Predicting through Jaimini Astrology

V.P. Goel

About the Book

Jaimini system of astrology is fascinating method. It is a great predictive tool for astrologers. Combined with Parasara system we can double check the horoscope and give good predictions. Jaimini sutras have been interpreted differently by scholars and thus the practical use is difficult. This book gives a practical approach to Jaimini predictions. Secrets of predicting are revealed for the first time. Important Jaimini dasha are discussed along with example charts and events. A separate chapter on argala gives the practical use of it with example. Basic concept of Jaimini is explained in simple way. This will help even the beginners to understand Jaimini. The author being an engineer presents the approach in step by step method without leaving doubts. The book will meet the demands of serious astrology students.

Preface

Jaimini astrology is unique and a fascinating branch of astrology. Although it is available in Parashar text books yet it is different from Parashar system. It is sad that such wonderful system is not widely used by astrologers. One of the reasons may the complicity of presentation. The application of Jaimini on the practical use is not very clear from the available material on the subject. This presentation is a humble attempt in this direction. The efforts of respected K. N. Rao are path breaking and are the first of its kind. He made this subject usable even for astrologers with minimum knowledge of astrology.

The easy way is provided by Jaimini astrology to time the events and give prediction where the time of birth is not accurate. The birth ascendant sign is correct and the chara karaka are not changing. In such cases Jaimini is very useful.

The subject is given in easy to understand step by step manner. Important Jaimini dasha are illustrated with examples.

My thanks to Mr. Narendra Sagar for taking pains to publish this book so that it is available to astrology lovers. I seek forgiveness for any errors and request the readers to please inform me for correction.

Chapter 01

Basics

Jaimini system of astrology is a unique. It is different from the general system of astrology which is Parashar system. Jaimini system has its advantages. When any astrologer combines the two systems then he can have a wider understanding of astrology.

There are few basic differences between Jaimini and Parashar system and these are listed below. These are different approach to the same problem. In a way these are not different astrology but are different approach.

1. The aspects are based on signs and not planets. The planets aspects along with its sign and not independently.
2. The significator or karakas are fixed in Parashar system. The karakas are variable in Jaimini.
3. The signs are synonymous with houses in Jaimini. In Parashar the house and sign are distinct.
4. Most of dasha in Parashar are dependent on the longitude of moon. The dasha of Jaimini are not based on moon.
5. The calculation of strength of planets and houses are elaborate in Parashar and need detail calculations. This calculation is simple in Jaimini.
6. Concept of Karkamsha is unique.
7. Effect of argala is important in Jaimini.

Aspects

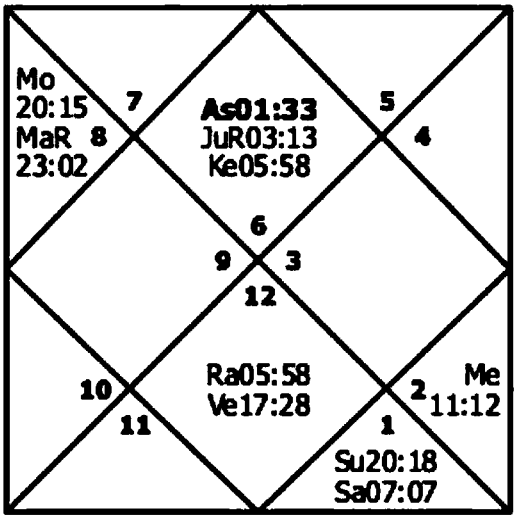

The aspects are through the signs and not the planets. The signs are movable, fixed and common. All movable sign aspects the fixed signs except the adjoining fixed sign. All fixed signs aspects the movable signs except the adjoining movable sign. All common signs aspects the other common signs.

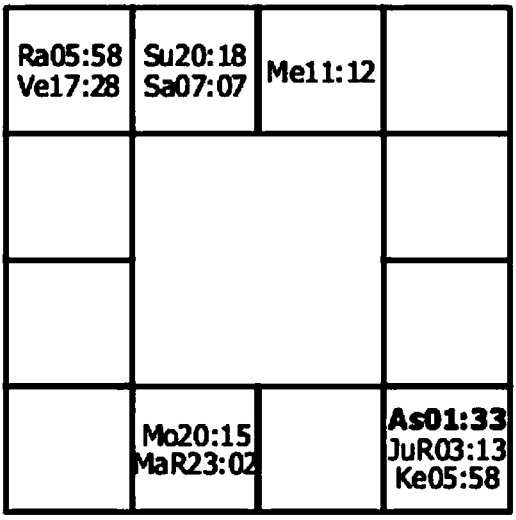

Akin to seventh aspect of Parashar the aspect to the farthest sign can be considered strongest in Jaimini. Thus the aspect of Aries is strongest on Scorpio and vice versa.

The Jaimini aspects are mutual.

Aspecting Sign	Aspected Signs
Aries	Leo, Scorpio, Aquarius
Taurus	Cancer, Libra, Capricorn
Gemini	Virgo, Sagittarius, Pisces
Cancer	Taurus, Scorpio, Aquarius
Leo	Aries, Libra, Capricorn
Virgo	Gemini, Sagittarius, Pisces
Libra	Taurus, Leo, Aquarius
Scorpio	Aries, Cancer, Capricorn
Sagittarius	Gemini, Virgo, Pisces
Capricorn	Taurus, Leo, Scorpio

The aspects of planets are now given for the example chart.

Saturn	Moon and Mars
Rahu	Jupiter and Ketu
Ketu	Venus and Rahu

Karakas

The karakas change with each horoscope. These are decided on the longitude of planets (without sign). These karakas are very important feature and play a significant role in Jaimini astrology. There are seven karakas in

Jaimini astrology. Thus seven planets except Rahu and Ketu can become karakas of any horoscope.

1. **Atma karaka (AK).** The planet having the highest longitude in any sign is the Atma karaka. It is the most important planet of the horoscope and is like king. The strength and placement of AK generally indicates the strength of horoscope. It represents soul, self, physical appearance, first house.

2. **Amatya karaka (Amk).** Planet which gets the next higher longitude in any sign is called Amatya karaka. He is like prime minister and rules the karmas. It represents second and tenth house, career, wealth, social status, advisers. It is death giver to spouse and self.

3. **Bhatri karaka (BK).** Planet getting longitude next to Amk is the Bhatri karaka. He is significator of co born and father. It is significator of third and ninth house, Guru, preceptors. It can cause happiness or harm to parents.

4. **Matri karaka (MK).** Planet having next higher longitude to BK is the Matri karaka. MK is the significator of fourth house and stand for mother, home, conveyance and happiness etc. It indicates schooling, property, change of residence, culture and is maraca for father.

5. **Putra karaka (PK).** Planet with next higher longitude to MK is the Putra karaka. The fifth house affairs are under its purview. It represents intelligence, higher education, creativity, good luck, students and changes in profession.

6. **Gnati karaka (GK).** Planet next to MK in the terms of longitude becomes the Gnati karaka. It is a significator of relations, external sources and is the trouble maker also. Spiritual sadhana, diseases,

arguments, service problems, healing and healer and rivals are represted by it. Houses under its preview are sixth, eighth and twelfth.

7. **Dara karaka (DK).** Planet having least longitude is Dara karaka. It governs spouse, partners and is giver of death. It governs matters of seventh house.

Sages have given an option to use eight karakas also. This option is exercised when any two planets attain same longitude. This is a very rare possibility if we take the longitude in seconds or even fraction of seconds. Some authors take the longitude up to minutes only and hence this confusion. It is suggested by the authors that we take Rahu in such eventuality. We are sticking to seven karakas only as it gives good results. The situation to have eight karaka is not possible.

The karakas for the chart given above are now tabulated.

Karaka	**Planet**
Atma karaka (AK)	Mars
Amatya Karaka (Amk)	Sun
Bhatri karaka (BK)	Moon
Matri karaka (MK)	Venus
Putra karaka (PK)	Mercury
Gnati karaka (GK)	Saturn
Dara karaka (DK)	Jupiter

Pada or Arudha

Arudha are worked out with the relation of a sign and the sign lord of a house. The Arudha of a house is as many signs away from the lord as its lord is away from house. Count from the house to its lord. Again count the same number from the lord. The resulting sign is the Arudha of the house. In the example chart we find the

Arudha of lagna. The lagna lord Mercury is in ninth house. Count nine from Mercury to get Capricorn which is the Arudha of lagna. Similarly the Arudha of fifth house is Cancer.

The Arudha of each house is tabulated for the example chart.

House	**Arudha fall in**
First	Fifth
Second	Twelfth
Third	Third
Fourth	Tenth
Fifth	Eleventh
Sixth	Tenth
Seventh	Seventh
Eighth	Tenth
Ninth	Fifth
Tenth	Eighth
Eleventh	Seventh
Twelfth	Fourth

The Arudha of first house is also called **lagan Arudha or paka lagna**. The Arudha of twelfth house is called **UP pada.** Jaimini recommends use of up pada for all relations.

We are not using exceptions for calculating the Arudha.

When we take a strict mathematical view to calculate the Arudha of any house, we should take the actual difference of house longitude to the longitude of lord. We add this difference to the longitude of lord. The result will be the Arudha of house. In the example chart the Arudha of eighth house is Gemini. We now do the exact calculation. The longitudinal difference between Mars and

eighth house (0s – 1d – 53m) is 7s – 21d – 9m. Adding this to Mars we get the Arudha as 3s – 14d – 11m. Now the Arudha of eighth house is Cancer in eleventh house. This needs further research. We are going with the general method of counting to full house only. Actually the longitude of house is also not well defined.

Karkamsha lagna (KL)

Karkamsha lagna is a unique concept of Jaimini astrology. It is treated as the prime lagna and is considered more important than the lagna. Karkamsha lagna is the sign occupied by Atma karaka in navamsha. This sign is marked as KL in the birth horoscope. All planets of birth chart remain in their respective signs. This chart is called Karkamsha chart. The Karkamsha horoscope is the promise with which you are born.

Swamsha

Swamsha is the sign occupied by Atma karaka in navamsha. The Swamsha is seen in the navamsha chart only.

Jaimini Yoga

Like Parashar astrology, Jaimini astrology is having yoga. Mainly the raj yoga is given to assess the level of horoscope and achievements in life. First we discuss the raj yoga.

1. The conjunction or mutual aspect between the following is Jaimini yoga. These are,
   a. Atma karaka
   b. Amatya karaka
   c. Putra karaka

d. Dara karaka

e. Lord of 5th house from lagna

These combinations will make ten yoga. These can be listed as under. These are formed by conjunction or aspect between them.

a. AK + Amk

b. AK + Pk

c. AK + Dk

d. AK + 5th lord

e. Amk + Pk

f. Amk + Dk

g. Amk + 5th lord

h. Pk + Dk

I. Pk + 5th lord

j. Dk + 5th lord

2. Conjunction or mutual aspect of Venus and Moon.

3. Moon aspected by many planets is an excellent yoga.

4. If same planet is aspecting bhava lagna, hora lagna and ghatika lagna, then it gives raj yoga. The person has status, money and lives like a king.

5. If one planet is aspecting same house in D1, D3, D9 then the person is prosperous.

6. When Mars, Venus and Ketu are in three/ eleven from each other and aspects each other then it gives success and fame. This is called Vaithanika yoga.

7. When the 2nd, 4th and 5th house from Amk has auspicious planets. It gives high status.

8. Amk is placed in 3rd or 6th house with any of Mars, Sun, Saturn, Rahu or Ketu. This gives professional

success. Even with aspect of any of them on Amk is an indicator of professional skill and success.

9. When there are equal number of planets in lagna and fourth house then one gets happiness.
10. It is important to check the yoga in navamsha also. If the number of yoga increases in navamsha then gets success and desired results without much efforts.
11. When Amk is in angles, trines or 11th house from AK in birth chart or in navamsha, it gives success with less effort.
12. Placement of Amk in trik houses from AK is not welcome. It gives success after hard work. This is true in navamsha also.
13. When any karaka is afflicted it creates trouble for its significations.
14. When any karaka is having benefic association or aspect then they promise benefic results.

Argala

Argala is discussed in a separate chapter.

Lagna, Karkamsha lagna and Pada lagna

Jaimini has given that results are seen from Karkamsha lagna. He further says that these can be seen from lagna and pada lagna also. We will confirm the results from any of them. But what is the difference? Karkamsha is a unique concept of Jaimini and have been given importance. Lagna is the primary chart and is the wish and will of a person. Pada lagna is the reflection of lagna. We can infer that the promise from Karkamsha is the real inner quality. It shows the true picture of the chart. Lagna shows the aspirations of a person. It

indicates the desires of the horoscope holder. Pada lagna is the reflection for outside world. This is the image of a person as perceived by others. For example when second house from Karkamsha lagan is strong then person is really wealthy. When the second house from lagna is strong the person wants to be wealthy. When second house from pada lagna is strong the person is seen as wealthy by his friends and relations. Any person if wealthy from pada lagna but poor from Karkamsha lagna then it is show business.

In the example chart of Indira Gandhi we have argala from lagna. We consider the Karkamsha lagna to see the real potential of horoscope. The Karkamsha lagna is Capricorn. Jupiter is causing unobstructed argala. Jupiter is aspecting Capricorn. Both conditions are met. The person is really famous.

When Pada lagna is lagna itself, the person is considered famous by outside world also.

Strength of planets and signs

Planetary strength

Maharishi Jaimini prescribes five sources of planetary strength in UPDESHA sutra.

1. Mooltrikona

This strength is given according to the status enjoyed by a planet in the horoscope such as exaltation etc. The strength in numerical terms is as under;

Condition of the Planet	Strength
Exaltation	60 units
Mooltrikona	45 units
Own sign	30 units
Friends sign	22.5 units

Neutral sign	15 units
Enemy sign	7.5 units
Debilitation	3.75 units

This placement is the naisargika or the permanent relationship between planets. We give the table for the permanent relationship between planets for ready reference.

Planet	**Friend**	**Neutral**	**Enemy**
Sun	Moon, Mars, Jupiter	Mercury	Venus, Saturn
Moon	Sun, Mercury	Mars, Venus, Jupiter, Saturn	None
Mars	Sun, Moon, Jupiter	Venus, Saturn	Mercury
Mercury	Sun, Venus	Mars, Jupiter, Saturn	Moon
Jupiter	Sun, Moon, Mars	Saturn	Mercury, Venus
Venus	Mercury, Saturn	Mars, Jupiter	Sun, Moon
Saturn	Mercury, Venus	Jupiter	Sun, Moon, Mars

2. Karaka

This strength depends upon the assumption of Chara karkatwa by a planet in Jaimini scheme of seven karaka.

Karaka	**Strength**
Atma Karaka (AK)	60 units
Amatya Karaka (Amk)	45 units
Bhatri Karaka (BK)	30 units
Matri Karaka (MK)	22.5 units

Putra Karaka (PK)	15 units
Gnati Karaka (GK)	7.5 units
Dara Karaka (DK)	3.75 units

3. Kendriya

This strength arises from the house occupied by a planet in relation with Atma Karaka planet. A planet occupying Kendra (angular) position is strongest.

Position	**Strength**
Kendra from AK	60 units
Panaphara from AK	30 units
Apolikima from AK	15 units

4. Kartari

When a planet is placed in an odd sign and is in Kartari, then it gets 60 units of strength. When placed in even sign and in Kartari then it gets no strength. Thus the two conditions to be fulfilled are,

1. It is placed in an odd sign. (Aries, Gemini, Leo, Libra, Sagittarius, Aquarius)
2. It is in Kartari. (Kartari arises when there are planets in 2nd and 12th house from the planet. We are including Rahu and Ketu also in formation of Kartari on a planet. We are taking them in aspects and for predictive purposes)

5. Adhipati

When a planet is the lord of an odd sign and is in conjunction or aspect of a malefic, it gets strength of 60 units. We include Rahu and Ketu for making a conjunction or aspect with a planet. Except moon all planets can acquire this strength.

Strength of signs (Rashi BALA)

There are five sources of strength for signs. These are divided in two categories, permanent and temporary.

A. Permanent

This strength arises from the nature of signs. All common signs get 60 units of strength. All fixed signs get 30 units of strength and the movable signs get 15 units. The common signs are Gemini, Virgo, Sagittarius and Pisces. The fixed signs are Taurus, Leo, Scorpio and Aquarius. The movable signs are Aries, Cancer, Libra and Capricorn.

B. Temporary

A sign on different considerations in a particular horoscope acquires this strength. There are four sources of this strength.

1. Karaka

A Jaimini karaka occupying a sign provides its strength to the sign. Any sign not occupied by a karaka gets zero. If more than one karaka occupy a sign, their units are added. The units assigned to each karaka are as under.

Karaka	Strength
Atma Karaka	60 units
Amatya Karaka	45 units
Bhatri Karaka	30 units
Matri Karaka	22.5 units
Putra Karaka	15 units
Gnati Karaka	7.5 units
Dara Karaka	3.75 units

2. Sthana

More planets in a sign make it stronger. When there is no planets in a sign then that sign do not get this strength. Rahu and Ketu are also considered.

Number of planets	Strength
One	60 units
Two	75 units
Three	90 units
Four	105 units
Five	120 units
Six	135 units
Seven	150 units
Eight	165 units

3. Aspect

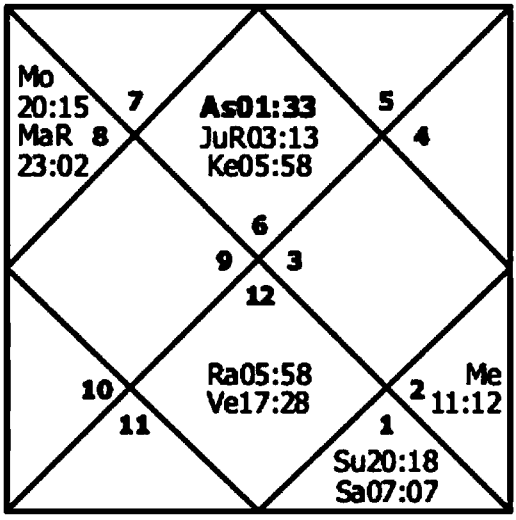

Any sign containing or aspected by Jupiter, Mercury or its lord gets 60 units for each aspect or conjunction. If all three of these aspect or conjoin any sign it gets 180 units. Any sign not having these gets zero.

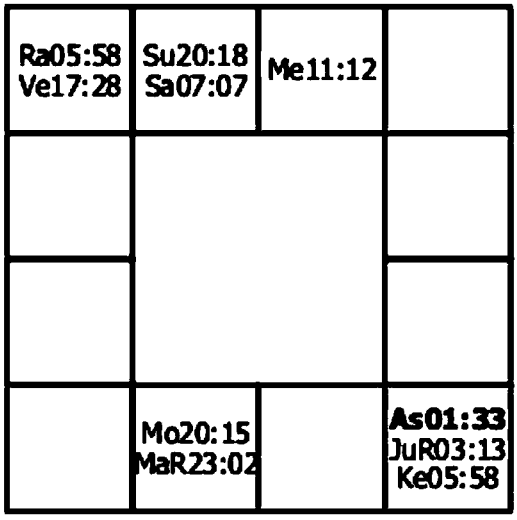

4. Strength of lord

Finally the strength of the lord of the sign is added to the strength of sign.

The strength of Graha and Rashi are calculated for the example horoscope and are tabulated below.

Brahma

Brahma is the creator and every horoscope must have a Brahma. The method of finding Brahma is given.

1. The lord of eighth house from AK if placed in eighth house from AK is the Brahma.
2. If this condition is not present in the horoscope then follow the method given below.
   a. Work out the strength of lagna and seventh house sign.
   b. Note the lords of 6th, 8th and 12th house from stronger of the lagna and 7th house.
   c. Work out the strength of these three lords.
   d. The strongest of the three is selected as Brahma.
   e. If Saturn qualifies for the role of Brahma then ignore it and select the next stronger as Brahma.

Maheswara

Maheswara is Shiva and is the strongest Rudra. Following is the method advised by Jaimini.

1. The lord of eighth house from AK is Maheswara.
2. If this lord is exalted then consider the twelfth lord from AK also.
3. Compare the strength of these two planets. The stronger of the two becomes Maheswara.
4. Saturn can become Maheswara.

Rudra

1. Compare the strength of 8th and 2nd lord from lagna. The stronger of the two becomes Rudra.

2. When weaker of the two receive aspect of malefic then it becomes Rudra.

What happens when the stronger also receive malefic association or aspect? It is logical that the stronger will be Rudra in such cases.

Jaimini Hora lagna or Vridhi Karaka Hora Lagna (VKHL)

The method of Calculating VKHL is given. This hora lagna is used for calculation of longevity and not for yoga.

1. For birth in day time, calculate duration of day (Dinman) and for night birth, calculate duration of night (Ratriman).
2. Divide the Dinman or Ratriman by 12. This is called one hora or Q1.
3. Find the time interval from Sun rise to the time of birth.
4. Divide this time interval by Q1.
5. The quotient gives the number of hora completed. This is the sign completed.
6. Multiply the figures after decimal by 30 to get degrees and minutes. This is the degree and minutes of completed hora.
7. If the bhava lagna is odd, then add the completed number of hora to Bhava lagna to get the VKHL.
8. If the Bhava lagna is even then subtract the completed number of hora from Bhava lagna to get the VKHL.

Note: By definition, all twelve signs in hora rise from Sun rise to Sun set and then from Sun set to sun rise, Also the duration of day and night are not equal always.

So there is a need to correctly work out the hora lagna mathematically.

Example 2 JFK Junior

DOB – 25 Nov 1960, TOB – 00:19, POB Washington DC.

Sun Set 24 Nov 16-47 Sun rise next day – 7:03.

Sun rise – 7:01, Lagna – Leo 18 deg. 3 min.

1. Birth is in night. The duration of night is Sun rise (next day) – Sun set = 14H 16m.
2. Dividing this by 12 we get = 1.189 = Q1
3. Time interval from sunrise = TOB-sun rise =17H – 18m or 17.3 Hrs.
4. Divide this by Q1 or 1.189. The result is 14.55.
6. Multiply 0.55 by 30. We get 16.5 degrees. The hora completed is 14 s – 16 deg. 30 min.
7. The bhava lagna is odd. Adding the hora completed to the longitude of lagna we get 7 s – 4 deg. 33 min. and get Scorpio 4 deg. 33 min. as VKHL.

Parashar Hora Lagna

Hora lagna means that one sign rises in one hour. The numbers of hours from Sun rise to the time of birth are the number of hora.

(a) Note the time of birth in IST/ZST.

(b) Note the time of Sun rise for the day of birth and at the place of birth in IST.

(c) Find the time difference between the two (a-b).

d) The hours so arrived are the completed signs of hora.

(e) Divide the minutes by 2 to get the degrees (30 degrees of a sign are completed in 60 M of time). The steps'

and 'e' gives the hora completed from sun rise to birth time.

(f) If the bhava lagna is odd, then add this hora completed to the longitude of Sun.

(g) If bhava lagna is even, then add the hora completed to the longitude of bhava lagna (ascendant)

The result is Parashar hora lagna.

Example-Morarji Desai

Calculation of hora lagna

(a) Time of birth is 13 H – 27 M

(b) Time of Sun rise06 H – 51 M

(c) Time difference 06 H – 36 M

(d) The hora completed is- 6s

(e) The degrees completed are 36/2 – 18°-00'. The completed hora are 6s-18°-00'

(f) The Bhava lagna is odd, we add this to the longitude of Sun at birth i.e. (7s-09°-38') + (6s-18°-00')

= 1s-27-38' or Taurus 27°-38'

Note. This method may not work for assessing Jaimini yoga. We should add the completed hora to the longitude of Sun to get the hora lagna irrespective of lagna is odd or even.

Ghatika Lagna

Ghatika lagna is arrived by making one sign rise in one ghati. One ghati is of 24 minutes. The method is as under;

1. Deduct the time of Sun rise on the day of birth from the time of birth. Convert it into hours.

2. Multiply this by 75. The result is the completed degrees of ghatika lagna. Convert it into sign, degree and minutes.
3. Add this to the longitude of Sun to get Ghatika lagna.

Example Morarji Desai

1. The time interval of birth and Sun rise is 06 H and 36 M. It is 6.60.
2. Multiply by 75 and get 495. This is 16 s 15 deg.
3. Add this to longitude of Sun. We get 11s 24 deg. 38 min. as ghatika lagna

Varnada Lagna

The Varnada lagna calculation is done to arrive at the Varnada dasha. This lagna is calculated from birth lagna and Parashar hora lagna.

1. If birth lagna is odd then count from Aries to the birth lagna. If birth lagna is even then count from Pisces to birth lagna in reverse order. Let it be A.
2. Similarly count for Hora lagna from Aries or Pisces. Let it be B.
3. When lagan and hora lagan are both odd or even then add A and B. Let it be C.
4. When lagna and hora lagna are different, one odd and other even, then find The difference between A and B. Let it be C.
5. Now count C from Aries when birth lagna is odd or from Pisces when birth lagna is even.
6. The sign so arrived is the Varnada lagna.
7. In similar way we can work out Varnada lagna for all houses. Now treat the house from birth lagna and

hora lagna as ascendant. For 4th house take 4th from birth and hora lagna as ascendant.

We take the example of Morarji as given in calculation of Parashar hora.

1. The birth lagna is Gemini and hora lagna is Virgo.
2. Counting from Aries to Gemini gives us 3 as A.
3. Counting from Pisces to Virgo gives us 7 as B.
4. These are odd and even. We take difference. It comes to 4.
5. Count 4 from Aries.
6. Cancer is the Varnada lagna.

Dwara Rashi

Dwara Rashi is the sign of dasha under consideration. In any Rashi dasha say Scorpio dasha is running then Scorpio is termed as Dwara Rashi.

Bahya Rashi

It is the sign removed as far from the Dwara Rashi as Dwara Rashi is away from lagna. For example lagna is Gemini and dasha is Scorpio. Scorpio is 6th from lagna. Then 6th sign from Scorpio is Aries. Thus Aries is the bahya Rashi.

Examination

The parameters available for analysis of a dasha are,

1. The dasha sign.
2. The Chara karakas. The navamsha sign of a karaka is also important.
3. Lord of sign which is under consideration.

4. Position of Padas.
5. Yogas and aspect of planets. The aspects carry the significations of lordship and karaka. This combinations of karaka produce different results.
6. Argala.

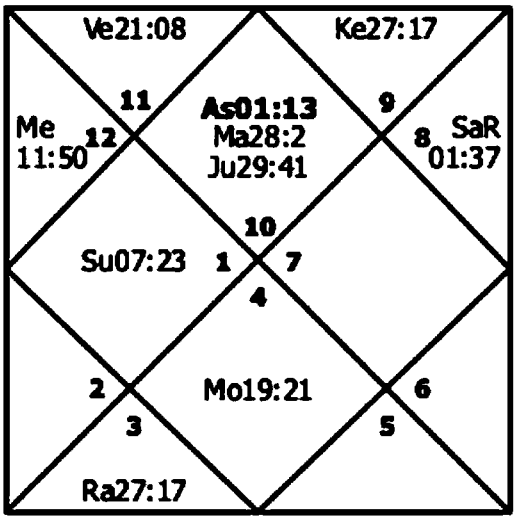

Some rules for examination of dasha are now given.

1. A good approach is to make the sign of running dasha as lagna and check its relation with above factors. A good placement and aspect of karaka from dasha gives good results of the karaka significations.
2. Events will happen in the sign of pada and the sign of the karaka. For example if Jupiter is Dk then events related to marriage happens in the dasha of Sagittarius or Pisces. This can also happen in the sign of exaltation or debilitation Jupiter. In case Jupiter is also related to these signs then it is almost confirmed. The position of 7th pada from dasha sign will clinch the prediction.
3. Lord of a house under consideration plays an important role. The relation and placement of the lord from dasha sign, house pada and the house is seen. The lord of house will meet any of the following conditions.
    a. The lord is the chara karaka of the event.
    b. The lord is aspecting dasha sign or the house of event.

This principle is disclosed for the first time in this book. It is an important tool which is not discussed by any author till date.

We take an example to illustrate this rule.

1. Her younger sister was born on 21 August 1930. The chara dasha was Scorpio/ Aquarius. Scorpio or third from Scorpio is not related to Bk. The important point is the lord of third house from Scorpio. It is Saturn and Saturn is placed in Scorpio. **This is the correct explanation.** Aquarius has Bk. **Third pada is also in Scorpio.**

2. We check another event. She was married on 20 November 1947 in the chara dasha of Cancer/ Aries. Lord of seventh from Cancer is Saturn. Saturn is aspecting Cancer. Pada of seventh house is in Cancer. Here Saturn is also Dk and doubly confirms the event. From Aries the seventh lord Venus aspects Aries along with Saturn.

3. Prince Charles was born on 14 November 1948 in Cancer/ Pisces. Fifth lord from Cancer is Mars. Mars is aspecting Scorpio the fifth from Cancer. Pisces has Pk.

4. Princes Anne was born on 15 August 1950 in Cancer/ Capricorn. Second child is seen from

seventh house. The lord of 7th house is Saturn and is aspecting Capricorn.

5. Prince Andrew was born on 19 February 1960 in Gemini/ Aquarius. Venus is the lord of fifth house from Gemini. Venus is aspecting Aquarius. Gemini is also aspected by Pk Mercury.

6. She became queen on 2 June 1952 in the dasha of Cancer. From Cancer the lord of ninth and tenth are conjoined. They are also AK and Amk.

The lord of concerned house is important.

It is difficult to time the events from relation of karaka only with the dasha. We have number of cases where the events do not happen in a dasha where the karaka is related. We are confused by the fact that in any Maha dasha at least four Antar dasha will make relation with karaka. If we include navamsha position the problem is now manifold. If we include up pada to time the events of relations then almost all dasha will promise the results.

Chapter 02

Argala in Prediction

Argala

Argala is an important consideration in deciding the mutual relation of houses, signs and the planets. The real picture emerges when we apply the Argala. It helps in correct assessment of the horoscope and in deciding the results of dasha.

Argala means lock. A lock is used for safe keeping of articles. It can also be used to prevent something to escape.

From any planet or house there are three types of Argala.

1. The planets in 4th, 2nd, and 11th cause Argala. These are countered or obstructed by planets in 10th, 12th and 3rd respectively.
2. Planets in 5th also cause Argala. This is countered by planets in 9th.
3. When there are three or more malefic in 3rd house, they cause Vipreet Argala and is very favorable.
4. When the planets causing Argala is stronger than those obstructing then the former will prevail. This is true for number of planets in both houses.
5. There is no counter for the Argala caused by three planets in third house.

6. The Argala caused by placement of a planet in first one fourth part of the sign is obstructed by planet placed in fourth quarter of obstructing sign. Similarly 2nd quarter Argala is obstructed by 3rd quarter placement. This is tabulated below.

Longitude of argala planet	**Longitude of obstructing planet**
0 deg. To 7 deg. 30 min.	22 deg. 30 min. to 30 deg.
7 deg. 30 min. to 15 deg.	15 deg. To 22 deg. 30 min.
15 deg. To 22 deg. 30 min.	7 deg. 30 min. to 15 deg.
22 deg. 30 min. to 30 deg.	0 deg. To 7 deg, 30 min.

Any planet not occupying this longitude will not cause obstruction.

7. The counting of Argala and obstruction will be in reverse direction for the nodes.

8. The Argala effects will be derived in dasha of sign or planets concerned.

Parashar has given the effects of Argala. The results of Argala as stated in BPHS are.

1. When there is an Argala on lagna, Arudha lagna and from seventh from them, the person will be famous and fortunate.

2. A malefic or a benefic causing unobstructed Argala and aspecting lagna will make a person famous. Similarly any house having unobstructed Argala and aspecting the house will enhance the signification of the house. These are tabulated for easy reference.

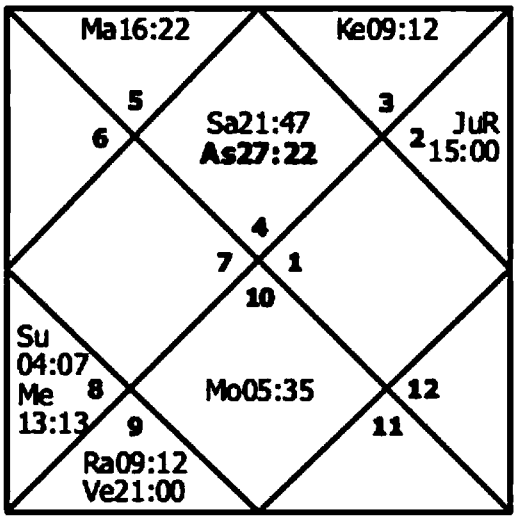

House	**Argala and aspect by any planet**
First	Famous
Second	Acquisition of wealth and grains
Third	Happiness from co born

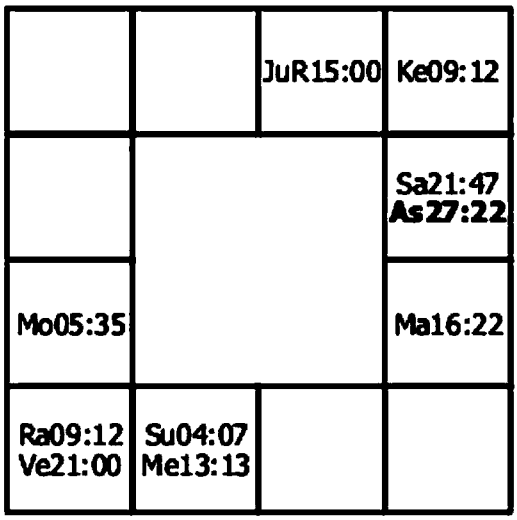

Fourth	Residence, conveyance, relatives
Fifth	Sons, grandsons, intelligence
Sixth	Fear from enemy
Seventh	Abundant wealth and marital happiness
Eighth	Difficulty (long life)
Ninth	Fortunes
Tenth	Royal honour
Eleventh	Gains
Twelfth	Expenses

3. If there is an unobstructed Argala for lagna, 5th and 9th house, the person will definitely be famous and a king.

4. It is observed if the argala causing planet happens to be the lord of the house also the effect of argala is many fold.

The application of Argala is demonstrated on the well known horoscope of Indira Gandhi.

Argala on houses

The Parashar principles as stated above are examined for the results of Argala on houses. In addition we must look for the relation of the planet causing Argala and the house. If the planet is inimical to house then it will harm the house otherwise it will be helpful. The same apply to the obstructing planet. This does not apply for special Argala from 3rd house.

We also consider the signification of the house from where the argala is caused. For example it is from 11th house then it will show gain or loss to the house.

1. **First house;**

   a. Mars is causing Argala from second house. It is obstructed by Ketu from twelfth house. Mars is in second quarter and Ketu is in third quarter of the sign and the obstruction is present.

   b. Jupiter is causing Argala from 11th house. There is no planet in 3rd house. The Argala of Jupiter is unobstructed. Jupiter is also aspecting the lagna. **The person will be famous and a king.**

   c. Sun and Mercury are causing Argala from 5th house. No planet is present in 9th house. This is also an unobstructed Argala. Both of them are aspecting the lagna. **The person is famous and a king.**

   Three planets are causing Argala on lagna and are also aspecting it. The Parashar principle is fully applicable.

2. **Second house;**

   a. Sun and Mercury cause Argala from fourth house. It is countered by Jupiter. Planets causing Argala are more in number than those countering it. The Argala prevails. Argala of Sun

is not obstructed. The person gets wealth from the sources of Sun.

b. Ketu causes Argala from 11th house and is not countered by any planet. Ketu is another source of wealth.

c. Venus and Rahu also cause Argala from 5th house which is not obstructed. Venus and Rahu are the further sources of wealth.

Unobstructed Argala of Rahu and Ketu gives mystery to the significations of the house.

3. Third house;

a. Venus and Rahu cause Argala from 4th house which is obstructed by Ketu. Venus is in third quarter and Ketu is in second quarter. Thus Ketu is obstructing the influence of Venus only and not of Rahu. Problem to younger co born is seen.

b. Saturn is causing Argala from 11th house. This is countered by Mercury. Sun is not countering it. Again problem is seen for third house.

c. Moon is in fifth house which is obstructed by Jupiter. Moon is in first quarter and Jupiter is in third quarter and as such it is not an obstruction.

4. Fourth house;

a. Sun and Mercury cause argala which is not obstructed. Fourth house gets strength from Sun and Mercury.

b. Venus and Rahu cause Argala from 2nd house which is not obstructed. The role of Rahu is repeating.

c. Moon cause Argala from 4th house and is not obstructed by Jupiter. Moon is the source of fourth house happiness.

d. Mars is in 11th and obstructed by Rahu only from 3rd house. Venus is not obstructing.

All is not well with 4th house. Rahu is not a favorable factor.

5. Fifth house;

a. Venus and Rahu cause unobstructed Argala to fifth house.

No other Argala is present on 5th house. The result of Rahu Argala is experienced in life.

6. Sixth house;

a. Only Moon causes Argala which is not obstructed by Sun and Mercury.

The sixth house is strong.

7. Seventh house;

a. Retrograde Jupiter causes unobstructed Argala on 7th house. Jupiter is aspecting 7th house also. Person is famous.

b. Sun and Mercury cause unobstructed Argala and also aspects 7th house. Person is famous.

Three planets give Argala to 7th house from lagna and Arudha lagna and aspects it. The result is abundant wealth, famous and marital happiness.

8. Eighth house;

a. Jupiter Argala is obstructed by Mercury only.

b. Venus and Rahu cause unobstructed Argala. Rahu again appear for eighth house adding mystery.

c. Ketu also causes unobstructed Argala.

Her end was sudden and she had a medium life span.

9. Ninth house;

a. Ketu Argala is countered by Venus. Nodes are influencing the 9th house by aspect.

b. Moon Argala is not obstructed by Jupiter. Moon enhances the significations of 9th house.

c. Saturn Argala of 5th house is obstructed by Mercury.

The 9th house has influence of Moon.

10. Tenth house;

a. Jupiter cause unobstructed Argala on 10th house.

b. Saturn Argala is not countered by Moon.

The 10th house has two unobstructed Argala. Tenth house is strong and gives honor.

11. Eleventh house;

a. Ketu causes unobstructed argala. The node is influencing the eleventh house.

b. Mars is causing unobstructed Argala.

The eleventh house has two malefic argala. Gains are provided by them.

12. Twelfth house;

a. Saturn is causing Argala. It is not countered by Jupiter since both are in second quarter.

There is no other Argala and the expenses are through Saturn.

Argala on planets

Here we consider the relation of planet causing argala and the lord and karaka of the house where the planet is placed. The relation of these two planets is also important.

Sun;

a. Sun receive argala from Venus and Rahu. Rahu is in sixth house and spoils the significations of Sun who is karaka of father and self. Venus is lord of 4th and 11th. The sign involved is Scorpio. The effect of argala is felt in dasha of Scorpio. Father died in Scorpio Chara dasha due to illness and mental agony.

There is no other argala on Sun.

Moon;

a. Sun and Mercury cause unobstructed argala from eleventh house. Moon considers Sun and Mercury as friends.

b. Moon gets argala from Jupiter without any obstruction. Jupiter is also friends with Moon.

The house involved is 7th. All three planets are aspecting 7th house as well. There are gains through partners and outside world. The sign is Capricorn and its dasha operated from 1951 to 1957. She was assisting her father and got worldwide exposure and gained lot of experience.

Mars;

a. Sun and Mercury cause argala on Mars. The argala of Mercury is obstructed by Jupiter. Jupiter is in third quarter and Mercury is in second quarter. Mars and Mercury are not friends and as such the evil effects of Mercury are contained to a great extent. The argala of Sun is not obstructed and supports Mars.

b. Venus and Rahu cause argala from 5th house which is not obstructed by any planet.

c. Ketu also causes unobstructed argala.

Second house is influenced by nodes. Second house is a maraca house and represent family. The sign involved is Leo. The Chara dasha of Leo operated from November 1983 to November 1992. She was killed and her son Rajiv was also killed in this Chara dasha. Mars is violent.

Mercury;

a. Mercury gets argala from Venus and Rahu and is not countered. Mercury is friends with Venus but the argala of Rahu is not welcome.

The Scorpio dasha operated from 1962. She lost her father and became prime minister in this dasha.

Jupiter;

a. Ketu is giving unobstructed argala to Jupiter. There is no other argala on Jupiter.

Jupiter is in 11th house and is the significator of elder sibling and religion. The result is the loss of elder sibling and deviation from own religion.

Venus;

a. Moon is in 2nd house and cause argala on Venus. It is not countered by Sun and Mercury. Venus considers Moon as enemy.

No other argala is present on Venus.

Saturn;

a. Mars causes argala which is obstructed by Ketu. The obstruction by Ketu is mysterious and stops bad results of Mars. It is like divine help to protect the evil.

b. Sun and Mercury also cause unobstructed argala on Saturn.

Rahu;

For Rahu and Ketu the argala is counted in reverse order.

a. Sun and Mercury cause argala. It is not countered by Moon.

b. Mars is giving unobstructed argala to Rahu. Mars is in 2nd house.

Chara dasha of Sagittarius was from 1957 to 1962. It was period of family trouble but good for career.

Ketu;

a. Jupiter is causing unobstructed argala. It gives an inclination towards religion.

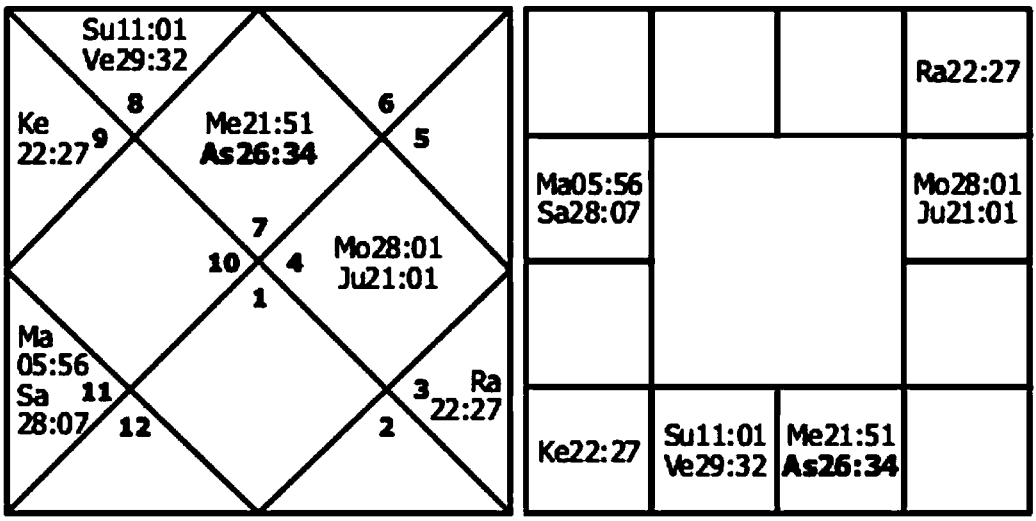

b. Mars is causing argala and is not countered. It is from 2nd house.

We now see the application of argala on different aspects of life. This can be extended on any facet of life.

This concept of argala is applicable on dasha prediction also. For this we make the running dasha as lagna and work out the argala on houses and planets. The significations of planets are dependent on the lordship, sthira karkatwa and Chara karkatwa.

Saturn is Gk and lord of eighth house from lagna and twelfth house from KL.

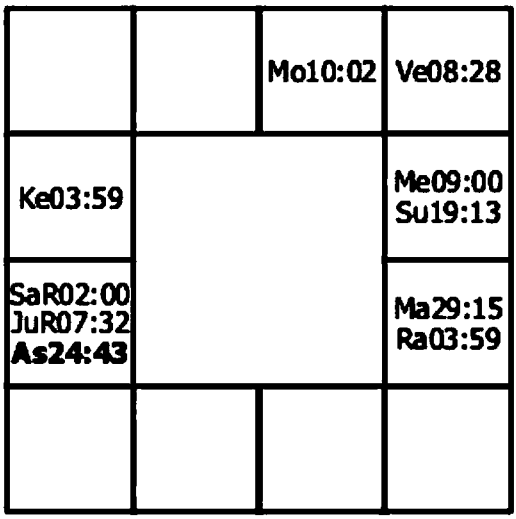

Marriage

Seventh house from lagna has unobstructed argala from three planets indicating desire for happy marriage. Sagittarius gets argala from Sun which is not obstructed by Jupiter as they are in 3rd and 4th quarters. The Karkamsha lagna is Aquarius. Leo gets argala from Moon and is not obstructed. Karkamsha indicate one marriage.

Karkamsha lagna is Pisces. It gets unobstructed argala from exalted Jupiter. Planets Sun, Moon, Mars and Mercury are not causing obstruction. From lagna these four planets cause argala giving wealth also.

Chapter 03

Chara Dasha

Chara dasha is the most important Jaimini Rashi dasha. It is like Vimshottari dasha of Jaimini. There are many methods of computing this dasha. We will discuss the important methods of calculation of this dasha.

Method 1

This method is given by Sh. K. N. Rao. He gives the credit of this method to Sh. Vemury Rama Murthy Shastri of Andhra Pradesh.

Applicability

Chara dasha is applicable on all horoscopes. It is universally applicable.

Starting sign

Chara dasha always begins with the sign of lagan. The first dasha will be of lagan sign. It may be movable, fixed or dual sign.

Order of dasha

The order of Chara dasha depends on the 9th house sign from lagan. The signs are grouped in two categories. One is direct (savya) and other is indirect (apsavya). These are groups of three signs each starting from Aries. The first three signs Aries, Taurus and Gemini are in direct group. The next three signs Cancer, Leo and Virgo are in indirect group. Again Libra, Scorpio and Sagittarius are

in direct group. The remaining three signs Capricorn, Aquarius and Pisces are in indirect group. This can be remembered by the table given.

Direct signs:-1 (Aries), 2 (Taurus), 3 (Gemini), 7 (Libra), 8 (Scorpio), 9 (Sagittarius)

Indirect signs:-4 (Cancer), 5 (Leo), 6 (Virgo), 10 (Capricorn), 11 (Aquarius), 12 (Pisces)

The steps to decide the order of dasha are given below.

1. Note the sign in 9th house from the lagan.
2. If this sign belongs to direct group then dasha order is direct. If this sign belongs to indirect group then dasha order is indirect. We can remember it by a simple observation. **Sun is direct and Moon is indirect. Thus three signs from Leo and Aquarius have direct dasha order. Three signs from Cancer and Capricorn have indirect dasha order.**

A ready table for order of Chara dasha is given.

Chara dasha order

Lagan	**Dasha order**
Aries	Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces
Taurus	Taurus, Aries, Pisces, Aquarius, Capricorn, Sagittarius, Scorpio, Libra, Virgo, Leo, Cancer, Gemini
Gemini	Gemini, Taurus, Aries, Pisces, Aquarius, Capricorn, Sagittarius, Scorpio, Libra, Virgo, Leo, Cancer
Cancer	Cancer, Gemini, Taurus, Aries, Pisces, Aquarius, Capricorn, Sagittarius, Scorpio, Libra, Virgo, Leo

Leo	Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces, Aries, Taurus, Gemini, Cancer
Virgo	Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces, Aries, Taurus, Gemini, Cancer, Leo
Libra	Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces, Aries, Taurus, Gemini, Cancer, Leo, Virgo
Scorpio	Scorpio, Libra, Virgo, Leo, Cancer, Gemini, Taurus, Aries, Pisces, Aquarius, Capricorn, Sagittarius, Scorpio, Libra
Sagittarius	Sagittarius, Scorpio, Libra, Virgo, Leo, Cancer, Gemini, Taurus, Aries, Pisces, Aquarius, Capricorn
Capricorn	Capricorn, Sagittarius, Scorpio, Libra, Virgo, Leo, Cancer, Gemini, Taurus, Aries, Pisces, Aquarius
Aquarius	Aquarius, Pisces, Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn
Pisces	Pisces, Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius

Dasha periods

The dasha years of each sign is derived from the distance of its lord from the dasha sign. A step by step method is given.

1. Decide that the dasha sign belongs to direct (savya) or indirect (apsavya) group. Please note that we see the dasha sign and not 9th from it. The 9th is seen for deciding the order or sequence of dasha only and not for dasha period.

2. There are special rules for Scorpio and Aquarius. For all other signs proceed as under.
3. For signs of direct group count directly to is lord. For signs belonging to indirect group then count indirectly to its lord. Both signs are included.
4. Deduct one year from the count to arrive the dasha years.
5. If the lord is in the same sign then give 12 years.
6. Ketu is taken as co ruler of Scorpio and Rahu is taken as co ruler of Aquarius. Because of this dual lordship of these signs we have to apply special rules. We must carefully apply these rules to avoid any error in dasha periods. The rules are same for these two signs. For Scorpio we consider Ketu along with Mars. For Aquarius we consider Rahu along with Saturn. The counting for Scorpio is direct and for Aquarius it is indirect. The rules for Scorpio are given. For Aquarius take Rahu and Saturn instead of Mars and Ketu.
    a. If Mars is placed in Scorpio and Ketu is in some other sign then count up to other sign where Ketu is placed. Similarly if Ketu is in Scorpio and Mars in some other sign then count to Mars.
    b. When Mars and Ketu are in Scorpio then give 12 years.
    c. When Mars and Ketu are not in Scorpio but together in some other sign then count to the sign occupied by both of them together.
    d. When Mars and Ketu are in different signs (other than Scorpio) then counting is to the stronger of the two. To decide the stronger we follow the rules given;

i. A planet associated with more number of planets is stronger than the other.

ii. When both are not associated with any planet or are with same number of planets than the one having higher degrees is the stronger. If degrees are same then decide on minutes and seconds.

Sub periods

The calculation of sub periods in Chara dasha is different from other dasha. The rules for working out the sub periods in a Maha dasha are given.

1. The sub periods are of as many months as there are years in the Maha dasha.
2. **The Maha dasha keeps the last sub period to itself.**
3. The order of sub periods is same as the dasha order for the sign. The difference is the first sub period of the Maha dasha. For any Maha dasha leave the dasha sign and start sub periods from the 2nd sign in the order of Maha dasha. For Taurus Maha dasha the first sub period will be Aries and others follow in the sequence of Taurus dasha given above.

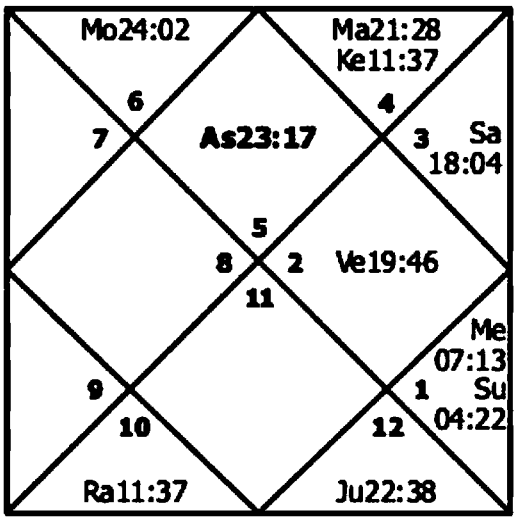

Table for order of sub periods for each dasha is given.

Order of sub periods

Dasha Sign	Order of sub periods
Aries (direct)	Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces, Aries
Taurus (indirect)	Aries, Pisces, Aquarius, Capricorn, Sagittarius, Scorpio, Libra, Virgo, Leo, Cancer, Gemini, Taurus

The lagan is Leo. Ninth house from lagan is Aries and is a sign in direct group. The dasha order will be direct. The dasha periods are tabulated.

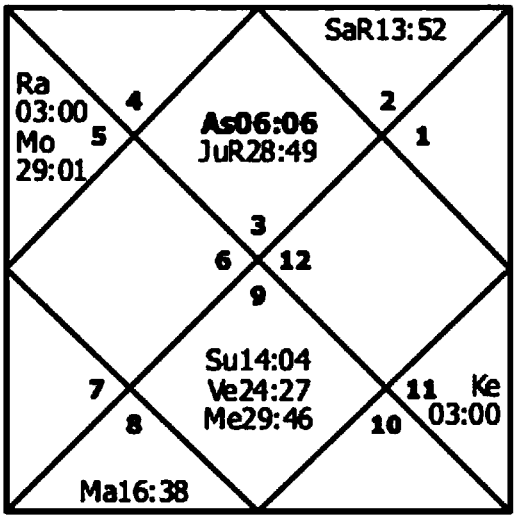

Dasha sign	Dasha years	Start date	Remarks
Leo	4 years	17 April 1916	Indirect count to Sun (5 – 1 = 4)
Virgo	5 years	17 April 1920	Indirect to Mercury (6 – 1 = 5)
Libra	7 years	17 April 1925	Direct to Venus (8 – 1 = 7)
Scorpio	8 years	17 April 1932	Mars and Ketu are in Cancer. Direct to Cancer (9 – 1 = 8)
Sagittarius	3 years	17 April 1940	Direct to Jupiter (4 – 1 = 3)

Leo	9 years	19 Nov. 1983	Indirect to Sun (10 – 1 = 9)

The sub periods of Leo are calculated. The dasha order is direct. The first sub will be of Virgo. Each sub period will be of nine months.

Sub periods of Leo

Sub period	duration	Start date
Virgo	9 months	19 November 1983
Libra	9 months	19 August 1984
Scorpio	9 months	19 May 1985
Sagittarius	9 months	19 February 1986

Leo	9 months	19 February 1992

Method 2

This method is given by Dr. P. S. Shastri. This method of calculation of Chara dasha is similar to method 1 except for the following deviations.

1. In the calculation of dasha years the exaltation or debilitation of the planets is considered. When a planet is exalted then add one year. When a planet is debilitated then deduct one year. This addition or deduction is in addition to the years arrived by method 1. This method will give zero years for Sagittarius if Jupiter is in debilitation. Thus Sagittarius will have no dasha. We should therefore remove Sagittarius from a horoscope in Chara dasha if Jupiter is debilitated.
2. The second difference is in calculation of dasha years of Scorpio and Aquarius. When Mars and Ketu or Saturn and Rahu are with same number of planets then the sign having more strength is considered. The dual sign is strongest and movable sign is weakest. In case both signs are of equal strength

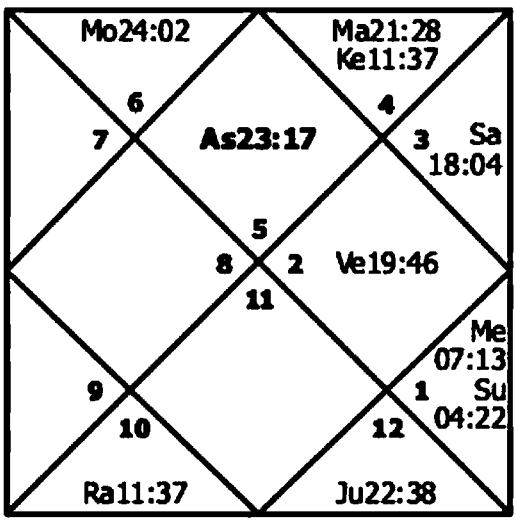

and are of same nature then prefer the sign which gives more number of years. In method 1 we considered the more advanced planet as stronger.

3. The third difference is to reduce the dasha period in proportion of longitude of lord of sign. He advocates that the longitude of planet is the expired portion of dasha. Say a planet is at 10 degrees then the balance of dasha will be two third of total dasha. This way the dasha periods will be fraction of full dasha. Jaimini considers count from sign to sign. In this method if a planet is in the last degree of a sign then dasha period will be negligible. The aspects in Jaimini are also from sign to sign. It takes full sign and not degrees of a sign. The same thing is followed by Dr. P.S. Shastri himself. This is not supported by Parashar and as such we are not considering it.

   No illustration has been given to support his views.

   The **sub periods** are calculated for each Maha dasha as per its dasha sequence and first sub is given to Maha dasha.

Method 3

We now give the method of Sh. Irangati Rangacharya. He gives different calculation of Chara dasha for male and female charts.

Male horoscopes

Starting dasha

The first dasha will commence from lagan irrespective of the sign.

Dasha order

The order of dasha follows padakrama. It is explained below.

Padakrama order of dasha

If the starting sign is,

1. Odd and movable, Aries and Libra-then it moves in direct order.
2. Even and movable, Cancer and Capricorn – then it moves in reverse order.
3. Odd and fixed, Leo and Aquarius – then it moves in direct order but each next dasha is of sixth sign from it.
4. Even and fixed, Taurus and Scorpio – then it moves in reverse order but each next dasha is of sixth sign from it.
5. Odd and dual, Gemini and Sagittarius – then it moves in direct order but next dasha are in trine order.
6. Even and dual, Virgo and Pisces – then it moves in reverse order but next dasha are in trine order.

We give a ready table to get the order of dasha from the stronger sign of the trine. This table is for **male nativity**.

Ascendant	**Order of dasha**
Aries	Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces
Taurus	Taurus, Sagittarius, Cancer, Aquarius, Virgo, Aries, Scorpio, Gemini, Capricorn, Leo, Pisces, Libra
Gemini	Gemini, Libra, Aquarius, Cancer, Scorpio, Pisces, Leo, Sagittarius, Aries, Virgo, Capricorn, Taurus
Cancer	Cancer, Gemini, Taurus, Aries, Pisces, Aquarius, Capricorn, Sagittarius, Scorpio, Libra, Virgo, Leo
Leo	Leo, Capricorn, Gemini, Scorpio, Aries, Virgo, Aquarius, Cancer, Sagittarius, Taurus, Libra, Pisces
Virgo	Virgo, Taurus, Capricorn, Leo, Aries, Sagittarius, Cancer, Pisces, Scorpio, Gemini, Aquarius, Libra
Libra	Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces, Aries, Taurus, Gemini, Cancer, Leo, Virgo
Scorpio	Scorpio, Gemini, Capricorn, Leo, Pisces, Libra, Taurus, Sagittarius, Cancer, Aquarius, Virgo, Aries
Sagittarius	Sagittarius, Aries, Leo, Capricorn, Taurus, Virgo, Aquarius, Gemini, Libra, Pisces, Cancer, Scorpio
Capricorn	Capricorn, Sagittarius, Scorpio, Libra, Virgo, Leo, Cancer, Gemini, Taurus, Aries, Pisces, Aquarius

Aquarius	Aquarius, Cancer, Sagittarius, Taurus, Libra, Pisces, Leo, Capricorn, Gemini, Scorpio, Aries, Virgo
Pisces	Pisces, Scorpio, Cancer, Aquarius, Libra, Gemini, Capricorn, Virgo, Taurus, Sagittarius, Leo, Aries

Dasha years

The rules for calculating periods of dasha are as under.

1. When the lord of the dasha sign is in an odd sign then count from **lord to the dasha sign in direct order.**
2. When the lord of the dasha sign is in an even sign then count from **lord to the dasha sign in reverse order.**
3. In the counting both signs are included.
4. There is no deduction of one year from the count.
5. When dasha sign is occupied by its lord give 12 years.
6. No dual lordship of Scorpio and Aquarius is considered.

Sub periods

The calculation of sub periods is not given by the author. We take the order of sub periods also in the same order of Maha dasha sign. Each sub period will be of months equal to the years of dasha. The first sub will be of Maha dasha sign.

Female horoscopes

Starting dasha

The first dasha sign will be of the fourth sign from ascendant decided by prakriti chakra. For odd lagan the fourth is arrived by direct count and for even lagan by reverse count. For Scorpio the 4th sign is Leo. For Sagittarius the 4th sign is Pisces.

Dasha order

The order of dasha follows padakrama from the lagan. It is explained above in the male chart. Please note that the first dasha will be of 4th sign but order will be according to lagna.

A table for dasha order for each lagan is given for **female horoscope.**

Lagan	Starting sign	Dasha order
Aries	Cancer	Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces, Aries, Taurus, Gemini
Taurus	Aquarius	Aquarius, Virgo, Aries, Scorpio, Gemini, Capricorn, Leo, Pisces, Libra, Taurus, Sagittarius, Cancer
Gemini	Virgo	Virgo, Capricorn, Taurus, Libra, Aquarius, Gemini, Scorpio, Pisces, Cancer, Sagittarius, Aries, Leo
Cancer	Aries	Aries, Pisces, Aquarius, Capricorn, Sagittarius, Scorpio, Libra, Virgo, Leo, Cancer, Gemini, Taurus

Leo	Scorpio	Scorpio, Aries, Virgo, Aquarius, Cancer, Sagittarius, Taurus, Libra, Pisces, Leo, Capricorn, Gemini
Virgo	Gemini	Gemini, Aquarius, Libra, Taurus, Capricorn, Virgo, Aries, Sagittarius, Leo, Pisces, Scorpio, Cancer
Libra	Capricorn	Capricorn, Aquarius, Pisces, Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius
Scorpio	Leo	Leo, Pisces, Libra, Taurus, Sagittarius, Cancer, Aquarius, Virgo, Aries, Scorpio, Gemini, Capricorn
Sagittarius	Pisces	Pisces, Cancer, Scorpio, Aries, Leo, Sagittarius, Taurus, Virgo, Capricorn, Gemini, Libra, Aquarius
Capricorn	Libra	Libra, Virgo, Leo, Cancer, Gemini, Taurus, Aries, Pisces, Aquarius, Capricorn, Sagittarius, Scorpio
Aquarius	Taurus	Taurus, Libra, Pisces, Leo, Capricorn, Gemini, Scorpio, Aries, Virgo, Aquarius, Cancer, Sagittarius
Pisces	Sagittarius	Sagittarius, Leo, Aries, Scorpio, Cancer, Pisces, Libra, Gemini, Aquarius, Virgo, Taurus, Capricorn

Dasha years

The rules for calculating periods of different dasha are as under.

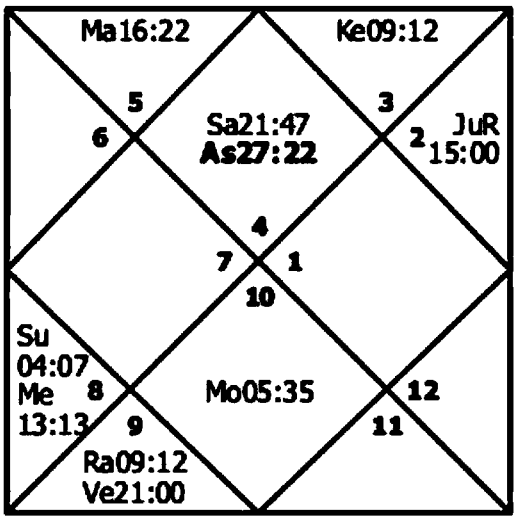

1. When the dasha sign is in an odd sign then count from **lord to the dasha sign in direct order.**
2. When the dasha sign is in an even sign then count from **lord to the dasha sign in reverse order.**

   It should be noted that in male chart the lord has to be in odd sign for direct count. For female chart it is the dasha sign which is odd for direct count.
3. In the counting both signs are included.
4. Deduct one year from the count. This is applicable on female chart and not on male chart.
5. When dasha sign is occupied by its lord give 12 years.
6. No dual lordship of Scorpio and Aquarius is considered.
7. When the lord of a sign is in 7th house from dasha sign then give 10 years.

Sub periods

The calculation of sub periods is not given by the author. We take the order of sub periods also in the same order of Maha dasha sign. Each sub period will be of months equal to the years of dasha. The first sub period will of the Maha dasha.

We now verify events through these three methods for each celebrity.

Srimavo Bandaranaike

PM on 22 May 1972

Method 1. The dasha was Aries/ Capricorn. Aries has argala from Venus, Mars and Ketu. Venus is placed in 10th house. Tenth pada is also with Venus. Tenth lord from Aries is not related. Capricorn is tenth from Aries. This is not indicating the position.

Method 2. It was Aries/ Libra in this method. We have discussed Aries. From Libra Amk is in 6th and 10 P is in 8th. Libra is aspected by Venus from 10th house.

Method 3. Pisces/ Taurus were operating. Pisces has Amk and aspected by Pk. Tenth house from Pisces is also aspected by Amk. From Pisces Jupiter is 10th lord

and Amk. Amk is in 11th from Taurus which contain 10th pada. It gives better explanation.

Rajesh Khanna

Marriage March 1973

Method 1. The Chara dasha is Aquarius/ Taurus. Aquarius has argala from Dk Saturn which is obstructed by Mars. It also gets unobstructed argala from 7 P, Sun, Venus and Mercury. Sun is 7th lord from Aquarius and is in 7th house of birth chart. Jupiter is 7th lord and provide argala to Aquarius. Taurus has Dk and has argala from birth 7th lord Jupiter. The 7th lord from Taurus is in Scorpio. The event is justified with this method.

Method 2. It is Aquarius/ Aries. Aries has unobstructed argala from Dk. Seventh lord from Aries is in 7th house of birth chart.

Method 3. With this the dasha is Cancer/ Scorpio. Cancer is aspected by Dk and also gets argala from it. Seventh lord from Cancer is Dk. Scorpio gets argala from Venus. Dk is in 7th house from Scorpio.

Indira Gandhi

Death 31 October 1984

Method 1. Leo/ Libra. Leo is maraca house. It get argala from 8 P, Venus and Rahu and aspected by Gk Moon. It also get argala from Dk Sun. Libra is afflicted by Dk and Gk through argala.

Method 2. It is Leo / Virgo. Virgo is aspected by Rahu and Ketu. Rahu cause argala to Virgo.

Method 3. The dasha is Cancer/ Libra. Cancer is birth lagna and gets argala and aspect from Dk. Eighth Lord Saturn is placed there.

Chapter 04

Mandook Dasha

Mandook means frog. The dasha periods are in the manner of frog jumps. There are at least six ways available in the current literatures on the methods of calculating this dasha. We have only two ways which are given in understandable manner. The other methods are vague and we cannot arrive at any conclusions. We will therefore discuss only two methods in detail. One is the method taught at Institute of Astrology at Bhartiya Vidya Bhavan which has been given by K. N. Rao. The other method is given in BPHS.

Method 1

This method is taught at BVB. It is developed by Sh. K. N. Rao from the working of Vemuri Rammurthy Shastri.

Applicability

This dasha starts and moves in the quadrants. The quadrants have been given importance. When a horoscope has at least four planets (except Rahu and Ketu) in the Kendra's, then this dasha is applicable. Four planets can be distributed in any formation but they must be in Kendra's. It conveys that the Kendra's or angels should be fortified. Angles are the houses of happiness. When there are four planets in angles, the horoscope has some inherent strength.

This condition is not imposed by Jaimini or Parashar. We will try to work with this dasha method on horoscopes

which do not meet this criterion. This may not be a final conclusion as we have to work on a large number of horoscopes to be conclusive.

Starting sign

The starting sign will be lagan sign if it is an odd sign. The starting sign will be seventh house sign if it is an even lagan chart. (**Note that the strength of lagan and seventh is not compared**)

Dasha order

The dasha order will be direct when the starting is from lagan sign. This will be the case when lagan is an odd sign. When the lagan is an even sign the dasha order will be indirect and first dasha is of seventh sign. The next dasha will be of 4th sign from it and so on in the direct or indirect order.

Dasha goes in mandook jumps. If the starting sign is movable then it covers all four movable signs. After covering four signs, it will move to the next sign of starting sign and cover all four sign of group and so on.

A ready table for dasha order for each starting sign is given. **Please note that for even signs it is not lagan but starting sign.**

Table for Mandook Dasha Order (method 1)

Dasha periods

Dasha period of a sign in years is the number of signs its lord is away from the sign. Both signs are included. The number of signs is counted directly when it an odd sign. It is counted indirectly when it is an even sign. The following rules must be kept in mind while calculating the dasha periods.

1. No dual lordship for Scorpio and Aquarius is applied.
2. When the lord of a sign is in seventh from the sign then give ten years of dasha to that sign.
3. There is no deduction of one year in the dasha period.
4. No addition or deduction of one year is made for exaltation or debilitation of lord of sign.
5. When the lord of the sign is in the same sign, then give 12 years of dasha.
6. When the lord of an odd sign is in 12th, even then give 12 years. Similarly if lord of an even sign is in 2nd from the sign, even then give 12 years.

Sub periods

The sub periods are 12 in any Maha dasha. Each sub period is of as many months as there are years in a Maha dasha. The Maha dasha keeps the first sub period to itself. The order of sub period depends upon the lagan. If lagan is odd then the sub periods are in direct mandook order. For even lagan, it is in indirect mandook order.

Method 2

This method is in line with Parashar and Jaimini Sutra by Sh. P. S. Shastri.

Applicability

No condition has been specified which should be present in the chart. In this method it is treated as a dasha of universal application.

Starting sign

The dasha starts from the **stronger** of lagan and the seventh house sign.

Dasha order

If the first dasha or the starting sign is an odd sign, then order of dasha is direct. When the starting sign is an even sign, then the order of dasha is indirect. The next dasha will be of 4th sign and so on in the direct or indirect order. In any chart both lagna and seventh will be either odd or even. The order is direct for odd lagna and is indirect for even lagna.

Dasha goes in mandook jumps. If the starting sign is movable then it covers all four movable signs. After covering four signs, it will move to the next sign of starting sign and cover all four sign of group and so on.

The dasha order is same as given for method 1. The only difference is the selection of starting sign. Once the starting sign is decided the order is fixed.

Dasha periods

The dasha periods are fixed for each sign. No counting to its lord is done. Dasha periods are 7, 8 and 9 years for movable, fixed and dual signs respectively.

Sub periods

Working of sub periods are not given by Parashar and P. S. Shastri.

The sub periods will be 7, 8 and 9 months for Maha dasha of movable, fixed and dual signs respectively. The order of sub periods is direct or indirect depending on the order of Maha dasha. For Maha dasha of odd sign, the order is direct mandook. For Maha dasha of even sign, the order is indirect mandook. The Maha dasha keeps the first Antar dasha to itself. Parashar has not mentioned the working of sub periods and as such we are following this method for sub periods also according to the order of Maha dasha as given by Parashar. Thus the order of sub period will depend on the order of Maha dasha.

Table for mandook dasha sub periods order (Parashar) Method 2

Dasha Sign	Order of Sub period
Aries	Aries, Cancer, Libra, Capricorn, Taurus, Leo, Scorpio, Aquarius, Gemini, Virgo, Sagittarius, Pisces

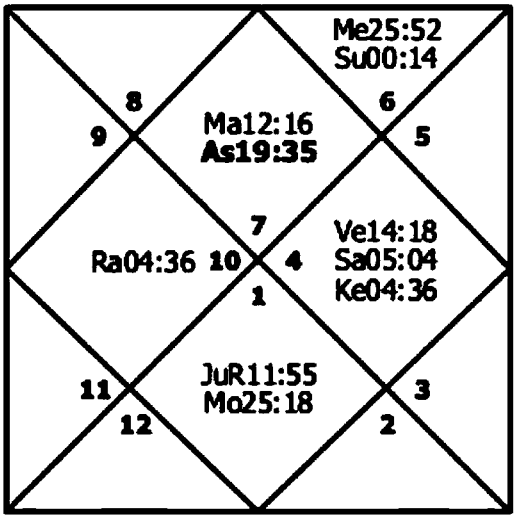

Taurus	Taurus, Aquarius, Scorpio, Leo, Aries, Capricorn, Libra, Cancer, Pisces, Sagittarius, Virgo, Gemini
Gemini	Gemini, Virgo, Sagittarius, Pisces, Cancer, Libra, Capricorn, Aries, Leo, Scorpio, Aquarius, Taurus

Example M. S. Subbulakshmi and Naina Devi

We are taking up these charts to analyse some events of their life from both the methods. We have selected these two charts for the following reasons.

1. First chart is an odd lagan chart and second chart is an even lagan chart.
2. The starting dasha is different for both methods.
3. The special rules for dasha period by 1st method are applicable.

For example, if lagan is Scorpio, the first dasha will be of Aries.

Dasha Order

When the lagan is an odd sign, the order of dasha is direct zodiacal. When lagan is an even sign, the order of dasha is reverse or indirect zodiacal.

The succeeding dasha will be of every third sign.

In this way the first six dasha will be of odd signs. After covering all six odd signs, the next dasha will be of the second sign from the starting sign in the direct or reverse order. All even signs will now be covered in the same order of every third sign.

A ready table for the dasha order is given.

Table for mandook Maha dasha order (method 3)

Lagan	Dasha order
Aries	Aries, Gemini, Leo, Libra, Sagittarius, Aquarius, Taurus, Cancer, Virgo, Scorpio, Capricorn, Pisces
Taurus	Libra, Leo, Gemini, Aries, Aquarius, Sagittarius, Virgo, Cancer, Taurus, Pisces, Capricorn, Scorpio
Gemini	Gemini, Leo, Libra, Sagittarius, Aquarius, Aries, Cancer, Virgo, Scorpio, Capricorn, Pisces, Taurus
Cancer	Aquarius, Sagittarius, Libra, Leo, Gemini, Aries, Capricorn, Scorpio, Virgo, Cancer, Taurus, Pisces
Leo	Leo, Libra, Sagittarius, Aquarius, Aries, Gemini, Virgo, Scorpio, Capricorn, Pisces, Taurus, Cancer
Virgo	Gemini, Aries, Aquarius, Sagittarius, Libra, Leo, Taurus, Pisces, Capricorn, Scorpio, Virgo, Cancer

Aquarius	Aquarius, Aries, Gemini, Leo, Libra, Sagittarius, Pisces, Taurus, Cancer, Virgo, Scorpio, Capricorn

Pisces	Sagittarius, Libra, Leo, Gemini, Aries, Aquarius, Scorpio, Virgo, Cancer, Taurus, Pisces, Capricorn

Dasha Periods

The dasha periods of signs are like sthira dasha. The dasha periods are fixed. All movable sign has 7 years; all fixed signs 8 years and all common signs have 9 years of dasha. The total comes to 96 years for one cycle.

Sub periods

The method of working of sub periods is not given in updesha sutras. We can logically deduce that each sub period will be one twelfth of the Maha dasha period. The first sub period in any Maha dasha will be of the Maha dasha sign. The next sub periods will follow in the sequence of Maha dasha of the horoscope.

Method 4

This method is advocated by Sh. Irangati Rangacharya (IR) in his Jaimini Sutramritam.

Applicability

No condition has been imposed for application of this dasha. This dasha is therefore applicable on all horoscopes.

Starting Dasha

This dasha commences from the stronger of ascendant or its adarsh sign. For male horoscopes, the starting sign will be stronger of lagan and seventh house. For female horoscopes, the starting sign will be stronger of lagan and fourth house.

Dasha Order

The dasha order follows the padakrama of the starting dasha sign.

Padakrama order of dasha

If the starting sign is,

1. Odd and movable, Aries and Libra-then it moves in direct order.
2. Even and movable, Cancer and Capricorn – then it moves in reverse order.
3. Odd and fixed, Leo and Aquarius – then it moves in direct order but each next dasha is of sixth sign from it.
4. Even and fixed, Taurus and Scorpio – then it moves in reverse order but each next dasha is of sixth sign from it.
5. Odd and dual, Gemini and Sagittarius – then it moves in direct order but next dasha are in trine order.
6. Even and dual, Virgo and Pisces – then it moves in reverse order but next dasha are in trine order.

The padakrama order is same for male and female horoscopes. We give a ready table for the mandook dasha order by this method.

Table for mandook dasha order by method 4 (IR)

Starting Sign	Dasha order

Pisces	Pisces, Scorpio, Cancer, Aquarius, Libra, Gemini, Capricorn, Virgo, Taurus, Sagittarius, Leo, Aries

Dasha Periods

The dasha periods of signs are like sthira dasha. The dasha periods are fixed. All movable sign has 7 years; all

fixed signs 8 years and all common signs have 9 years of dasha. The total comes to 96 years for one cycle.

Sub periods or antardasha

The method of working of sub periods is not given in Jaimini sutramritam. Each sub period will be one twelfth of the Maha dasha period. The first sub period in any Maha dasha will be of the Maha dasha sign. The next sub periods will follow in the sequence of Maha dasha of the horoscope. It is deduced result only.

Method 5 Labh Mandook Dasha

This dasha is applied on the Ekadashamsha. The Ekadashamsha used is the cyclical one. Please refer to book "comprehensive prediction through divisional charts" written by V. P. Goel and published by Sagar Publications.

A ready table to work out the cyclical Ekadashamsha is given.

Applicability

This dasha is applicable on all horoscopes. This chart is seen as ayur dasha of war and destruction.

Starting Dasha

This dasha starts from the sign which is in the eleventh house of Ekadashamsha chart of the horoscope.

Dasha Order

When the eleventh house is an odd sign, the order of dasha is direct zodiacal. When eleventh house is even, the order of dasha is reverse or indirect zodiacal.

The succeeding dasha will be of every third sign.

In this way the first six dasha will be of odd signs. After covering all six odd signs, the next dasha will be of the second sign from the starting sign in the direct or reverse order. All even signs will now be covered in the same order of every third sign.
A ready table for the dasha order is given.

Table for mandook Maha dasha order (method 5)

Aries	Aries, Gemini, Leo, Libra, Sagittarius, Aquarius, Taurus, Cancer, Virgo, Scorpio, Capricorn, Pisces
Taurus	Libra, Leo, Gemini, Aries, Aquarius, Sagittarius, Virgo, Cancer, Taurus, Pisces, Capricorn, Scorpio

Dasha Periods

The dasha periods of signs are like sthira dasha. The dasha periods are fixed. All movable sign has 7 years; all fixed signs 8 years and all common signs have 9 years of dasha.

Method 6

This method moves the dasha in group of trines. The calculation of this is dependent on the gender of the horoscope.

Applicability

In this method the dasha is applicable on all horoscopes. When only one of the trine from ascendant is occupied and the other two are vacant then this method gives best results. This is the rider given by the author of this dasha.

Starting Dasha

The starting dasha sign will the stronger of the first, fifth and ninth house sign from the ascendant.

Dasha Order

The order of dasha is different for male and female horoscopes.

Male horoscope; The dasha progress in trines from the starting sign in direct order. The movement is 1, 5, 9, 2, 6, 19, 3, 7, 11, 4, 8, 12 signs. There is no distinction of odd or even signs.

Female horoscope; The dasha progress in trines from the starting sign in reverse order. The movement is 1, 9, 5, 12, 8, 4, 11, 7, 3, 10, 6, 2 signs. There is no distinction of odd or even signs.

Dasha Periods

The dasha periods of signs are like sthira dasha. The dasha periods are fixed. All movable sign has 7 years; all fixed signs 8 years and all common signs have 9 years of dasha.

Discussion

Method 1 lays the condition for application of this dasha. There should be at least four planets in angles from ascendant except Rahu and Ketu. We can argue that Jaimini gives importance to Karkamsha. It is given weightage equal to ascendant if not more. We can examine this condition on Karkamsha or swamsha chart. In the examples given this condition is met.

Chapter 05

Sthira & Brahma Dasha

Sthira dasha is an important Jaimini dasha. It is normally seen for misfortunes, death and miseries. It is not so. It is a general dasha and can be used to predict all events. This dasha needs to calculate the strength of signs and planets and thus can provide good clues from the strength of running Rashi dasha and the strength of planets associated with it.

The first step will be the calculation of strength of planets and signs. **Jaimini prescribe five types of strength for planets and signs and the same is given in the chapter Basics in this book. We now give a short method adopted by Institute of Astrology in Bhartiya Vidya Bhavan. In few cases the calculated strengths may differ and the dasha will be different and the results may be different when worked by short method.**

BVB or short Method

Strength of planets.

There are three sources from where a planet gets its strength. These are Mooltrikonadi bala, amsha bala and kendradi bala. Rahu and Ketu are not considered.

1. Mooltrikonadi bala;

This is the strength gained by a planet due to the status and sign occupied by it. The highest strength is gained when a planet is exalted and is lowest when

it is debilitated. A table for this strength of planets is given.

Status	Strength	units
1	Exalted	70
2	Mooltrikona	60
3	Own sign	50
4	Friend's sign	40
5	Neutral sign	30
6	Enemy's sign	20
7	Debilitated	10

For a ready reference a table for assessing the status of planets is given.

Planet	Exalta--tion	Mooltr--ikona	Own sign	Friends	Neutral	Enemy	Debili--tation
Sun	10° Aries	0°–20° Leo	20°–30° Leo	Moon Mars Jupiter	Mercury	Venus Saturn	10° Libra
Moon	3° Taurus	3°–30° Taurus	Cancer	Sun, Mercury	Mars Jupiter Venus Saturn	Nil	3° Scorpio
Mars	28° Capri--corn	0°–12° Aries	12°–30° Aries Scorpio	Sun Moon Jupiter	Venus Saturn	Mercury	28° Cancer
Mercury	15° Virgo	15°–20° Virgo	20°–30° Virgo Gemini	Sun Venus	Mars Jupiter Saturn	Moon	15° Pisces
Jupiter	5° Cancer	0°–10° Sagitt--arius	10°–30° Sagitt--arius Pisces	Sun Moon Mars	Saturn	Mercury Venus	5° Capri--corn
Venus	27° Pisces	0°–15° Libra	15°–30° Libra Taurus	Mercury Saturn	Mars Jupiter	Sun Moon	27° Virgo
Saturn	20° Libra	0°–20° Aqua--rius	20°–30° Aqua--rius Capri--corn	Mercury Venus	Jupiter	Sun Moon Mars	20° Aries

Note:-

1. When Sun, Moon, Mars, Jupiter, Venus and Saturn are in their exaltation or debilitation sign assign 70 units or 10 units irrespective of the longitude.
2. For Mercury occupying Virgo assign units as per longitude.
3. The mooltrikona and own sign bala is assigned when a planet is in the range of mooltrikona or own sign longitude.

2. Amsha Bala

This strength is gained by the planet on the assumption of chara karaka. The selection of chara karaka is discussed in the basic chapter. We take only seven chara karaka. Atma karaka is the first karaka and gets maximum strength of 70 units. A table for strength gained by planets due to its chara karaka role is given.

Karaka	Amsha bala units
Atma karaka	70
Amatya karaka	60
Bhatri karaka	50
Matri karaka	40
Putra karaka	30
Gnati karaka	20
Dara karaka	10

3. Kendradi bala

This strength is granted to a planet by its placement from AK. Any planet occupying an angular sign from AK gets strength of 60 units. In Panaphara sign it is 40 units and in Apolikima sign it is 20 units.

Strength of signs or Rashi bala

In the short method only four source of strength is taken. These are,

1. Chara bala
2. Sthira bala
3. Dhristi bala
4. Graha bala

1. Chara bala

This strength is permanent strength. All movable signs get 20 units of strength. All fixed signs get 40 units of strength and all dual signs get 60 units of strength.

2. Sthira bala

Any sign when occupied by a planet get 10 unit of strength. For each additional planet ten unit of strength is granted. Any sign without any planet in it get zero strength. Rahu and Ketu are not considered.

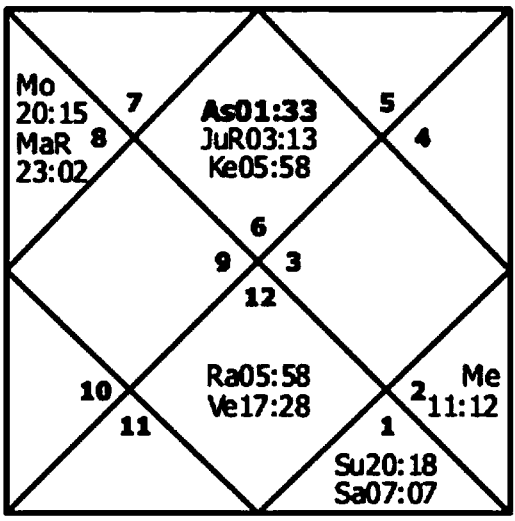

3. Dhristi bala

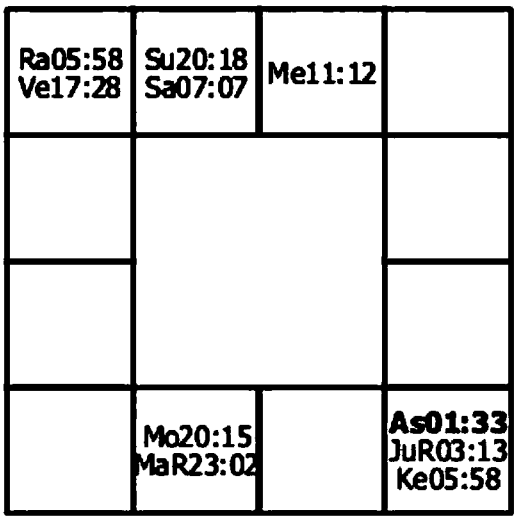

It is the strength gained by a sign from aspect. This is granted only when a sign is aspected or associated by its lord or Jupiter or Mercury. The strength granted by each aspect or association is 60 units. In case when Jupiter or Mercury are lord of a sign and is associated with it or aspects it then it gets 120 units of strength.

4. Graha bala

Graha bala is the strength of the lord of the sign. This is also added to the strength of the sign.

Starting dasha sign

The sthira dasha starts from the sign occupied by Brahma. The method of deciding the Brahma is given the first chapter titled basics. We calculate the Graha and Rashi strength by short or full Jaimini method.

Dasha order

The order of sthira dasha is always direct.

Dasha periods

The dasha periods are fixed for each sign. No counting to its lord is done. Dasha periods are 7, 8 and 9 years for movable, fixed and dual signs respectively.

Sub periods

All Maha dasha keeps the first sub period to itself. The next follows in direct order. The duration of sub periods are as many months as there are years of Maha dasha. Each sub period of Maha dasha of movable sign is of 7 months that of fixed sign is of 8 months and of dual sign is of 9 months. The sub periods of Aquarius Maha dasha of example chart are worked out.

The starting of sthira dasha is from the sign occupied by Brahma. Thus the correct assessment of strength of Rashi and Graha is of prime importance.

With **Jaimini calculation** of strength of signs, we get Pisces as stronger than Virgo. The 6th, 8th and 12th lords are Sun, Venus and Saturn. Venus is stronger than Sun and assumes the charge of Brahma. Venus is placed in Pisces and first dasha will be of Pisces.

With **short method** the strength of lagna and seventh house is same as 260 units. The lagna lord is Pk and is higher karaka than Jupiter which is Dk. Thus lagna is considered stronger than seventh.

The lords of 6th, 8th and 12th from lagna are Saturn, Mars and Sun. Saturn cannot be Brahma and is rejected. Out of Mars and Sun, Mars is stronger and qualifies as Brahma. Mars is placed in Scorpio. The first sthira dasha will be of Scorpio.

Few events are examined by dasha arrived with short method and the Jaimini full method.

Event	Short method	Jaimini method
Service August 1993	Aquarius/ Aquarius. Amk is aspecting Aquarius. Mars is 10th lord from Aquarius and is placed in it.	Gemini/ Gemini.Gemini is tenth house. The Amk is in eleventh house from Gemini. Jupiter is 10th lord from Gemini and is aspecting it.
Marriage 9th February 1999	Aquarius/ Libra. Dk is in 8th from Aquarius and not aspecting it. From Libra Dk is in 12th. Seventh lord from Aquarius is aspecting it.	Gemini/ Sagittarius. Dk and Up pada is aspecting Gemini and Sagittarius. Mk is also aspecting both dasha signs. Jupiter is 7th lord from Gemini and is aspecting it.
Child 5th March 2000	Aquarius/ Sagittarius. Aquarius have no relation with Pk. From Sagittarius Pk is in 6th and is not related.	Gemini/ Pisces. Pk is lord of Gemini. Gemini is aspected by Dk and Mk. Pisces is aspected by Jupiter.

We will discuss few more examples with the full Jaimini method.

Example2, Charan Singh. DOB 23 December 1902, TOB 07. 23, POB Nurpur UP.

The strength of planets is calculated by Jaimini method.

Planet	Mooltrikona	Karaka	Kendriya	Kartari	Adhipati	Total

Venus Mk	15	22.5	15	0	60	112.5
Saturn Dk	30	3.75	60	0	0	93.75

We need to compare the strength of lagna and seventh house sign for deciding the sthira dasha. We need not calculate the strength of other signs. The strength of these two sign is calculated.

Sagitta--rius	60	7.5 +22.5 +30	90	60	123.75	393.75

The lagna is stronger than 7th house. The lords of 6th, 8th, and 12th from Sagittarius are Venus, Moon and Mars. Venus is the strongest among the three and becomes Brahma. The sthira dasha will commence from Sagittarius. **(With short method Moon is Brahma).**

Marriage

His marriage took place on 25th June 1925. Sthira dasha was Aquarius/ Scorpio. Aquarius has DKn and aspected by UP. Lord of 7th from Aquarius is in 11th from Aquarius. Seventh from Aquarius is aspected by Dk. Scorpio is aspected by Dk and UP.

Birth of daughter and son

Daughter was born on 14th September 1927 in the dasha of Pisces/ Aries. Fifth lord from Pisces is aspecting Pisces. The pregnancy was in Pisces/ Pisces. Pk is in 7th from Pisces and aspects it. With Aries sub period, Pk is in 6th from it. She could not survive. Son was born on 21st May 1936 in the dasha of Aries/Aries. He survived even though Aries is 8th from Pk. Leo is 5th from Aries and is aspected by Jupiter and Saturn.

He became prime minister of India in July 1979. The sthira dasha was Virgo/ Pisces. Five planets including Amk and Pk are associated with dasha and antardasha.

Death

Died on 23rd May 1987 in the dasha of Libra / Pisces. Libra has Rahu and no other association. Pisces is 6th from Libra and 8th from KL. Libra is 3rd from KL.

The strength of lagna is 326.25 and of 7th house are 187.5. The lagna is strong. The 6th, 8th and 12th lords are Venus, Moon and Mars. All three of them have equal strength of 127.5. Moon is Amk and associated with two planets becomes Brahma. (**With short method 7th is stronger and Mars is Brahma. The dasha periods will be different with this method**).

The sthira dasha starts with Virgo and is tabulated below.

Dasha sign	Dasha years	Start date
Virgo	9 years	12 January 1863
Libra	7 years	12 January 1872
Scorpio	8 years	12 January 1879

Capricorn	7 years	12 January 1896

Learnt Epics

He learnt two great epics in the dasha of Virgo. Virgo has Amk with Saturn and aspected by AK. The 5th house from Virgo has two benefics. These benefics are causing benefic argala on Virgo and lagna also.

Met his Guru

In November 1880 he met Ramakrishna Paramhans. The dasha was of Scorpio/ Capricorn. Scorpio has Amk and Saturn in 11th. It is aspected by Venus, Mercury and Mars. Ninth house from Capricorn is occupied by Amk and Saturn.

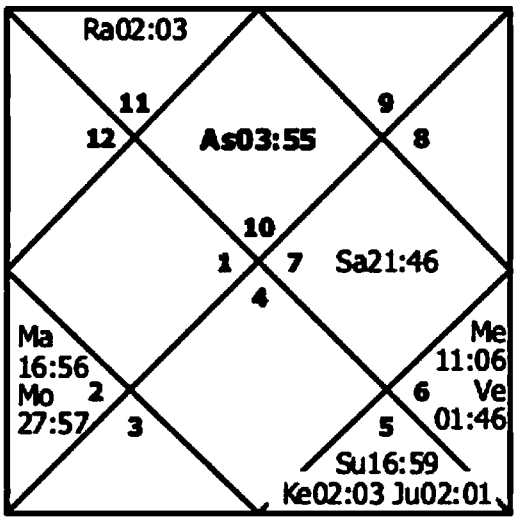

Chicago

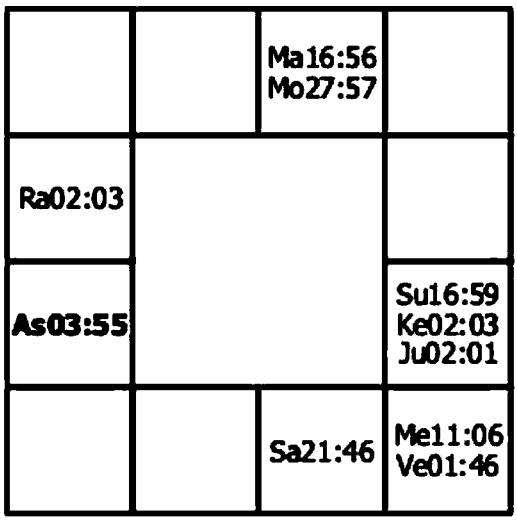

He delivered his famous lecture in September 1893 which brought him to limelight throughout the world. The dasha was Sagittarius/ Leo. Sagittarius is lagna and KL. Amk is in 10th with Saturn. Two benefics are in 2nd house of speech and cause argala to Sagittarius. Leo is 9th house aspected by three benefics. Can it be explained so clearly by Cancer/ Gemini?

Death

Death came on 4th July 1902. It was Capricorn/ Sagittarius. Capricorn is second house from KL. It is aspected by Rahu and Ketu. Ketu is causing malefic argala. Sagittarius is KL and aspected by Amk. Dk is in 11th from it.

He suffered from typhoid in early 1898 in the dasha of Leo/ Libra. Leo has Gk and is 8th from lagna and 12th from KL. Libra is aspected by Gk and Rahu Ketu. With Mercury as Brahma the dasha will be Virgo.

Death of father

His father expired in 1930 in the sthira dasha of Sagittarius. The 9th house from Sagittarius contains Gk and Bk Sun. Sun is sthira karaka of father and Bk is chara karaka of father. Ketu is placed with them. With short method it will be Capricorn. The 9th from Capricorn has two benefics.

Samadhi

He took Samadhi on 14 November 1977. The dasha was Gemini/ Cancer. Gemini is aspected by Dk. AK is in 12th from Gemini. Cancer is 7th house and aspected by Rahu.

Brahma Dasha

Another dasha for longevity is Brahma dasha. We first give the method of Irangati Rangacharya.

Starting sign

This dasha is also dependent on placement of Brahma in the chart. We therefore identify the Brahma by normal Jaimini method of finding strength of planets and signs.

1. When Brahma is in odd sign, Brahma dasha begins from the sign occupied by it.
2. When Brahma is in even sign, Brahma dasha begins from the 7th sign from it.

Dasha order

1. When Brahma is in odd sign then the dasha runs in direct order.
2. When Brahma is in even sign then the dasha runs in indirect order.

Brahma dasha order

Sign of Brahma	Starting Dasha	Order of Brahma dasha
Aries	Aries	Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces
Taurus	Scorpio	Scorpio, Libra, Virgo, Leo, Cancer, Gemini, Taurus, Aries, Pisces, Aquarius, Capricorn, Sagittarius, Scorpio, Libra
Gemini	Gemini	Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces, Aries, Taurus
Cancer	Capricorn	Capricorn, Sagittarius, Scorpio, Libra, Virgo, Leo, Cancer, Gemini, Taurus, Aries, Pisces, Aquarius
Leo	Leo	Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces, Aries, Taurus, Gemini, Cancer
Virgo	Pisces	Pisces, Aquarius, Capricorn, Sagittarius, Scorpio, Libra, Virgo, Leo,

		Cancer, Gemini, Taurus, Aries
Libra	Libra	Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces, Aries, Taurus, Gemini, Cancer, Leo, Virgo
Scorpio	Taurus	Taurus, Aries, Pisces, Aquarius, Capricorn, Sagittarius, Scorpio, Libra, Virgo, Leo, Cancer, Gemini
Sagittarius	Sagittarius	Sagittarius, Capricorn, Aquarius, Pisces, Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio
Capricorn	Cancer	Cancer, Gemini, Taurus, Aries, Pisces, Aquarius, Capricorn, Sagittarius, Scorpio, Libra, Virgo, Leo
Aquarius	Aquarius	Aquarius, Pisces, Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn
Pisces	Virgo	Virgo, Leo, Cancer, Gemini, Taurus, Aries, Pisces, Aquarius, Capricorn, Sagittarius, Scorpio, Libra

Dasha periods

The dasha periods are the number of years when counted from the sign to the lord of 6th house from the sign. The direction of counting is not specified by Irangati

Rangacharya. It is deduced that the counting for even signs will be in reverse order. It will be direct for odd signs. The sixth lord will be taken according to the direction of counting. When sixth lord is in dasha sign or in 12th from dasha sign in order of counting then give 12 years.

Antar dasha

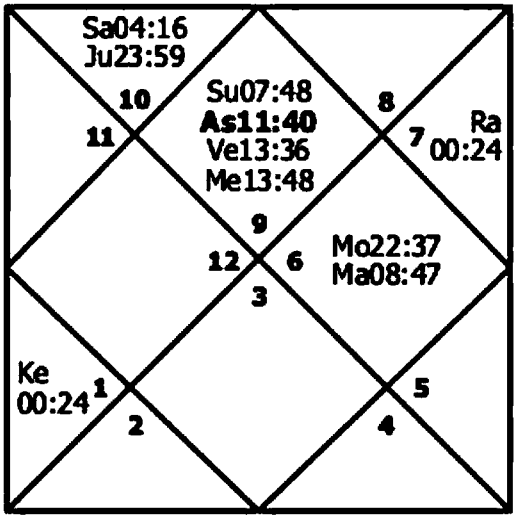

The first Antar dasha is of the Maha dasha sign. Each Antar dasha is of as many months as the years of Maha dasha. Antar dasha follow the order of Maha dasha. For odd sign it is direct and for even sign it is indirect.

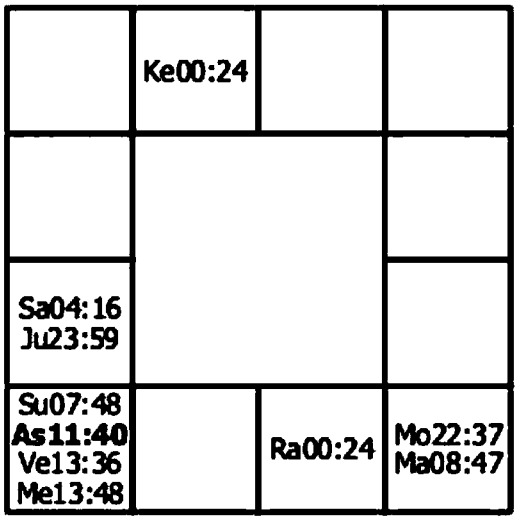

The Brahma dasha periods for the example chart 1 of sthira dasha are calculated to understand the method.

Brahma is Venus and is in even sign. The starting dasha will be of Virgo. The dasha order will be indirect.

Chapter 06

Narayan Dasha

It is an important predictive dasha.

Applicability

Narayan dasha is applicable on all horoscopes. It is universally applicable.

Starting sign

Narayan dasha always begins with the stronger sign of lagna and seventh house. The strength is decided by the method given in the basic chapter.

Order of dasha

The order of narayan dasha depends on the 9th house sign from starting sign. The signs are grouped in two categories. One is direct (savya) and other is indirect (apsavya). These are groups of three signs each starting from Aries. The first three signs Aries, Taurus and Gemini are in direct group. The next three signs Cancer, Leo and Virgo are in indirect group. Again Libra, Scorpio and Sagittarius are in direct group. The remaining three signs Capricorn, Aquarius and Pisces are in indirect group. This can be remembered by the table given.

Direct signs:-1 (Aries), 2 (Taurus), 3 (Gemini), 7 (Libra), 8 (Scorpio), 9 (Sagittarius)

Indirect signs:-4 (Cancer), 5 (Leo), 6 (Virgo), 10 (Capricorn), 11 (Aquarius), 12 (Pisces)

The steps to decide the order of dasha are given below.

1. Note the sign in 9th house from the lagna or seventh house whichever is stronger.
2. If this sign belongs to direct group then dasha order is direct. If this sign belongs to indirect group then dasha order is indirect. We can remember it by a simple observation. **Sun is direct and Moon is indirect. Thus three signs from Leo and Aquarius have direct dasha order. Three signs backward from Cancer and Capricorn have indirect dasha order.**

Sequence of dasha

The dasha sequence depends on the starting sign. The signs are movable, fixed and dual. We remember that the order of dasha is already decided.

1. When the starting sign is movable the sequence of dasha is direct or indirect and is regular.
2. When the starting sign is fixed then the next dasha is of sixth sign in the order decided above. The other dashas proceed in the order and next is sixth from previous dasha sign.
3. When the starting sign is dual then next dasha is of fifth sign in the order of dasha. The dasha moves in set of trines. After completion of a trine the next sign in the order of dasha is taken and proceed in trines.

A ready table for order of narayan dasha is given.

Narayan dasha order

Starting sign	Dasha order and sequence
Aries	Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces
Taurus	Taurus, Sagittarius, Cancer, Aquarius, Virgo, Aries, Scorpio, Gemini, Capricorn, Leo, Pisces, Libra
Gemini	Gemini, Aquarius, Libra, Taurus, Capricorn, Virgo, Aries, Sagittarius, Leo, Pisces, Scorpio, Cancer
Cancer	Cancer, Gemini, Taurus, Aries, Pisces, Aquarius, Capricorn, Sagittarius, Scorpio, Libra, Virgo, Leo
Leo	Leo, Capricorn, Gemini, Scorpio, Aries, Virgo, Aquarius, Cancer, Sagittarius, Taurus, Libra, Pisces
Virgo	Virgo, Capricorn, Taurus, Libra, Aquarius, Gemini, Scorpio, Pisces, Cancer, Sagittarius, Aries, Leo
Libra	Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces, Aries, Taurus, Gemini, Cancer, Leo, Virgo
Scorpio	Scorpio, Gemini, Capricorn, Leo, Pisces, Libra, Taurus, Sagittarius, Cancer, Aquarius, Virgo, Aries
Sagittarius	Sagittarius, Leo, Aries, Scorpio, Cancer, Pisces, Libra, Gemini, Aquarius, Virgo, Taurus, Capricorn
Capricorn	Capricorn, Sagittarius, Scorpio, Libra, Virgo, Leo, Cancer, Gemini, Taurus, Aries, Pisces, Aquarius

Aquarius	Aquarius, Cancer, Sagittarius, Taurus, Libra, Pisces, Leo, Capricorn, Gemini, Scorpio, Aries, Virgo
Pisces	Pisces, Cancer, Scorpio, Aries, Leo, Sagittarius, Taurus, Virgo, Capricorn, Gemini, Libra, Aquarius

Dasha periods

The dasha years of each sign is derived from the distance of its lord from the dasha sign. A step by step method is given.

1. Decide that the dasha sign belongs to direct (savya) or indirect (apsavya) group. Please note that we see the dasha sign and not 9th from it. The 9th is seen for deciding the order of dasha only and not for dasha period.
2. There are special rules for Scorpio and Aquarius. For all other signs proceed as under.
3. For signs of direct group count directly to is lord. For signs belonging to indirect group then count indirectly to its lord. Both signs are included.
4. Deduct one year from the count to arrive the dasha years.
5. If the lord is in the same sign then give 12 years.
6. Ketu is taken as co ruler of Scorpio and Rahu is taken as co ruler of Aquarius. Because of this dual lordship of these signs we have to apply special rules. We must carefully apply these rules to avoid any error in dasha periods. The rules are same for these two signs. For Scorpio we consider Ketu along with Mars. For Aquarius we consider Rahu along with Saturn. The counting for Scorpio is direct and for Aquarius it is indirect. The rules for Scorpio are given. For Aquarius take Rahu and Saturn instead of Mars and Ketu.

a. If Mars is placed in Scorpio and Ketu is in some other sign then count up to other sign where Ketu is placed. Similarly if Ketu is in Scorpio and Mars in some other sign then count to Mars.

b. When Mars and Ketu are in Scorpio then give 12 years.

c. When Mars and Ketu are not in Scorpio but together in some other sign then count to the sign occupied by both of them together.

d. When Mars and Ketu are in different signs (other than Scorpio) then counting is to the stronger of the two. To decide the stronger we follow the rules given;

   i. A planet associated with more number of planets is stronger than the other.

   ii. When both are not associated with any planet or are with same number of planets than the one having higher degrees is the stronger. If degrees are same then decide on minutes and seconds.

Antar dasha

Calculation of Antar dasha is not clearly given. We are taking Parashar method given in BPHS. This is given as general rule in the Chara dasha chapter. Each Maha dasha period is equally divided in twelve antar dasha or sub periods. The first antar dasha in every Maha dasha is of the sign occupied by its lord. The other follows in order. This order is not specified. The order of Narayan dasha depends on the ninth sign. As such it is taken.

We will now examine the application of this phalit dasha for timing the events on some charts.

Chapter 07

Navamsha Dasha

Navamsha dasha is an important tool to confirm the results obtained from other dashas. It may be rashi or nakshatra dasha. We can apply this directly and get good results.

Sage Jaimini have given two directions for navamsha dasha. These are,

1. When lagan is an odd sign the navamsha dasha starts from lagan.
2. When lagan is an even sign the navamsha dasha start from adarsha sign.

Many questions arise from this. The lagan referred is of birth chart or the navamsha chart?

The order, sequence and dasha periods are also not clear. The dasha is to be seen in birth chart or the navamsha chart? What is adarsha sign?

Many scholars have given different interpretation. The best way is to examine the dasha on practical examples. We are giving three methods and will examine them on some horoscopes.

Method 1

Applicability

This dasha is applied on the **navamsha** chart of the horoscope. It is taken as independent chart. The planet

position and lagan referred is of navamsha only. This dasha is universally applicable. However the karakas are decided in the birth chart and not in navamsha. The sign occupied by AK in navamsha is called the Swamsha. This sign in birth chart is called Karkamsha.

Starting dasha

Dasha starts from the lagan sign of navamsha if it is odd and start from seventh sign if navamsha lagan is even.

Order of dasha

Dasha order is always direct whether it starts from lagan or seventh house. In other words it direct for both odd and even signs.

Sequence of dasha

Dasha sequence is direct and regular. A ready table is given for dasha sequence of navamsha dasha.

Navamsha dasha order

Sign of navamsha lagan	Starting Dasha	Order of Navamsha dasha
Aries	Aries	Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces
Taurus	Scorpio	Scorpio, Sagittarius, Capricorn, Aquarius, Pisces, Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra
Gemini	Gemini	Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces, Aries, Taurus

Cancer	Capricorn	Capricorn, Aquarius, Pisces, Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius
Leo	Leo	Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces, Aries, Taurus, Gemini, Cancer
Virgo	Pisces	Pisces, Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius
Libra	Libra	Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces, Aries, Taurus, Gemini, Cancer, Leo, Virgo
Scorpio	Taurus	Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces, Aries
Sagittarius	Sagittarius	Sagittarius, Capricorn, Aquarius, Pisces, Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio
Capricorn	Cancer	Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces, Aries, Taurus, Gemini
Aquarius	Aquarius	Aquarius, Pisces, Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn
Pisces	Virgo	Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces, Aries, Taurus, Gemini, Cancer, Leo

Dasha period

1. Count directly from dasha sign to its lord if the dasha sign is odd.
2. Count indirectly from dasha sign to its lord if the dasha sign is even.
3. Give full 12 years when the dasha lord is in sign itself. Also give 12 years if lord is in 12th from dasha sign in the order of counting.
4. No dual lordship of Scorpio and Aquarius is considered.
5. No deduction of one year is applied.

Antar dasha

1. The mahadasha keeps the first antardasha to itself.
2. Each antardasha is 1/12 of the mahadasha. It is as many months as there are years in mahadasha.
3. The order is direct.

Method 2

Applicability

This method also uses navamsha chart. The navamsha is used to decide the order and starting dasha sign.

Starting dasha

Dasha starts from the navamsha lagan sign if it is odd and start from sign of lagan. If navamsha lagna is even the dasha starts from seventh sign from navamsha lagna.

Order of dasha

Dasha order is direct always.

Sequence of dasha

Dasha sequence is direct regular. A ready table is given for dasha sequence of navamsha dasha.

Navamsha dasha order

Sign of navamsha lagan	Starting Dasha	Order of Navamsha dasha
Aries	Aries	Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces
Taurus	Scorpio	Scorpio, Sagittarius, Capricorn, Aquarius, Pisces, Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra
Gemini	Gemini	Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces, Aries, Taurus
Cancer	Capricorn	Capricorn, Aquarius, Pisces, Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius
Leo	Leo	Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces, Aries, Taurus, Gemini, Cancer
Virgo	Pisces	Pisces, Aries, Taurus Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius
Libra	Libra	Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces, Aries, Taurus, Gemini, Cancer, Leo, Virgo

Scorpio	Taurus	Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces, Aries
Sagittarius	Sagittarius	Sagittarius, Capricorn, Aquarius, Pisces, Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio
Capricorn	Cancer	Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces, Aries, Taurus, Gemini
Aquarius	Aquarius	Aquarius, Pisces, Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn
Pisces	Virgo	Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces, Aries, Taurus, Gemini, Cancer, Leo

Dasha period

1. Count directly from dasha sign to its lord in navamsha chart when it is odd. Count indirectly from dasha sign to its lord in navamsha chart when it is even.

2. Give full 12 years when the dasha lord is in sign itself. Also give 12 years when the lord is in 12th from the sign in the order of counting.

3. Single lordship of Scorpio and Aquarius is considered. Ketu is lord of Scorpio and Rahu is lord of Aquarius. For these signs Mars and Saturn are not considered lords. We count to Ketu for Scorpio in reverse order and to Rahu for Aquarius in direct order.

Antar dasha

1. The mahadasha keeps the first antardasha to itself.
2. Each antardasha is 1/12 of the mahadasha. It is as many months as there are years in mahadasha.
3. The order is direct always.

Method 3

This method is taken from updesha sutras.

Applicability

This method do not use navamsha chart. The **birth** chart is used to decide the order and starting dasha sign.

Starting dasha

Dasha starts from the **birth** lagan sign if it is odd and start from sign of lagan. If lagna of **birth** chart is even sign the dasha starts from its adarsh sign. Adarsh sign is the odd sign of the lord of the even sign. For cancer it is Aquarius. A ready table is given for the adarsh signs. For Capricorn it is Leo. The exception is the signs of Saturn, Sun and Moon.

Table for adarsh sign

Sign	Adarsh sign
Taurus	Libra
Cancer	Aquarius
Virgo	Gemini
Scorpio	Aries
Capricorn	Leo
Pisces	Sagittarius

Order of dasha

Dasha order is always direct.

Sequence of dasha

Dasha sequence is direct. A ready table is given for dasha sequence of navamsha dasha.

Navamsha dasha and Marriage

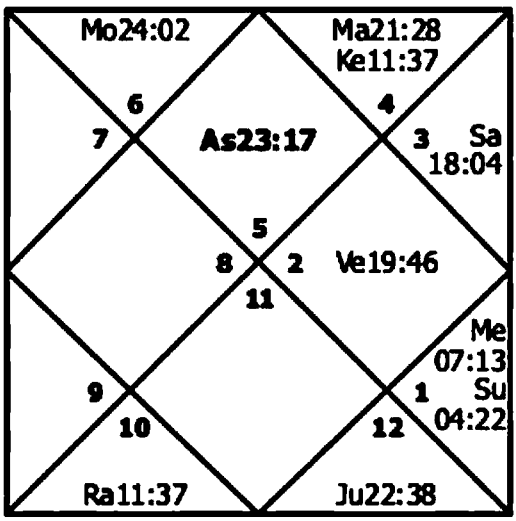

Since navamsha dasha uses navamsha chart it is worth to examine this dasha for timing of marriage. We will take few cases of known horoscopes.

Rule for examination

Normally we take the running dasha as the lagna and analyse the results of dasha with Jaimini principles. The seventh house and or seventh lord from dasha should have relation with Dk. If it has relation with Pk also then it is an indicator of two things. It may a marriage of choice or children are born early. We apply this rule on three horoscopes. Most of us ignore the lord of house from running dasha. I feel it is important.

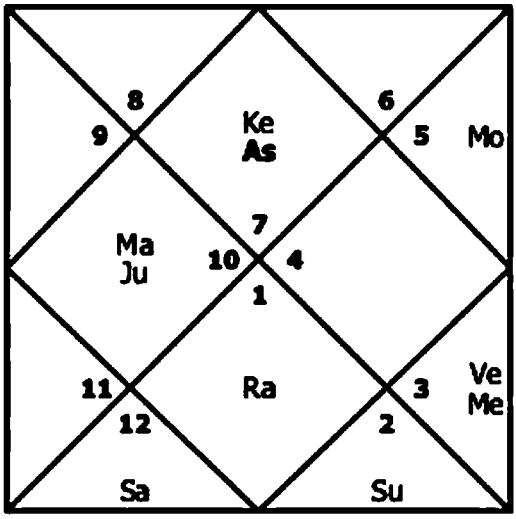

The calculation of dasha periods is not given. The readers are requested to check the navamsha dasha. We are discussing the application by method 1 only. In this discussion only navamsha chart will be used.

Chapter 08

Narayan Shoola Dasha (NSD)

Nirayana shoola dasha is seen for longevity.

Starting sign

NSD starts from stronger of the lagan and the 7th house. We have to work out the Jaimini Rashi Bala or the strength of the signs in lagan and seventh house. Method of working the strength of signs is given in the basic chapter.

Order of dasha

The order of dasha is always direct. If dasha starts from cancer, the next dasha will be of Leo and so on.

Major Period

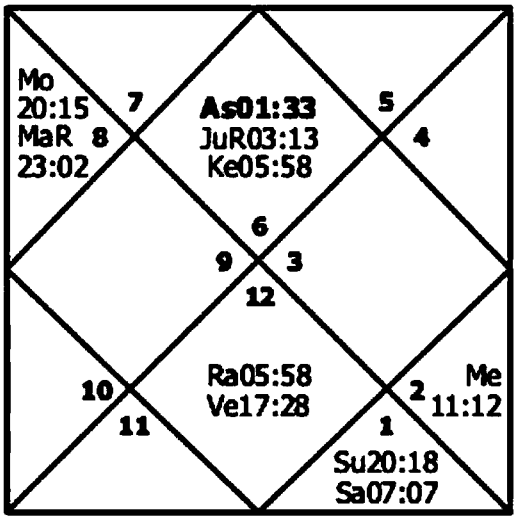

Each dasha is of nine years. The total period of all signs is 108 years, which is taken as full life span of a human.

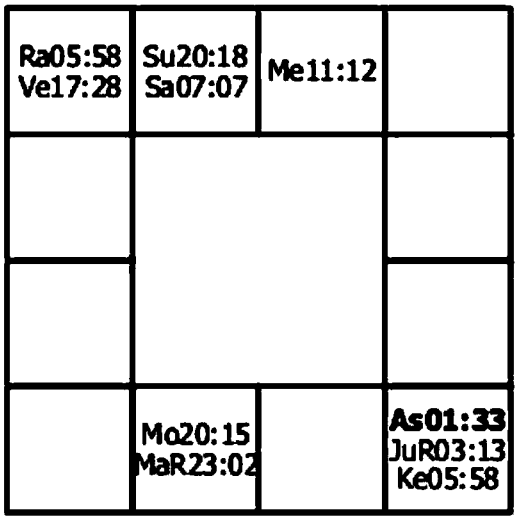

Sub periods

In each Maha dasha there are 12 sub periods of 9 months each. The first sub period belongs to the Maha dasha and is followed in the direct order.

We refer to the example chart given below.

Example; DOB – 4th May 1969, POB Almora, TOB 15.00

Ak	AmK	BK	MK	PK	GK	DK
Ma	Su	Mo	Ve	Me	Sa	Ju

The lagan is Virgo and seventh house is Pisces. The strength of these two is 281.25 and 363.75 respectively. Pisces is stronger and NSD starts from Pisces. The date of birth is 4th may 1969. The NSD dasha will be,

Table NSD Dasha

The Nirayana shoola dasha is examined in birth chart and Varanasi Trimshamsha. Trimshamsha is the chart for misfortunes and mishaps.

Trimshamsha

Trimshamsha is the thirtieth division of each sign. Each division is of 1-degree longitude. For odd signs Aries, Gemini, Leo, Libra, Sagittarius and Aquarius the first division or first Trimshamsha falls in Aries. For even signs Taurus, cancer, Virgo, Scorpio, Capricorn and Pisces the first Trimshamsha starts from Libra. The other Trimshamsha are counted in clockwise direction. This Trimshamsha chart is also known as Varanasi Trimshamsha also. Trimshamsha is seen for miseries and misfortunes.

Table for ready reference and calculation is given.

The dasha running at any time is analyzed with the help of laid out standard principles of Vedic astrology. Some observations are given for the identification of fatal period. These are observations from the practical horoscopes analyzed for this purpose.

1. Any association of dasha sign with a strong benefic or the sign lord is a great protection and the death does not happen in this dasha period.
2. Saturn should make a relation with the dasha sign to deliver the fatal blow in the dasha period.
3. Rahu/Ketu is in 6th, 8th or 12th from dasha.
4. Conditions 2 and 3 are mutual. If Rahu/Ketu is in dasha sign then Saturn is in 6th or 8th or 12th from it.
5. Association of Mars with dasha sign (specially the sub period) gives sudden end. It may be accident or death by wounds suffered in war etc. This is particularly true for Trimshamsha. Malefic association gives death with pain. Benefic association gives painless end.
6. When the confirmation of fatal period is seen in Trimshamsha (rule 2 and 3 above) the death is after some problems.

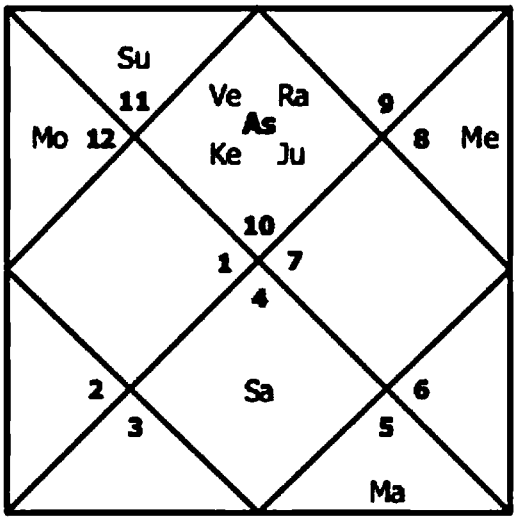

7. When this confirmation comes out in birth chart then the death is in normal way and without any agony. The association of any benefic further improves the conditions.
8. Any relation of dasha with Rudra and Maheswara needs special attention. Rudra is connected to the dasha sign or is in the trine house from dasha.
9. These are reconfirmed in birth chart before pronouncing the result.
10. The death inflicting houses are second and seventh house of the birth chart. This can be extended to Trimshamsha also. We will see the maracas of birth chart. The maracas are Planets in 2nd and 7th house, Lord of 2nd and 7th house and the signs in 2nd and 7th house. The dasha running at the time of death makes a relation with these maracas in birth chart and Trimshamsha and supplement the main conditions.

Taurus is the fifth dasha. The dasha periods of Taurus, Gemini, Cancer and Leo will operate in Madhyaayu span. In birth chart Leo has Mars without any benefic aspect. So Leo can be harmful.

We look in the Trimshamsha chart for selection of sub period and we find Capricorn has the worst affliction. It has Rahu and Ketu and is aspected by Mars. The maracas in the birth chart are,

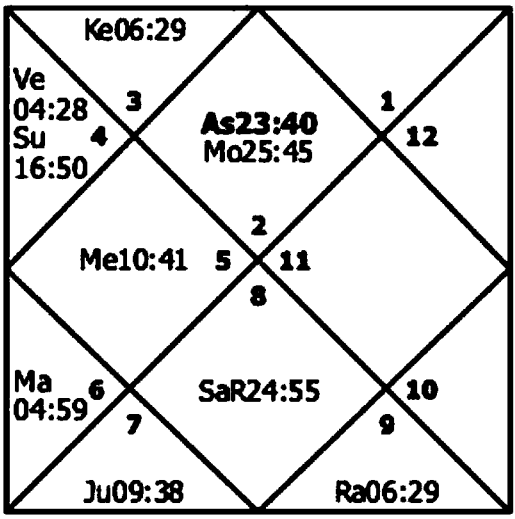

a. Leo and Capricorn

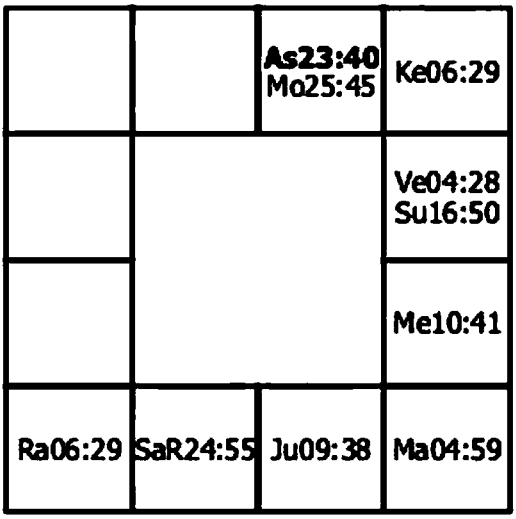

b. Sun and Saturn

c. Mars and Moon

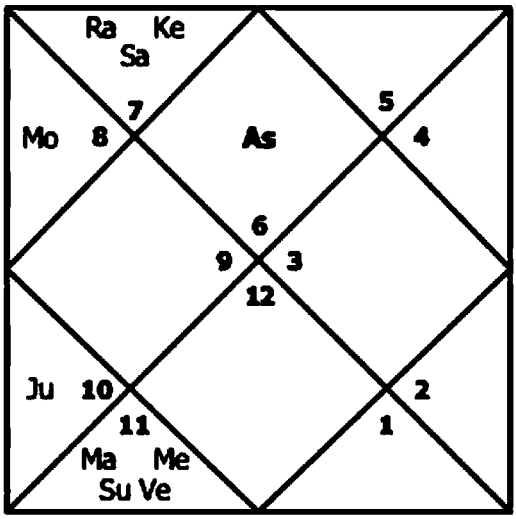

At the time of death, the dasha was Leo/Capricorn. All the conditions are fulfilled in birth chart and Trimshamsha. In birth chart, Major period is in 2nd house and is with Mars. The sub period is in 7th house and with moon and aspected by Mars. In Trimshamsha MD is with Mars and AD aspected by Mars. The Trimshamsha is the death-giving chart with death in as a mishap. Mars is prominent.

Chapter 09

Trikon Dasha

The trikonas or the trines from ascendant are the best benefic signs. The lords of trines are always considered Benefics. Trines are called laxmi sthana and also the dharma trines.

There are three methods of computing trikona dasha. We will discuss all three but we give first the most used and tried method.

Applicability

Both Parashar and Jaimini have not assigned any conditions to be present in a horoscope to qualify it for the application of this dasha. They have said that this dasha commences from the strongest sign in the trine. It is the strongest of ascendant, fifth house and the ninth house. A sign is stronger when occupied by a planet. Therefore it can be inferred that this dasha is more suited or applicable when the trines of a horoscope are occupied by planets. The question now arises as to how many planets should be in trines and do we include Rahu and Ketu also as planets?

Trines have three signs and some infer that all three signs should be occupied or at least three planets except Rahu and Ketu are in trines not necessarily all the trines. However the strengths of signs can be assessed even when there are no planets in a sign.

We will now study the three methods of writing the trikona dasha.

Method 1

This method is popular in Institute of Astrology of Bhartiya Vidya Bhavan. This method is quite similar to B. V. Raman method except for a minor variation. This method has given good results.

Starting Sign

This dasha commences from the strongest sign of the trines from lagna. To assess the strength of a sign, a step by step method is given by Jaimini and is as follows,

1. A sign occupied by more number of planets is stronger than the sign occupied by less number of planets.
2. If the number of planets is same then check the status of planets like exaltation, own sign etc.
3. If this is also same then check the sign. A dual sign is strongest. The next stronger is a fixed sign and the movable sign is the weakest.
4. It is safe to determine the strength of all three signs according to the Jaimini method.

Dasha Order

This dasha moves in group of trines. We have the starting sign of the dasha. The first three dasha will be of the three signs of the trine group. The order of dasha is direct when the ninth house from starting sign is a savya sign. The order is reverse when the ninth house belongs to apsavya sign. The savya signs are Aries, Taurus, Gemini, Libra, Scorpio and Sagittarius. The apsavya signs are Cancer, Leo, Virgo, Capricorn, Aquarius and Pisces.

After completion of three dasha of one trine group, the next sign from the starting dasha sign and in the order of dasha is taken. The three dasha of next group

then follows. In similar order the third group dasha operates. And lastly the fourth group operates. After completion of twelve signs, the dasha repeats again.

A ready table for the order of dasha from the starting sign is given. This starting sign is the strongest of ascendant, fifth and ninth house.

Table for Trikona Dasha Order

Dasha Periods

The maha dasha period in years is arrived by counting from the sign to its lord and subtracting one from it. The counting is done in direct or indirect order depending upon the sign. The counting is direct if the sign belongs to savya group. It is indirect for apsavya sign. Please note that the counting for dasha period is dependent on sign itself and not the ninth sign from it.

Special rules for dual lordship signs Scorpio and Aquarius is followed.

Ketu is taken as co ruler of Scorpio and Rahu is taken as co ruler of Aquarius. Because of this dual lordship of these signs we have to apply special rules. We must carefully apply these rules to avoid any error in dasha periods. The rules are same for these two signs. For Scorpio we consider Ketu along with Mars. For Aquarius we consider Rahu along with Saturn. The

counting for Scorpio is direct and for Aquarius it is indirect. The rules for Scorpio are given. For Aquarius take Rahu and Saturn instead of Mars and Ketu.

a. If Mars is placed in Scorpio and Ketu is in some other sign then count up to other sign where Ketu is placed. Similarly if Ketu is in Scorpio and Mars in some other sign then count to Mars.

b. When Mars and Ketu are in Scorpio then give 12 years.

c. When Mars and Ketu are not in Scorpio but together in some other sign then count to the sign occupied by both of them together.

d. When Mars and Ketu are in different signs (other than Scorpio) then counting is to the stronger of the two. To decide the stronger we follow the rules given;

   I. A planet associated with more number of planets is stronger than the other.

   ii. When both are not associated with any planet or are with same number of planets than the one having higher degrees is the stronger. If degrees are same then decide on minutes and seconds.

Sub Periods / Antardasha

Parashar lays down that the dasha periods will be like chara dasha. The order of dasha for each sign is given above. The first sub period will belong to the dasha sign of the maha dasha. Each sub period will be of one twelfth of maha dasha period. Simply the sub period will be as many months as the years of maha dasha.

Method 2

This method is advocated by Irangati Rangacharya. He has quoted it from Vriddha Karika. The dasha order is different for a male and a female horoscope.

Starting Sign

The trikona dasha starts from the stronger of first, fifth and ninth house sign. If the strongest is an odd sign the dasha starts from it. If the strongest is even sign, it starts from its frontal (sammukha) sign. The order of dasha is by padakrama system. The starting sign will always be an odd sign and the dasha will run in direct order.

For the purpose of this method we explain the meaning of frontal sign and the padakrama.

Frontal Signs

Sign	Frontal Sign
Aries	Scorpio
Taurus	Libra
Gemini	Virgo
Cancer	Aquarius
Leo	Capricorn
Virgo	Gemini
Libra	Taurus
Scorpio	Aries
Sagittarius	Pisces
Capricorn	Leo
Aquarius	Cancer
Pisces	Sagittarius

(Note; if the strongest of first, fifth and ninth is even sign then dasha start from its frontal sign.)

Padakrama order of dasha

If the starting sign is,

1. Odd and movable, Aries and Libra-then it moves in direct order.
2. Even and movable, Cancer and Capricorn – then it moves in reverse order.
3. Odd and fixed, Leo and Aquarius – then it moves in direct order but each next dasha is of sixth sign from it.
4. Even and fixed, Taurus and Scorpio – then it moves in reverse order but each next dasha is of sixth sign from it.

5. Odd and dual, Gemini and Sagittarius – then it moves in direct order but next dasha are in trine order.
6. Even and dual, Virgo and Pisces – then it moves in reverse order but next dasha are in trine order.

We give a ready table to get the order of dasha from the stronger sign of the trine. This table is for **male nativity**.

Stronger trine sign	**First dasha**	**Order of dasha**
Aries	Aries	Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces
Taurus	Libra	Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces, Aries, Taurus, Gemini, Cancer, Leo, Virgo
Gemini	Gemini	Gemini, Libra, Aquarius, Cancer, Scorpio, Pisces, Leo, Sagittarius, Aries, Virgo, Capricorn, Taurus
Cancer	Aquarius	Aquarius, Cancer, Sagittarius, Taurus, Libra, Pisces, Leo, Capricorn, Gemini, Scorpio, Aries, Virgo
Leo	Leo	Leo, Capricorn, Gemini, Scorpio, Aries, Virgo, Aquarius, Cancer, Sagittarius, Taurus, Libra, Pisces
Virgo	Gemini	Gemini, Libra, Aquarius, Cancer, Scorpio, Pisces, Leo, Sagittarius, Aries, Virgo, Capricorn, Taurus

Libra	Libra	Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces, Aries, Taurus, Gemini, Cancer, Leo, Virgo
Scorpio	Aries	Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces
Sagittarius	Sagittarius	Sagittarius, Aries, Leo, Capricorn, Taurus, Virgo, Aquarius, Gemini, Libra, Pisces, Cancer, Scorpio
Capricorn	Leo	Leo, Capricorn, Gemini, Scorpio, Aries, Virgo, Aquarius, Cancer, Sagittarius, Taurus, Libra, Pisces
Aquarius	Aquarius	Aquarius, Cancer, Sagittarius, Taurus, Libra, Pisces, Leo, Capricorn, Gemini, Scorpio, Aries, Virgo
Pisces	Sagittarius	Sagittarius, Aries, Leo, Capricorn, Taurus, Virgo, Aquarius, Gemini, Libra, Pisces, Cancer, Scorpio

For female nativity the even signs take importance. If the stronger of first, fifth and ninth sign is an even sign then dasha starts from it. If it is an odd sign then dasha start from its frontal even sign. The dasha runs in reverse and in padakrama order. The first dasha will always be of an even sign.

We give a ready table to get the order of dasha from the stronger sign of the trine. This table is for **Female nativity**.

Stronger trine sign	First dasha	Order of dasha
Aries	Scorpio	Scorpio, Gemini, Capricorn, Leo, Pisces, Libra, Taurus, Sagittarius, Cancer, Aquarius, Virgo, Aries
Taurus	Taurus	Taurus, Sagittarius, Cancer, Aquarius, Virgo, Aries, Scorpio, Gemini, Capricorn, Leo, Pisces, Libra

Cancer	Cancer	Cancer, Gemini, Taurus, Aries, Pisces, Aquarius, Capricorn, Sagittarius, Scorpio, Libra, Virgo, Leo
Leo	Capricorn	Capricorn, Sagittarius, Scorpio, Libra, Virgo, Leo, Cancer, Gemini, Taurus, Aries, Pisces, Aquarius
Virgo	Virgo	Virgo, Taurus, Capricorn, Leo, Aries, Sagittarius, Cancer, Pisces, Scorpio, Gemini, Aquarius, Libra
Libra	Taurus	Taurus, Sagittarius, Cancer, Aquarius, Virgo, Aries, Scorpio, Gemini, Capricorn, Leo, Pisces, Libra

Pisces	Pisces	Pisces, Scorpio, Cancer, Aquarius, Libra, Gemini, Capricorn, Virgo, Taurus, Sagittarius, Leo, Aries

Dasha Periods

The maha dasha period in years is arrived by counting from the sign to its lord and subtracting one from it. The counting is done in direct or indirect order depending upon the sign. The counting is direct if the sign is odd. It is indirect for even sign.

Special rules; if the lord is in seventh from the sign then give ten years. When the dasha sign lord is exalted add one year to the period arrived. When dasha sign lord is debilitated then deduct one year to the period arrived. The dual lordship rules for Scorpio and Aquarius are **not** applicable.

Sub Periods or Antardasha

Each sub period will be one twelfth of the maha dasha period. The first sub period in any maha dasha will be of the maha dasha sign. The next sub periods will follow in the sequence of maha dasha of the horoscope.

Example

We work out the trikona dasha for the example given in method 1. This is a chart of a female.

Starting Sign

Sub periods/ antardasha

The sub periods are dependent on the current maha dasha sign. A ready table for sub periods of the maha dasha is given. These periods are different for a male or a female horoscope.

The duration of sub periods is one twelfth of the maha dasha period.

The example chart has been randomly selected. This lady won a lottery of 35 million dollars on 26 October 1996. Trikona dasha shows the results of gains because it runs in trikona. We can use this dasha for timing of any event of life. We have calculated the sub periods for this sudden windfall date for all three methods of trikona dasha. Analysis of the event is now discussed in all three methods.

Method 1

The trikona dasha running was Gemini/ Pisces. From Gemini, the eleventh house is Aries. Exalted Sun is placed there. Sun is PK which indicate fifth house. Aries is aspected by Saturn, Mars, Venus and Jupiter. The eleventh house is super strong with raj yoga's. Lord of eleventh house from Gemini is Aries. Mars is aspecting Aries.

Pisces is tenth house from maha dasha sign. It is aspected by Mk, AK and Dk. From Pisces the eleventh and second house are strong. Eleventh house from Pisces is Capricorn. Saturn is aspecting Capricorn. Mars and Saturn are together in fifth house of speculation.

The windfall is clearly seen.

Method 2

In this method the trikona dasha running was Pisces/Virgo. From Pisces the eleventh house is Capricorn. Capricorn is aspected by Mars, Saturn and Mercury. It promises gains. The sub period is Virgo. Eleventh house from Virgo is aspected by three benefics. The lord of fifth from Virgo is aspecting it. The eleventh

and second house are strong from Pisces. This windfall is seen.

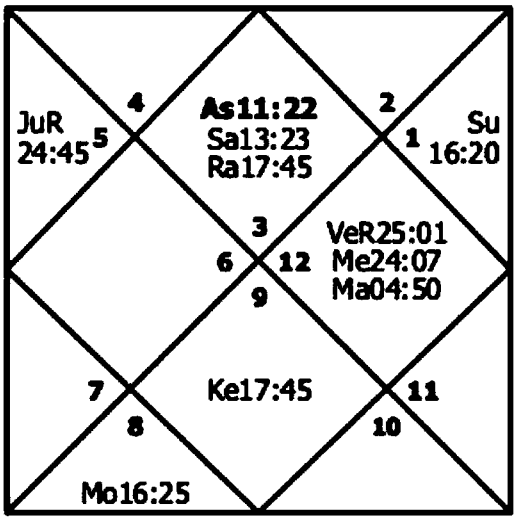

Method 3

The trikona dasha running was Taurus/ Capricorn. From Taurus the eleventh house is Pisces. It has Rahu in it and aspected by Moon. The sub period Capricorn is ninth from maha dasha. It is aspected by Saturn, Mercury and Mars.

Of all three methods the first method shows the event clearly.

We will now discuss few horoscopes to understand the application of trikona dasha. **We will use only method 1 in our discussions.** Readers can apply other two methods on these charts also

Conclusion

From our discussion we can infer the following.

1. Trikona dasha can be applied on horoscopes where trines are strong.
2. The timing of achievements is better indicated by this dasha.
3. The first method is the method which uses the trikona jumps in dasha. Without this jump the calculations are same as chara dasha. If it were to be same as chara dasha then it will not be mentioned by sages.

Chapter 10

Atmanadi Dasha

This dasha is used for timing of death. We give the method of Irangati Rangacharya. This dasha is simple to calculate. This dasha is also called hora dasha.
