illegitimate items.

What is to be seen from different houses of Hora Chart

Lagna - General strength and nature to acquire wealth and means used to accumulate the wealth. Self perception of wealth.

2H - Wealth accumulation. Available resources at ones disposal.

3H - Effort put in to earn wealth. Relation with younger siblings in connection to your wealth.

Poorva Parashari Hora

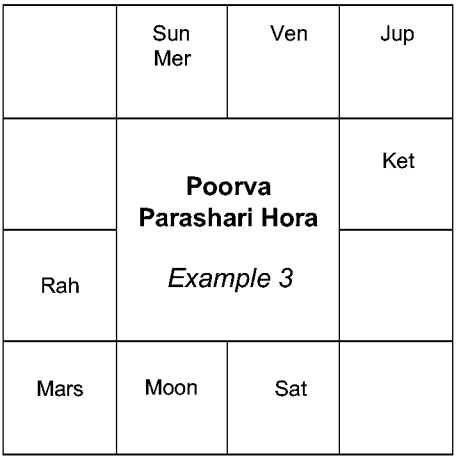

In this computation, any planet in first hora remains in the same sign. A planet in second hora goes to next sign in direct order.

15°-30°	Tau	Gem	Can	Leo	Vir	Lib	Sco	Sag	Cap	Aqu	Pis	Ari

In this hora the placement is 2/12. This shows accumulation and expenditure.

The malefics (Sun, Mars, Saturn, Rahu, Ketu) if remain in same sign, gives accumulation of wealth. The benefics (Moon, Mercury, Jupiter, Venus) gives accumulation when they go to next sign. In short, malefics are good in first hora and benefics in second hora. This Hora is not used forjudging the quantum of wealth.

Example - Mukesh Ambani

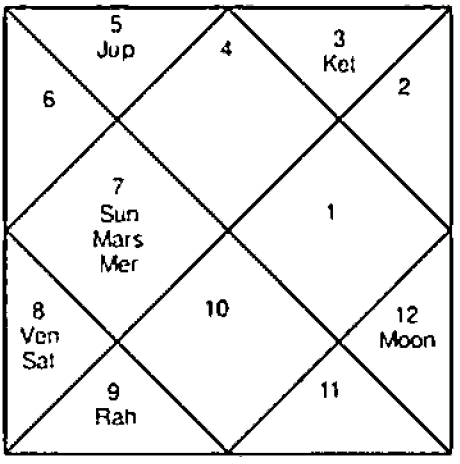

The benefics M oon, M ercury, Venus have gone to next sign. The malefics Sun, M ars, Saturn, Ketu have all remained in same sign. So all planets except Jupiter gives accumulation of wealth.

Example - Bill Gates

All malefics except Sun have gone to the second hora. Malefics in second hora are not accumulator of wealth.

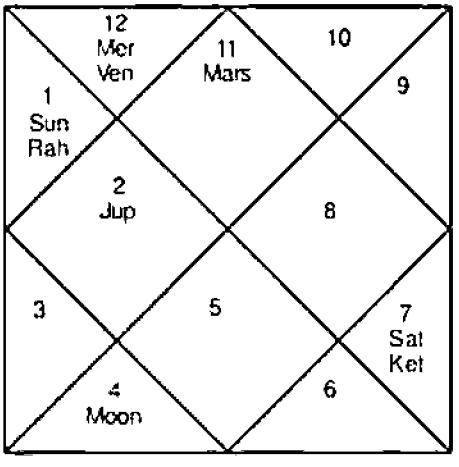

Two benefics Mercury and Venus has moved to second hora and are promotors of accumulation of wealth. The other two benefics Moon and Jupiter remained in first hora and are not wealth accumulator.

Planet in own tatwa show its inherent nature. Planet in opposite tatwa does not follow its inherent nature. A planet in fiery tatwas remains in fiery or goes to airy tatwas and vice-versa. Planets in earthy or watery sign can remain in these two tatwa only. The airy/fiery group imparts more energy and drive. The watery/earthy tatwa gives a practical and cool approach.

Example - Mukesh Ambani

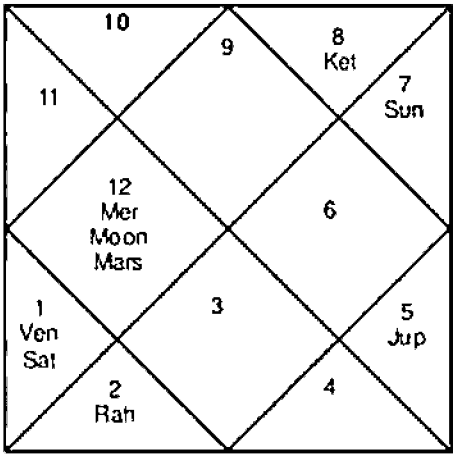

This chart is 1/7 chart. The emphasis is on partnership and the gain or losses from it. M ajority of planets are placed in fiery/airy signs. The drive to earn is there. Only Jupiter and Mercury are in earthy/ watery sign.

Sun and Moon Hora

Sun is considered king and Moon is the queen of the planetary kingdom. Sun rules over Leo and Moon rules over Cancer. Sun has granted lordships to remaining five planets in direct order from Leo. Moon has granted lordship to five planets in reverse order from Cancer.

Thus the signs Leo, Virgo, Libra, Scorpio, Sagittarius and Capricorn belong to Sun. The signs Aquarius, Pisces, Aries, Taurus, Gemini and Cancer belong to the Moon.

Now the rule is-

1. Note the sign occupied by planet in DI. Note the lord of that sign. This sign lord owns a sign in the signs granted by Sun or Moon.

2. The first hora of odd sign and the second hora of even sign goes to its Sun contributed sign in D2.

3. The second hora of odd sign and the first hora of the even sign goes to its Moon contnbuted sign in D2.

For example, Jupiter is at 20° in Virgo. Mercury is the lord. Jupiter is in even sign and second hora as such it will go to Sun contributed sign of Mercury in Hora. The Sun contributed sign of Mercury is Virgo. Jupiter will be placed in Virgo in D2 chart.

Drekkana D3

Drekkana or Dreshakan is an important divisional chart. Each sign is divided into three equal parts of 10° each. There are many different ways of computing this chart as suggested by different scholars and schools of thought.

Drekkana is a magnified view of third house of the horoscope. It is seen for, courage, prowess, communications, co-boms, fruits of effort, inclinations, short travels, upper arms, nature, thought process of a person, Pratibha, sports, ear, throat, parts of body. It is also used in horary astrology for identification of thief and for travel related questions.

Parashari Drekkana

Planet in first drekkana (0 - 10°) remains in the same sign as occupied by it in birth chart. In the second drekkana, (10° - 20°) it moves to fifth house from the sign occupied by it. In the third drekkana (20° - 30°) it moves to 9th sign from the sign occupied by it.

N ature of a Person

The liking and the nature of a person can be seen in D3 since it governs inclinations of a person. The three drekkana of a sign are ruled by three great sages. Any planet placed in movable sign in D3 belongs to sage Narad. Planet in fixed sign in D3 is Sage Agastya. Planet in dual sign in D3 is sage Durvasa. The characteristics of these sages are -

Narad - Fond of travelling, back biter, messanger of Gods, Great Yogi and devoted to God but falls for base desires.

Agastya - Strong determination, can control mountains and seas (can face all challenges in life), helpful to noble soul and destroyer

of enemies, likes to remain at one place.

Durvasa - Hot tempered, egoistic, orthodox and follower of traditions, no patience, inflicts great harms.

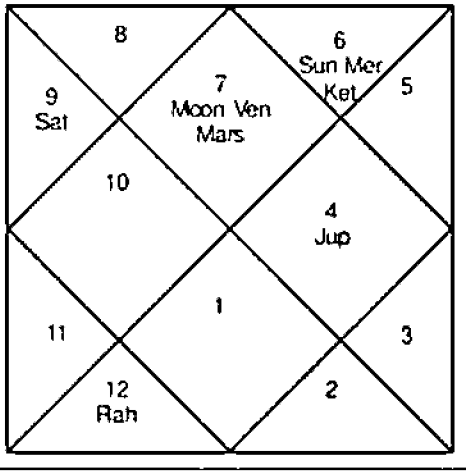

Each drekkana can be further divided into three equal part of 3° - 20' each. This is also called one navamsha. In each drekkana the first navamsha is ruled by Devas (Gods), the second navamsha by Nara (Human) and the third navamsha by Rakshas (Cruel). These represent the three Gunas also. Deva is Satwik, Nara is Rajsik and Rakshash is Tamsik.

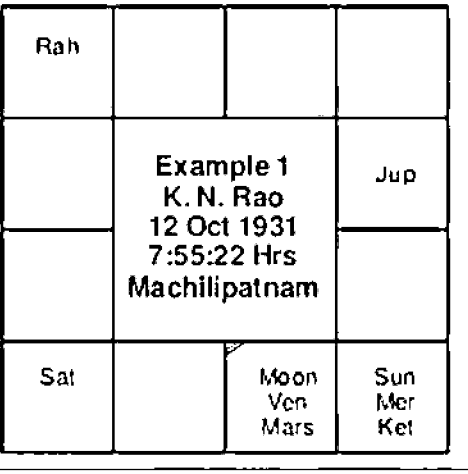

The drekkana sage and the navamsha Guna is seen for any planet or Lagna to assess the nature.

The Lagna, Lagna lord and Moon are examined for their placement in drekkana and the Guna of navamsha. The Lagna and the Lagna lord indicate the physical trend. Moon indicates the mental disposition or the liking of a person.

Example 1 - K.N. Rao

Lagna of D-3 is a dual sign and is in Durvasa Drekkana. The navamsha guna is devta. The body follows orthodox traditions and can sustatin tapasya. The Lagna lord is in Narad Drekkana and human navamsha. He likes to travel. M oon is in Narada Drekkana and devta navamsha. The mind is fully devoted to Gods i.e. the godly qualities of Narad are present.

Twenty second Drekkana

Twenty second Drekkana is an important signification of a horoscope. It is called khara Drekkana and its lord is called kharesh. The kharesh is one of the chhidra graha and gives malefic results. The literal meaning of khara is harsh, rough, donkey, hurtful, sharp, sharp edged, cruel, etc.

The eighth house of the Drekkana chart is the twenty-second Drekkana. Lord of this house is the lord of twenty second Drekkana. A simple way to arrive at 22nd Drekkana is to place the degrees of

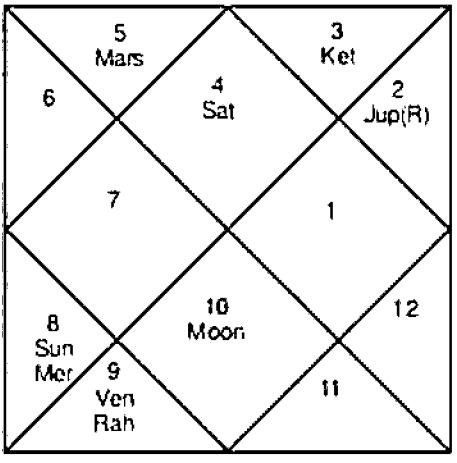

lagna in eighth house and work out the Drekkana with sign of eighth house and degrees of lagna.

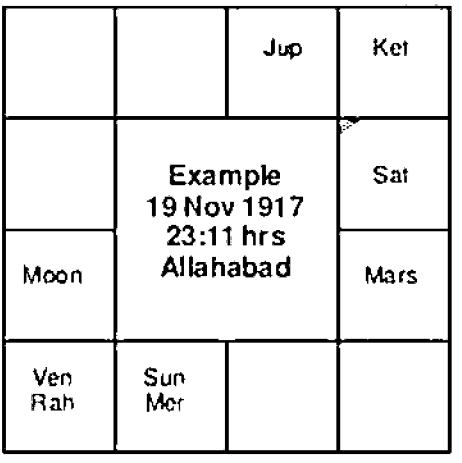

Since it is calculated from lagna, it brings harm of physical nature. We can calculate 22^ Drekkana for any house. It can be calculated from moon also to indicate the mental agony.

Dasha and transit of kharesh is fearful and can give death like situation. As an example, if eighth lord is placed in lagna and kharesh is in 8~, the mutual dasha period is very harmful.

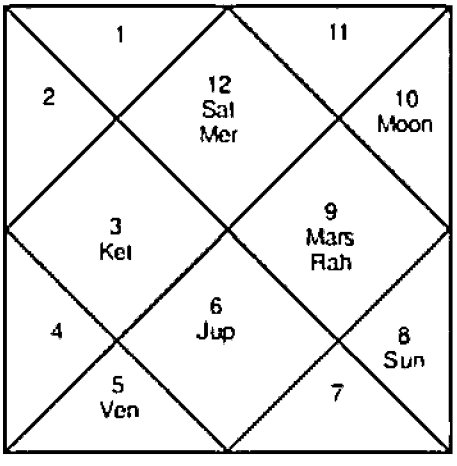

Example

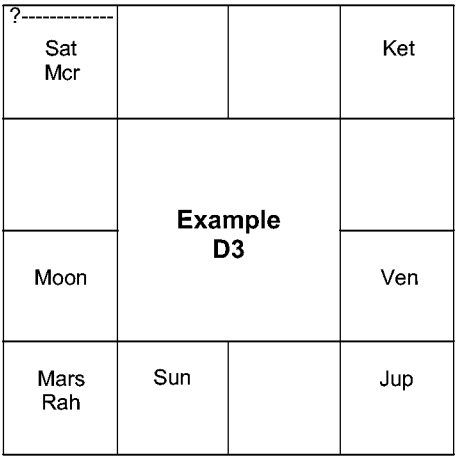

The lord of 22™ Drekkana is Venus. Venus is placed in sixth house

Lag	Sun	Moon	Mars	Mer	Jup	Ven	Sat	Rah
27°22'	04°07'	05°35'	16°22'	13°13'	15°00'	21°00'	21°47'	09°12'

in birth chart and in Drekkana chart. The other factor is the lord of eighth house of birth chart. Saturn is the lord of eighth house and is placed in lagna in birth chart and Drekkana chart.

Dasha period of Saturn/ Venus operated from September 1977

to October 1980. Emergency was lifted in March 1977 and general elections were held. She lost the elections and was out of pow er. She faced lot of humiliation in the period. This ended in 1980 and she was back in power.

When the lord of eighth house is placed in lagna in birth chart, then the mutual dasha period of lord of eighth house and that of lord of 22nd Drekkana gives humiliation and loss of position.

The intensity of malefic result depends upon the affliction to the 22™ Drekkana lord. The seriousness is greatest when in birth chart the following conditions are present.

1. The eighth lord and kharesh are in 6/8 from each other.
2. Kharesh is afflicted by malefic.
3. Kharesh is in tnk houses from birth lagna.

Examination

Drekkana is an important chart. Some opine that it is the most important division and should never be ignored since it indicate the values of life and the poorva punya. It shows the outcome of any action which can be positive or negative.

1. The Lagna lord, fifth lord and ninth lord of the birth chart are seen in D3. Lagna is atma, fifth is jeevatma and ninth is parmatma. If they are connected in dreshkana then it is a happy life.
2. Planets involved with third house or third lord shows failure or success of any activity.
3. The karmas of D3 are different from karmas of DIO. Drekkana shows the fruits of any karma, where as dashamsha is the action of your karma.
4. Any planet when aspected by its drekkana lord in birth chart is very powerful and gives auspicious results. For example, Jupiter is placed in the sign of Saturn in drekkana chart. In the birth chart Jupiter is aspected by Saturn. Then Jupiter is very auspicious to give success in the actions granted by Jupiter.
5. The eighth house of drekkana chart is known as khara and its lord as kharesh. It is also called 22na drekkana. Khara was a fierce warrior in the army of Ravana. He fought with lord Ram. Thus this kharesh shows our inner turmoil. The placement of kharesh from Lagna in the drekkana chart shows our internal fight. Placement in sixth house shows the struggle related to disease, debt or enemy.
6. Each drekkana consist of four dwadashamsha. First part is ruled by Ganesh, second part by Ashwani Kumar, Third part by Yama

and the fourth part by Ahi or Serpent.

7. Placement of Lagna lord in Sarpa drekkana is not welcomed. The person will have jealousy for others, is secretive, scheming and the spouse may get terminal disease. When fifth or ninth lord are placed in Sarpa drekkana, then no rise in life and the person has to put in lot of efforts but the situations will force failure. Tenth lord placed in Sarpa drekkana do not promise fulfilment in profession and person is indecisive.
8. Placement of planets (except eighth lord and Saturn) in Ayudh drekkana is welcome. It grants valour and vitality and many deficiencies are made up by self effort. Eighth lord or Saturn in Ayudh drekkana gives accidents and hurt by sharp weapons.
9. The placement of planet in Chatuspad drekkana gives a balance in life. The person thinks well before the action. Earns fame which is permanent. They are very conscious before others. The placement of Moon and Mercury in this drekkana makes an intelligent person but association of malefics will make him self centred.
10. Pakshi drekkana is not stable. It stands for communication and never stays at one place. H e cannot hurt anyone and is not social. This placement of Lagna lord, eighth lord or Saturn will cause unnatural death.
11. Female drekkana are the Laxmi drekkana and a person is blessed with wealth, pleasing personality, rises high in society in many ways, takes care of the whole family. If the rajyoga karaka planets occupy this drekkana and are placed in angles or trines then occupies high position and have all amenities in life.
12. A strong lagna promise birth of co bom. If lagna/ lord is afflicted then it indicates denial of co born.
13. A dhana yoga present indicates many co-bom.
14. A raj yoga present indicates highly placed co bom.
15. Afflicted or badly placed third house and/or third lord deny younger siblings.
16. For denial of elder sibling the eleventh house/ lord is afflicted or badly placed.
17. Mercury and Jupiter are Satwik planets, Mars, Saturn, Rahu and Ketu are Tamsik. Sun and Venus are Rajsik. Moon can be Tamsik or Rajsik according to paksha bala. The auspicious placement in drekkana of these planets is given in tabular form. Wecan classify the drekkana for Gunas, with this table e.g. third drekkana of fixed sign is Rajsik.

When Lagna lord and fifth lord occupy the same Guna in

Drekkana Classification according to Tatwas

Satwik	First	Second	Third
Rajsik	Second	Third	First
Tamsik	Third	First	Second

Drekkana chart then there are no major changes in this life from previous life. The lords of second, sixth and eleventh house gives wealth when occupy Rajsik drekkana.

Genetic Link

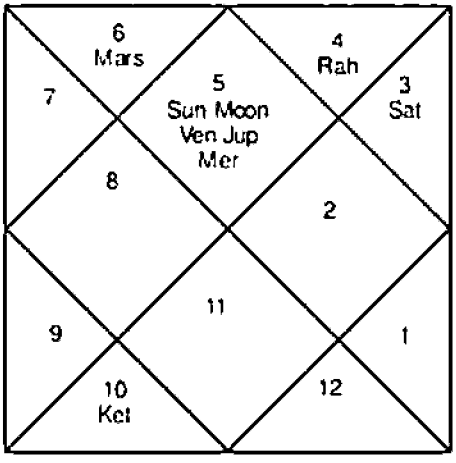

Younger and elder co-bom are seen from drekkana chart. The birth of siblings are the results of karmas which binds them in this life as a family.

M any scholars have researched this area using the significator or karakas M ars and Jupiter. This genetic link is not solely dependent on karakas. The lords and houses play a major role. A new approach is given here to check the genetic link between co boms.

Third house is the house of immediate younger co-bom. The eleventh house is the house of immediate elder co-born. The Lagna of drekkana is important for co-boms. The rules to establish genetic link between co-boms are as under:

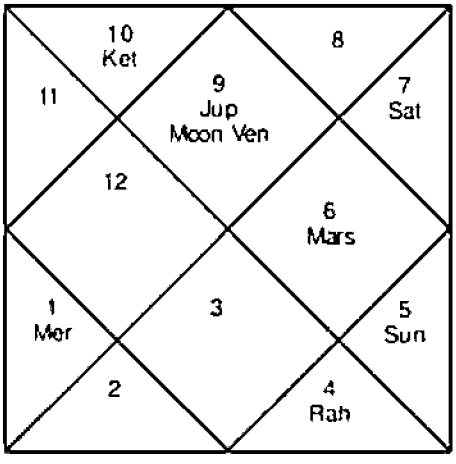

1. There is promise of cobom in the horoscope.
2. The third lord of the elder is related to the Lagna or the eleventh house or their lords of the immediate younger in drekkana.
3. The eleventh lord of the younger is related to Lagna or the third house or their lords of the drekkana chart of immediate elder cobom.

Sex of Coborn

Sarvarth Chintamani have given clues about the determination of sex of immediate coborn.

The male planets are Sun, Mars, Jupiter, Rahu and any planet in exaltation. The female planets are Moon, Venus, Ketu and any planet in debilitation. Mercury and Saturn can be male or female. When any planet is retrograde, it changes its sex i.e. male turns to female and vice-versa.

The male signs are Aries, Leo, Libra, Sagittarius, Cancer and Scorpio. The female signs are Taurus, Virgo, Capricorn, Pisces, Gemini and Aquarius.

When a planet is singly placed in a sign and the sex of sign and planet is different then the sex indicated by sign is important . Then comes the aspect on the planet. This rule is normally not applicable. We give a new method to determinethe sex of immediate youngeror elder sibling.

1. Younger cobom - Note the lord of the third house in drekkana chart of elder. Workout the lord of navamsha of this third lord and also of Mars. Sex will be determined by the placement of navamsha lords in the drekkana chart.

2. Elder cobom - Same as for younger cobom except third house is replaced by eleventh house and Jupiter replaces Mars.

The lords are more important than the significators.

We apply this on the charts of Rajiv and Sanjay Gandhi. The charts are given in this chapter as example 3.

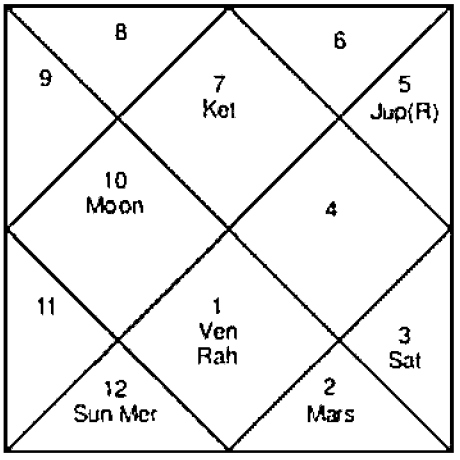

In the drekkana of elder brother, Rajiv, the third lord is Saturn. Saturn is in Aquarius navamsha. Mars is in Capricorn navamsha. The navamsha lord is Saturn. In drekkana Saturn is in Libra, a male sign. It is aspected by Mercury from a male sign.

Eleventh lord of drekkana of Sanjay is Mars. Both Mars and Jupiter are in Taurus navamsha. Venus is placed in Gemini with Jupiter and aspected by M ars and M oon from male sign. The male factors are stronger.

Practically w e have the birth chart of the elder sibling with us. The sex of the younger one can be seen with a good accuracy. We take up another example.

This chart is of a young boy bom in 2004. His younger sister was bom in Jan 2009. His parents were curious to know about the sex of next child. As they have a son and so wanted a girl. Astrologers told them that next child is a male. The consideration w as aspect of Jupiter and Mars on third house in birth chart. The drekkana was not seen. Now we give the horoscope

The third house contain Venus, a female planet. It is aspected by Jupiter. Jupiter is male planet. The sign in 3ra house is Leo which is again male. So a male younger cobom can be predicted.

When we look through the method given here, we find the solution. Third lord is Sun. Sun occupy cancer in navamsha whose lord is Moon. Moon is in Capricorn in drekkana and have aspect of Mercury. The younger one is a sister.

Now we see the chart of younger sister.

Garga Drekkana

Some authors name it after Varahmihir.

The first drekkana remains in the same sign. The second drekkana goes to 12th sign and 3rd drekkana goes to 11th sign from the sign occupied by it in birth chart.

Varanasi Drekkana

This computation of drekkana chart appears in the panchangs of Varanasi.

Each sign is divided into three equal part of 10° each. The first drekkana goes to the movable sign in the trine occupied by planet. This rule is akin to navamsha calculation. The second part goes to the fifth house from that movable sign. The third part goes to ninth sign from that movable sign. The first drekkana will always occupy movable sign in this drekkana chart. The second drekkana will occupy fixed sign and third drekkana will occupy dual sign in drekkana chart.

0-10°	Ari	Cap	Lib	Can
10°-20°	Leo	Tau	Aqu	Sco
20°-30°	Sag	Vir	Gem	Pis

Normally this casting of drekkana is seen for past karmas and fruits of karmas which are coming in future. We can use this for all significations of 3rd house.

The profession which a person is into can be seen from tenth house from Lagna or Moon in this drekkana chart. This is very well explained in the book "The Drekkana" written by group of students of BVB under guidance of Col. A .K. Gour.

Somnath Drekkana

In this method of casting, odd and even signs have different sequence. The odd signs follow direct sequence and even sign follow indirect sequence. The sequence followed is partially cyclical.

Sexual Inclinations

Drekkana is the expansion of 3rd house. Third house is the first house of Kaam tnkona. We can call it Kamna trikona or the desires trine. An afflicted drekkana will generate desires which are not socially acceptable. Benefic connection will give acceptable desires.

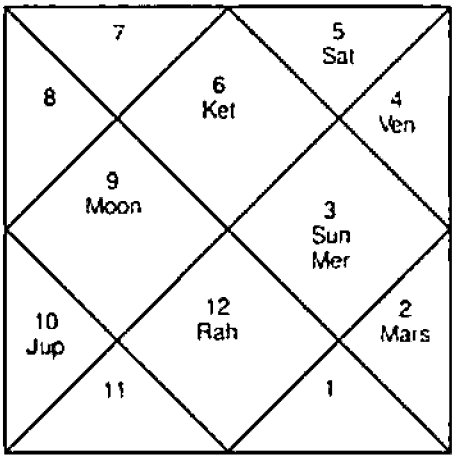

The examination of drekkana chart especially Somnath drekkana will involve the following considerations for seeing a not normal

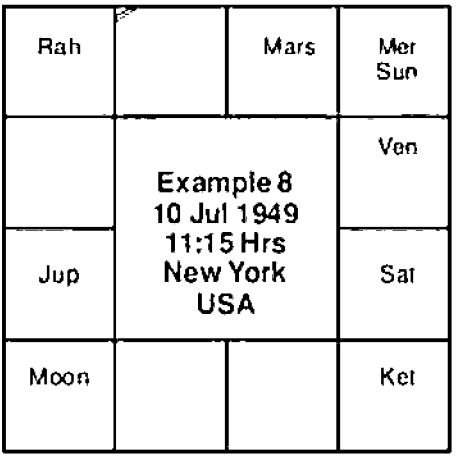

behaviour in sexual desires.

1. The Lagna of drekkana is afflicted by malefics or is in papa kartari. Influence of benefics will modify the nature.
2. Venus is the significator of desires or lust. Venus is afflicted by malefics.
3. Third house should have malefic to give the courage.
4. Dasha sequence is also of great importance. Normally the dasha periods of afflicting planets gives perversion when these operate during the critical age.
5. These dasha lords occupy malefic Shashtiamsha.

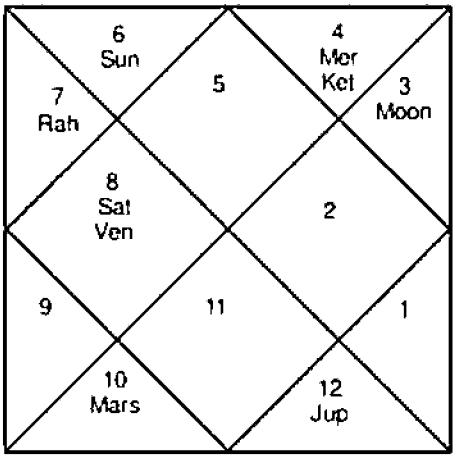

Example 8

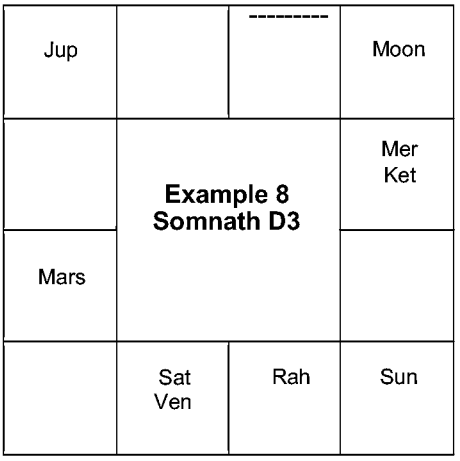

This chart is of an American lady who enjoyed group sex. She is a secretary and had unlimited sexual orgies. This chart is taken from Astrodata bank.

Lag	Sun	Moon	Mars	Mer	Jup	Ven	Sat	Rah
13°11'	24°54'	29°16'	28°18'	07°46'	05°20'	17°27'	10°05'	28°11'

In the birth chart Lagna is occupied by Ketu and aspected by Jupiter, combination of spiritual activity.

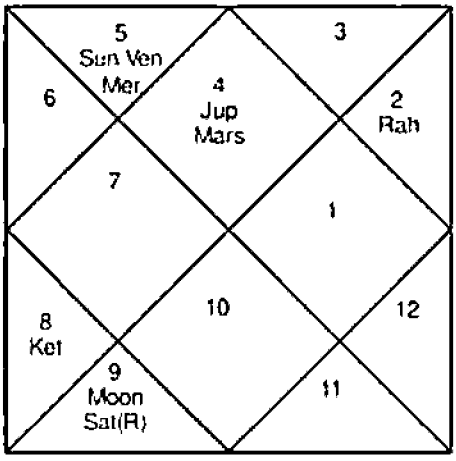

The Lagna of D3 chart is badly afflicted. It is aspected by Saturn and Mars. Venus is afflicted by Saturn. Third house contains Rahu.

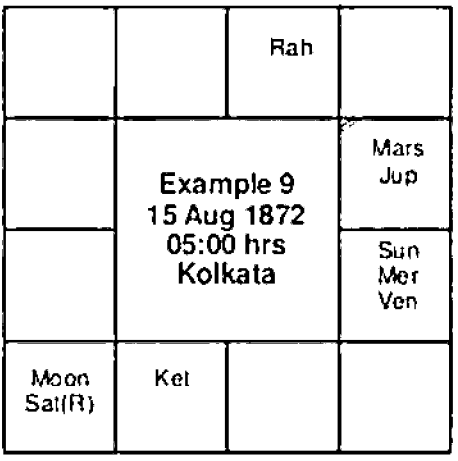

She was bom in Mahadasha of Sun. The Mars period started at the age of 15 years. Mars and Rahu are related to Lagna and third house. Both are in malefic Shastiamsha. Both the dasha periods saw the perverted acts.

Example 9

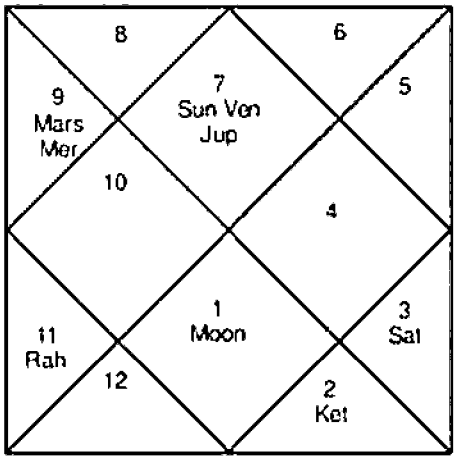

Jupiter is at exact degree conjunction with rising Lagna in birth chart. Jupiter is exalted and is praised as a good placement.

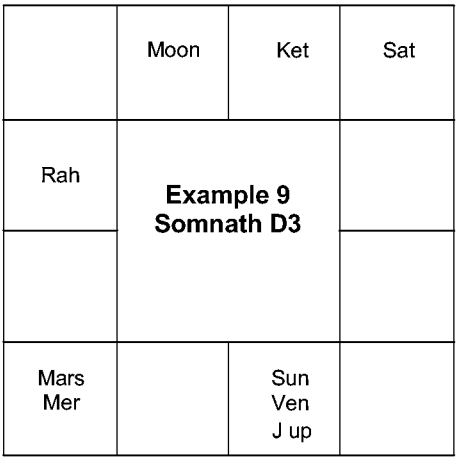

In Somnath drekkana, the Lagna is having two benefics Venus and Jupiter. Moon aspected Lagna. Sun may not be taken as malefic for this purpose. Venus is not afflicted.

Example 10

This chart is given for other extreme of sexual behaviour. This woman is not interested in sex. She was married. Husband had filed for divorce and got it on this ground.

The Lagna of drekkana chart is afflicted by Saturn and Mars. Venus is afflicted by Ketu. These combinations should give perversion. To decide the type of perversion we go to Shashtiamsha and dasha sequence. She was bom in Jupiter mahadasha placed in the Shastiamsha of Mercury. The next dasha of Saturn is also placed in Shastiamsha of Venus. The malific perversion is not present.

Cyclical of Parivrittitraya Drekkana

Starting from Aries, the drekkana occupied is cyclical and goes in the direct order of signs.

In this drekkana, the trines of Aries, Leo, and Sagittarius are not taken as the fifth or ninth from the sign. The first drekkana is always a movable sign. Each trine of natural zodiac have the same drekkana.

This drekkana gives the drekkana lord and not the sign occupied. We cannot draw this drekkana in the horoscope format. The relation of the planet is seen with its drekkana lord.

Chaturthamsha D4

The fourth divisional chart of a horoscope is called chaturthamsha or turyamsha or padamamsha.

Each sign is divided into four equal parts of 7° - 30' each. These parts occupy the angular (kendra) positions from the sign occupied by it in DI. Thus this chart is a kendra chart. The kendras are places of Vishnu. This chart therefore stands for happiness of all types. Parashara opines that the destiny is seen from turyamsha.

Parashari Chaturthamsha

The construction of this chart as per Parashari method is as under -

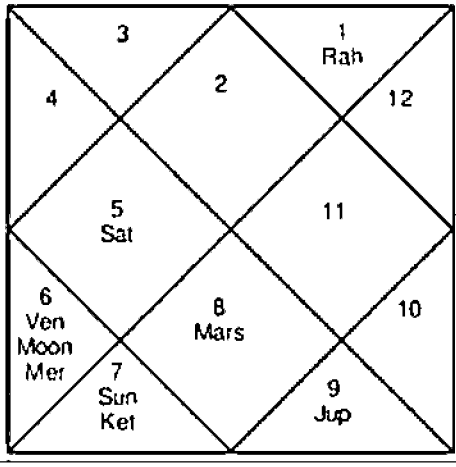

1. Any planet/lagna in first part of a sign (0° to 7°30') remains in the sign occupied by it in natal chart.
2. When a planet occupies second part (7°30' - 15°) of a sign, it moves to 4^{tr} sign from that occupied by it in natal chart.
3. Similarly when occupying third part (15° - 22°30') it moves to 7th sign from that occupied by it in natal.
4. Planet occupying fourth part (22°30' - 30°) moves to tenth house from that occupied by it in natal chart.

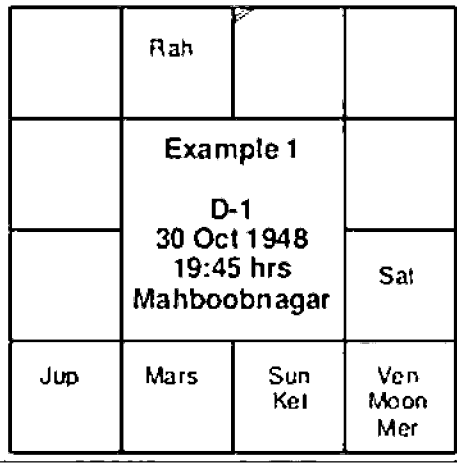

A ready table for finding the placement of a planet or Lagna in D4 is given -

D ieties of C haturthamsha

The four non planetary presiding lords of the four parts of chaturthamsa are Sanaka, Sananda, Sanata Kumar and Sanatana respectively for 1st, 2nd, 3rd, and 4~ chaturthamsha.

The lords of the chaturthamsha divisions are the sons of Brahma, the creator. Lord Brahma created life for enjoyment of Lord Vishnu, who wanted to be many. Therefore the four kendra positions are Vishnu places. How the happiness is acquired is governed by the lord of the chaturthamsha in whose domain the planet is positioned. General meaning of the names of the lord are given below. These are just one reference and the overall view of things depends on the complete horoscope.

1. Sanaka (I ud) (Eccentricity) - A literal translation means crazy or to take fancy of anything. A planet in Sanaka domain i.e. (0° to 7°30') gives a craze for acquiring happiness. It makes the person totally involved in pursuit of the desired goal with all concentration.

Indira Gandhi was bom in the mahadasha of Sun. Sun longitude is (4°7') and is placed in the first chaturthamsha governed by Sanaka. Her M oon is also in Sanaka division. She had strong determination for achieving her goals.

2. Sananda (l kXdi) - with pleasure - The person accepts happiness with pleasure. He is always in a state of happiness and is prosperous. Queen Victoria was bom in mahadasha of Moon and Moon is placed in 2nd chaturthamsha. She was always in state of happiness and accepted it. This also indicate that the person accepts the adversities with pleasure. D.V. Subharao was bom in Mahadasha of Rahu. Rahu occupy Sananda chaturthamsha. He accepted his problems of life and lived with them without complaint.

3. Sanat Kumar (l ur dqty) - Perpetually young - It means that there is perpetual happiness. Nobody can be young always. It may therefore mean that the person regains his youth again or he regains his happiness again. There has to be loss of happiness and then only one can regain it. This division can give loss of happiness. Acharya Rajneesh has Moon at22°19' and is in chaturthamsha of Sanat Kumar. He was born in mahadasha of Venus which is also placed in 3rd chaturthamsha. He lost his happiness and tried to regain it.

4. Sanatana (l uku) - Eternal - The happiness is permanent. There are not many changes. Whatever happiness is attained, it does not go down. The area of happiness is permanent and the native enjoys that throughout his life. Mulk Raj Anand was a writer and derived happiness from his passion. His Moon is 26°51' in Taurus and Mars is 27°56' in Libra. Gulshan Kumar has Moon at 28"53' in Virgo and M ars at 22°52'. Both M oon and birth mahadasha falls in 4th part in chaturthamsha.

This divisional chart is seen for wealth of all types, fate and destiny, happiness or unhappiness due to these wealth i.e. property, liquid wealth like gold, gems, change of residence, transfers, travel abroad, moving out of house after marriage, mother, mind, vehicles and vehicular accidents, village or place of living, throne, promotion. Each hose of D4 chart indicates -

1H - The use of wealth for enjoyment/sufferings and fulfilment of desires through wealth accumulation for happiness.

2H - Capacity to accumulate happiness from possessions. Habits acquired from the wealth.

3H - Risks taken for earning happiness. Courage to retain the happiness. Change in residence.

4H - Fixed and liquid assets. Ihe sense of happiness and contentment.

5H - Poorva Punya in regard to happiness and fate. Long lasting assets.

6H - Losses due to enemy. Division of wealth.

7H - Acceptance of our wealth and happiness by public i.e. the outward image in regard to your wealth.

8H - Losses of permanent nature. M ercury is considered good in 8th house.

9H - Religion with the help of wealth and for happiness i.e. donations, charity done for the religion.

10H - Actions or karma related to wealth. Afflicted tenth house gives losses through own actions.

11H - Gains of wealth by goodwill. Easy assets.

12H - Wasteful expenditure, end of happiness, expenditure done to satisfy lust. Twelfth lord in 4th house then lives in someone else house.

Examination of D4

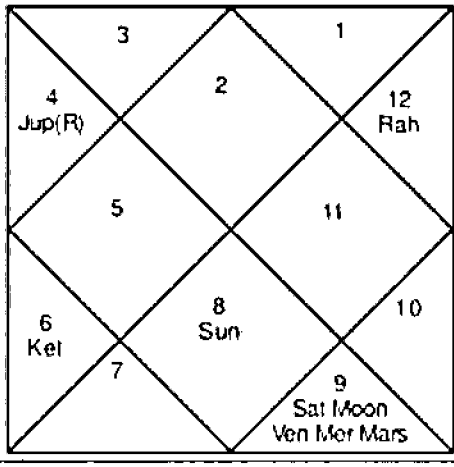

1. Jupiter is the significator of happiness and is examined in D4 for its status, placement etc. Jupiter in 6,8,12 houses gives despair for wealth. Mars is the significator built-up properties. Venus is for Luxuries and vehicles, Moon for mental happiness and mother, Mercury for education, Saturn for friends and masses, change of residence after mamage for girls.
2. See the relation of second lord, eleventh lord of DI chart with Jupiter in D4 chart. A good relation assures happiness.
3. Formation of Dhana yoga in D4 assures wealth and happiness.
4. Presence of Rajyoga gives enjoyment of wealth.
5. M ars is the significator of fixed assets. Strong M ars is a must for owing land/buildings. Mars in 10" house of D4 is best placement for granting fixed assets.
6. Tenth lord of DI chart, if related to Lagna or Lagna lord of D4 then lot of income from properties is assured.
7. Ketu in 4" house or related to 4r house gives loss of assets due to natural calamity.
8. Transfers or movement away from home, happens when 3rd, 9"' and 12' houses are involved. Home posting is indicated by the relation of2r<! and IItr house with Lagna, 4th house or 8" house. The running dasha holds the clue. The dasha period should relate to these houses in DI and D4 charts.

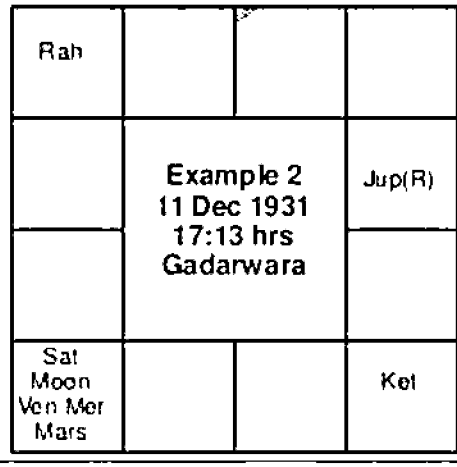

9. If a movable sign falls in 4tr house and the fourth lord is also in movable sign then there is no permanent residence and person is always on move. A fixed sign gives permanent home.
10. Lagna lord of D4 if occupy a benefic shastiamsha it gives permanent good house. If in malefic shastiamsha then gives temporary house.
11. Aspect of Jupiter on LagnaofD4isa promise of happiness. If this Jupiter is also a trine lord then happiness is assured. Even when Jupiter is kendra lord, we can predict happiness of material things.
12. If 12th lord occupies 4th house, the person lives in someone else house.
13. Chaturthamsha is seen for mother also. The mutual love and affection of mother is present when Lagna lord and fourth lord are mutually well placed. When fourth lord is in eighth from Lagna or in trik houses from Lagna lord then there is enemity between them.
14. Fourth house stand for character of a person. Moon is the karaka of mind. If Moon is afflicted then the person is deceitful. Rahu in Lagna or fourth house makes a person look innocent but he is full of deceit.
15. Comforts of life are the domain of Jupiter. When Jupiter is weak, there are malefic in fourth house, fourth lord weak and have malefic association then the life is uncomfortable.
16. Fourth lord in upachaya houses gives many properties.
17. Fourth lord is badly placed in trik house, is debilitated or is in inimical sign and is in malefic shashtiamsha then there is loss of property. With the involvement of tenth house and Sun or Mars then the loss is due to Government orders.
18. Sale of property - Fourth lord is with a malefic and placed in second house and is strong.
19. Discontinuation of family - when malefics are placed in Lagna, Moon in fourth house and malefics in eleventh house.
20. Happiness is not only property. One can get happiness from other sources also. For example the source of happiness by Sun is from father or Government.

Example 2

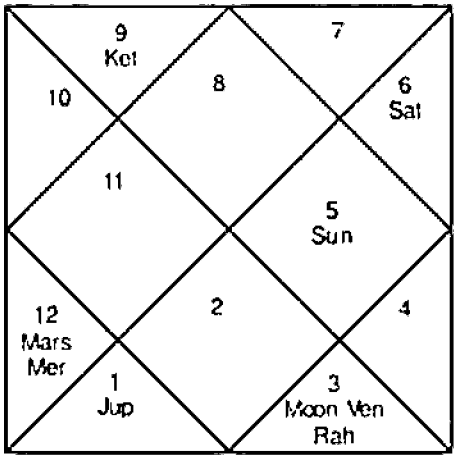

Lagna of D4 is not occupied by any planet. Ihe fourth lord Saturn aspects Lagna.

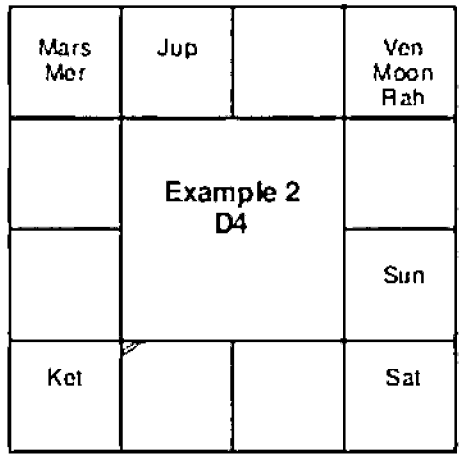

Moon is in third chaturthamsha ruled by Sanat Kumar, there is

mental strength to get happiness even after losing it. The birth mahadasha is Venus. Venus is again in 3° chaturthamsha. The ups and down in regard to happiness, from assests, are to be experienced.

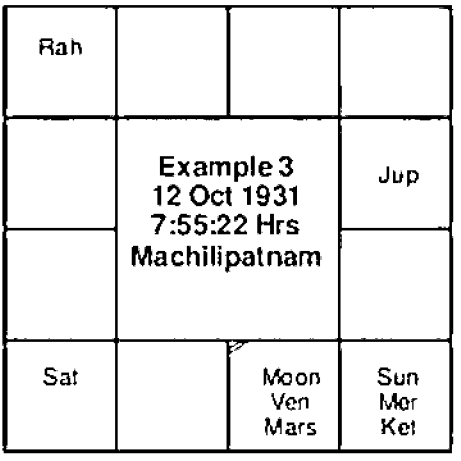

Eleventh house is aspected by its lord Mercury and the Lagna lord Mars. The second house is aspected by its lord Jupiter causing strong Dhana yoga. The occupation of 11th house, as 4th lord, by Saturn and second house by Ketu is not good and causes loss of properties.

A good rajyoga is formed by 9th lord, 7th lord and Lagna lord but in 8th house. The means of acquiring wealth may not be in keeping with good practices. Jupiter is the 2"3 lord and have moved to sixth house of enemies, the accumulation moves to enemy. It may be a portion of total accumulation sincejupiter is fifth lord also.

The Lagna of D4 is occupied by ninth lord Jupiter and is aspected by Venus and Moon. The Lagna is strong and the happiness is through good sources namely Jupiter. Happiness granted by Jupiter is spiritual.

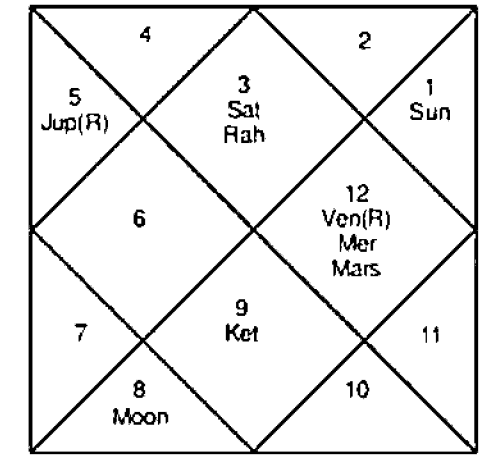

Moon is in the first D4 ruled by Sanak and this happiness is achieved with all determination. The birth mahadasha lord Mars is in Sanatana D4 and the flow of happiness is eternal.

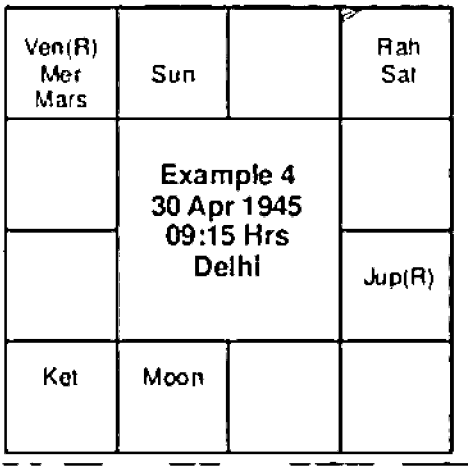

Mars is debilitated in 4" house and gives no permanent residence or fixed assets. Also a movable sign falls in 4^{r} house and the 4th lord is in movable sign. The person is always on the move.

Jupiter in mutual aspect with Moon and Venus is a rajyoga and the quality of happiness is of superior order. It is also forming a dhana yoga giving abundance of happiness.

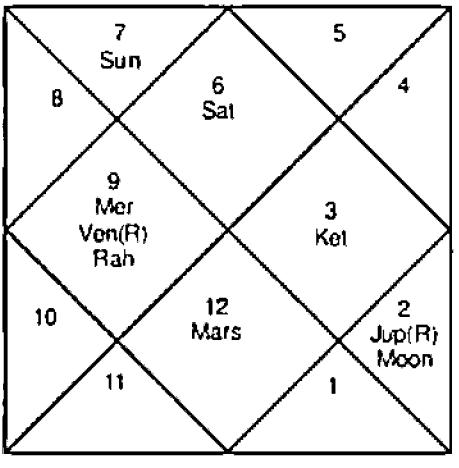

Example 4

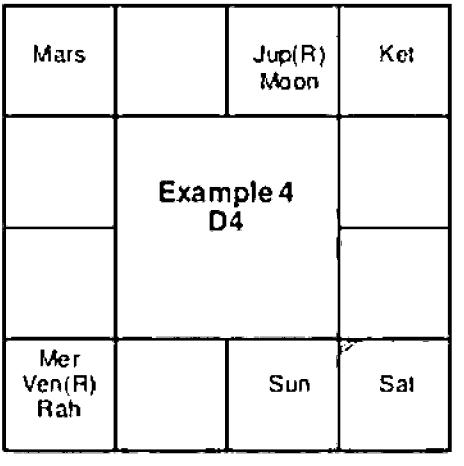

The owner of this chart possessed at least 12 properties although born in a lower middle class family.

Lag	Sun	Moon	Mars	Mer	Jup	Ven	Sat	Rah
11°22'	16°20'	16°25'	04°50'	24°07'	24°45'	25°01'	13°23'	17°45'

Lagna of D4 chart is occupied by Saturn and is aspected by Jupiter and Mars. Jupiter is Lord of 4th and 7th house. Mars is eighth lord and gives problems in happiness. The aspect of Jupiter promise happiness or happy feeling always.

M oon is the third chaturthamsha governed by Sanat Kumar. The happiness is regained after loss also. The birth mahadasha is of Saturn who is in 2nd chaturthamsha ruled by Sananda i.e. happiness with pleasure.

Since Lagna is strong happiness is assured. There are many source of happiness signified by Mars, Saturn and Jupiter. Lord of Lagna is in 4th house and is w ith ninth lord Venus. There is exchange of

4®' and 9th lord causing raj yoga.Ninth and tenth lords are conjoined. Eleventh lord is exalted in 9tr giving rise to dhana yoga. Debilitated 12th lord Sun is in 2nd house showing loss in accumulation. This shows gains of properties and again selling it off. The person have purchased 12 properties and disposed off nine of them.

The mahadasha of Venus, Sun, Moon and Mars have given him properties and conveyance etc.

Cyclical Chaturthamsha

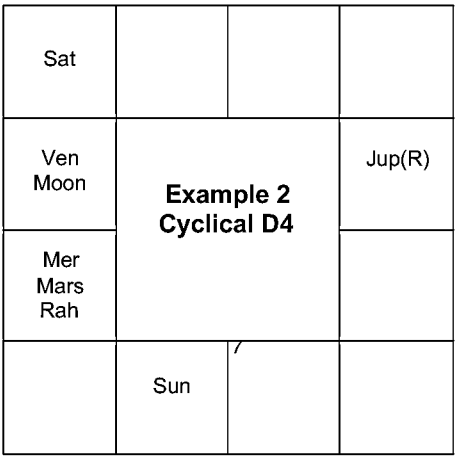

Some scholars advocate use of regular or cyclical chaturthamsha. The first chaturthamsha starts from Aries and is followed in a cyclical order. The first chaturthamsha of movable signs starts from Aries, for fixed signs it starts from Leo and for dual signs it starts from Sagittarius.

Let us illustrate this casting for the example chart 2 of this chapter.

Example 2

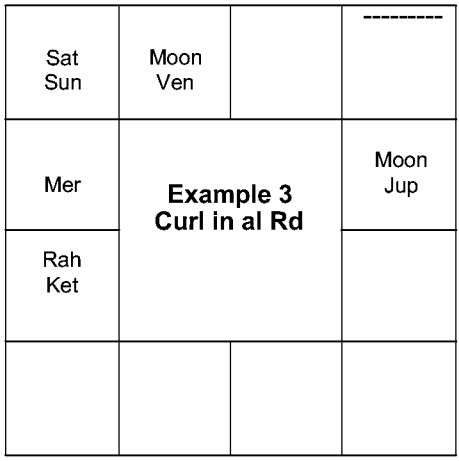

Lagna is Taurus 22°16'. Referring to table of cyclical chaturthamsha, the third chaturthamsha falls in Libra. The complete D4 chart is as under.

In cyclical D4, Lagna is not occupied oraspected by any planet. The Lagna lord Venus is in 5r house in the sign of friend. The Lagna is

strong. Fourth house contains exalted Mars and the 9* and 12th lord Mercury along with Rahu and Ketu and aspected by Jupiter. There is promise of good properties. The twelfth lord occupies 4th house, so will live in some one elses house. Aspect of 6r lord Jupiter can give problems in regard to properties i.e. litigations and trouble by enemies. The assests are created by spiritual means.

Example 3

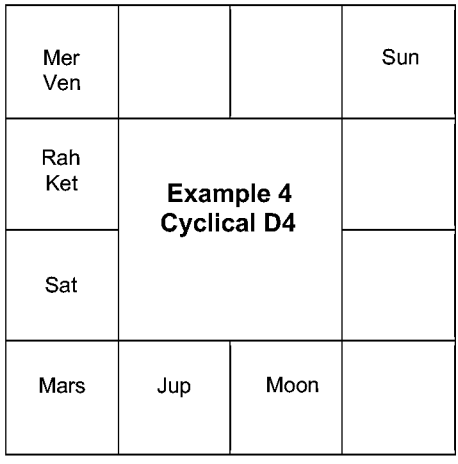

The Lagna of D4 is neither occupied nor aspected by any planet. Lagna lord is in 9th house and is in papakartari. M ercury is also 4-b lord. Besides being in papakartari, it is aspected by debilitated Mars. Not much property is seen.

Jupiter is exalted and the strongest planet. The source of contentment and happiness is Jupiter.

Example 4

Here the Lagna is occupied by its own lord making it strong. But

the Lagna is in papakartari yoga which do not allow the person to enjoy it as he feels constrained.

The lord of A"[1] house, Mars have moved to twelfth house indicating loss of property also.

Mercury and Venus are forming a rajyoga and are aspected by Saturn (Lagna lord) and Mars (fourth lord). They are also forming partial dhana yoga promising acquisition of many properties but not much permanent retention due to Mars in 12th.

Parashari and Cyclical Chaturthamsha

In our opinion, the Parashari D4 gives the over all view of the mental attitude and source of happiness. The cyclical D4 shows the materialistic happiness.

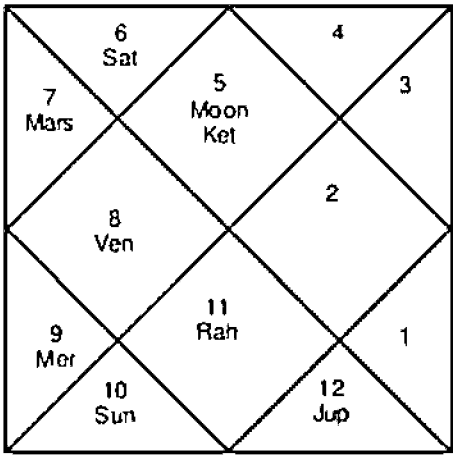

Settlement Abroad

Chaturthamsha is the chart studied for the significations of fourth house. The fourth house rules over residence and home.

1. When fourth house of chaturthamsha is afflicted, the person leaves his place of birth and settles in another city.
2. Eleventh house is eighth from fourth. The first condition is that the eleventh lord afflictes 4tr house/or lord in D4.
3. The second condition is the relation of 9*" and 12th lord of chaturthamsha with Lagna/Lagna lord and /or 4th house/lord.
4. Ninth lord is placed in trik houses. Its placement in eighth house is almost certain to give displacement from home. Placement in sixth or twelfth mostly indicate the change of residence within the country or nearby countries.
5. Ninth house and ninth lord is afflicted.
6. Fourth lord is afflicted or ill placed.

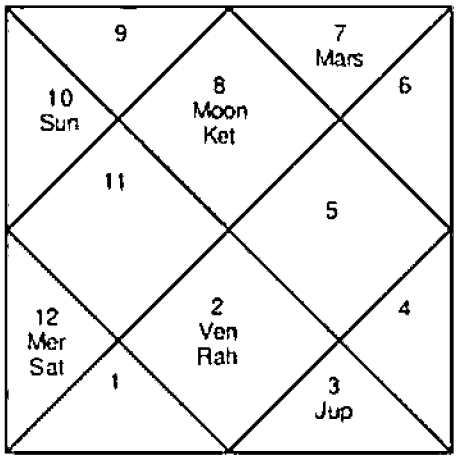

Example 5

Migrated to USA in mahadasha of Moon. Eleventh lord is connected with fourth lord. Lagna lord is placed in 12r. Lagna is in Rahu/Ketu axis and aspected by twelfth lord Venus. Ninth lord is afflicted and is in mutual aspect of twelfth lord.

Saptamsha D7

Saptamsha is the seventh division of the horoscope. It highlights the fifth house affairs of the horoscope. It underlines the affairs of seventh house and the marital activity which results in procreation.

The saptamsha chart is seen for Poomata (complete fulfilment), luck factor from past life (Poorvajanam Punya) and its impact on the present life, children and grand children, Mantra Siddhi, speculation, students and disciples, prosperity of spouse, creativity and the realisation of results.

Each Sign is divided into seven equal parts called saptamsha division. Each saptamsha division measures 4^{3}17'8.57"(4 degrees, 17 minutes 8.57 seconds)

Parashara Saptamsha

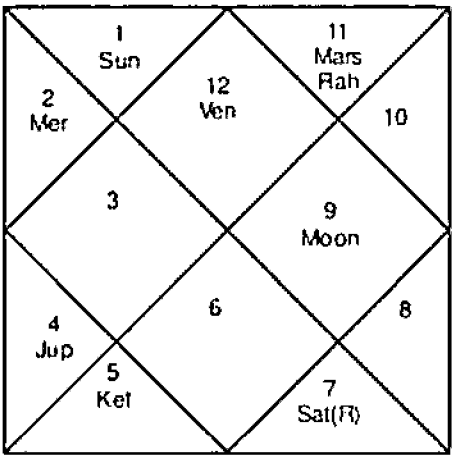

For a planet placed in odd sign in the birth chart, the first saptamsha remains in the same sign. The next saptamsha goes to the next sign in direct order in D7 chart. For an even sign the planet placed in first saptamsha goes to the 7th sign from the sign occupied by it in DI. The second saptamsha goes to the next sign to 7" and so on. This method of casting D7 chart is followed commonly. This is a cyclical chart.

Example 1

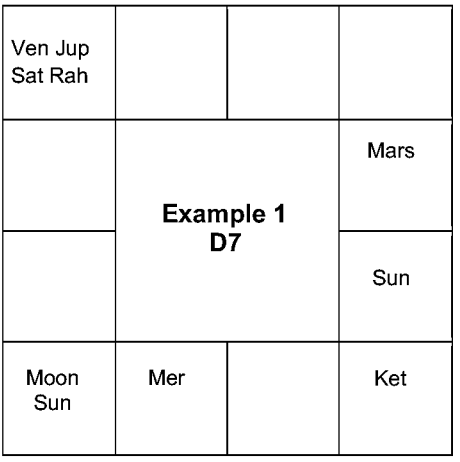

The saptamsha chart is erected for the example chart given here. The Lagna is 4-07' and is an even sign Pisces. It is in first saptamsha and goes to Virgo in D7. Sun is 18°13' in Aries, an odd sign, and in fifth saptamsha. Counting from sign itself, Sun moves to fifth sign i.e. Leo in D7. The placement for other planets is worked in same way and

the saptamsha chart is casted in same way.

Each of the seven saptamsha of a sign is identified with a codal name. These codal names are the state of the present life which we have developed through our many past lives. This indicates the gradual emancipation of soul from mundane to spiritual.

The codal names and their meanings are -

1. Kshar ({Up - A type of salt. Experience of the sturdy, harsh and difficult path of life.
2. Kshira {{kji) - Milk. Gets happiness through worship, singing praises of Lord.
3. Dadhi (nf/) - Coagulated milk. Steadiness in the path of realisation (sadhna) or attempts to realise.
4. Ajyam (vftje) - Clarified butter. Fruitful stage of sadhna, attainment of quietude.
5. Ikshu (b{H4- Sugarcane. Enjoyment of bliss.
6. Madhya (e|)- Wine or intoxicating drink. Bliss increases and enjoys as an intoxicated person.
7. Suddha Jal (' Ity ty) - Pure Water. The ever blissful stage is revealed.

The first saptamsha of any odd sign is Kshar. For even sign the order is reversed.

Saptamsha allocations		
Sapta msha	**Odd Sign**	**Even Sign**
First	Kshar	Suddha jal
Second	Kshira	Dadhya
Third	Dadhi	Ikshu
Fourth	Ajyam	Ajyam
Fifth	Ikshu	Dadhi
Sixth	Madhya	Kshira
Seventh	Suddha jal	Kshar

Let us see the example chart 1 of this chapter.

Lagna is even sign and is in first Saptamsha which is Suddha jal. Lagna lord Jupiter occupies Ikshu saptamsha. Moon is in Kshar saptamsha. Sun occupy the Ikshu saptamsha. The body and soul are in high state of spiritual bliss but the mind experiences the harsh facts of mundane world.

Examinations of Saptamsha -

1. A strong lagna of D7 assures birth of children.
2. Lord of lagna of the birth chart should not be placed in 6,8,12 of saptamsha. If so, it shows no good relation with your own children. A san example if Lagna lord of birth chart is in 8th house of D7, it generally show a uncordial relation with progeny.
3. In saptamsha fifth house shows first child, seventh house is second child and so on. This rule can be used to see the relation with a particular child of yours. It is also used for determination of sex and all things about a particular child.
4. Genetic link between parents and children. The DNA test is done astro logic ally on the horoscopes of parents and the child. This method is taken from the book "Planets and Children" by Sh. K.N. Rao. It says that the Mars and the Moon of child must establish a relation with 5th house/lord or house/lord of the parents.
5. Children from second marriage are seen from seventh house.
6. Saptamsha chart shows the future lineage i.e. children and grand children. Dwadamsha chart is the past lineage i.e. parents and grand parents. This chart therefore shows the continuation of the family or the end of it.
7. The eighth house of D7 is the indicator of karmas of past life which prevents the birth of progeny. The fifth house of birth chart shows the curses and the causes of denial of children. These curses are given by Parashara as the curse of father, mother, sarpa etc. These are given in the book 'Planets and Children" by Sh. K.N. Rao.
8. Rajyoga present in saptamsha gives highly placed children or the person is very intelligent.
9. Dhana yoga indicate many children.
10. Ninth lord when related to eighth house gives children by adoption.
11. Some combinations of saptamsha chart are given in Mansagri and are reproduced here for the benefit of readers.

a. When the lagna lord of saptamsha is conjoined oraspected by Moon or other benefic planets, then the person has real brother and will be energetic, have fame, many friends but will be restless.

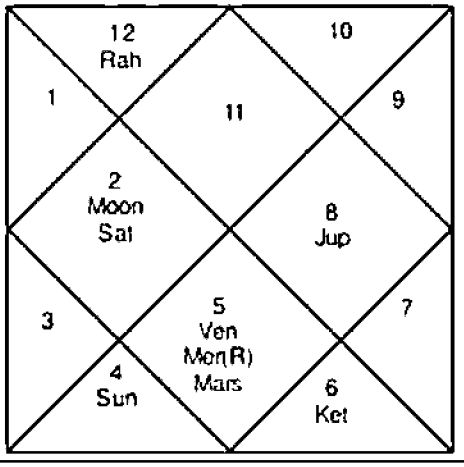

b. The strongest planet among the debilitated planets in saptamsha (except Sun) will be the significator of brothers.

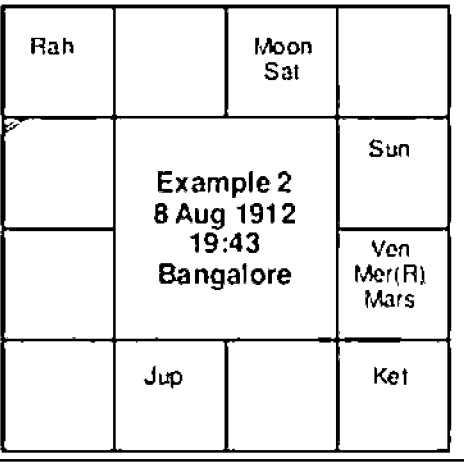

c. When Sun, Jupiter or Mars is placed in third house, the person will enjoy pleasure of wealth and a son will be bom after the death of his father. If Venus, M oon or M ercury is in third house, then a daughter is born after the death of his father.

d. When all planets are exalted in saptamsha, the person is very rich and if all are debilitated then very poor.

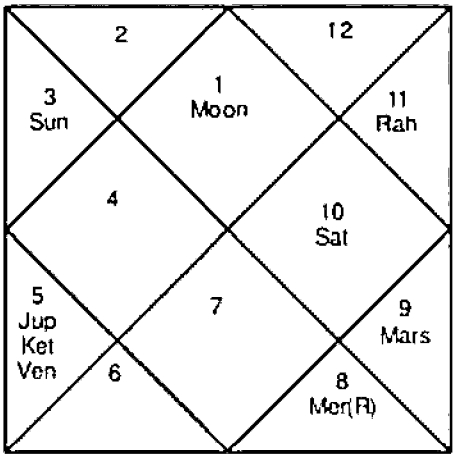

Example 2 - many children

Dr. B.V. Raman was blessed with nine children. The saptamsha

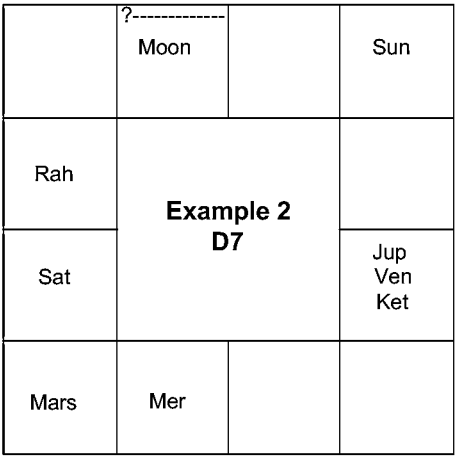

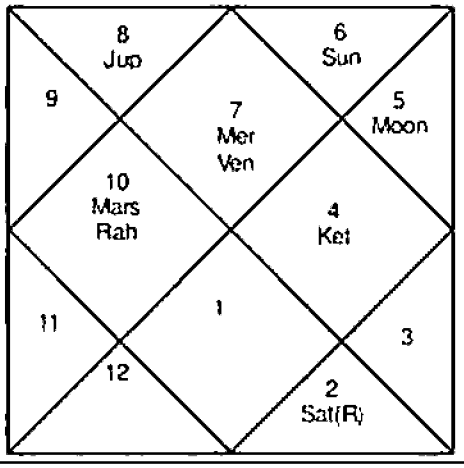

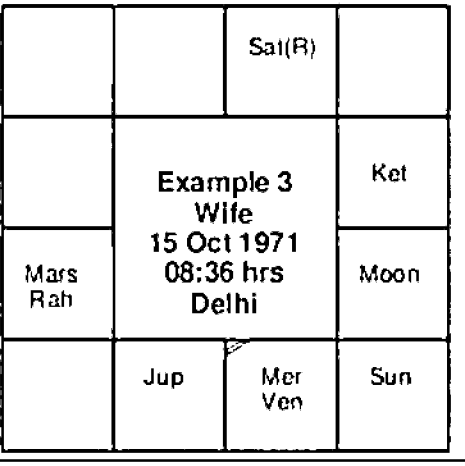

chart is seen for all aspects about children. A dhana yoga in D7 promises abundance of wealth ofsaptamsha. Lord of second house is with ninth lord and aspects eleventh house. The eleventh lord Saturn is in Kendra in its own sign and causes Sasha yoga.

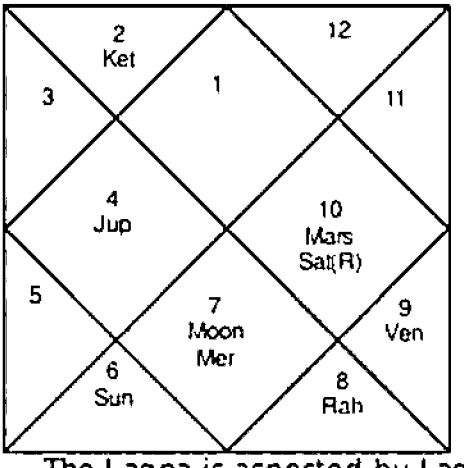

The placement of Ketu in fifth house gave sorrow due to premature death of eldest son.

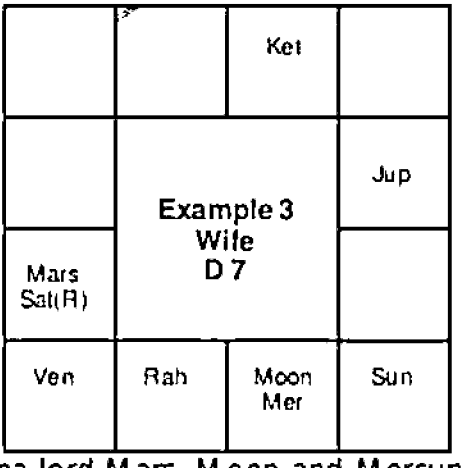

Example 3 - Adoption (Wife)

The Lagna is aspected by Lagna lord Mars, Moon and Mercury. Mars is afflicted by Saturn. Jupiter aspects the Lagna lord and give hope of getting progeny. Two malifics are forming papa kartari on 7th house.

Fifth house is aspected by eighth lord Mars, fifth lord have moved to sixth house without any benefic relation. Bad fifth hosue do

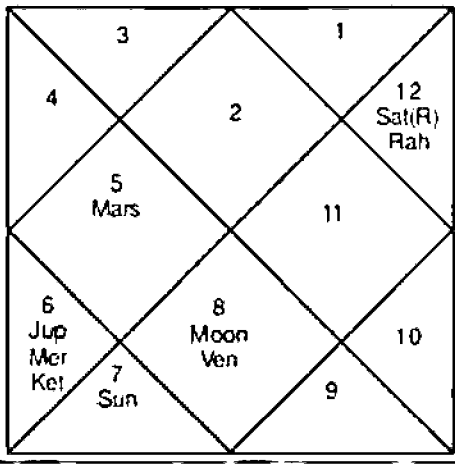

not promise own child but strong Lagna indicate children.

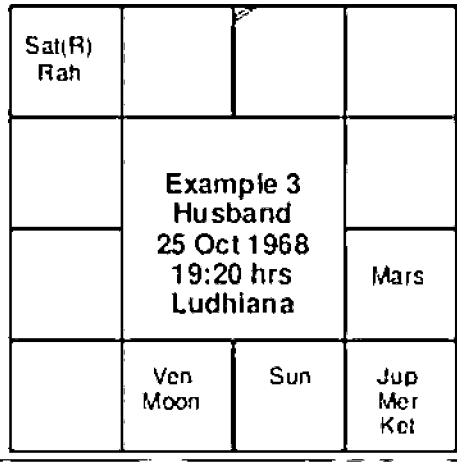

Wife is having dasha of Mars, who is Lagna lord and can give child. Lords of 9th and 8th house are in mutual aspect, which is a combination of adoption. She adopted a child in 2009.

Example 3 - Adoption (Husband)

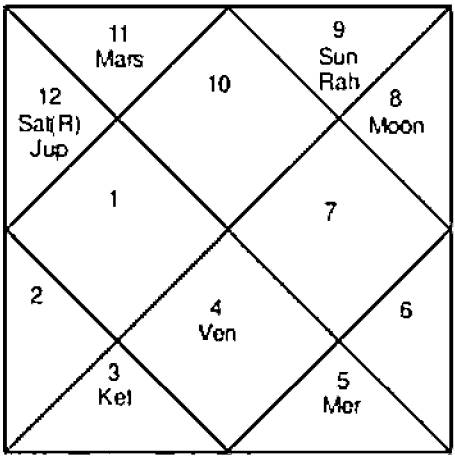

We examine the saptamsha chart of the husband. Lagna contain no planet and is in papakartari. Venus aspect the Lagna and is the hope of getting a child.

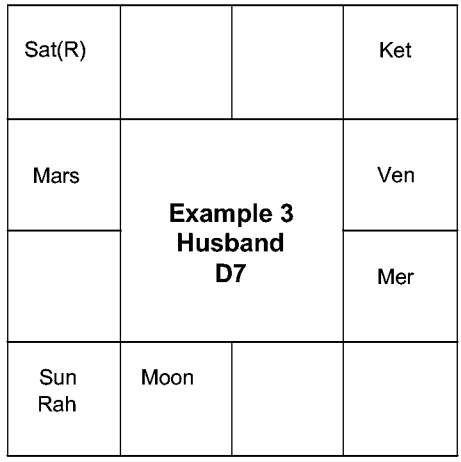

The fifth house is aspected by retrograde Saturn and M ars. M oon is the seventh lord and also aspects fifth house. Looking into ninth house, the story is same. It is aspected by Saturn, Mars and Jupiter. Ninth lord is in eighth house aspected by Mars. He was advised to adopt a child. Both husband and wife have combination of adoption of child.

Example 4- Deformed child

Boy was bom with physical problems and is a source of anxiety to the parents.

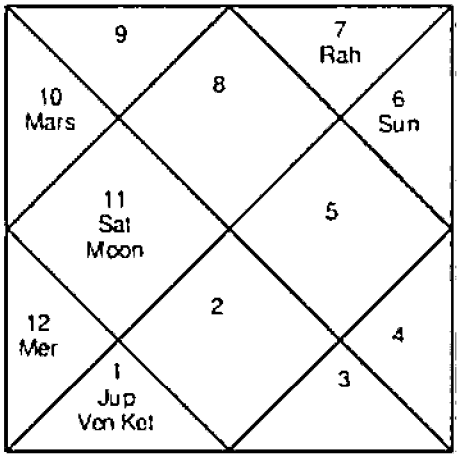

In saptamsha chart, M ars is the Lagna lord and is exalted. Lagna is aspected by Saturn and there is no benefic aspect. There is promise of progeny but with delay and problem.

Now we see the fifth house. Mercury is lord of eighth house and is placed in fifth house. Jupiter is the fifth lord and occupy sixth house with Ketu. It is aspected by Mars and Saturn. All these malefic relations in sixth house have given a sick child.

Fifth house is aspected by Saturn who is sixth lord. The fifth lord Jupiter is in twelfth from 5th house. Ninth house is afflicted by Rahu. The twelfth lord Moon joins it and is aspected by Saturn. Both ninth house and lords have malefic associations. Since lagna is promising and the fifth/ninth house is not promising, the result is adoption.

Example 6

Very powerful Rajyogas are present giving here very famous children or disciples.

Sex of Children

Many astrological methods of judging the sex of the child and the number of children and available. Some claim a success rate of 80% which is excellent. These methods generally fail to give number and sex of children.

The method of judging the sex of children have been researched by the author. It has given good results so far.

Sex and numbers cannot be seen only from saptamsha of a person. Ihe role of spouse has to come into play. This method therefore involves linking of birth chart, navamsha and the saptamsha. The details are not revealed here since the method can be misused.

Beeja Sphuta and Kshetra Sphuta

Beeja Sphuta (BS) and Kshetra Sphuta (KS) are mathematically derived points for a horoscope. BS is worked out for a male horoscope and KS for a female horoscope. This point indicates the capability to produce a child and the worthiness of children.

Beeja sphuta is the sum of the longitude of Jupiter, Venus and Sun. The longitudes are taken from first point of Aries. The BS should be in a odd sign in rashi chart, navamsha and saptamsha charts to promise progeny. We examine the BS and its lord in all three charts.

Kshetra sphuta is the sum of the long itudes of Jupiter, M ars and Moon in female chart. The KS and its lord should occupy even sign in Rashi chart, navamsha and saptamsha chart.

The lagna lord, fifth lord of birth chart and Jupiter are seen in the saptamsha for their placement, conjunction and aspect received by them.

The lord of BS or KS in saptamsha chart is seen for luxuries. It should have good relation with Lagna lord and fifth lord of birth chart in saptamsha and well placed in D7 to grant a luxurious life.

If it is in 6,8,12 from birth Lagna lord it gives physical problems, when it is in 6,8,12 from fifth lord of birth chart then problems due to poorva punya.

The placement of BS or KS is checked in drekkana also to see the capability of getting progeny.

Jataka desmarga gives another method of working out BS and KS. The method is now explained.

Divide the expired portion of star occupied by Jupiter in ghatis and vighatis by 5. The resultant gives the longitude of Jupiter for this purpose. Similarly workout the longitude for Sun and Venus. Add the resultant figures to get beeja sphuta.

In the similar way workout kshetra sphuta from the star occupied by Jupiter, M ars and M oon.

A simplified version of this method is now given. Each star is of 13°20' and the rule implies that each star is equal to 12 signs. Therefore 1 degree 6 minutes 40 seconds of longitude is equal to one sign. Each division of r6'40"is equal to 30 degrees of the sign and we can work out the degrees from the incremental part over the expired star longitude. A ready table given.

As an example, let us take longitude of Jupiter as 24-25'. The star occupied is Bharani which commences from 13°20'. Jupiter has moved 11°5' in Bharani (24°25'-13°20'). It occupies Capricorn as nine parts are completed. The longitude is worked out with the help

of table given.

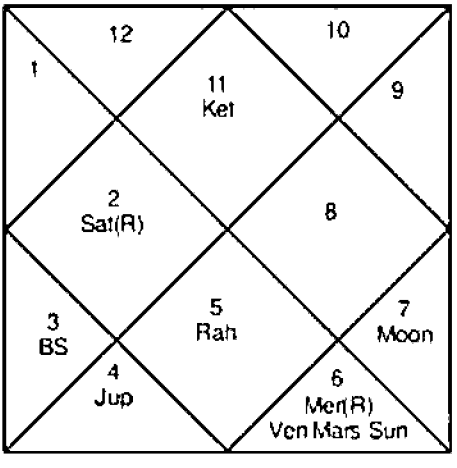

Table for sign in division of star

Now for degrees of Jupiter in Capricorn, we note the start of Capricorn or end of ninth part i.e. $10^{3}0'0"$. The travel in this part is 1°5'. Converting it into second we get 3900 seconds. Each full part signifying a sign is $l^{3}6'40"$ or 4000 second. The degrees of Jupiter is (30 X 3900)/ 4000 =$29^{3}15'$.

In birth chart BS is in Gemini. In navamsha it is in Sagittarius, in Saptamsha it is in Leo and in drekkana it is in Gemini.

In all three vargas i.e. DI, D7 and D9 BS is in odd sign promising progeny. The lord of BS in all these charts is well placed.

The placement of BS in a kendra in saptamsha and the conjunction of lord of BS w ith BS assures luxuries and comforts in life. From lord of Lagna it is in sixth house and indicating physical problems.

2nd Method (Jataka Deshmarg)

We have to first work out the longitude of Jupiter, Sun and Venus in the star occupied by each.

Navamsha D9

N avamsha is the ninth division of a sign. Each navamsha division measures 3° - 20' which is also the one fourth part of a nakshatra called pada or charan. There are 108 navamsha in total. It is also known as Dharmamsha. It is an important divisional chart.

Parashari Navamsha

Parashari navamsha is cyclical. We have four methods of casting this chart.

First Method

The counting of navamsha starts from the movable sign of the triad in which the planet is placed in the birth chart. There are four triads namely: fiery, earthy, airy and watery. Each next navamsha occupy next sign in direct order.

First Method		
Triad	**Signs**	**Sequence of Navamsha**
Fiery	Ari. Leo. Sag	Ari. Tau. Gem. Can. Leo. Vir. Lib. Sco. Sag
Earthy	Tau. Vir. Cap	Cap. Aqu. Pis. Ari. Tau. Gem. Can. Leo. Vir
Ariy	Gem. Lib. Aqu	Lib. Sco. Sag. Cap. Aqu. Pis. Ari. Tau. Gem
Watery	Can. Sco. Pis	Can. Leo. Vir. Lib. Sco. Sag. Cap. Aqu. Pis

Second Method

For movable signs, the first navamsha occupy the sign itself. For fixed signs, the first navamsha occupy the ninth sign from itself. For dual signs, the first navamsha occupy the fifth sign from itself. The other navamsha follows in direct order.

Third Method

Multiply the longitude of the planet (including sign) by nine. Expunge multiples of 12 signs. The resultant is the longitude of the planet in navamsha.

Fourth Method

Multiply the the number of completed signs by 9. Add the number of navamsha occupied in the sign. Expunge multiples of twelve from the sum. The reminder will be the sign occupied in navamsha.

Pushkar Navamsha

Pushkar navamshas are twenty four. Each sign has two pushkar navamsha and are the special areas of a sign. Any planet placed in this area gets its qualities enhanced and acquire the potential to give good results of its significations. These are the benefic navamsha and are lorded by the benefics in navamsha. Any planet occupying this navamsha goes to the signs of four benefics Jupiter, Venus, Mercury and Moon. Jupiter and Venus have nine each. Moon and Mercury have three each of the 24 pushkar navamsha. No pushkar navamshas falls in the sign of Sun, Mars and Saturn in D9.

Nakshatra of Jupiter and Sun contain six Pushkar navamsha each out of total twelve navamsha. Nakshatra of Venus, Moon, Rahu and Saturn contribute three Pushkar navamsha each. The nakshatra of Ketu, Mercury and M ars do not contain any Pushkar navamsha. Only three navamsha are vargottam and pushkar at the same time. These are fifth in Taurus, first in Cancer and ninth in Sagittarius.

Placement in pushkar navamsha enhances the significations of the planet. For example Jupiter is the significator of wealth. When Jupiter is in pushkar navamsha and the sign occupied by Jupiter in navamsha falls in Kendra ortrikona of the birth chart then the person is very wealthy and lucky. In case this sign is in sixth, eighth or twelfth, then along with wealth, it gives disease, bereavement or separation. (Chandra kala nadi).

Thus the planet acquires the goodness and acts through the house occupied by its navamsha in the birth chart.

Planets in pushkar navamsha are benefic and produce favourable results in Muhurat, Horary also.

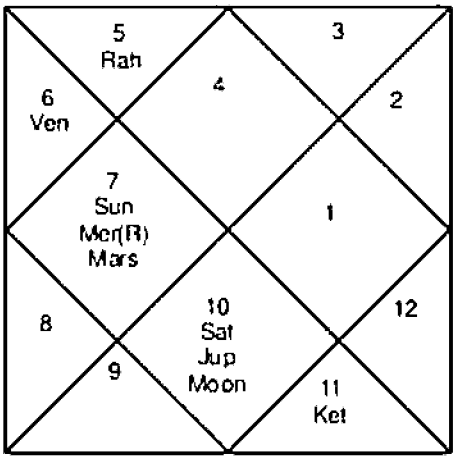

Navamsha in Nadi Astrology

Nadi astrology gives some methods for analysing the placement of a planet in navamsha. These rules are of immense value and helps in the predictive astrology.

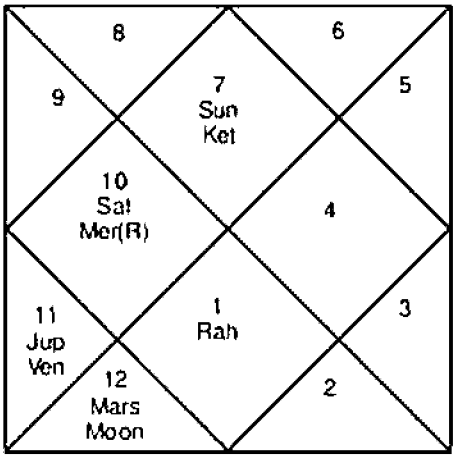

Method 1

Note the sign occupied by a planet in the navamsha chart. Also note the house which is occupied by that sign in the birth chart. This placement from the Lagna of birth chart is given a nomenclature based on the house occupied.

House	Special Nomenclature
I[11] house	Lagnamsha
2',d house	Vittamshaor Dhanamsha
3,d house	Vikramsha
4*' house	Sukhamsha
5" house	Putramsha
6* house	Shastamsha
7*' house	Bharyamsha
8"' house	Nidhanamsha or Randhramsha
9fl house	Bhagyamsha
10r' house	Karmamsha
11*' house	Labhamsha
12*' house	Vyamsha

Let us assume that Jupiter occupy Leo in birth chart with Gemini Lagna. Jupiter is in 2nd navamsha i.e. the navamsha placement of Jupiter is Taurus which is twelfth house for Gemini. Thus Jupiter is in the navamsha of twelfth house and is placed in Vyamsha. The special nomenclature given for placement of a planet in the houses of birth chart example 1 are given.

Example 1

The placement of planets in example chart 1 are as under -

Lagna - Sukhamsha
Sun - Sukhamsha
M oon - Bhagyamsha
M ars - Bhagyamsha
M ercury - Bharyamsha
Jupiter - Nidhanamsha
Venus - Nidhanamsha
Saturn - Bharyamsha
Rahu - Karmamsha
Ketu - Sukhamsha

Jupiter and Venus are placed in nidhanamsha. Both Venus and Jupiter are debilitated in birth chart. The events given by their significations are not happy one. In Jupiter mahadasha, he suffered monetary losses due to divorce case filed by his wife.

Placement of lord of any house of birth chart in Nidhanamsha is not welcome and it spoils the house in question.

Jatakdeshmarg contains a verse which means "when the lord of Lagna is placed in the navamsha in a sign which is eighth house in birth chart, the person dies of starvation or on the bare ground with no blood relative by his side." This applies fully on the chart of Indira Gandhi and M ahatma Gandhi.

Another verse says "If the lord of seventh house occupy the navamsha sign of the second house of birth chart, the spouse will be of loose character." Second house is eighth from seventh.

Generally lord of any house placed in Shastamsha, Nidhanamsha or Vyamsha is considered bad for that house.

Method 2

Treat the sign occupied by a planet in the birth chart as Lagna sign for that planet. Note the sign occupied by the planet in navamsha. Find out the house indicated by navamsha sign as counted from the Lagna sign of that planet.

For example Jupiter is in Leo and occupies Taurus in navamsha. Thus Jupiter is in tenth house from Leo and indicates the effects of tenth house. Jupiter aspects second, fourth and sixth house and influence the results of these houses. Any planet which goes to eighth sign in navamsha from the sign occupied by it in birth chart is in Astamsha position.

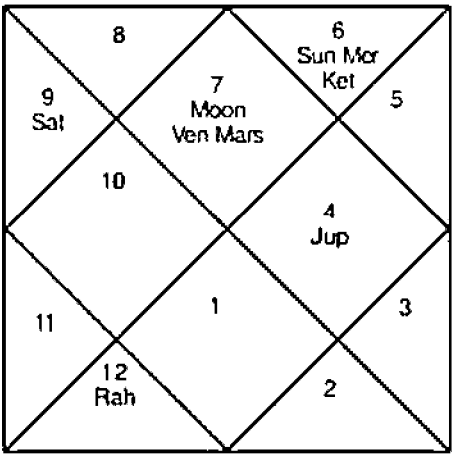

Any planet which occupy the same sign in navamsha as occupied by it in birth chart is called Vargottam. It is equal to its placement in Lagna and is therefore considered strong. Also the placement in the navamsha in Kendra and Trikona from the sign occupied in birth chart is auspicious and is a strong placement.

In addition to this if the sign of navamsha is again in Kendra or Trikona from birth Lagna sig n also, Then planet is very well placed and confers excellent results. From this discussion we can infer that placement in Tnk houses from both Lagnas w ill weaken the planet and it will give adverse results. These placements are modified by association and aspect of other planets.

We will discuss the application of these two methods.

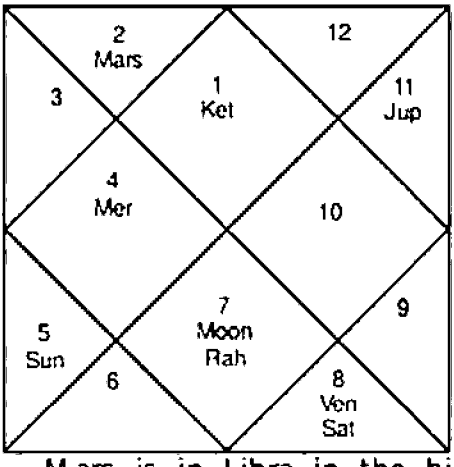

Example 2

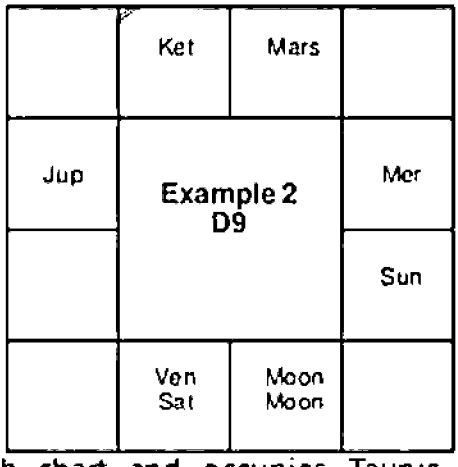

We examine the placement of Mercury. Mercury is in Virgo in birth chart and is in Cancer in navamsha. From Lagna of birth chart it goes to a Kendra position. From its natal place it has moved to eleventh house. Both are good placement. Mercury aspects fifth house from its natal position and gives super intelligence to the native.

Mars is in Libra in the birth chart and occupies Taurus in navamsha chart. This placement of Mars is in eighth from natal position of Mars and also from birth Lagna. This is both nidhanamsha and astamsha placement. Mars is seventh lord and the person is not married.

Example 3

Jupiter is placed in Virgo in birth chart and moves to Cancer in navamsha. Cancer is eleventh from Virgo and eighth from Lagna. Jupiter is the Lagna lord occupying nidhanamsha and is not a good placement. From Virgo it is aspecting fifth house. This person was a great astrologer and Jupiter is the planet of wisdom.

Saturn is in Pisces in birth chart and is in Aquarius in navamsha. From birth Lagna it is in third house and from its natal position it is twelfth house. Saturn is afflicting Moon in navamsha. He lost his eye sight.

Rashi Tulya Navamsha

All classics stress to use the navamsha for asessing the strength of planets. Any planet placed in benefic signs in navamsha are considered strong and are giver of good results. The benefic signs are the signs falling in kendra and trikona of a horoscope. We can opine that benefic signs also mean the signs of benefics. For the purpose of a particular horoscope, we consider tnnes as benefics.

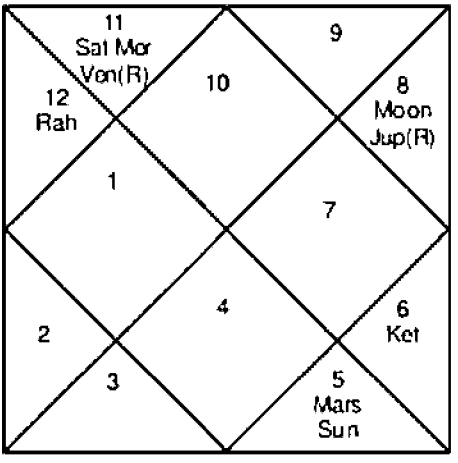

Rashi Tulya Navamsha presents the placement of planets in reference to the birth lagna. We retain the sign of the Lagna of birth chart and place the planets in the signs occupied by them in the navamsha. This recasted chart is known as Rashi Tulya Navamsha. Some refer it as Beeja Kundali.

Five planets occupy kendra and trikona position. Mars and Sun are in third house and are aspected by three planets giving good courage.

This chart is very useful and can be examined as an independent chart. The results of dasha period can be confirmed from this chart.

Navamsha Tulya Rashi

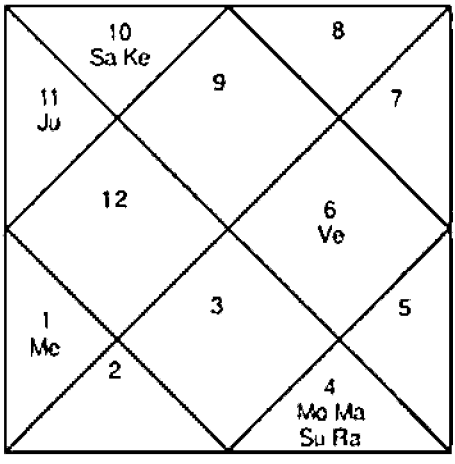

A parallel chart called navamsha tulya rashi is also used. This is erected by keeping the Lagna of navamsha and the placement of planets as per sign occupied by them in the birth chart.

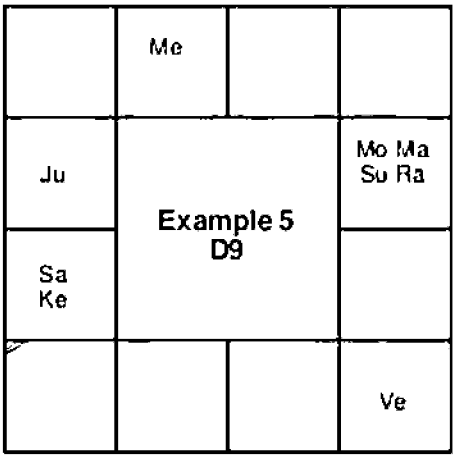

This chart is useful in assessing the potential and promises of a horoscope. We can apply all standard astrological principles on this chart. This recasted chart shows the permanent or shashwat (' hk* 0f) potential.

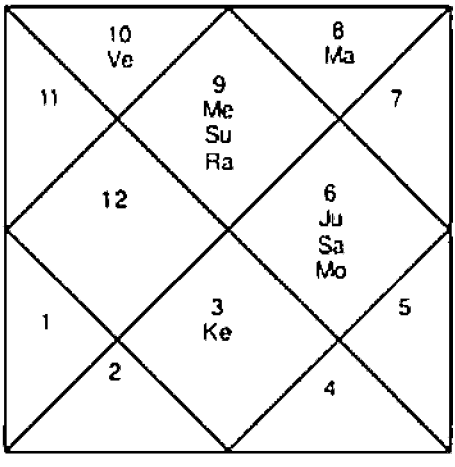

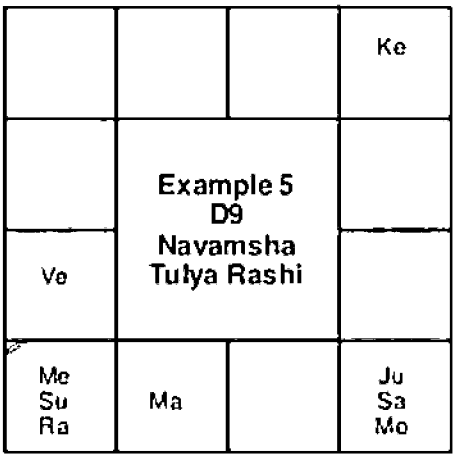

Lag	Sun	Moon	Mars	Mer	Jup	Ven	Sat	Rah
16°53'	11°55'	20°52'	00°14'	01°52'	05°02'	28°53'	00°42'	12°23'

In navamsha tulya rashi chart we find that the lagna lord and the tenth lord have exchanged sign. This relation of lagna lord and tenth

lord makes a person to establish intutions which will be permanent. He established Banaras Hindu University. He was a great Sanskrit scholar.

64th Navamsha

Sixty fourth navamsha is one of the sensitive area and its lord is a Chhidra Graha. The sixty fourth navamsha is also called Khara navamsha.

Brihat Parashar reckons it from Lagna and Moon. Jataka Parijata reckons it from Moon only.

Prashan Marg reckons it from Lagna, Moon and Sun. Why not we reckon it from all planets and houses as well?

The 64:h navamsha for any planet or Lagna will be the same navamsha in the eighth sign from it. For example if Moon is in Aries 7°
i.e. third navamsha. Then the third navamsha of Scorpio (8:" sign from Aries) will be the 64 " navamsha i.e. Virgo.

To ascertain this navamsha, we place the deg rees of the planet in the eighth sign from it and workout the navamsha in the eighth sign and for degrees of the planet.

A very simple way to locate the 64:" navamsha of a planet is to locate the sign occupied by planet in navamsha chart. The fourth sign from it will be the 64:r navamsha. For example Lagna of navamsha chart is Capricorn. The 64tr navamsha from lagna will be Aries (4th from Capricorn).

Classics have laid down rules for predicting the events with the help of 64tr navamsha. These are summarised below -

1. Transit of malefics over 64-" navamsha give events which have long lasting effects. Especially when a malefic is placed in this sign.
2. When the lord of navamsha occupied by Moon is inimical, neutral or friendly to the lord of 64~ navamsha from M oon, the person will have short, medium or long life.
3. A Malefic placed in the 64tr navamsha of any planet brings harm to the significations of that planet. In the chart of Mrs. Indira Gandhi, Ketu and Saturn are placed in 64th navamsha from Venus. Her husband died at a young age.
4. When the lord of 22ra Drekkana and 64r navamsha from Moon is same planet and it transits a sign depnved of bindu in Astakvarga then death is unavoidable. If they are different, then both transiting the sensitive point gives death.

5. The transit of malefic gives effect when transiting in the eighth house sign and the navamsha sign of 64" navamsha and vice versa. As an example, the eighth house is Capricorn and Khara navamsha is Virgo, then the event will take place when the malefic transit Capricorn sign and Virgo navamsha or Virgo sign and Capricorn navamsha.
6. Transit of slow moving planets including Rahu and Ketu over the sensitive 64s' navamsha produce events of significant nature. The fast moving planets produce events of small magnitude.
7. This principle of transit is also applicable for mundane events.

The sages have specifically mentioned 64:h navamsha and not the fourth from M oon or Lagna in the navamsha chart. This is a subtle hint given for working out the navamsha from all houses. Eighth house is the house of longevity or death of Lagna. One such combination states "when 64:r navamsha lord is with Saturn or Rahu or Ketu and is placed in 6m, 8", or 12th house in the birth chart, the person dies a unnatural death and without any blood relation by his side." This works on the chart of Indira Gandhi and Z.A. Bhutto.

We get the rule conveyed by this and have tried to extend it on the other houses. We can take these from Moon or Lagna.

1st navamsha - 1st house. It is 8th from house and if similarly placed in 6",8th and 12th and with Saturn Rahu or Ketu, it means unnatural death of significator of sixth house i.e. enemy, disease, maternal uncle etc.

The other relevant navamshas and its eighth position from the significator house are listed in table. The meaning or the results is to be interpreted by the general rule.

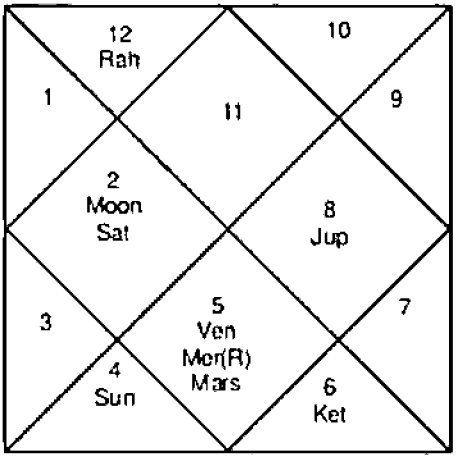

We again illustrated it with 100" navamsha. The 10(F navamsha is calculated from 12th house (eighth from fifth). Place the degrees of Moon or Lagna in the twelfth house from it and arrive at 100th navamsha. The lord of this navamsha sign is the referred planet. If this planet occupy 6th, 8th, and 12tr house in birth chart and is with Saturn, Rahu or Ketu then the fifth house suffers.

In the chart of Indira Gandhi, the 100tb navamsha from Moon is Taurus. Venus is in 6tr house and is with Rahu. The fifth house suffered and herelder son died an unnatural death.

1. Dr. B.V. Raman died on 20 Dec 1998. The 64th navamsha from Lagna is Aries in Virgo Sign. Saturn in transit was in Aries sign and Aries navamsha. Ketu was transiting Virgo navamsha in Capricorn sign. Also note that 64tn navamsha Aries contains Saturn and Venus in navamsha.
2. The 64" navamsha from Moon is Scorpio in Sagittarius sign. On 9" Sept 1963, Ketu was transiting Sagittarius 24° - 3' which is Scorpio navamsha. His son Suryaprakash died.

Navamsha chart is one of the most important divisional chart. It is generally opined that predicting without navamsha will bring bad name to the astrologer.

Navamsha is the supplementary chart to the birth chart. If rashi chart is the body then navamsha is the soul. We can analyse navamsha as an independent chart for all the significations of a person. It is mainly treated as the chart of marriage.

Birth chart is the physical existence, the M oon chart is the mental plane and the navamsha is the hidden force or the destiny that decide the result of efforts.

The karmic theory says that the birth chart is the representation of sanchit karma. The navamsha is the prarabdha i.e. the portion of total karma which you are to face in this life.

Deities of Navamsha

There are three lord of the navamsha. These are deva, nara and rakshas. A planet in the movable navamsha is deva, in fixed navamsha it is nara and is rakshas in a dual sign.

Deva (Divine, godly) - A planet in deva navamsha is calm and have pious nature.

Nara (Human) - He is next best to deva. A practical and down to earth person.

Rakshas (Demon and evil) - He can be rash and sometime even turn violent.

Applications of deities is explained in the chapter of Dwadashamsha.

The most common use of navamsha is to assess the strength of planet. Generally a well placed planet and in status in navamsha chart is considered strong and gives auspicious results.

1. Planet exalted in the navamsha chart is considered best even when it is debilitated in birth chart.
2. Any planet debilitated in navamsha give bad results even when it is exalted in birth chart.
3. A vargottam planet is strong. It gives name and fame. Even a debilitated Vargottam planet gives wealth and fame but with some problems like health or mental tensions.
4. Planet in the signs of benefics are strong.
5. Planets in navamsha occupying the signs of kendra/trikona of birth chart are auspicious.
6. The navamshas is further classified as Dhrid, Dhridh-adhrid and Adridh. The fixed sign in navamsha are dhnd, and dual are dridh-adhrid and the movable are adridh. The prarabdh signified by dndh cannot be changed, those signified by dual can be changed with effort and the one signified by movable signs can be changed with a little effort.

Marriage

Navamsha is specific chart for marriage and marriage related matters. It can be seen independently for analysing marriage of a person.

Examination

1. Lagna of navamsha is the major consideration for marriage. A strong Lagna and Lagna lord gives marriage.
2. Wealth and speech in mamage. It also shows the longevity of spouse. An afflicted second house is not welcome as it gives tensions in married life.
3. The efforts required to keep the marriage going. A malefic is welcome but it shows great efforts needed to keep the marriage intact. A benefic placed here needs no effort to sustain the mamage but gives a carefree attitude.
4. The happiness of married life. It shows the enjoyment of mamage. A malefic like Rahu or Ketu do not know the happiness of marriage even when happiness is present.
5. Intelligence of married life. It is the thought process one has towards marriage. An afflicted fifth house cames bad intentions and is the spark to ruin the marriage. A benefic fifth house can avert an ugly situation.
6. The conflicts and problems faced in marriage. A strong 6th house has no conflicts and the married life is smooth.

7. All about marriage partner. A well associated seventh house gives a good life partner.
8. Longevity of mamage. Accidents and sudden happening. Secret relations outside the mamage.
9. The religious aspect of mamage. If spoiled by malefics or trik lords, takes away the very essence of trust of marriage.
10. Actions in married life. A benefic tenth house gives auspicious ceremonies. It is the duties one has to perform in the married life. An afflicted tenth house tends to give undesirable actions which can be forced upon the marriage.
11. Lust of the mamed life. Demands of spouse. Malefic relations give a spouse who is never satisfied in his/her matenalistic desires.
12. Losses suffered. Separation, confinement. It also shows the sexual pleasures of marriage. Affliction to 12th house gives no fulfilment of sexual desires.

1. Promise of Marriage

Lagna of navamsha is the primary consideration. If the Lagna has a benefic or is aspected by benefic then marriage is assured. Second house and seventh house are next consideration. These houses should also have benefic association. Association with lord of the house even when a malefic is considered good.

When all three i.e. Lagna, second house and seventh house have malefic association then marriage is denied or delayed.

Another method is to look for the seventh lord/Lagna lord of birth chart in navamsha. If these lords are badly placed in 2,6,8,12 houses from birth Lagna and from the sign occupied by it in birth chart or in navamsha, then mamage is denied. When well placed from one of these signs, it gives marriage but with problems in married life.

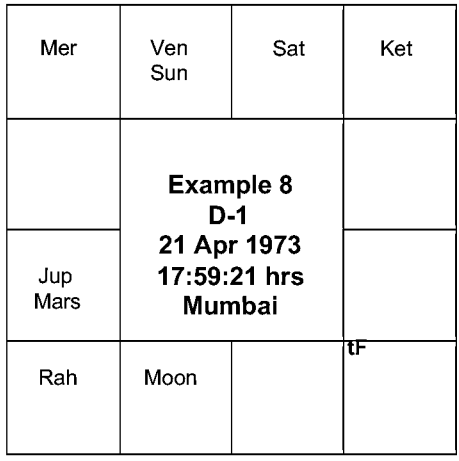

Affliction to Venus is also a hindrance to marriage. Venus in strength and well placed in birth chart and navamsha assures mamage.

Example 8

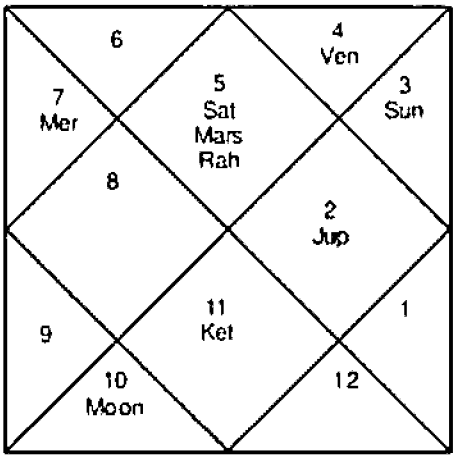

This chart is given to show that malefic influence on Lagna and seventh have given mamage. He married on 19'r May 1995 at the age of 22rd year which is considered little early for a boy.

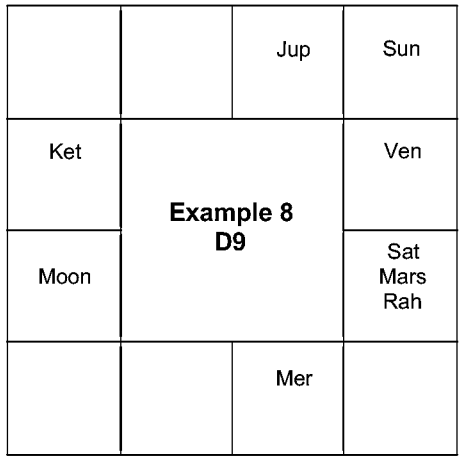

Lagna is occupied by Saturn, Mars and Rahu with no benefic aspect. Seventh house has Ketu and is aspected by seventh lord Saturn. Saturn aspect on 7th house has promised the marriage.

The catch is the placement of seventh lord of birth chart in navamsha. Seventh lord is Jupiter and occupy Capricorn in the birth chart. In navamshaJupiter is in Taurus. Taurus is ninth house from birth Lagna, fifth house from natal Jupiter and tenth house from navamsha Lagna. Marriage is promised.

Astrological reason for early marriage will be discussed next.

2. Early Marriage

The age of getting married can be classified as early, timely and delayed. The age of marriage is dependent on Desh, Kaal, Patra. The age block of 21 to 24 years for girls and 24 years to 28 years for boys can be taken as normal and timely age of marriage in Indian families.

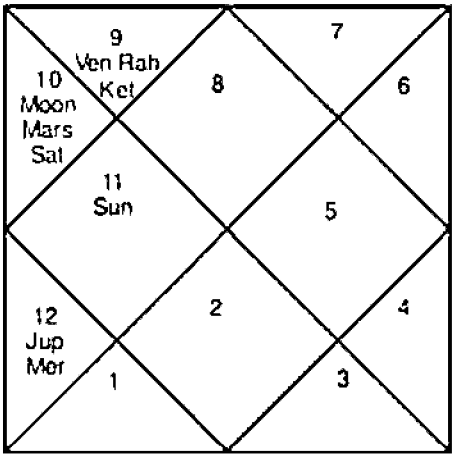

The first consideration is to look into the navamsha chart. The promise of marriage should be present and the appropriate dasha is running.

Next we look into trimshamsha chart. Benefic association with Lagna of trimshamsha promises early marriage. When a benefic planet who is associated with Lagna in DI and again is associated with trimshamsha Lagna in D30 is a sure indicator of early marriage. The judgement of trimshamsha is also vital to see the happiness of marriage. This is discussed later.

Affliction to trimshamsha Lagna causes delay. More affliction gives more delay.

We take the trimshamsha chart of example 8.

The navamsha chart is heavily afflicted and have no benefic aspect and should have delayed marriage.

The trimshamsha chart clears the picture. Lagna is aspected by Jupiter who is placed in its own sign. Jupiter isaspecting Lagna in the birth chart also. M arried at the age of 22 years.

Saturn is occupying navamsha Lagna and have no benefic aspect. Normally Saturn should give delay in marriage.

First we see the promise of marriage. Seventh lord of birth chart. Saturn, is in Cancer navamsha. From birth Lagna Saturn occupies lagnamsha. From Sagittanus, which is navamsha Lagna and the sign of Saturn in birth chart, is in eighth house. Only one factor is promising mamage.

Trimshamsha Lagna is heavily afflicted except for the aspect of exalted Mercury which gives marriage. She was married in Mercury-Rahu.

4. Multiple marriages

The conditions which are required to be present in the navamsha for multiple marriages are -

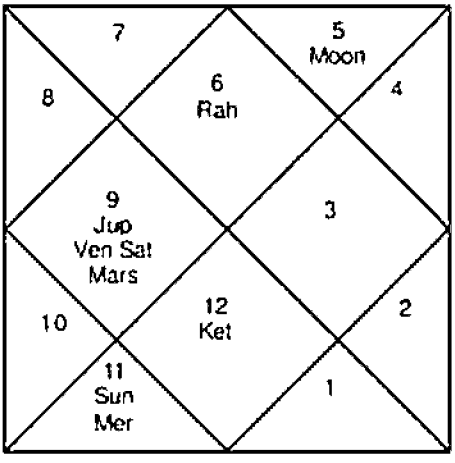

1. The most important condition is the strength ofLagnalord of the Navamsha. The Lagna lord should be exalted or retrograde or in own sign and well placed in kendra, trikona or eleventh house.
2. The seventh house should have malefic association. Normally association of benefics with seventh house/lord do not give many mamages.
3. The promise of marriage should be present from Lagna of birth chart and Lagna of navamsha chart. (Nadi principle). The promise from the sign placement may be spoiled.
4. Presence of Dhana yoga gives multiple marriage.
5. Placement of second, seventh and twelfth lord in upchaya houses give many mamage. It can also indicate rich wife.

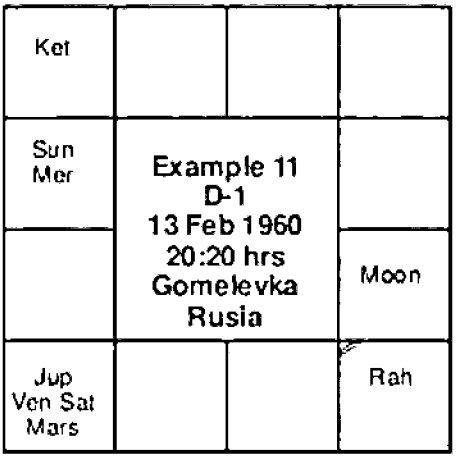

Example 11

This Russian lady had contacted sh. K.N. Rao in M arch 2004. She had a child at the age of eighteen before marriage. The first marriage took place when she was nineteen years. The second marriage was in 1985 which ended in 2000. She again married in 2001 and this third marriage was in tension when she met Sh. Rao.

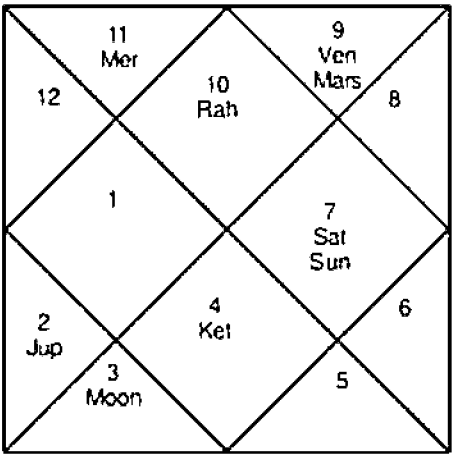

Jupiter is the seventh lord of birth chart. It is placed in Sagittarius in birth chart and Taurus in navamsha chart. This position in Taurus is in trine from birth Lagna and Navamsha Lagna. From its natal position it has gone to sixth house.

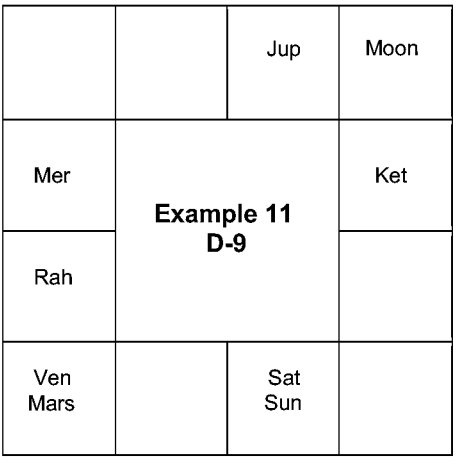

The Lagna lord of Navamsha is exalted in tenth house. The seventh house of navamsha is heavily afflicted. Ketu occupies it and is aspected by M ars and Saturn. There is no benefic aspect on seventh

house. Second house is occupied by ninth lord and second lord is exalted. Second lord and the seventh lord are in upchaya houses.

Example 12

5. Status of Spouse

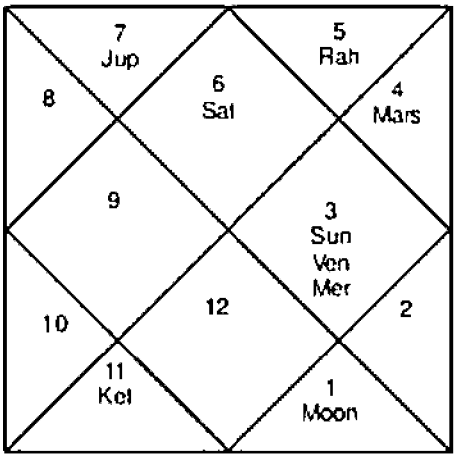

Classical text compares the strength of Lagna lord and the seventh lord. If seventh lord is more powerful, the spouse is from higher status.

The rules applicable to navamsha chart for getting a spouse from higher status or wealthier are,

1. Raj yogas present in the navamsha chart gives spouse from a rich or highly placed background.
2. Placement of seventh lord in upchaya house.
3. The seventh lord is strong and has benefic association or associated with a planet in strength.

purposes, Firstly this lady married five times and decid ed not to marry for sixth time but to live together with her mate. Secondly two of her husbands were much older to her and she married them for their wealth and status.

Seventh lord of birth isjupiter. Jupiter is in Libra in birth chart and is in Aquarius in navamsha. Aquarius is sixth house from birth Lagna, second house in navamsha and is fifth house from Libra. Mamage is assured.

Navamsha has a good Dhana yoga. Eleventh, second and Lagna lord are together in seventh house. Seventh lord occupy upchaya house. Seventh house is afflicted. Many marriages are indicated.

Conjunction of ninth, tenth and fifth lord is forming a Rajyoga in eleventh house. The status of spouse is higher than the native.

6. Caring Spouse

Loyalty in married life is a mutual relation. In the orthodox Indian society couples have mutual trust and the cases of broken mamage were rare. With the present inclination towards materialistic happiness, cases of separation and disputes in mamage are rising.

The parameters for loyal life partners as seen in navamsha are -

1. Venus and/or seventh lord have only benefic association.
2. The seventh lord is a satvik planet, well placed and have benefic association.
3. Venus and/or seventh lord occupies a benefic sign in shashtiamsha (D-60).
4. Lagna lord of navamsha chart is taken as a benefic.

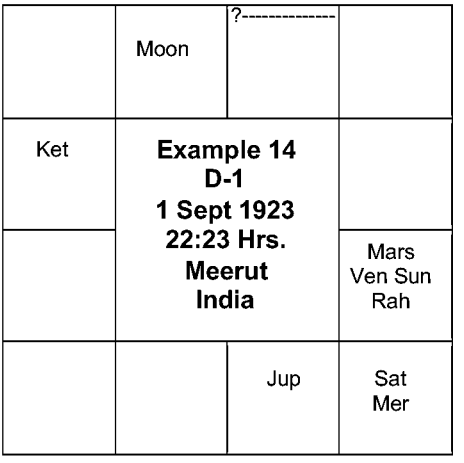

Absence of these combinations does not mean that the spouse is not of good character. If the spouse takes care of your requirement and looks after you well is the loyalty.

Example 14

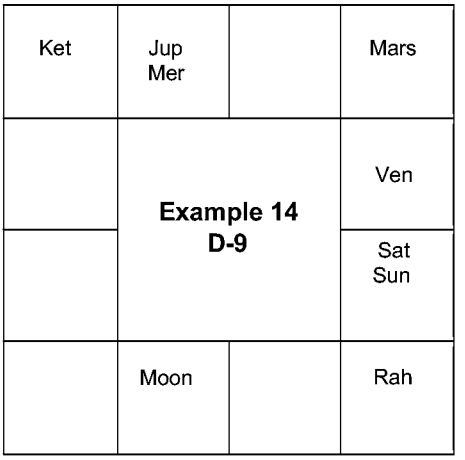

Venus is well placed and is not aspected by any malefic. M oon is the seventh lord and placed in eleventh house with no malefic association.

In shastiamsha chart Venus is in Libra and Moon is in Gemini. Both are in benefic signs.

Married life lasted for over 56 years. He was very well looked after by his wife. She always supported him.

C olour and Beauty of Spouse

Venus and Jupiter are the prime factors to judge the beauty of spouse. Venus is the significator for wife in the boy's horoscope and Jupiter is the significator in a girls horoscope.

A strong Venus without association of Saturn generally gives a beautiful wife. Same is the consideration for Jupiter to give a handsome husband.

The strongest of seventh house, seventh lord and Venus decides the complexion of spouse.

7. Mutual Attraction

For assessment of compatibility in marriage, the matching of horoscopes are done with the natal positions of Moon of bride and groom,as a general practice called guna milan. However we should examine the Lagna, Sun and Moon. Atma or the spiritual side is controlled by Sun. The mental compatibility is controlled by Moon and first house.

The astrological rules which lay own the mutual attraction between a boy and girl are given. These are necessary requirement for a happy successful married life.

1. When the Lagna of boy and girl are opposite to each other, there will be attraction.
2. M ars is the ruler of sex d esire for g iris. Venus is the ruler for boys. The Mars of girl's horoscope should be conjunct with or aspects the Venus of the boy's horoscope. Similarly Venus of boy should be conjunct with or aspects Mars of the girl. Even when one relation is present, it is good. These association if repeats in navamsha also, it is best.

In cases where this relation is present in birth chart but not

in navamsha, then there is mutual attraction in the beginning of affairs but fades out with time. On the other hand this relation of Mar/Venus is not present in birth chart and present in navamsha then the attraction develops with time.

This mutual relation of Mars/Venus can prove dangerous also unless modified.

3. The same relation of Mars or Venus is established with Sun or Moon of the horoscope, it also gives strong attachment.
4. When Sun of one partner is making relation with M oon of the other partner, or they are in mutual trine to each other, there is deep friendship after marriage. Mutual placement in 6,8,12 is not desirable.
5. The signs occupied by Lagna, Sun and Moon of partners, if afflicted in the chart of other partner, brings problems in married life. The cause of problem will be physical when Lagna is afflicted. It is spiritual when Sun is afflicted and is mental disagreement if Moon is afflicted in this manner.

8. After Marriage

How the marriage will turnout to be. It may be a happy life or unhappy. The basic parameters are the seventh lord and Venus.

1. Seventh lord or Venus should occupy 2"° house or an upchaya house. This also gives prosperity after marriage.
2. Seventh lord in trines or in ICT house.
3. Benefic association with seventh lord or Venus.
4. M alefic association w ith Venus or seventh lord when in trine or in tenth house is also good but it takes extra effort for happy life.
5. When seventh lord or Lagna lord or second lord or Venus are placed in sixth or eighth or twelfth house or are combust and have malefic association the result is unhappiness in married life. In case even one benefic is also associated then the recovery is also there.
6. The eighth lord plays an important role in deciding the life after marriage. Influence of eighth lord on the Lagna or seventh house/lords leads to divorce or even death of spouse. Benefic association can avert an ugly scene and save the mamage.
7. A well placed and well connected twelfth lord gives amicable relationship. Any affliction of malefic planets may ruin the relationship.
8. Trimshamsha chart also plays a major role - when the trimshamsha Lagna falls in the sign of M ars, Saturn or Sun and the same planet

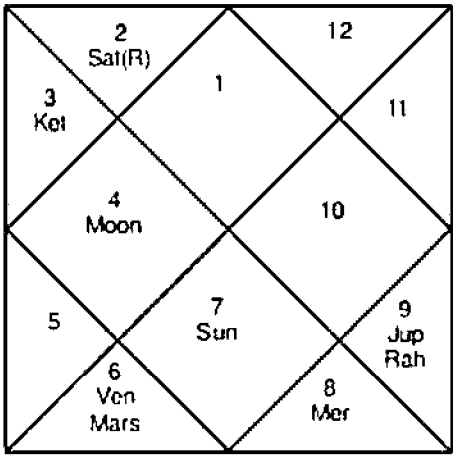

is influencing Lagna of birth chart, then the married life is disturbed. This situation becomes grave when Sun or Moon are in birth Lagna and are influenced by malefics.

Example 15

This chart belongs to an orthodox Hindu family where divorces are not very common. She was married on 26 Jan 1996. Problems started very early but marnage went on till Feb 2003 when she returned to here parents home and divorce was filed. They were divorced in Aug 2004. No child was bom.

In the navamsha chart Rahu occupy seventh house. Eighth lord Jupiter aspects the seventh house. Eighth lord is exalted.

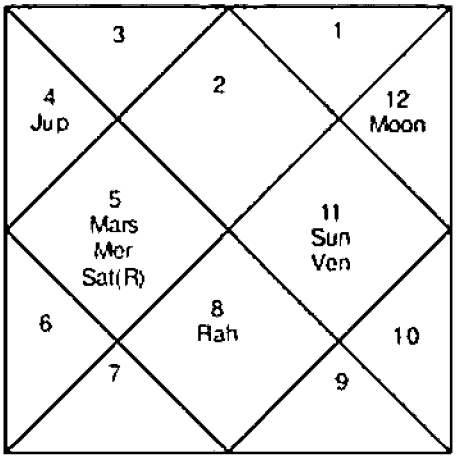

Trimshamsha Lagna is Aries. Mars aspects both birth Lagna and the trimshamsha Lagna.

9. Match Making

Match making is like fixing a game of cricket. The two players are the bride and the groom.

Traditionally the guna milan (matching) is done on the horoscope of the couple. This matching is based on the Moon sign and the Moon nakshatra. All other factors are not considered. In practical life we have seen that despite good matching mamage can turn into a disaster and vice versa.

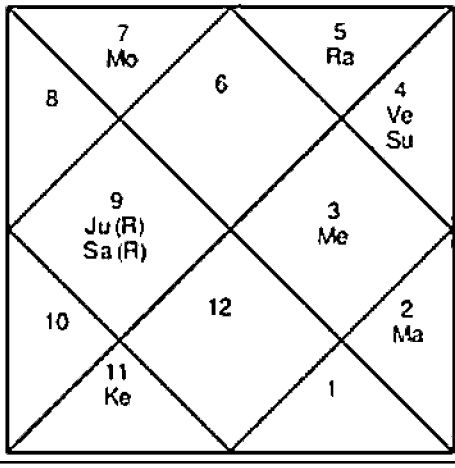

We are now giving a method to judge thebehaviour or actions of bride or groom towards the spouse in married life. This can give sufficient information about their relationship and is a good tool for match making.

Navamsha is the chart which shows all about your marriage. The seventh house is the marriage and the seventh lord is the ow ner of the marriage. We therefore check as to how this owner of marriage will behave with the partner.

1. Note the seventh lord of navamsha of one partner.
2. See the placement of this seventh lord in the navamsha chart of the other partner.
3. A badly placed and afflicted owner is not considered good.
4. A benefic association safe guards the marriage.
5. The behaviour towards spouse is seen from placement in the house of navamsha. For example if it is in 12th house then the owner spends a lot for other partner.
6. Repeat with seventh lord of navamsha of the second partner in the navamsha of first partner.
7. Two way good placement and association is the best matching.

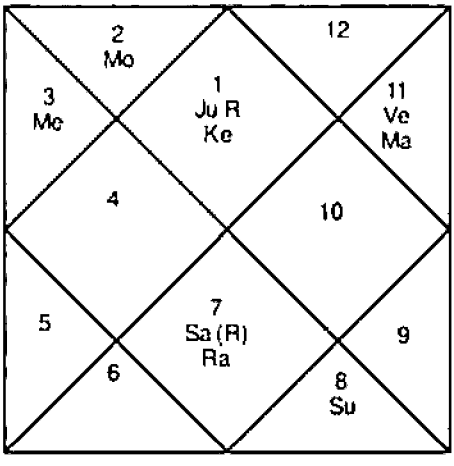

Example 16

These charts are of a happily married couple. The ashtkoot milan gives only 17 matching point.

J aimini Navamsha

In the Jaimini System, the signs are divided into two categories. One is direct counting (Savya) and the other is indirect counting (Apsavya).

All navamsha have the movable sign as the starting navamsha or the first navamsha in any sign. Aries and Libra are the Savya signs. Cancer and Capricorn are the apsavya signs. Thus the sequence of next navamshas are direct for Aries and Libra where as it is indirect for Cancer and Capricorn. This is taken from Jyotish Phalaratnamala written by Knshna Mishra.

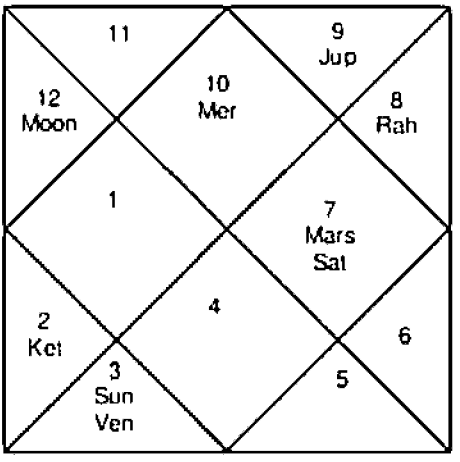

This is the underlying principle of Jaimini navamsha and the rest is similar to Parashari Navamsha.

Jaimini Navamsha

Navamsha is specific chart for marriage. We can also refer it for all events and promises as seen from birth chart.

Esteemed readers can try this navamsha as it is still open for further research.

Dashamsha DIO

Dashamsha is the tenth division of a horoscope. This chart highlights the tenth house. It is studied for professional achievement, career, trends of destiny, honours, success, promotion/demotions, stress, income earned by self effort, hobbies and interests.

Parashari Dashamsha

Each sign is divided in 10 equal parts of 3 degrees each. The first dashamsha is from 0 degree to 3 degrees, second dashamsha is from 3 to 6 degrees and so on.

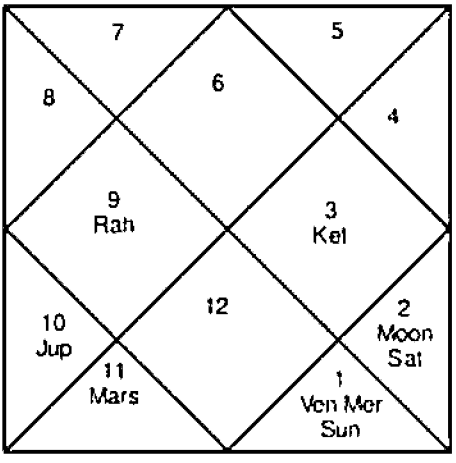

For odd signs the first dashamsha falls in sign itself, the second goes to the second sign in the direct order and so on. For even signs, the first dashamsha goes to the ninth house from the sign occupied and the others follow in the direct order.

Mathematical orcyclical dashamsha

In this method of casting of dashamsha, a regular order starting from Aries is followed.

For fiery signs the counting starts from sign itself, for earthy signs the counting starts from tenth sign, for airy signs the counting starts from Seventh sign and for watery sign, the counting starts from 4^{r} house.

Dwadashamsha is the one tw elfth division of each sign. This chart is also known as Suryamsha signifying the parents and grandparents.

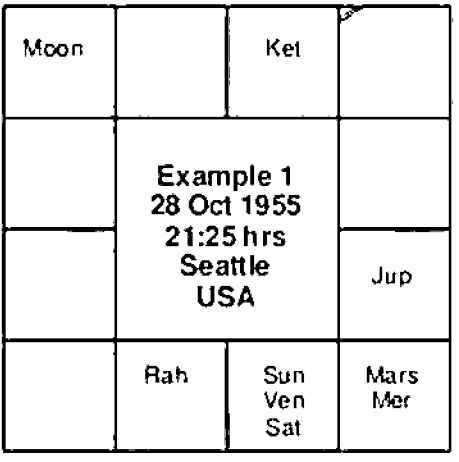

Parashari Method

Each dwadashamsha division is of 2 degree 30 minute. The first division starts from the sign occupied by the planet in Lagna chart. The next division goes to the next sign in direct order. A ready table for this Parashari method of casting is given.

Longitude of planets/Lagna in D12 chart.

Multiply the longitude of planet (without considering the sign) by 12. Expunge multiples of 30 and the remainder is the longitude of the planet in dwadashamsha.

In example chartthe longitude of Lagna is 26°-57'. Multiplying it by 12 we get 323°-24'. Expunge 300 from it and we get 23^3-24' as the longitude of Lagna in dwadashamsha chart. Lagna is in Uth dwadashamsha. Counting directly from gemini, the eleventh sign is Aries and is the lagna of dwadashamsha chart. The placement of planets is worked in similar way and the complete chart is given.

Application

This chart is seen for all things about parents and grand parents, the lineages of the person, it is the link between past and present life, i.e. poorva janam link, the further continuation of his lineage or not, Gotra of the person, inhentance from parents. Dwadashamsha indicate the cause of evils and its cure. Trimshamsha shows the evils.

This chart is for parents. To differentiate between mother and father, the karakas or significatiors are used. Sun is the karaka for father and M oon is the karaka for mother. Ninth house is taken as Lagna of father and fourth house for mother.

House significations of dwadashamsha

First House - General relations with the parents/grand parents. The general condition of the parental family and the influence a person gets from his family.

Second House - The sanskarof the family. The wealth and social status of the family and parents. The support native gets from parents.

Fifth House - Past karmas of parents. It is 9th from ninth so it denotes the grand parents. It is also fifth from Lagna and is the child of the parents as such it represents the person whose chart is seen. Thus the relation of fifth house with Sun, Moon, 9:r house and 4tr house will indicate the relation of native with parents. It also shows the future generation.

The gotra of the family is decided by the planets in 12th or the lord of the 12th house along with modifying influence on them.

Sun, Mars and Moon are kshatriya, Venus and Jupiter are Brahmins, M ercury is vaishya and Saturn is Shudra. In actual application, this rule does not apply universally.

Karakas

Naisargika Karaka - Sun is the karaka for father and Moon is the karaka for mother.

Jaimini Chara Karaka - In the scheme of seven chara karaka, M K is the Karaka for mother and BK is the karaka for father. Sh. K.N. Rao suggests that PK should also be considered for father.

Sthira Karaka - The stronger of the Sun and Venus is taken as karaka for father. Stronger of M ars and M oon is the karaka for mother. Rahu and Jupiter are the karaka for parental grand father. M ercury and

Ketu are the karaka for maternal grand parents.

Ruling Deities of Dwadashamsha

M aharishi Parashara has assigned the non-planetary lords of each division of dwadashamsha. These are Ganesh, Ashwini Kumar, Yama and Ahi or Sarpa. They repeat three times in 12 dwadashamsha. For any sign the first dwadashamsha is ruled by Ganesh, second by Ashwini Kumar, third by Yama and fourth by Ahi. This cycle is again repeated from 5" dwadashamsha and so on.

Table of deity of dwadashamsha is given here -

Deity of Dwadashamsha	
Division of dwadashamsha	**Deity**
1. 5. 9	Ganesh
2. 6. 10	Ashwini Kumar
3. 7. 11	Yama
4. 8. 12	Ahi

Ganesh - Ganesh is the destroyer of all obstacles which can be in your material or spiritual path. This division indicates divine protection to the native provided by parents. These can be education, care in illness, providing right direction etc.

Ashwini Kumar - They are divine healers and bless with good health care. These parents are of caring nature. The planets in this division bestow the caring nature to parents.

Yama - Yama is the lord of death. He is disciplined and just. His rules are rigid and not at all flexible. The planet in this division show a disciplined planets.

Ahi - The serpent. It is the resting place for Lord Vishnu. The snake has venom and imparts it to the planet placed in this division.

When we understand the division of dwadashamsha, we notice that each drekkana of a sign is divided in four dwadashamsha. Therefore one drekkana of a sign contains four division ruled by all four deities. Parashara have classified Drekkana as Narad, Agastya and Durvasa.

We can have the combination of Drekkana deity and dwadashamsha deity to closely identify the planet. Any planet in Narada/Ganesh should be auspicious. A planet in Agastya/Yama should be rigid. Planet in Durvasa/Sarp a is full of vengeance. Navamsha have been given codal ruling deity as Devta, Manushya and Rakshasa. Combining these three divisional charts and their deities we get a fairly good idea of the condition and nature of any planet.

Examination

1. Sun is the significator of father and Moon is of mother.
2. Ninth house is the lagna of father and fourth house is lagna of mother. For father the maraka houses are 10", 3^{C} and the house of longevity is fourth house of dwadashamsha. The fifth and tenth house are maraka for mother and the eleventh is the house of longevity.
3. See the ruling deities of Sun and Moon in the drekkana, navamsha and dwadashamsha to assess the nature of parents towards the native.
4. M oon afflicted shows pain to mother. Sun afflicted shows pain to father.
5. M ercury/Ketu is seen forthe maternal lineage and Jupiter/Rahu is seen for paternal lineage.
6. Jupiter, fifth house and fifth lord are the poorva punya and show whether the person can be father or not. If they are afflicted then no male child is bom.
7. Lagna of dwadashamsha represent parents and the fifth house is the child of the parents and represents the native. In the astrological scheme, the lords of trines are friends to each other.

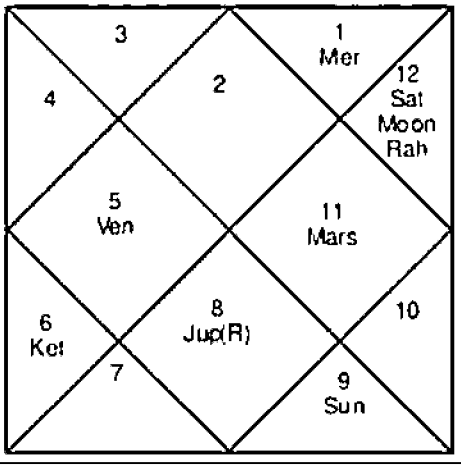

Thus to see the mutual relation of parents and the native, we can check the placement of these two lords from each other.

She got affluent parents since Lagna has influence of Yaga karaka Saturn and the eleventh lord Jupiter. The aspect of 8:"lord Jupiter and 12th lord Mars gave separation from parents. The Lagna lord Venus is well placed in kendra but is aspected by 12th lord Mars.

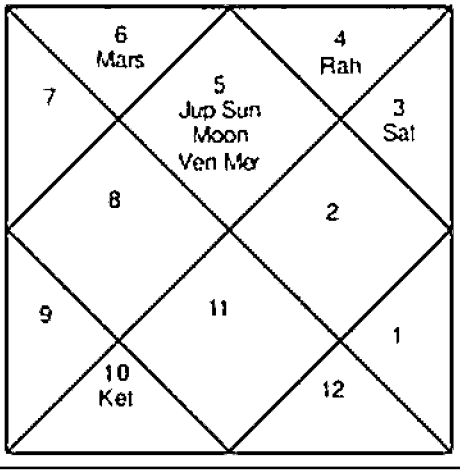

The karaka of father Sun is placed in 8th house and aspected by Saturn. Saturn occupy Durvasa/Ganesh/Manushya divisions and father is protector with Durvasa attitude and human mind. There is no other affliction and Saturn is yogakaraka.

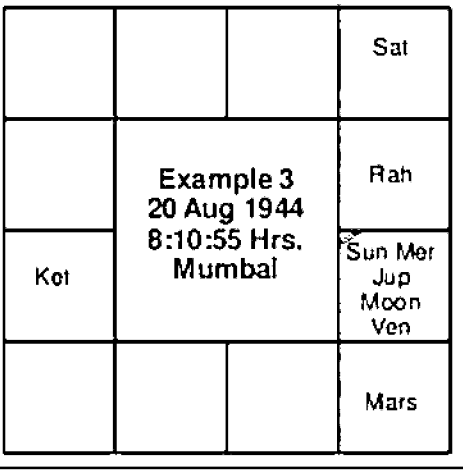

M oon on the other hand is with Saturn and Rahu. Rahu is placed in Durvasa/Sarpa/Rakshash. This gave short life to mother. The Moon is further aspected by 8th lord Jupiter.

Kanaka of father is with Mars and is aspected by Venus who is in Durvasa/Sarpa giving problems and short life to father.

Moon is with Ketu and is a combination for widowhood to mother. Since Sun is afflicted, this promise becomes more effective. If we treat fourth house as the Lagna of mother, the seventh house from there is in papa kartari. His father expired in Sun mahadasha.

A benefic in 7th house assures a good wife who will be able to continue the lineage.

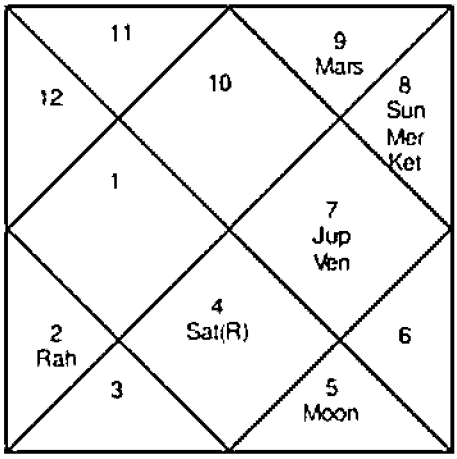

Example 4- Sanjay Gandhi

Lagna of dwadashamsha is occupied by its lord Saturn along with exalted Mars, two benefics Venus and Jupiter aspect it. Ihe Lagna is strong.

In this chart also Mercury is in Sarpa dwadashamsha and the maternal side is afflicted.

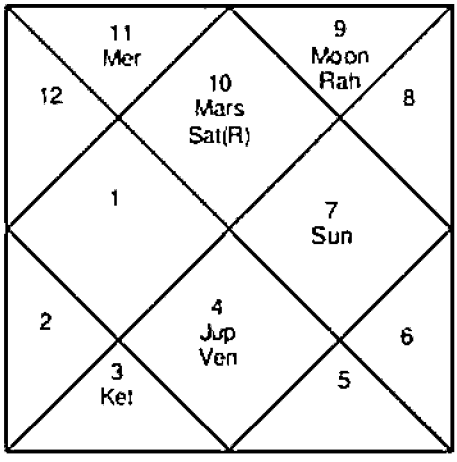

The karaka of father is debilitated and is in Narad/Sarpa dwadashamsha. Sun is aspected by retrograde Lagna lord Saturn.

Moon is with Rahu. Rahu is in Durvasa/Sarpa and is the cause of

Cyclical Dwadashamsha

In this method of casting the first dwadashamsha of each sign starts from Anes.

Cyclical dwadashamsha is seen for physical or materialistic aspect of the parents.

Example 5

This chart given as example 2 is taken for casting and analysis for cyclical dwadashamsha.

The cyclical dwadashamsha chart is having good Raj yoga and Dhana yoga. The parents are highly placed and rich. Venus is Yoga karaka being lord of a kendra and a trikona. Venus is placed with Lagna lord Saturn in eleventh house and is a powerful Raj yoga.

Lagna is aspected by own lord Saturn and as such Lagna is strong.

From M oon

From Moon, Venus and Saturn are lord of trines as also the lords of eight and twelfth house. The Raj yoga is not caused. Mars is the most malefic planet for Gemini Lagna being lord of eleventh and sixth, both trishadaya houses. M ars is joined by Jupiter, a maraka for Gemini. Serious arishta yoga is present. Moon itself is the maraka and is aspected by another maraka Jupiter. Venus and Saturn also aspect Moon. Her mother died in her Rahu dasha.

From Sun

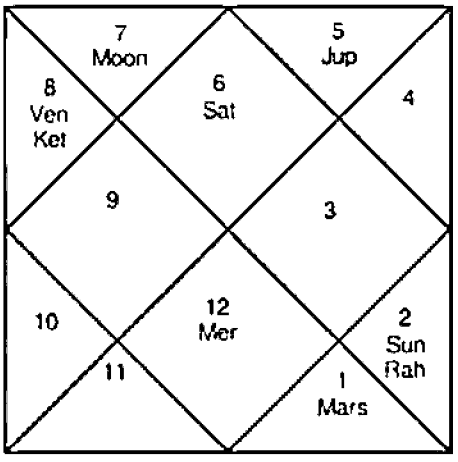

Venus and Saturn are forming a powerful Raj yoga in eighth house. The formation of Raj yoga in eighth house conveys its own meaning.

Jupiter is the most malefic planet for Tauras Lagna being lord of two trishadaya houses. Mars join this Jupiter. Mars is the lord of maraka seventh house and the twelfth house. Her father died in her Jupiter M ahadasha.

Example 6

This example is repeat of example 3 of this chapter. It is discussed again for cyclical dwadashamsha.

Lagna is occupied by fifth lord Saturn and aspected by Lagna lord Mercury. Saturn is lord of sixth house also. The Lagna is strong but indicate problems also. Lagna is in shubha kartari giving further strength to Lagna. From Lagna there are no potential Raj yoga or Dhana yoga.

From M oon

Moon is aspected by Mars. Mars is in its own sign and is a powerful maraka for Libra Lagna. The lord of Lagna Venus is aspected by Yoga karaka Saturn giving Raj yoga results. The second house from Moon is occupied by Lagna lord and aspected by eleventh lord Sun, as well as fourth and fifth lord Saturn and second lord Mars giving Dhanayoga. Presence of Ketu in second house and aspect of trine lord Saturn makes Ketu a first rate killer for mother. His mother died when he was running dasha of Rahu/Jupiter.

From Sun

Lagna is occupied by Rahu and aspected by Venus. The Lagna is strong. The placement of Lagna lord Venus in seventh house and aspect of ninth and tenth lord Saturn constitute a Raj yoga in seventh house.

Mars and Mercury are the two marakas. Out of these two, Mars is a stronger since it is placed in 12th from Sun and is aspected by Jupiter, eighth lord from Sun. This powerful Mars is afflicting Moon. His father died when he was running dasha of M oon/M ars.

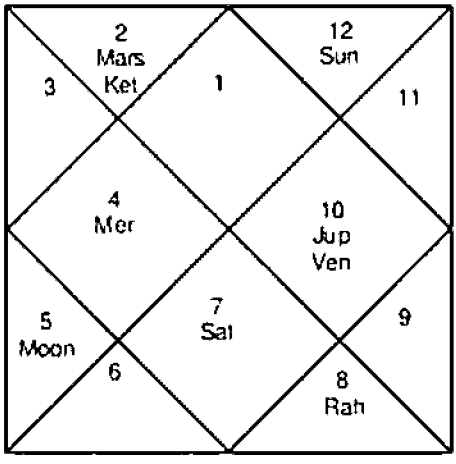

Example 7

Now wediscuss the cyclical dwadashamsha chart of the example 4 of this chapter.

Lagna is aspected by exalted Saturn. Sun, M ars, Ketu are on both sides of Lagna causing papa kartari. There is no benefic aspect on the Lagna. The Lagna is fully spoiled.

From M oon

The Lagna is Leo and is aspected by Yog karaka M ars. There is no

other aspect on Lagna. The Moon Lagna is strong. The tenth house from Moon has Mars and Ketu. Jupiter is the fifth lord and aspects tenth house rendering it strong. Jupiter is eighth lord also from Moon.

From Sun

Sun is not conjoined or aspected by any planet. Eighth house from Sun is occupied by exalted Saturn. The eighth lord from Sun is placed in eleventh house from Sun with Jupiter and aspected by Mercury. These combination should promise long life to father.

The Parashar dwadashamsha is seen for status, longevity of parents and the lineage in the family. The cyclical dwadashamsha is for physical and material well being of parents.

Shodashamsha D16

Shodashamsha is one sixteenth division of a sign. It is also known as kalamsha or niripmanamsha.

Each sign is divided into sixteen equal parts resulting l°-52'-30" as the span of one part and is the measure of one shodashamsha.

Parashari orCyclical method.

The first shodashamsha of planets placed on movable sign remains in Aries. The next shodashamsha goes to next sign in direct order to Taurus and so on.

For planets placed in fixed sign, the first shodashamsha goes to Leo and the rest follows in direct order.

For planets placed in dual sign the first shodashamsha goes to Sagittarius and the rest follows in direct order.

Brihat Parashar Hora said

From Shodashamsha one should assess the happiness and vehicles. Shodashamsha is the indicator of movable pleasures or happiness. (The chaturthamsha is for happiness from immovable). The movable pleasures may be derived from matenalistic things, sensual and mental satisfaction. Basically this amount to the experience of happiness. We can say that this chart is the indicator of the nectar of life (j I).

This chart is also called Kalamsha i.e. sixteen phases of Moon. Moon phases are from total darkness (Amavasya) to full brightness (Poomima). Moon is the indicator of mind (eu). This chart therefore is seen for "how much a person is able to enjoy the happiness available to him."

M oon also governs the mental strength and the patience of a person. The mental endurance is thus seen from shodashamsha. On the negative side it is the mirage of pleasures which may lead to humiliation and unhappiness.

Houses of Shodashamsha

First House - General level and sources of luxury. "The quantum of various luxunes is seen from the strength ofLagna.

Second House - The upbringing which moulds your attitude towards the happiness. The status of your happiness. Accumulation of happiness.

Third House - The courage exhibited or the acts of courage to get the luxury. It can give loss of vehicles and unhappiness by own doing. Any relation of third house/lord with Lagna/Lagna lord or fourth house/lord promise such losses.

Fourth House - Happiness or unhappiness from the luxuries of life. This house is the sukh sthana (I fcjkLRH It allows us to taste the nectar or poison of luxuries. The attitude toward happiness. Any relation with sixth, eighth or twelfth house indicate vehicular or other accidents which causes loss of happiness.

Fifth House - It is an important house as it stands for your karmas of past life in regard to your luxuries of this life.

Sixth House - Sixth house is the enemy of your luxuries. This house shows the loans you raise to acquire any luxury. The vehicular accidents are also ruled by this house. It shows litigations or disputes due to conveyance.

Seventh House - Partners who enjoy or suffer the luxuries with

you or contribute to your happiness. The lord of 4th house of natal chart and related to 7th house of shodashamsha gives conveyance provided by others and not your own.

Eighth House - Long tenn problems due to the luxuries or vehicles. Fatal accidents due to conveyance of any type. Afflicted planets in 8" house need to be watched during their dasha.

Ninth House - The luck factor of luxuries. It is the house for long travels also. A strong 9th house makes one possess good luxuries and he enjoys it.

Tenth House - The use of conveyance. It can be for good purpose or bad purpose. Actions for comforts in life.

Eleventh House - Gain or loss of the luxuries. The level of greed towards the amenities of life. Relation of Lagna and eleventh and with malefic connection indicate a materialistic person whose greed can never be satisfied.

Twelfth House - Loss of the amenities. The losses can be due to theft or accident or by litigation (sixth house).

Rules for examination of Shodashamsha

1. Lagna indicate the level of luxuries and the source of these luxunes.
2. The Raj yoga present indicate high level of luxuries.
3. Dhana yoga indicate the magnitude of the luxuries.
4. Any association of 6" or 8th house/lords with Lagna or fourth house/lords indicate danger or accidents through vehicles.
5. Association of 3'3 and 12th house/lord with Lagna or fourth house/lord shows loss of vehicles. Losses which can be due to theft or other accidents.
6. Look for the shodashamsha lord of Sun to see the richness of material happiness and the attachment of soul with it.
7. For vehicles, clothes, cosmetics etc. see the strength of Venus. A strong Venus when placed in cruel shodashamsha gives vehicles but also gives the danger through them. Directional strength of Venus in D16 promises good luxuries in life.
8. Look for planets placed in cruel shodashamsha. The planets related to sixth, eighth, twelfth and third house and in cruel shodashamsha cause damage in their dasha/antardasha.
9. Jupiter is the karaka for inner happiness and satisfaction. A strong Jupiter in good shodashamsha and aspecting Lagna is the best to ensure inner happiness.
10. Moon shows the mental acceptance of the amenities available. It

shows the most attached thing to the person. The Parashah lord and the tithi lord of Moon is seen.

11. Jupiter and Venus are the karaka for 4th house as far as happiness through movable possessions is concerned. Jupiter indicate the quality of possessions i.e. type of vehicle etc.
12. Lord Shri Krishna should be worshipped to appease all sixteen kalas. When there is affliction in D16 we must recite Gobind Namavali.
13. M ars is the karaka for permanency of happiness or luxuries. See the placement of Mars from ninth lord of DI in the shodashamsha chart. Well placed Mars gives long lasting happiness.

Lords of Shodashamsha

Parashara have given the lordship of shodashamsha to Brahma, Vishnu, Mahesh and Sun. In odd signs this sequence is followed in direct order and repeats four times. For even sign the order is reversed and start from Sun.

Lords of Shodashamsha		
D16 Part	**Odd Sign Lord**	**Even Sign Lord**
1.5.9.13	Brahma	Sun
2.6.10.14	Vishnu	Mahesh
3.7.11.15	Mahesh	Vishnu
4.8.12.16	Sun	Brahma

Brahma - Brahma is the creator and first most intelligent living being. The happiness is sought by creating, starting something new, by intelligence, by carrying out duties given or assigned by someone superior. The attachment is through bonds of knowledge. Planets in this division give creative power and ability to plan the action.

Vishnu - He is the preserver and sustains the creation. The happiness therefore is in keeping the things in order. He likes to maintain the order and discipline. His attachment is to home, comforts, material objects and the whole world.

Mahesh - He is the destroyer of evil. Any thing which is not going as per the law and social norm are destroyed by Mahesh. M ahesh gives attachment to people. Planets in this division show the period of troubles like accident or damages.

Sun - Sun is the life giver. He is the king and bestows happiness by granting power, authority, fame etc. A king punishes the wrong doers without mercy. The person is attached to karma yoga or his work and takes pride in achievements. It shows the light when grappling with problems. Planets in this division like to show their

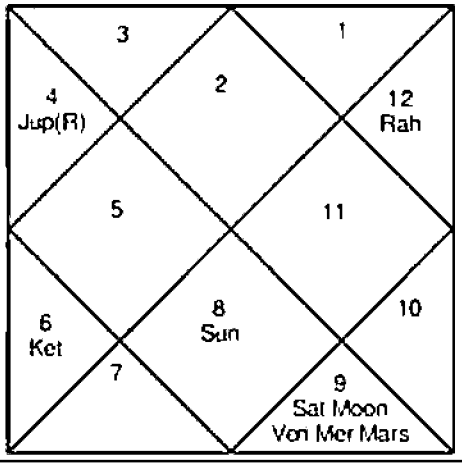

possessions and take pride in them.

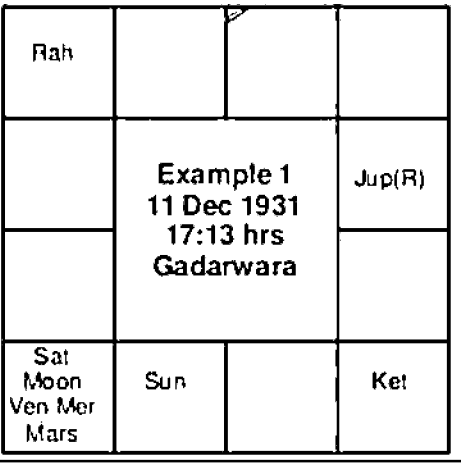

To understand shodashamsha, we have to know the tithis which are sixteen kalasof M oon.The lordship and the rituals required to be performed for fulfilment of wishesare given. These tithiscan be equated to the part of shodashamsha. These are taken from Bhavishya Puran.

For our astrological analysis of planets in shodashamsha, we find the placement of the planet in the respective division. The attributes ofthelord of thedivision decides the happiness granted by the planet.

The Lagna is the general source of happiness. It is influenced by Jupiter (wisdom, priesthood), Mercury (intelligence) and Mars (authonty). He was a great Guru having a very large following. His preachings are noble and forceful.

The Karaka of Luxuries and vehicles, Venus, is in own sign. Fourth house and fourth lord are strong. It is in Rahu/Ketu axis indicating problems also. Venus is placed in eleventh shodashamsha whose lord is Vishwadeva. It is said he had 43 Rolls Royce. The Parashah lord of Venus is Mahesh. His attachment was to people.

Moon occupies the shodashamsha of Sun and the pride is in showing the mental ability. M oon is the Lagna lord also.

The M ahadasha at birth was also of Venus promising all luxuries. The aspect of Mars on Venus and its location in Rahu/Ketu axis deprived him of the luxuries in Jupiter M ahadasha. Jupiter is lord of 6^{tn} house placed with Mercury, lord of twelfth and third.

Phaladeepika

Mantreshwar has given a different method of casting of shodashamsha chart. However the lords are same as given by Parashara.

For planets placed in odd sign, the first shodashamsha division starts from the sign itself and next goes in the direct order. For planets in even sign the first shodashamsha start from the sign itself and the next goes in the reverse order.

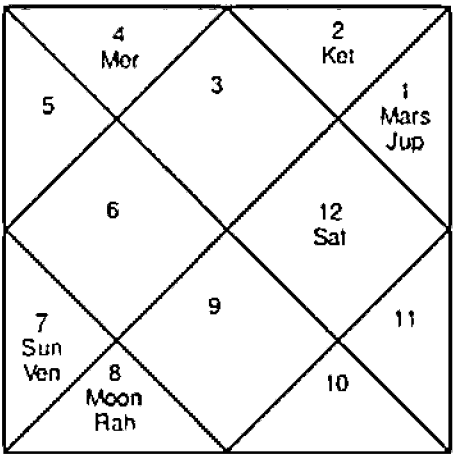

We examine the examples given under Parashah system for Matreshwar shodashamsha.

Example 1

Lagna is not occupied or aspected by any planet. Karaka of vehicle Venus is well placed in own sign in 5^{tr} house. Ihe opposition of Venus and Jupiter is forming a great Raj yoga but this marred by involvement of malefic Sun and Mars. Moon is debilitated in sixth house and is aspected by sixth lord, M ars in eleventh house in own sign aspected by fifth lord is a good Dhana yoga.

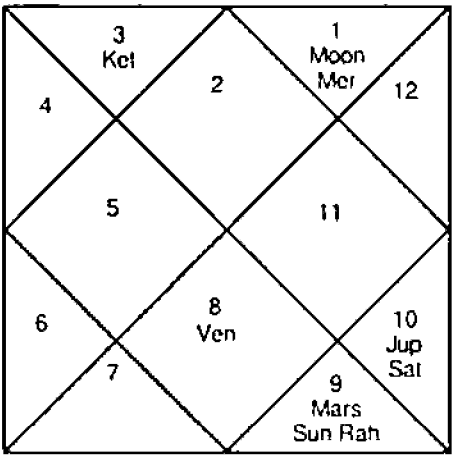

No doubt he had all luxuries in life but got problems later on.

Fourth lord Sun is in eighth house with Mars and Rahu showing denial of comforts even though it is available in life.

If we compare the Parashah D16, we find Jupiter is exalted in 9th house and is with ninth lord. In this chart Jupiter is debilitated and is again with ninth lord. Involvement of Jupiter with 9'" lord shows the spiritual angle in the inner contentment.

Example 3

Lagna is occupied by ninth lord Sun and is strong, promising good comforts with a sense of spirituality.

Fourth house is occupied by eighth lord Moon along with Rahu. Moon aspects the Lagna lord. Fourth hosue is aspected by its lord Jupiter and promise all luxuries. Trouble through vehicles is seen but

Sun in Lagna is giving protection. Eighth and fourth house relation gives near fatal accidents.

The major accident occurred in Venus/Venus. Venus is the sixth lord. Next major accident happened in Sun/Mercury. Mercury is debilitated and is afflicted by Saturn and Rahu and eighth lord M oon. Role of Sun in giving accident is not clear in Mantreshwar method.

Lagna and Lagna lord both are aspected by 12^{tr} and 3ra lord Jupiter. The third and twelfth show loss of vehicle. Fourth lord Mars is in third house confirming it.

The mutual aspect of Lagna lord and fourth lord on one side and as second lord and eleventh lord cause a good Dhana yoga giving many vehicles.

The vehicle was stolen in Satum/M oon/Jupiter and is clearly seen in this shodashamsha.

Lagna lord is in sixth house with debilitated Mars. Lagna is aspected by eleventh and second lord Jupiter along with seventh lord Sun. Dhana yoga is present. Lord of fourth house is in ninth in its own sign giving good luxuries in life.

Lord of eighth house Mercury is debilitated giving Raj yoga but its placement in maraka house is causing a great arishta due to vehicles. The other marakas are Sun and Jupiter. Both are afflicting Lagna.

The fatal plane accident occurred in M ercury/Sun.

Lagna is occupied by exalted fourth lord Mars and is good. The placement of Sun (eighth lord) and Moon (seventh lord) is causing arishta show ing danger due to conveyance. The Lagna lord is exalted in tenth house and is aspected by sixth lord.

The person is suggested not to own any vehicle. The saints know all which an astrologer cannot. It is therefore beyond our imagination/ or comprehension to asses the luxuries the saints enjoy.

Othermethod ofcasting shodashamsha - Third Version

There is another method ofcasting of shodashamsha. For planets in odd signs, the first shodashamsha starts from the sign itself and follows in direct order. Say any planet in Leo in 3rd part will occupy Libra in shodashamsha chart.

For planets in even sign, the first shodashamsha starts from fourth sign and other follows in reverse order. A planet in Cancer in 3rd shodashamsha will go to Leo in shodashamsha chart.

We now see example charts according to third version of shodashamsha

Example 1

The karakas of fourth house are Jupiter and Venus. Jupiter is lord of fourth house also. Jupiter is exalted in eleventh house and is placed with Lagna lord. Venus is in own house. Both are strong.

Jupiter isaspected by twelfth lord Sun and eighth lord Mars. Not a good position. Jupiter period deprived him of fourth house luxuries. Eighth lord Mars also aspects Venus.

Most sinister position is of seventh house. It is occupied by Saturn and is in papa kartari. Aspect of seventh lord on seventh house protects the partners who are schemers and are the enemy (Saturn is fifth and sixth lord).

This chart clearly explains the role of Jupiter.

Example 2

Lagna is aspected by its lord Venus making it strong. Jupiter is also in its own sign but with Sun and Rahu and aspected by Mars. The inner happiness is in agitated state. Moon is exalted and aspected by Jupiter which imparts great mental strength. Moon is again aspected by Mars.

Sun Jup Rah	Mer Sat

Fourth house and Lagna have no malefic PAC and assures good state of luxuries. Mars is also maraka for the attachments of life. All attachments finished in the major period of Jupiter.

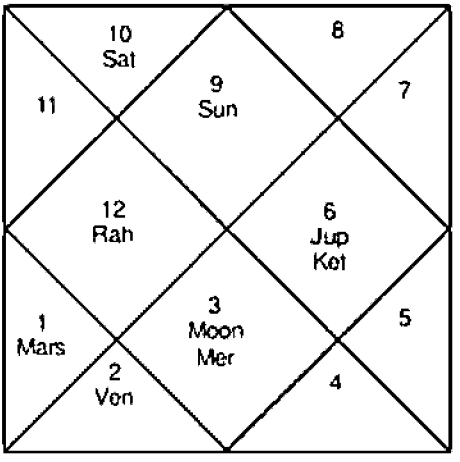

In the Parashah method Jupiter is exalted in 9" house and has no malefic conjunction or aspect. It is with lord of 9th house Moon.

Example 3

Eighth lord is aspecting Lagna and the Lagna lord is with Ketu. Combination of seventh lord with eighth lord is causing arishtadue to vehicles. Sixth lord is strong.

The accidents happened in the dasha periods of Mercury, Venus and Sun.

In comparison with Parashari shodashamsha, this version shows the arishta clearly.

Example 4

Jupiter is aspecting Lagna and the fourth lord. Jupiter is lord of twelfth house, the house of loss of conveyance. Saturn in the sixth house with Rahu and aspected by Venus and the eighth lord Mars who are first rate maraka.

The vehicle was lost in Saturn/Moon/Jupiter. Again this version give a better analysis.

Example 5

The lord of eighth house aspects Lagna which is occupied by Rahu. The lord of twelfth and seventh, Mars also aspects Lagna. As such Lagna is highly afflicted showing great problems due to conveyance.

Venus and Saturn are forming a good Raj Yoga giving her own aeroplane. The fatal accident occurred in Mercury/Sun.

Example 6

Lagna is aspected by exalted Saturn and exalted Lagna lord Mars. Mars is eighth lord also but is considered good being Lagna lord. The chart is having good Raj yoga with combination of Sun, Moon and Mars. Aspect of Mercury is detnmental and can cause accidents.

All comforts are promised.

Note

The third version seems to give better results for material possessions and arishta. However the tithi lords and the Parashah lords remain the same and give the same interpretation for this version also.

The Mantreswar method shows better timing of events and Parashah method indicate the spiritual happiness also.

The bhava whose lord is in a benefic shodashamsha will flourish

- BPHS ch7. shloka 8

D16 may reveal the up-side of an otherwise poor-looking planet. Astrologer should check the D-16 not only to ascertain vehicle karma, but also to balance their spot judgment.

The D-16 will reveal the secret benefits of a planet if there are any; and send the astrologer back to the radix in search of confirming positive aspects.

Another way of interpreting the Shodashamsha is that what are the areas in life you enjoy doing. We can see the dashamsha lord in shodashamsha. A badly placed planet in shodashamsha do not give enjoyment of its area of work. We can therfore do the works which we enjoy doing.

Vimshamsha D20

This chart is also called upasana chart. Each sign is divided into 20 equal parts resulting in 1 degree 30 minutes as the measure of each part of vimshamsha.

Parahara method

The casting is done by Parashah method. For a planet in movable sign, the first vimshamsha starts from Aries, for a planet in fixed sign, the starting is from Sagittarius and for a planet in dual sign, the starting is from Leo. In all cases the next vimshamsha occupy the next sign in direct order and so on. This is a cyclical varga.

This is a combination of getting wealth of education in foreign country, fifth lord Venus is aspected by Lagna lord Saturn and exalted M ars. This chart gives a clear picture of high education. M ars is strongest and is influenced by M ercury to give education in computer engineering.

Four charts of young boys and girls are now given. All these children have not studied beyond eighth standard. The reason behind this may be the poverty of the parents. These children are intelligent and know their household works but did not get formal education.

Note

In the Parashara method of casting, the importance have been given for Cancer and Leo signs ruled by Moon and Sun. Moon and Sun are the mother and father in this horoscope. This chart thus stands for the education given by the parents which was normally the practice for average families. Now there are so many schools and colleges and children are encouraged to study and live in this competitive world. The second method of casting D24 is extended dwadashamsha and the stress is again on parental blessings for education.

Method Three - Cyclical or Mathematical

In this method of casting, the first chaturvimshamsha stars from Aries and the next follows in direct order. We can obtain it by multiplying the longitude of planet, without sign in DI by 24. This also gives the longitude of planet in D24.

This divisional chart is also called Nakshatramsha or Bhamsha. Each sign is divided into 27 equal parts. Each division of saptavimshamsha is 1 deg 6 min 40 sec (I“6'40")

chart. The placement of all other planets in Bhamsha chart is worked out in similar way.

Ruling Deities

The twenty seven ruling deities of Bhamsha and the ruling deities of the nakshatra are same. They follow the same order in bhamsha for

all signs and starts from Ashwini Kumar for first part.

Each nakshatra represent a body part of Lord Vishnu. With this logic we can assign each bhamsha division of a sign to a body part. It can prove helpful in locating the weakness in the body and pin point the disease.

A table for ruling deities and body parts is given.

Examination

Each navamsha contains three saptavimshamsha divisions. It is thus the navamsha-drekkana chart. It is therefore the ultimate courage or pratibha granted by each planet.

Bhamsha chart is analysed for strength or weakness. It can be physical, mental or spiritual strength. The endurance of a person is also seen from this chart.

A very effective and interesting method of judging the strength or weakness involves two way analysis.

1. The strength and weakness of each planet is seen. A weak or ill

associated planet shows the weakness or problem signified by the planet. A strong er planet will give strengthto its signification. An exalted Mars in D27 gives a strong body. A strong Lagna will also give the strength and endurance. An exalted Sun in D27 will give tremendous spiritual strength. A strong Venus gives physical beauty and charm whereas afflicted Venus spoils the charm.

2. We can pinpoint the afflicted or the weakest part of the body. A weak part of body will attract disease.

The presiding deities of each saptavimshamsha division are same as the nakshatra deities. We can therefore link each division of saptavimshamsha to the corresponding nakshatra via its lord.

We also know that each nakshatra rules over a part of the body. Therefore each planet roles over a specific body part by virtue of its occupation of specific saptavimshamsha division. If this planet is associated or aspected by malefics in D27, that part suffers and is the seat of disease.

Trimshamsha D30

This chart, as the name suggests, is the one thirtieth division of a sign. Maharishi Parashara however divides the sign in five unequal parts ruled by five planets Mars, Saturn, Jupiter, Mercury and Venus. Sun and Moon are not presiding over any part. Sun and Moon are mother and father and as such cannot cause any misenes. If we see chaturvimshamsha, all divisions start from Leo or Cancer indicating that they are provider of learning.

Parashari Method

The portion of each planet in any sign is Mars 5°, Saturn 5°, Jupiter 8°, M ercury 7° and Venus 5°. For planets or Lagna in odd signs, the order of rulership is as given above. For planets in even sign, the order is reversed. For odd signs the planet occupies the odd sign of the lord of trimshamsha w here for even sign it occupies the even sign of the lord of trimshamsha.

Deities of Parashara Trimshamsha

The presiding deities of trimshamsha are Agni, Vayu, Indra, Kuber and Varun respectively for odd signs this order is reversed for even sign.

Sun and Moon are not given any lordship in trimshamsha chart.

Thus no planet can occupy Leo and Cancer in the Parashah trimshamsha. These two luminaries are higher category planets and do not contribute in the scheme of five tatwas. Five tatwas make up the physical body and are also five senses. We experience problems through the five senses and by the physical body made of five tawas. up iter and Mercury have been given the major share in trimshamsha.

Trimshamsha chart is seen for misfortunes which one faces in life. The source of misfortune is indicated by trimshamsha and we should refer to the other relevant chart to confirm it and for timing the misfortune.

M isfortune is the adversity or bad luck or sudden mishap. When every thing is going on well and some mishap, calamity, accident or reverse blow is faced by a person is seen from D30. The source of this misfortune or miseries can be natural disaster, from profession, accident, from children, family problem or property disputes etc. The trimshamsha is the indicator of these sources. A dispute of family property is to be confirmed in chaturthamsha. An income tax or CBI search is confirmed from dashamsha. A deformed child bom is seen from saptamsha. In short miseries of any aspect of life are reflected in trimshamsha and the other relevant divisional chart.

Trimshamsha is seen for moral character. Classics give the placement of Lagna and Moon in various signs and planets in trimshamsha to describe the nature and character of a female. Why it should not be applicable to a male horoscope also?

Trimshamsha also indicate the six weaknesses which a person can acquire. These are given by the planets rising in trimshamsha chart. These are Anger (Mars), Greed (Rahu), intoxication (Saturn), Lust (Venus), jealousy (M ercury) and illusion (Ketu). These w eaknesses are the obstacles in the path of worship and should be avoided.

Houses of Trimshamsha

First House - Weakness of self and the miseries i.e. the problems or happiness generated by own doings. Problems acquired in this birth.

Second House - Happiness or miseries due to the family one is born, whether you get happiness or sorrows from family.

Ninth House - M iseries arising out of disrespect to religion or guru or Gods. 0 ne should seek their blessings instead of curses.

Tenth House - Problems due to wilful wrong action. The mental attitude which give happiness or otherwise. Ihe karmas which cause it.

Eleventh House - Greed and the miseries due to greed. Ihe best solution is to avoid greed consciously and get happiness instead of miseries.

Twelfth House - Problems which one faces in foreign country. The place of hospital and sleep.

Examination of D30

1. No human is perfect and is not free from the miseries of life.
2. A strong Lagna and Lagna lord assures problem free life.
3. Malefic planets in the houses are the cause of miseries through the signification of the house.
4. This divisional chart is tatwa based. To alleviate the problems caused by a planet, one should worship the trimshamsha lord of the planet.
5. We can locate the trimshamsha lord of sixth lord and eighth lord of birth chart and perform remedial measures. The trimshamsha lord of the dasha period indicates the remedies during the dasha

period.

6. Look for a planet which is in Lagna or aspecting Lagna in rashi chart. Now, if the Lagna of trimshamsha belong to that planet, then this planet is the cause of problem. In addition, if the same planet is in trimshamsha Lagna or aspects it, then it is worst.
7. A malefic sign rising in trimshamsha and in addition a malefics is associated with Lagna in birth chart gives problems in marriage.
8. The character is seen from fourth house. For good morals, a benefic sign should be there in fourth house and without any malefic association. The fourth house should preferable be vacant. In addition the fourth house from Lagna lord of D30 should also be vacant.
9. The trimshamsha lord of Sun indicate the quality of soul (Atma). This is specially true when seen in cyclical or Varanasi trimshamsha.
10. We should look to the placement of sixth lord/and eighth lord of the natal chart to find the source of problem.
11. Placement of planets in three house of D30 are important and should be examined closely. Planets in Lagna shows the weakness acquired in current birth. The Lagna lord shows the nature of weakness. Planets, specially malefics, shows the mental weakness. The Moon sign lord indicates the source of influence on mind under which the action is done. Planets in eighth house are the weakness due to past life. The lord of eighth shows the source of this weakness.
12. The sense governed by the afflicting planet can be used to understand the cause of misfortune.

Examinations

Brihat Parashar Hora lays down -

"Timshamsha is seen for the misfortunes and Khavedamsha is seen for auspiciousness and inauspicious results.

The auspiciousness of the horoscope is to be seen from Khavedamsha. This auspiciousness can be linked to;

a. the horoscope (khavedamsha)
b. the planets
c. the houses.

In trimshamsha we analyse the planets and houses for malefic effects. The same treatment is also given to D40 for seeing the good effects. Life is not a bed of roses always. Every one has ups and downs in life. The Khavedamsha chart is therefore be seen for the quantum of auspicious promises and the inauspicious promises.

Khavedamsha also gives information about circumstances of death. Mars is the eighth lord of Kala Purush or the natural zodiac. A strong Mars in D40 gives authority and status but is bad for longevity and can give sudden death.

The happiness from professional activity is also seen from Khavedamsha. It shows your attitude towards work. The tenth lord of birth chart when strong and well associated gives happiness in work. The person is dedicated in his work.

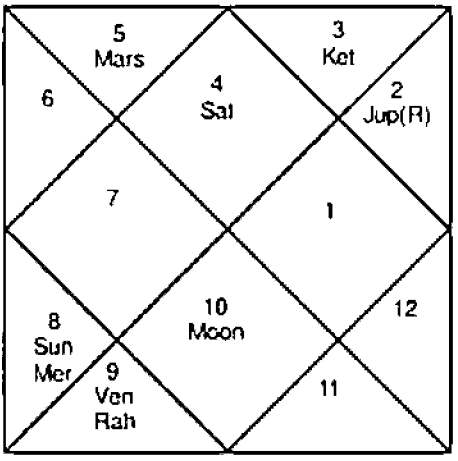

1. The higher divisional charts need a correct birth time and accurate casting of the horoscope. We cannot generally analyse D40 as an individual chart.
2. It is recommended to erect a fresh Khavedamsha chart by retaining the Lagna sign of birth chart and placing the planets in the signs occupied by them in D40. In this recasting, the lordship of planets remain same as that of the birth chart.
3. We will refer to this recasted Khavedamsha chart as D40R or Khavedamsha (R).
4. The Lagna of Khavedamsha (R) should be strong for auspicious events. The relation ofbenefics orYogakaraka planets with Lagna will strengthen it. Similarly the Lagna lord should also be dignified in D40 (R).
5. The lords of trine of birth chart should be in a distinguished status in D40. Disting uished status signify exaltation, ow n sig n and sig n of debilitation. When in debilitation, it shows a humble beginning and then rise through own efforts. Exalted planet provides a strong background and less efforts. The debilitated planets need more effort. In case the efforts are not there, success will remain a dream.
6. Sun and Moon should also be in distinguished state.
7. Lords of angles impart position and happiness. Their lords are examined in D40 (R).
8. The lords of natal trik houses should not be dignified in D40 as they will promote inauspicious quality. The sixth lord gives illness etc. The eighth lord of birth chart if exalted in D40 gives sudden death.
9. Ihe auspicious effects are modified by the ruling deity of the planet.
10. Planets involved in Raj yoga give high position in their dasha period.
11. Planets causing Dhana yoga gives wealth during their dasha.
12. Any planet brings the effects of the house of placement/lordship duimg its dasha period.
13. The houses are analysed for their significations. A strong 10th house gives good status in profession.

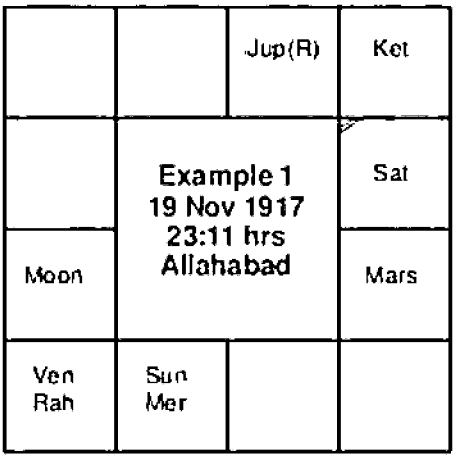

Example 1 - Indira Gandhi

Lagna is in subh kartari. Lord of fifth and 10^{tr} and yoga karaka Mars aspects Lagna. Mars is exalted. Lagna lord Moon is exalted in eleventh house. A very powerful chart.

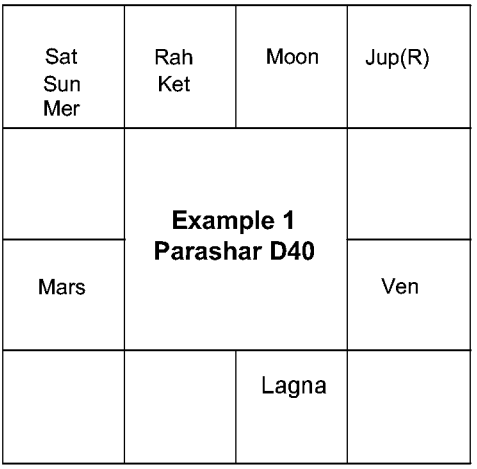

The exaltation of Lagna lord gave a good foundation for a high position. She was the daughter of first prime minister of India and she got a ready recognisation in politics without any struggle.

Tenth lord of birth chart is exalted and she was totally dedicated to her work. Exalted Mars gives sudden death.

Lagna is aspected by Mars and is not welcome. Lagna lord is in sixth again not a good placement.

Jupiter is exalted in eleventh house and aspected by fifth lord Saturn. Jupiter is the strength and makes the chart auspicious. Venus is the lord of ninth and second house. It is placed in tenth house. Venus period proved very auspicious.

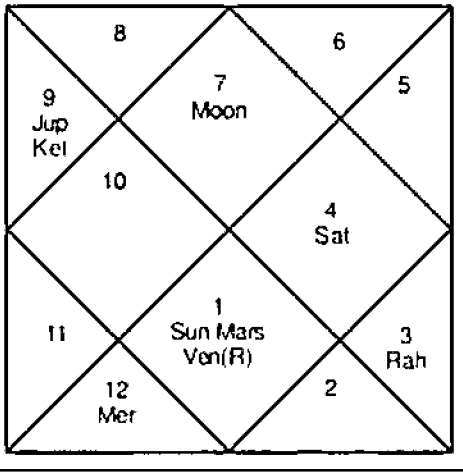

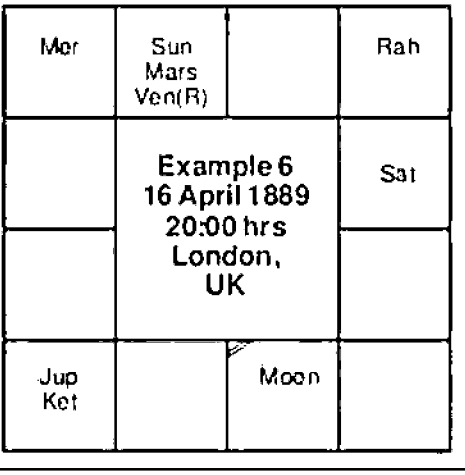

Example 6

Lagna is occupied by debilitated Sun along with Rahu/Ketu. Jupiter is also debilitated. He had to struggle in life and did not get a easy life.

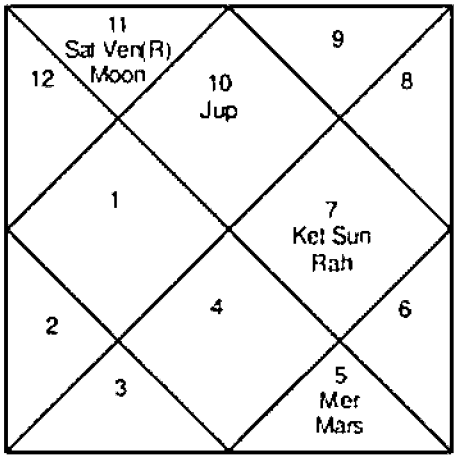

Five planets placed in five/eleven axis is the strength. Saturn is yoga karaka, Venus is Lagna lord, M oon is tenth lord, M ercury is ninth lord, Mars is seventh lord; powerful Raj yoga and have lifted the horoscope.

Saturn was the best dasha.

Mars is the other dignified planet. No planet is debilitated and start of life is good. Mars is also the tenth lord of birth chart. Mars have made him seriously involved in his work. Six planets are related to tenth house/ lord which gives him many types of work. It is a mix bag of success and failure. Strong Mars gives suddenness in life.

In this method of casting, the first Khavedamsha of planets in movable sign starts from Aries, for planets in fixed sign it starts from

Leo and for dual sign, it starts from Sagittarius. The next part occupies the next sign in direct order.

Akshayvedamsha D45

Each sign is divided into 45 equal parts. Each part is 0 deg 40 min. (0-40*). Thus the Lagna changes in less than 3 minutes of time and as such birth time has to be correct. This is also called Pancha-chatwarimsha.

Parashara

In the Parashara system of casting, for the planets in the movable signs, the first part starts from Aries. For planets in fixed sign the first part goes to Leo and for dual sign the first part goes to Sagittarius. The next parts follow in direct order.

Ruling Deities

Three supreme deities have been given the lordship of Akshayvedamsha. They are Brahma, Shiva and Vishnu. They repeat fifteen times in each sign. Their order is Brahma, Shiva and Vishnu.

For movable sign the first deity is Brahma. For fixed signs the first deity is Shiva. For dual sig ns the first deity is Vishnu. This is followed in order for each sign.

Ruling Deities of Akshayvedamsha (D45)	
Sign occupied by planet in D45	**Deities**
Movable	Brahma
Fixed	Shiva
Dual	Vishnu

We can interpret it in another way. The presiding deity for planets occupying movable sign in D45 is Brahma. Forplanets in fixed sign in D45 it is Shiva and for dual sign it is Vishnu.

For any knowerof Vedic religion, the subtle meaning need not be described. These deities impart their kindness and nature to the planet.

Examination

Parashara have recommended to consider Akshayvedamsha chart for all aspects of life. It is also seen for the character and conduct of a person. How a person conducts himself in life is evaluated from this chart. D45 lays stress on the religious path to be followed and shows the development or downfall of conduct.

Some scholars use it to predict the mantra for remedial measures.

The good or bad actions of a person evolve from the basic character and as such we should analyse the character and the conduct will follow.

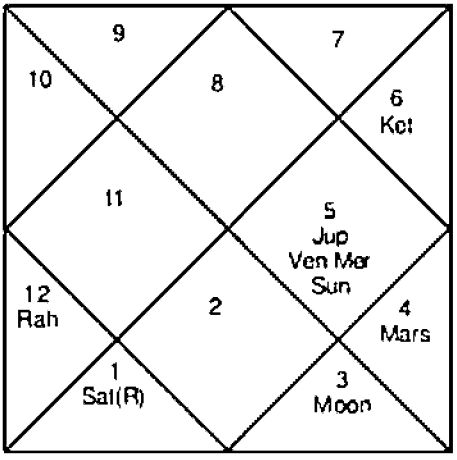

1. For analysis of D45 we need a accurate horoscope and time of birth. As suggested in analysis of D40, we recast the D45 also keeping the birth Lagna as the rising sign in this chart. This recasted chart is D45(R) and is analysed.
2. Sun isthe Atma or soul. The condition of Sun is examined first to assess the quality of soul. This is seen by the placement of Sun in a sign, association and aspect on it and house occupied from Lagna. Sun in the benefic sign and associated with benefic shows a satvik soul. The association and placement in malefic sign shows reverse.
3. M oon is (eu) or the mental moral. M oon should not be afflicted as it gives mental immorality and can be very serious.
4. The Lagna lord, third lord, sixth lord and ninth lord of birth chart are then analysed in D45. The Lagna is conscious state, third is unconscious state, sixth is subconscious state, and ninth is the super conscious state of mind. A well connected lord will create good action through that state and an afflicted lord gives bad action through that state. An ill associated Lagna lord makes a person do wrong action consciously.
5. First house, third house, sixth house and ninth house of Akshayvedamsha should have association of benefics for pure and pious thinking. M alefics association gives malicious thinking.
6. When the lords of house referred above (no. 4) are malefics and are strong then the person is strong willed and carries out his actions whether right or wrong.
7. Mercury is the intelligence. A retrograde and afflicted Mercury gives criminal tendencies. A benefic Moon is the protection. When Moon is also spoiled along with retrograde and afflicted M ercury, a criminal is bom.
8. Fourth house is the house of character. It should have benefic association for pious character.

Cyclical or Mathematical

This method of casting is like navamsha casting. For the planets in fiery sign, the first part start from Aries, for planets in earthy sign the first part starts from Capricorn, for planets in airy signs, the first part starts from Libra and for planets in watery sign the first part starts from Cancer. The subsequent divisions follow in direct order. A simple way to remember is to start the D45 counting from movable signs of the trine.

Shashtiamsha D60

Shashtiamsha is the one sixtieth division of a sign measuring 30 minutes each. This is the last divisional chart in the Parashah scheme of shodasvargas.

Parashar Method

In the Parashah casting of this chart, for a planet placed in any sign, the first shashtiamsha starts from the sign itself. The other shashtiamsha, follow in direct order. Thus all the twelve signs repeat five times in a sign.

A quick method of finding a planet's placement in D60 is given. Multiply the longitude of the planet (ignoring the sign) by two. Add one to the quotient. (This figure is also used to locate the shashtiamsha deity from the table given later).

Expunge multiples of 12 from this quotient and retain the number when it is 12 or less than 12. Count this number from the sign occupied by the planet in birth chart. The sign so arrived is the sign occupied by the planet in shashtiamsha chart.

For example, Sun is placed in Gemini 20 degree 40 minutes. M ultiplay $20^{2}40'$ by two resulting in 41°20'. Add one to 41 to get 42.

Expunge multiples of 12 from 42 to get 6 as the remainder. Counting six from Gemini, we arrive at Scorpio. Sun is placed in Scorpio in D60.

Examination

Shashtiamsha is seen for all aspects of life like the birth chart.

Parashara has given shashtiamsha chart more importance than the birth chart or navamsha. In dasvarga scheme, the weightage given to shashtiamsha is 5 as against 3 for Rashi chart and 1.5 for navamsha. In the shodashvarga scheme, shashtiamsha weightage is 4 as against 3.5 for rashi chart and 3 for navamsha. Parashar clearly instructs us to study D60 and not to ignore it.

To treat shashtiamsha as an independent and important chart, we must have a correct birth chart. This is not the case in high percentage of horoscopes available to us. The best way is to recast the

D60 chart with the birth Lagna and placing the planets in signs occupied in D60. This recasted chart is D60R and will be used in our discussions.

1. The sign and house occupied by a planet in D60 is important. Any planet occupying a malefic shashtiamsha suffers. What are malefic shashtiamsha? These can be —

a. Signs of natural malefics like Mars and Saturn.
b. The signs falling in trik houses.
c. Planets whose shashtiamsha deities are malefic.

2. The Yogas formed in D60 have a major influence on the destiny. We must look for all types of Yogas given in any standard classics and draw the conclusions.

This chart of USA have been used by Sh. K.N. Rao. Working upto shashtiamsha division proves the correctness of chart beyond doubt.

Readers are requested to venfy the D45 chart for condition of M ercury and M oon to further confirm the correctness of chart.

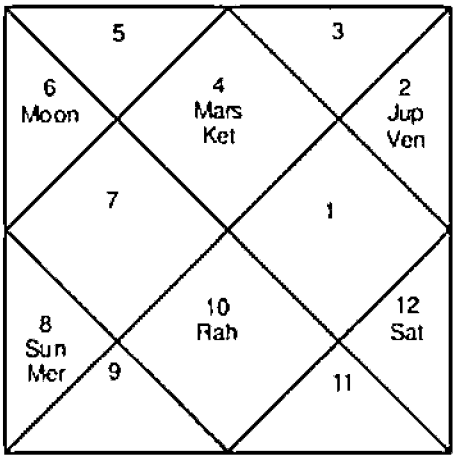

The recasted shashtiamsha chart is having excellent yogas. We therefore analyse D60R. This also helps when birth time is not so accurate and still we can use this finer division.

The shashtiamsha chart must be seen before any prediction is given. It reveals the real potential of the horoscope.

Other Methods

Sh. D.V. Subba Rao in his book Jyotisha Siddhantham gives another version of casting the shashtiamsha chart. It states that for a planet in odd signs, the counting starts from Aries and in direct order, for planet in even sign, the counting starts from Pisces and in indirect order.

The third version is devised on the clues given by Parashara. The deities for shashtiamsha are in direct order for odd signs and in even sign these are in reverse order. Some scholars interpret it to mean that the counting should be in reverse order for planets in even sign and in direct order for odd signs. The first shashtiamsha starts from the sign occupied in birth chart.

Panchamsha D5

For this divisional chart, each sign is divided into five equal parts of six degrees each.

Cyclical

For planets in movable sign, the first panchamsha occupy the sign itself. For planets in fixed sign, the first panchamsha occupy the fifth from the sign. For planets in dual sign, the first panchamsha occupy the ninth from the sign. The next panchamsha occupy the next sign in direct order and so on.

Hadda

Some call this as the standard method. This method of casting is like the casting of trimshamsha. For casting of this panchamsha, each part is equal and is under the domain of five planets except Sun and Moon. In tnmshamsha, the divisions are not equal but the domain is again of five planets. For odd signs the sequence is Mars, Saturn, Jupiter, Mercury and Venus. The order is reversed for planets in even sign. Planets in odd sign in rashi chart occupy the odd sign of the domain lord. Planets in even sign in rashi chart occupy the even sign of the domain lord. The signs of Sun and M oon are always vacant in panchamsha. This D5 is given by most of the astrology software.

Ashtamsha D8

Each sign is divided into eight equal parts each measuring 3°45'.

Cyclical

In this method of casting, fora planet occupying movable sign in rashi chart, the first ashtamsha goes to Aries. For a planet in fixed sign, the first ashtamsha goes to Sagittarius and fora planet in dual sign, the first ashtamsha goes to Leo. The next ashtamsha follows in direct order and so on. This is the standard method of casting.

Dr. B.V. Raman have advocated another method of casting ashtamsha. For planets in movable sign, the counting starts from Aries. For planets in fixed sign, the counting starts from Leo and for dual signs the counting is from Sagittarius. The next ashtamshas follows in direct order.

Tenth House - Obstacles or death to brothers and sisters, legacy gained by them, trend of events.

Eleventh House - Inheritance from mother, family disputes, vehicular accidents.

Twelfth House - Problems to children, perverted thinking, sudden gains from speculation, and losses in profession.

Examination

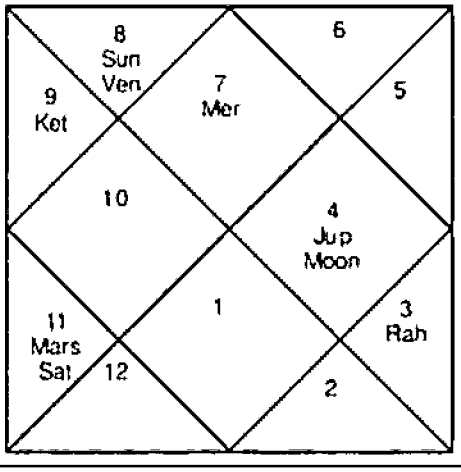

Almost every person has a story to narrate about the sudden events of his life. It is also true that no one is immortal and has his own life span. Thus ashtamsha chart is important as it can show the magnitude of events which will take place in life time and whether it will be happy events or unhappy events.

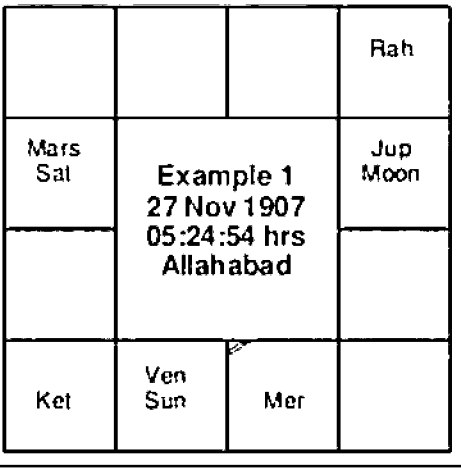

1. A strong Lagna of ashtamsha gives sudden events in life. On the other hand a weak Lagna is also not welcome since it gives no resistance to face the adversanes of life.
2. When eighth lord of ashtamsha chart is strong, the life is smooth.

A weak eighth lord is an indication of short life.

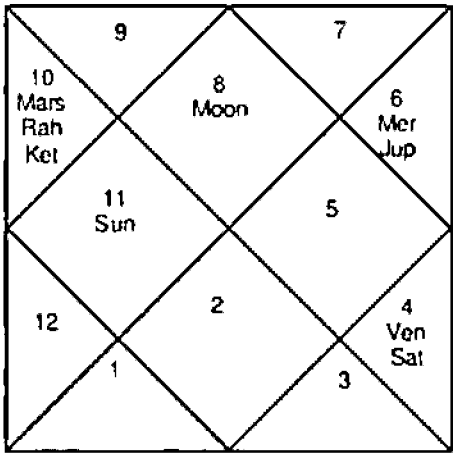

3. The condition of tenth house indicate the trends of sudden events. A well connected tenth house with benefics or own lord give pleasant events.
4. When sixth lord of birth chart is afflicted by Rahu, Ketu or Saturn, in D8, the person suffers crippling disease like cancer etc.
5. The eighth lord of the birth chart when similarly afflicted by Rahu, Ketu or Saturn, gives serious physical accidents.
6. Association of eighth lord of ashtamsha chart indicate the success or defeat in undertaking. An eighth lord with malefics or aspected by malefics or in papakartari hands down defeat or failure in the undertakings.
7. Look for planet who is afflicted by Rahu, Ketu or Saturn in ashtamsha chart. The significations of the house which this afflicted planet owns gives death or chronic disease to the relative. For example Mars is with Rahu/Ketu and aspected by Saturn. Mars is the lord of seventh house. The spouse will be short lived or may suffer chronic disease.
8. Twelfth lord of birth chart shows the confinement. It may be hospitalisation or prison or kidnapping. An afflicted twelfth lord of birth chart gives confinement.

Labha is also greed. This chart thus shows the greed of a person. The result of greed is not always happy one.

The important charactenstic of this chart is suddenness or the happenings which are not expected.

This is used to predict the natural calamities like earthquake,

terrorist attack using the charts of nations. This can be used to predict wars etc.

1. Jupiter is the significator of expansion and happiness. A well placed strong Jupiter is essential for all gains.
2. Presence of Dhana Yoga along with strong Lagna ensures inflow of all type of wealth.
3. The Indu Lagna of birth chart is seen in ekadashamsha. Make Indu Lagna as the Lagna in Dll and analyse for wealth.
4. The planets assuring wealth or sorrows gives it during its dasha. The source will be the placement and lordship of such planet.
5. Easy money can upset the mental balance. Moon should be strong to remain in good mental balance.
6. For outcome of new ventures, the dasha running be checked in relation with 10^{tr} lord in ekadashamsha.
7. For promotions the dasha penod is checked with Sun and 10^{tn}

lord.

8. Check the placement of dasha lords. Hie house occupied by them gives the gains of significations of the house. For example planet in 4th house gives property.
9. Akai Mrityu is also seen from Dll. When Lagna and the eighth houses are afflicted, it causes sudden death in the dasha periods of planets involved.
10. In mundane astrology ekadashamsha indicate the success or failure in wars. It can be made use to predict outcome of a dispute or court cases.
11. Planets in kendras and trines impart wealth.
12. When Lagna is occupied by malefics and simultaneously some other house also have malefics then the house suffers. If malefics are replaced by benefics, there is gain.

Higher Divisional Charts

In Brihat Parashara Hora Shastra, Shashtiamsha is the highest division of a sign. There are other higher divisional charts which mainly originated from Nadi astrology.

Other higher divisional charts, apart from nadi, are basically the combinations of parashah divisional charts. Forexample Nav-Navamsha is the navamsha of navamsha or D81.

We can manufacture many divisional charts. The method is to workout one chart of the combination and calculate the longitude of the planets and Lagna for the first chart. Using this first divisional chart, we erect the next divisional chart of the combination. For example we want to prepare D144 i.e. dwadashamsha dwadashamsha chart. From birth chart, we construct the first dwadashamsha chart, it may be Parashah or cyclical. Calculate the longitude of planets and Lagna for this dwadashamsha. Method of calculation of longitude is given in the earlier chapters. With this longitudes of first dwadashamsha chart again cast the second dwadashamsha to give D144. We can get three sets of D 144. These can be parashah/ parashan, parashah/ cyclical and cyclical/cyclical.

Generally the following higher divisional charts are in vogue.

1. Ashta Navamsha (D72)
2. Nav-Navamsha (D81)
3. Nav-Dwadashamsha or Ayuamsha (D108)
4. Dwadashamsha-dwadashamsha (D144)
5. Nadi Amsha or Chandra kala amsha (D150) and Ardha Nadi Amsha (D300).

For using these divisions, the time of birth will have to be accurate. The Lagna will not be reliable if the time of birth is not correct to seconds, then we cannot rely on these charts. The interpretation should therefore be restricted to the strength of planets and the aspects. These charts are sometimes used for rectification of birth time and in that case we can rely on these charts after correction.

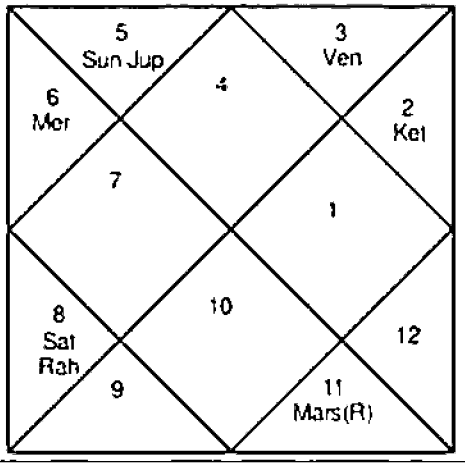

Ashta Navamsha

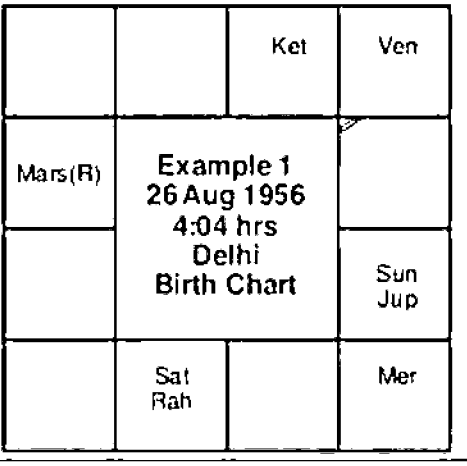

It is a combination of ashtamsha and navamsha. It can be

interpreted as navamsha of ashtamsha. Navamsha is the eternal chart. Thus one meaning is that eternal nature of ashtamsha. Ashtamsha is seen for longevity, accident etc. The D72 will therefore indicate the micro analysis of D8.

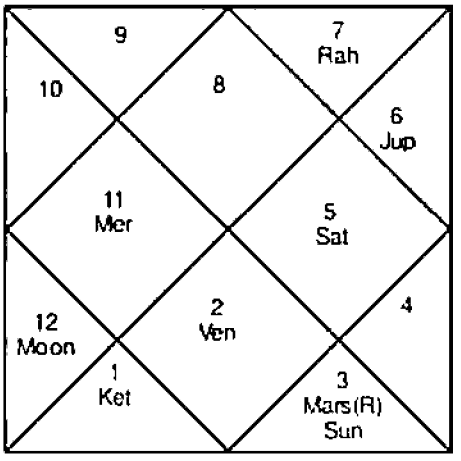

The other interpretation can be from navamsha. Navamsha is seen for all things of life and specially for marriage related matter. D72 will then indicate the longevity or sudden events of marriage.

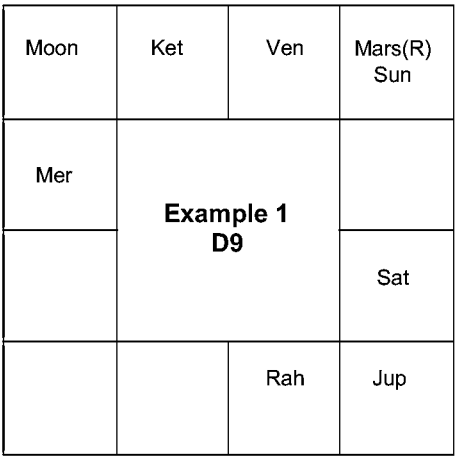

Example 1

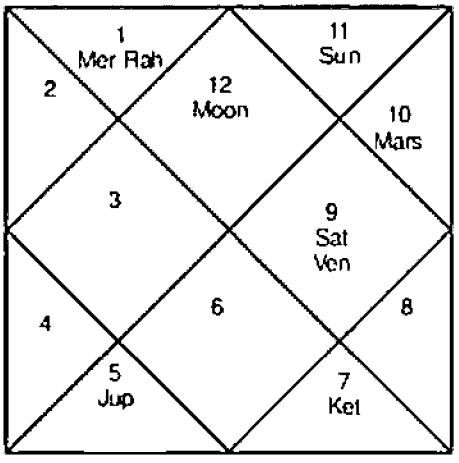

Lag	Sun	Moon	Mars	Mer	Jup	Ven	Sat	Rah

We analyse D72 for longevity of marriage and spouse. Seventh lord is placed in 2rc house i.e. eighth from seventh. It is with Rahu and aspected by Mars and Jupiter.

Seventh house is afflicted by Saturn. The eighth house of longevity of marriage has Ketu. Eighth lord is again afflicted by Saturn. Married life lasted less than six years.

Nav-Navamsha

This is eig hty one d ivisions of a sig n. The navamsha of navamsha indicate the strength of planets of navamsha. There can be many version of D81 depending upon the navamsha style used. There are

Moon Mars	Sat Ket	Sun	
Mer Ven	**Example 1 D81**

three types of navamsha namely, Parashah, Jaimini and Kaal Chakra. We can make combination of any two styles or use the same navamsha twice. We workout the Parashah D81 and see the strength of planets of navamsha chart for the horoscope given in example 1.

Can we treat it as ultimate marriage chart! Lagna is heavily afflicted by Rahu, Saturn and M ars. Problems in marriage. Lagna lord is well placed in fifth house and with ninth and twelfth lord Mercury. As ninth lord with Lagna lord, it shows a marnage with an influential person. With twelfth lord, the separation is seen.

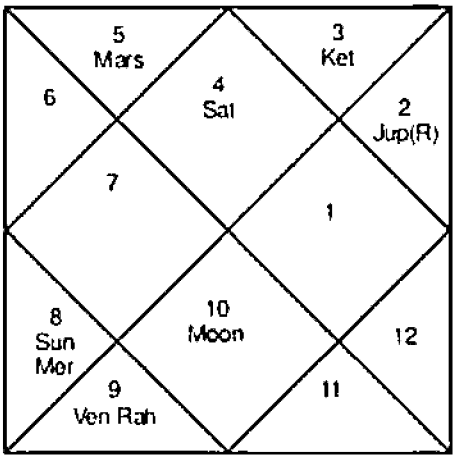

Her husband died on 23 June 1980 in the dasha of Venus/ Mercury/Ven us. Both are eighth and twelfth lord.

One part of this divisional chart is 22.22 minutes of longitude. Duration in which one divisions rises is approximately 80 seconds and as such the reliability of Lagna is not there.

Navamsha-d wad as hams ha

One hundred eighth division of a sign. Each division is 16.67 minutes of arc of longitude and changes every minute of birth time.

This can be treated as navamsha of dwadashamsha. The other meaning is dwadashamsha of navamsha. It can therefore be referred to the navamsha of parents chart. The other meaning is the parents of the spouse and lineage.

For casting dwadashamsha chart, we have three methods. If we take only Parashah navamsha, we can arrive at three types of D108 charts. Similarly we can cast navamsha in three different ways. We threfore can get nine vanations of D108. We will discuss only the Parashah navamsha-dwadashamsha.

Let us discuss the chart of Indira Gandhi.

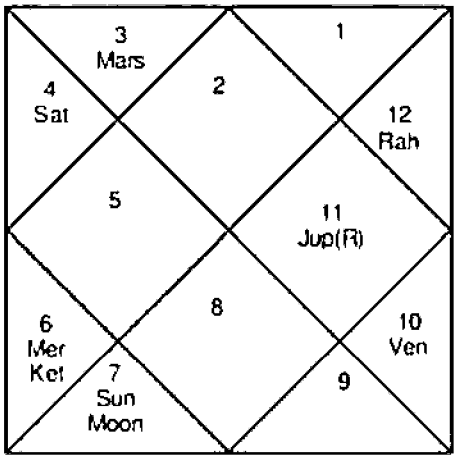

First we discuss the casting of charts. First step is to workout the longitude of navamsha chart. Lagna is 27 deg 26 min 45 sec. We can use two methods. In method 1, we multiply the degrees/min/sec by 9 leaving the sign.

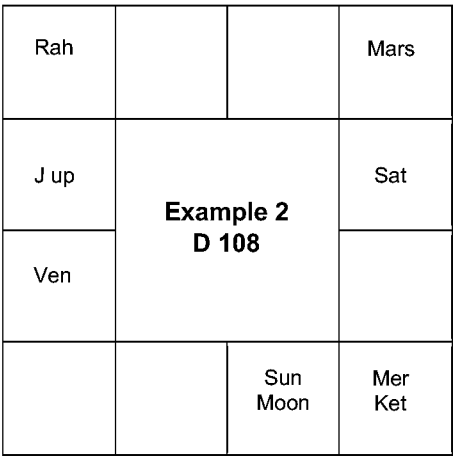

45 sec. x 9 = 405 sec = 0 deg 6 min 45 sec

Lag	Sun	Moon	Mars	Mer	Jup	Ven	Sat	Rah
07°00'	07°07'	20°19'	27°22'	29°04'	24°01'	09°03'	16°05'	22°50'

26 min x 9 = 234 min = 3 deg 54 min 0 sec

27 deg x 9 = 243 deg = 8 sign 3 deg 0 min 0 sec

total = 8 sign 7 deg 0 min 45 sec.

Ignoring signs we get the longitude as 7 deg 0 min 45 sec. The sign is available to us. Actually the sign arrived at is the number of completed navamsha.

Second method is easier. Expunge the completed navamsha. Deduct this completed degree from the degrees of planet, multiply the remainder by 9. For Lagna degrees of 27 deg 26 min 45 sec, the navamsha completed is eighth which ends at 26 deg 40 min. Subtracting this completed navamsha from the longitude we get 0 deg 46 min 45 sec. multiply it by 9.

45 sec x 9 = 405 sec = 0 deg 6 min 45 sec

46 min x 9 = 414 min = 6 deg 54 min 0 sec

Adding = 7 deg 0 min 45 sec

The navamsha Lagna is Pisces 7 deg 0 min 45 sec. We use this for calculating dwadashamsha. Complete D108 is given on previouspage.

The D108 is the dwadashamsha of navamsha. The spouse is seen from seventh house of navamsha. The lord is Mercury. Now Mercury is exalted in D108. It is afflicted by association of Ketu and aspect of Mars and Saturn. This tells the story of mamage partner who was an exalted person under the aspect of malefic.

We can now analyse it as navamsha of dwadashamsha. We examine the strength of significator/ lords of parents in dwadashamsha and check them in D108. The karaka for parents are Sun and Moon. Sun is debilitated but with neecha bhanga. Moon is also with Sun. Both are aspected by Jupiter.

Ninth house represent father. Ninth lord of dwadashamsha is Saturn. Saturn is placed in enemy sign and aspected by Venus. For mother take fourth lord of dwadashamsha i.e. Sun. We see Sun in D108. Sun is debilitated and she was from a middle class family and died young.

Sex of horoscope

Dwadashamsha-navamsha is also used to check the sex of the horoscope and to do minor corrections in birth time. An odd Lagna rising in D108 shows a male birth and an even Lagna rising shows a female birth.

The adjustment of time of birth to achieve the odd or even Lagna of DI can be either added or deducted from the time of birth. For day birth, the correction should be added. For night birth the correction is to be deducted. The position of Sun is also considered. Sun remains in nothem course from Capricorn to Gemini and in thesourthem course from Cancer to Sagittanus. These are also called Uttarayan and Dashinayan.

Uttarayan and day birth = Add the correction

Uttarayan and night birth = Deduct the correction

Dashinayan and day birth = Add the correction

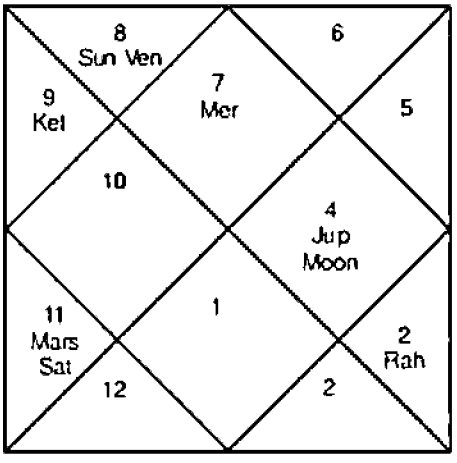

Dashinayan and night birth = Deduct the correction

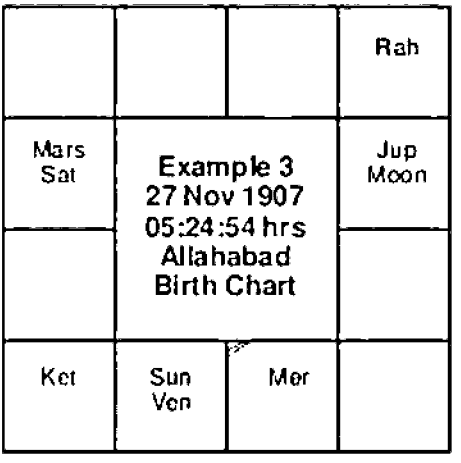

This rule of adjustment of birth time may not work in every case. Best way is to adjust the time of birth to nearest D108.

The Lagna of D108 in example 2 of Indira Gandhi is Taurus which is an indicator of female birth.

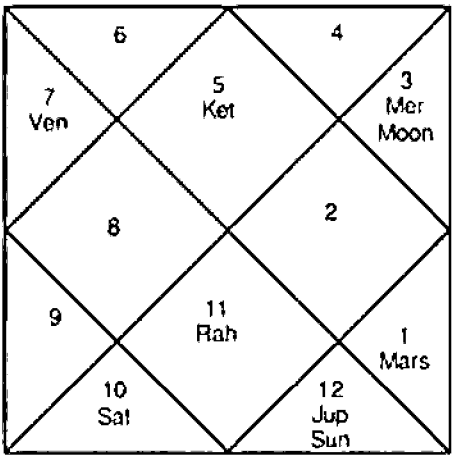

Dwadashamsha-dwadashamsha (D144)

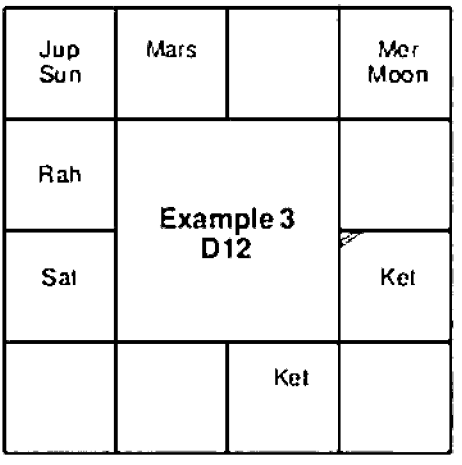

Each sign is divided in 144 equal parts. Each part is of 12.5 sec of

arc of longitude,

Dwadashamsha chart is seen for parents and lineage. D144 is the dwadashamsha of dwadashamsha and is the chart of forefathers. Rahu and Ketu are the links of past and future. Rahu stands for paternal forefathers and Ketu for maternal forefathers. The condition of Rahu and Ketu in D144 is required to be examined. Dwadashamsha is erected in two ways. For erecting D144 we can use any method of casting i.e. Parashah or cyclical. From birth chart we erect the dwadashamsha chart of choice. In this first dwadashamsha, we find the longitude of planets and Lagna. The method is already explained. Now treat this first dwadashamsha chart as the base for erecting the dwadashamsha chart again. The result is dwadashamsha-dwadashamsha.

Rahu	22-27-22	20-00-00	02-27-22	24—324-264	29-28-24

The sign occupied by Lagna and planets in dwadashamsha is available. We calculate the longitudes in a tabular form for better understanding of method.

Using these longitudes in first dwadashamsha chart we erect dwadashamsha for the second times to get D144.

Ketu is with two benefics and Sun. Rahu is also aspected by these two benefics. The lineage is auspicious.

Nadi Amsha

This is 150division of a sign. Each division is of 12 min of longitude. This is also called Chandra Kala Amsha. There are sixteen kalas of Moon and if we divide each sign in sixteen vargas we get 150 divisions and hence the name Chand rakala.

Each Nadi is further divided in two equal parts of 6 min each. First part upto 6 min is termed as porva bhaga and the second is termed as uttara bhaga or para bhaga. This makes three hundred ardhnadiamshas.

Convert the longitude without sign of a planet or Lagna into minutes. Divide this by 12 and add 1 to the quotient. The number so arrived is the number of nadi. For example longitude of a planet is 15 deg 22 min. Converting into minutes we get 922 minutes. On division by 12 we get 76.833. Seventy seventh nadi is running. This is one method. Some nadi books give unequal division for each nadi.

For planets in movable sign, the counting is from 1st nadi and is in direct order. For fixed signs the counting starts from 150" nadi and in reverse order. For dual signs counting starts from 76th nadi in direct order.

Each nadi has a codal name. Each cod al name has a meaning and may be the clue for prediction, unfortunately the details of the effect of these nadi amsha are not available. Given below are the names of nadi with degrees for ready reference. This table is given with unequal as well as equal span of nadis.

Nadi amsha is the seed of destiny. Many scholars opine that the correct nadi amsha is a must for correctness of horoscope.

Nadi have different meanings which are 1. Breath or Swara, 2. Pulse as used in Ayurveda, 3. Nadi in marriage matching and 4. in astrology as arc of longitude.

The Nadi amsha have been used to determine the sex of the person. Ihe arc of nadi is of 12 min and the half of it is only 6 min which changes in 24 seconds of time on average. It is therefore practically not a reliable tool.

The nadi literature gives details of nadi placement along with other vargas. It is available in Chandra kala nadi and have 275000 readings.

Other Amshas

We can devise many other amshas by combining any two vargas of shodasvarga. For example if we take dashamsha for profession. Combine it with navamsha to give D90. This chart is navamsha of dashamsha i.e. the ultimate of dashamsha or it is dashamsha of navamsha which may mean profession of spouse.

The list is very long.

Linking of divisional Charts

Inter relation of the divisional charts is a very interesting area and gives fascinating results. It is rewarding and the information one can derive is endless.

We can divide this linking of charts in two groups.

1. Charts of one individual.
2. Charts of different individuals.

One Individual

Different divisional charts of a person indicate a specific areas of the life. For example DIO stands for the profession or the actions (Karma) a person does. How the profession is linked to his happiness, then the D16 chart is to be seen. To check his karmas with his spiritual pursuits, we link it with D20. We can group these relations in many aspects of life.

To give an idea how this exercise can be conducted, we tabulate the linking of DIO with other charts of one individual. We note that the tenth house of DIO is the karma house and the Lagna is the body of Karmas. The planets influencing the 10th house/lord are taken in DIO as indicator of Karma.

These indicators are —

1. Planet in tenth house.
2. Lord of tenth house
3. Planets aspecting tenth house/lord.

Next is to examine these planets in the other charts and their relation with the significator house or Lagna of the other divisional chart to draw the conclusion.

The significator planet of dashamsha should be -

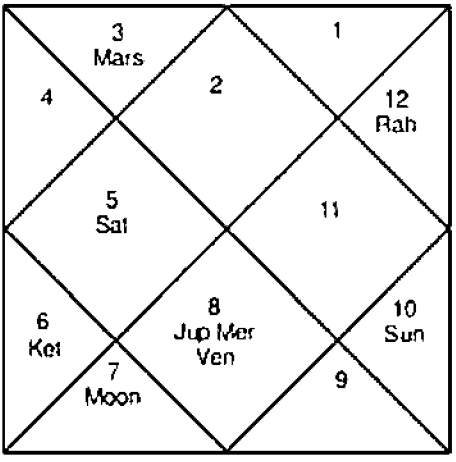

a. Related the significator house/Lagna of the other divisional chart to promote the divisional chart by actions.
b. When placed in kendra, trikona, third or eleventh house acts favourably for the divisional chart.
c. When placed in sixth, eighth or twelfth house gives unfavourable

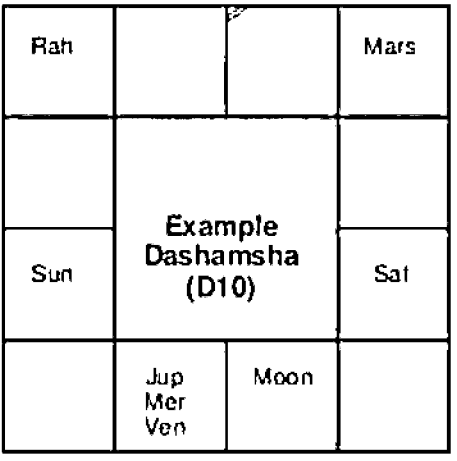

results of the divisional chart by own action.

We consider the following dashamsha chart and link this to other varga charts to understand the relation. Example DOB 12 Oct 1931; TOB 07:55:22 Hrs. POB Machilipatnam

Dashamsha (DIO)

Tenth house is Aquarius and aspected by its lord Saturn. No other planet is aspecting or placed in tenth house. Thus Saturn is the significator planet of Karmas.

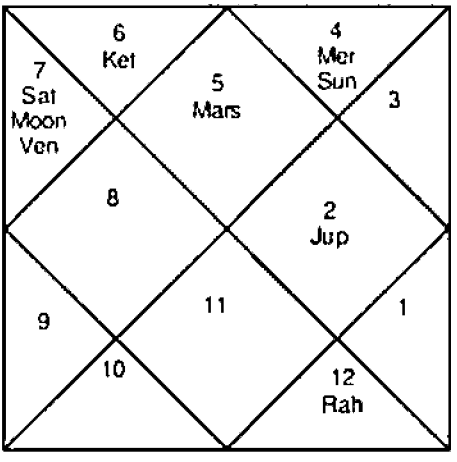

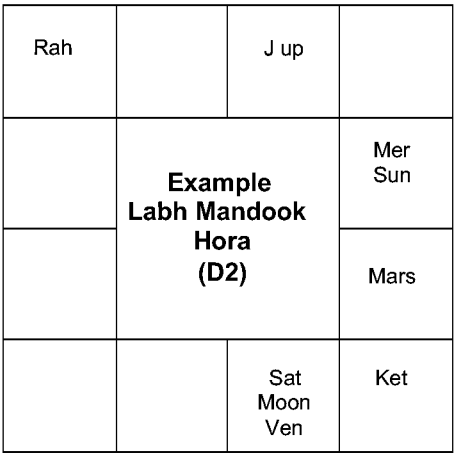

Hora

The Labh Mandook hora is considered since it shows the material aspects of life.

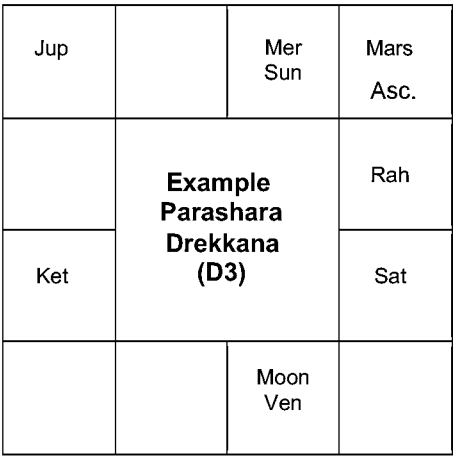

Saturn is exalted in third house and is with third lord. The material earning is by hard work and at a place away from the birth town.

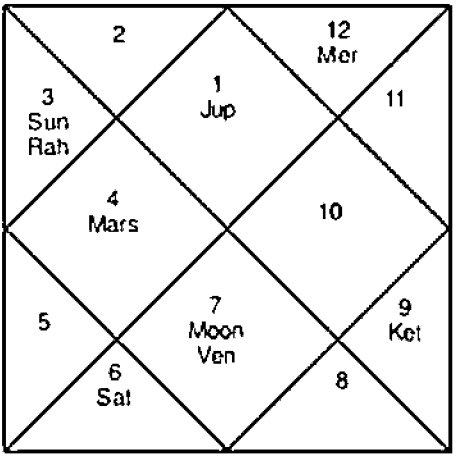

Drekkana

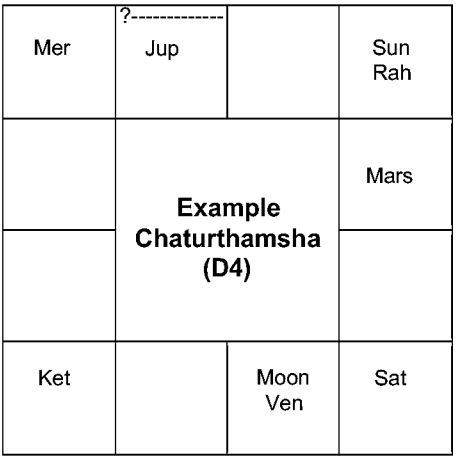

The linking of actions or karmas towards cobom is seen. Saturn is in third house and is the house of younger ones. The karmas of the person are favourable to the younger ones and force them to show courage and drive in their life. He is helpful to younger coboms. Saturn is in enemy sign which also indicate problems to immediate younger cobom. Eleventh hosue is the elder cobom. Saturn is in fifth from eleventh house. He is like a child to his elder cobom.

Chaturthamsha

Saturn is placed in sixth house and is not a good position. The actions do not favour possession of property or the inclination to own properties is not present.

In a similar fashion we can interlink other divisional charts of an individual. We can take saptamsha i.e. the siblings and link it to dwadashamsha for relations of your children with your parents. Compare it with navamsha to check the relation of children with your spouse etc.

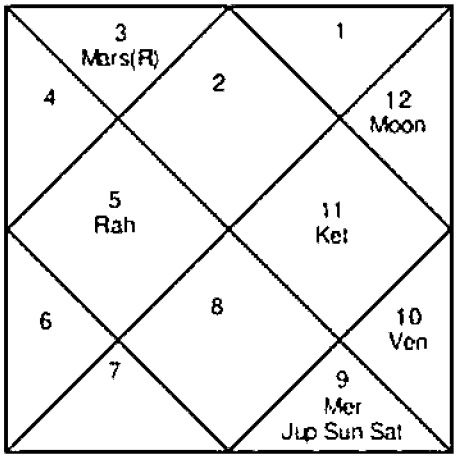

We can link any divisional chart with others and the number of such comparisons is very large.

Charts of members ofa family

The related divisional charts of members of a family are linked to understand their mutual relation in different aspects of their lives and how they influence each other.

For example we take the horoscope of a member of a family say the father. We wish to examine the relation of his children with other members in the family. The saptamsha chart of father indicate the children and the Lagna of saptamsha is the general significator of children.

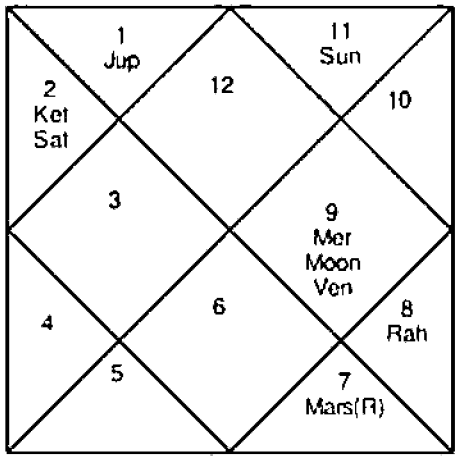

We check the relation of children with other members of the family of father. To check the relation of his son with the brothers and sisters of father we will take drekkana chart of father.

Charts of different individuals

a. Husband and wife

The navamsha charts of the husband and wife are mutually examined to check the relationship between them. The seventh lord

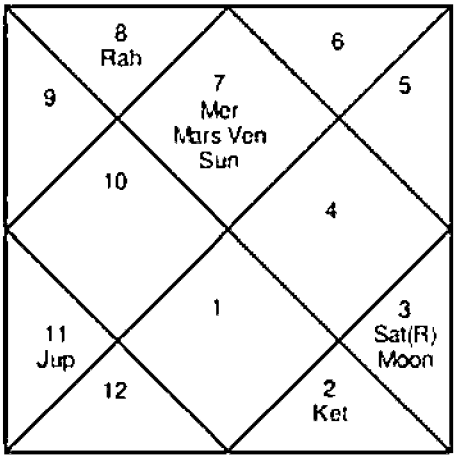

of the navamsha chart holds the key for this analysis.

Example 1

The seventh lord of navamsha of husband is Venus. This Venus is checked in navamsha of wife. Venus is exalted in sixth house and aspected by sixth lord from twelfth house. This husband is not happy with the gid. Venus is aspected by Jupiter from twelfth house. Husband enjoys an exalted status from wife.

Seventh lord of navamsha of wife is Mars. Mars is seen in the navamsha of husband. M ars is exalted in navamsha of husband and is in third house i.e. ninth from seventh. Mars is not aspected by any planet. The girl loves the boy. Wife also enjoy exalted status from husband.

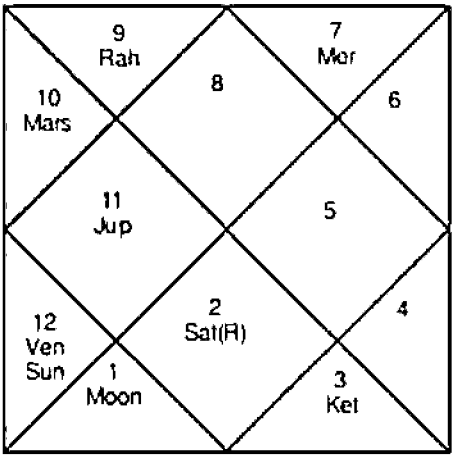

Ihe boy has filed for divorce which the gid could not even believe.

The seventh lord of navamsha of wife is Jupiter. Jupiter is placed in the fourth house of navamsha of husband. Again a good position and wife is the giver of happiness to husband.

want to grab all assets of their parents during their life time. Children are afraid that the parents may g ive the property to some one else or donate it. Bad behaviour of children grows from this frustration and the parents on other hand want to be looked after well. All is the result of loss of social values and the loss of good sanskara.

We take up a case of a mother having two sons and a daughter. She owns good property. Younger son created problems in settlement and case was decided in court of law.

Fourth lord of chaturthamsha chart of mother is Saturn. We relate this Saturn in the chaturthamsha of children.

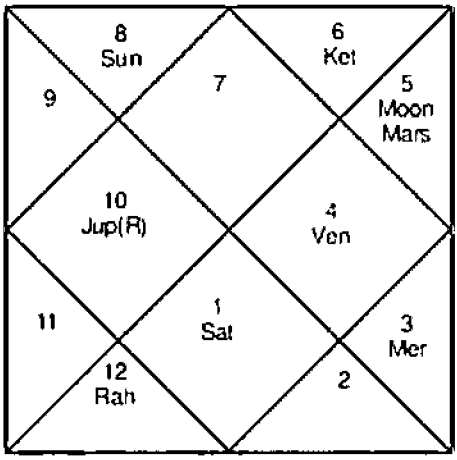

The eldest son has Saturn in the Lagna of chaturthamsha chart. Saturn is debilitated and is retrograde which signify the sacrifice. He stood with his mother in the dispute. M other is living with eldest son. He got the biggest share in the property.

get a major share.

c. Business relations

This interlinking can be done to examine the common interests of two persons whether related or not. Mostly the mutual relation is for business partnership or friendship for happiness.

For business relation we can relate the dashamsha chart of both and see the relation of tenth house/lord of one chart in another chart. This linking can be very useful tool for an employer to asses the horoscope of an employee for his useful work.

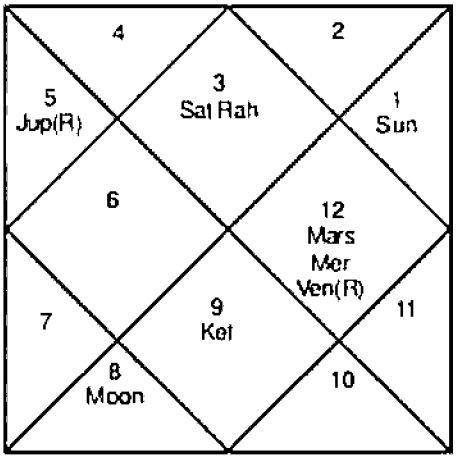

We can relate the two persons for happiness or cordial relations by comparing the shodashamsha charts. The Lagna and the fourth houses are related to assess the mutual happiness.

Example - Employer - Employee

We give example of employer and employee to understand the mutual trust in the business relations. This chart is of a employee who was with this employer for more than 18 years till the business was shut down.

Tenth lord of employers DIO chart is M ercury. Take this M ercury to the employee DIO. Mercury is debilitated in second house and placed with Lagna lord Saturn. Mars is tenth lord and aspects Mercury. The employee is dedicated being connected to Lagna Lord and tenth lord. The employee had a humble start with this employer.

Now to see how the employee was treated by employer. The

tenth lord of employee DIO is M ars. Take this Mars to the employers DIO chart. Mars is in kendra and aspecting tenth house. Mars is with eleventh lord Moon and aspected by exalted Saturn. The employee is treated well. The mutual trust is present.

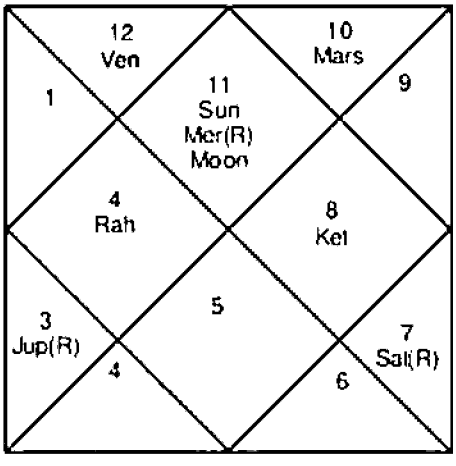

d. Guru/Disciple

Another linking can be of vimshamsha charts for spiritual support. The charts of MasterfGuru) and the disciple can be a good example.

Example

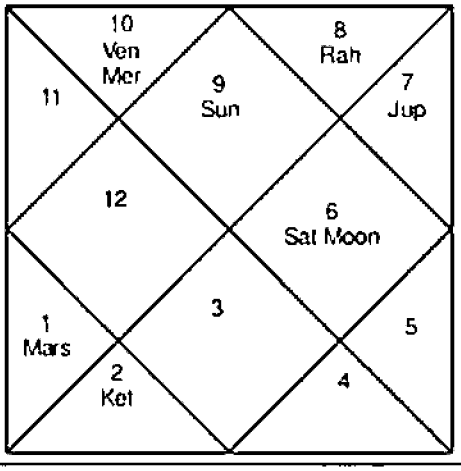

The Lagna of both vimshamsha chart are of the same trine.

Fifth lord of Guru is same as the ninth lord of disciple. Ihe ninth lord of Guru is Saturn. Saturn and Mercury are well related in both
