Preface

Career is of utmost importance for all individuals. From childhood parents are worried about the future of their children. They are worried about the education of their children. The four concerns of a person can be summed up by ECMC. This stands for education, career, marriage and children. This book deals with first two items education and career.

The divisional charts or Vargas are the microscope of a horoscope. Dashamsha is very important chart and have been dealt in detail in this book. Almost all aspects of professional life and the karma of life are analyzed astrologically. The astrological principles are illustrated by examples.

Any suggestions for improvement are most welcome.

I thank Mr. Narender Sagar for his continued support and encouragement.

Dashamsha is a divisional chart erected from birth chart. It magnifies the tenth house of a horoscope. Tenth house is the karma house and as such this divisional chart is also called karmamsha.

Dashamsha is the tenth division of the horoscope. This chart highlights the results of tenth house. It is studied for professional achievement, career, public image, trends of destiny, honors, success, promotion/ demotions, stress, and earned income by self effort, hobbies and interests.

Parashar Dashamsha

Each sign is divided into 10 equal parts of 3 degrees each. The first Dashamsha is from 0 degree to 3 degrees, second Dashamsha is from 3 to 6 degrees and so on.

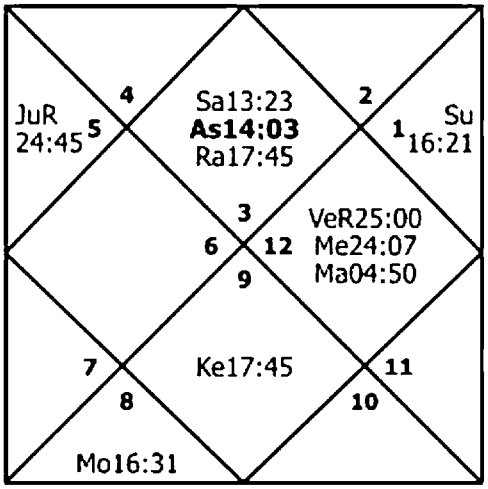

For odd signs the first Dashamsha falls in sign itself, the second goes to the second sign in the direct order and so on. For even signs, the first Dashamsha goes to the ninth house from the sign occupied and the others fallow in the direct order.

A ready table for casting dashamsha chart from the birth chart is given below. We will work out the signs occupied by lagan and nine planets in dashamsha based on their longitudes in birth chart.

Longitudes in Dashamsha

Working of longitudes of lagan and planets in dashamsha chart is based on the fact that 3 degrees of birth chart is one sign in dashamsha. We can derive the longitudes by two methods. In both methods the sign occupied in dashamsha is already decided.

Method 1

Note the degrees and minutes occupied by a planet or lagan in a sign. (Ignore the sign). Multiply the degrees and minutes by 10. Expunge multiples of 30 degrees from the product. The remainder is the longitude in dashamsha. We now calculate the longitudes of lagan and planets in the example chart.

Lagan. Lagan is 14 deg. 03 min. in birth chart. Multiply it by 10. We get 140 deg. 30 min. Expunge 120 deg. And we get 20 deg. 30 min. as the longitude of lagan. The sign is Libra.

Sun. Sun is 16 deg. 21 min. Multiplying it with 10 we get 160 deg. 210 min. Expunging 150 deg. We get 13 deg. 30 min. The sign is Virgo.

Moon. The Moon is at 16 deg. 31 min. multiplying it by 10 and expunging multiples of 30 we get 15 deg. 10 min. as longitude of Moon.

Mars. Mars is at 4 deg. 50 min. multiplying it by 10 and expunging multiples of 30 we get 18 deg. 20 min. as longitude of Mars.

Mercury. Mercury is at 24 deg. 07 min. multiplying it by 10 and expunging multiples of 30 we get 1 deg. 10 min. as longitude of Mercury.

Jupiter. Jupiter is at 24 deg. 45 min. multiplying it by 10 and expunging multiples of 30 we get 7 deg. 30 min. as longitude of Jupiter.

Venus. Venus is at 25 deg. 0 min. multiplying it by 10 and expunging multiples of 30 we get 10 deg. 0 min. as longitude of Venus.

Saturn. Saturn is at 13 deg. 23 min. multiplying it by 10 and expunging multiples of 30 we get 13 deg. 50 min. as longitude of Saturn.

Rahu. Rahu is at 17 deg. 45 min. multiplying it by 10 and expunging multiples of 30 we get 27 deg. 30 min. as longitude of Rahu.

Ketu. Ketu is same as Rahu.

Method 2

In this method, we workout the increment gained by the planet over the completed degrees of dashamsha. Multiply this increment by 10 to get the degrees and minutes of the planets.

Lagan. The completed dashamsha is 12 degrees. The increment is 2 degrees 03 minutes. Multiply by 10. We get 20 degrees 30 minutes.

Sun. The completed dashamsha is 15 degrees. The increment is 1 degree 21 minutes. Multiply by 10. We get 13 degrees 30 minutes.

Moon. The completed dashamsha is 15 degrees. The increment is 1 degree 31 minutes. Multiply by 10. We get 15 degrees 10 minutes.

Mars. The completed dashamsha is 03 degrees. The increment is 1 degree 50 minutes. Multiply by 10. We get 18 degrees 20 minutes.

Mercury. The completed dashamsha is 24 degrees. The increment is 0 degree 07 minutes. Multiply by 10. We get 1 degree 10 minutes.

Jupiter. The completed dashamsha is 24 degrees. The increment is 0 degree 45 minutes. Multiply by 10. We get 7 degrees 30 minutes.

Venus. The completed dashamsha is 24 degrees. The increment is 1 degree 0 minutes. Multiply by 10. We get 10 degrees 0 minutes.

Saturn. The completed dashamsha is 12 degrees. The increment is 1 degree 23 minutes. Multiply by 10. We get 13 degrees 50 minutes.

Rahu. The completed dashamsha is 15 degrees. The increment is 2 degrees 45 minutes. Multiply by 10. We get 27 degrees 30 minutes.

The longitude of planets can be made use for finer predictions and is a wide area of further research.

Dashamsha deities.

Basics

Parashar has attributed "Mahat phalam "to dashamsha. It means that results of great importance are seen from dashamsha. The complete dashamsha chart is a representation of all karmas which a person is destined to undergo in this life. We must understand the difference between all karmas and the karmas with which we earn our living and daily needs. The " mahat Phalam" are the great karmas which must be undertaken to make this life meaningful. The basic understanding of Dashamsha is from lagan, tenth house and Capricorn.

Lagan

Lagan of dashamsha is the key to all aspects of karmas of life. The sign rising in lagan and the influence on it indicate and determine our intentions and inspirations regarding all karmas of this life. The strength of these influences is the deciders. The lagan lord shows the ways a person adopts to fulfill these aspirations. It is indicator of inward aspirations.

Tenth house

The tenth house of dashamsha is the house from which we earn our daily needs. The tenth lord is way and means to earn it. Tenth house is your outward aspirations. The social influence is seen from this house. It indicates your career, profession, honor, fame and status. This house is seventh from fourth house and takes you away from family and home. It tells you about your identity.

Capricorn

Capricorn is the tenth house of kaal purush chart and must be analyzed for profession. Planets in Capricorn and influencing Capricorn are important to decide the path of your career. This is especially true for Dashamsha.

Kaal purush

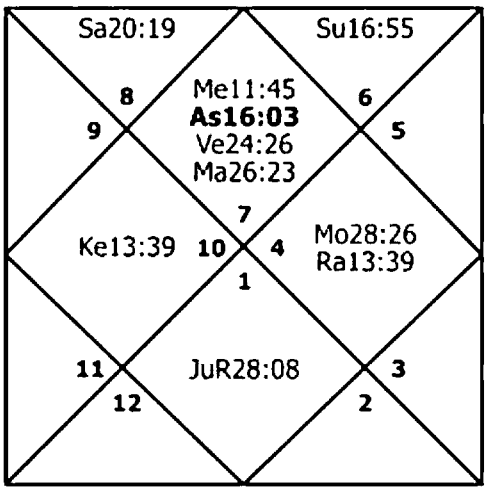

Kaal purush chart is the basic chart. This chart gives a lot of information through the ownership, exaltation and debilitation signs of planets in this chart. We understand this in reference to tenth house. This applies to Dashamsha as well.

1. **Exaltation** – Mars gets exalted in tenth house. Exalted planet gives ego and status in profession.
2. **Debilitation** – Jupiter is debilitated in tenth house. It gives no ego or status in profession.

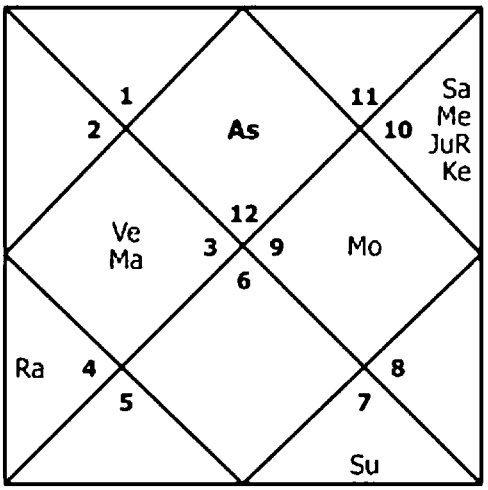

3. **Lord** – Saturn is the lord of this house. Saturn is the owner and is responsible to maintain this house.
4. **Sign** – Capricorn is the sign of tenth house in kaal purush chart. Capricorn is also seen for promise and quality of profession.
5. **Jupiter** – Jupiter is exalted in fourth house. It is therefore significator of happiness in profession. Jupiter is debilitated in tenth house. Happiness and status do not go together.
6. **Sun** – Sun is exalted in lagan. Exalted Sun gives ego in professional life.
7. **Mars** – Mars is exalted in tenth house and gives authority in professional life.
8. **Venus** – Venus exalts in twelfth house of bed room. It is third from tenth.
9. **Mercury** – sixth house is the exaltation.

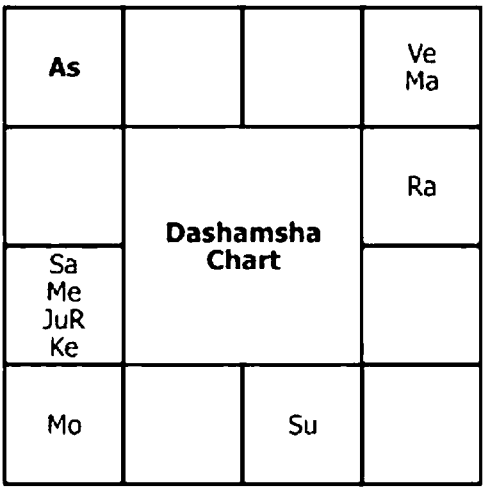

We take an example chart along with dashamsha to understand the lagan and tenth house of dashamsha.

In this Dashamsha Mercury is not having any association or aspects. The actions are independent.

We have considered the placement of tenth lord from lagan. Lagan of Dashamsha covers all karmas of life. The tenth house is the mean of earning of living. When we talk of earnings then we consider from tenth house. These placements will have different meaning when analyzed from tenth house. We can give a general rule to examine these placements. For earnings this should be seen from tenth house.

1. Placement in angles is good and is happiness giver.
2. Placement in trine gives prosperity being Laxmi sthana.
3. Placement in second and eleventh gives wealth.
4. Placement in third gives hard work and relentless efforts.
5. Placement in trik houses gives up and down, obstacles and changes.

We consider the placement of tenth lord in twelfth house from lagan. It is third from tenth. It will make person to do hard work for living. It is twelfth from lagan so gives obstacles in life. Similarly placement of tenth lord in ninth house has a different meaning for profession. It is twelfth from tenth and the person experience loss or no work.

Argala

Argala is an important consideration in deciding the mutual relation of houses, signs and the planets. The real picture emerges when we apply the Argala. It helps in correct assessment of the horoscope and in deciding the results of dasha. Argala means lock. A lock is used for keeping

Articles safely. It can also be used to prevent something to escape.

From any planet or house there are three types of Argala.

1. The planets in 4th, 2nd, and 11th cause Argala. These are countered or obstructed by planets in 10th, 12th and 3rd house respectively.
2. Planets in 5th also cause Argala. This is countered by planets in 9th.

3. When there are three or more malefic in 3rd house, they cause Vipreet Argala and is very favorable.
4. When the planets causing Argala is stronger than those obstructing then the former will prevail. This is true also for number of planets in both houses. More planets together give stronger Argala.
5. There is no counter for the Argala caused by three malefic planets in third house.
6. The Argala caused by placement of a planet in first one fourth quarter of the sign is obstructed by planet placed in fourth quarter of obstructing sign. Similarly 2nd quarter Argala is obstructed by planet placed in 3rd quarter.

   This is tabulated below.

Longitude of planet causing Argala	**Longitude of obstructing planet**
First quarter (0 to 7 – 30)	Fourth quarter (22 – 30 to 30 – 0)
Second quarter (7 – 30 to 15 – 0)	Third quarter (15 – 0 to 22 – 30)
Third quarter (15 – 0 to 22 – 30)	Second quarter (7 – 30 to 15 – 0)
Fourth quarter (22 – 30 to 30 – 0)	First quarter (0 to 7 – 30)

   Any planet not occupying this longitude will not cause obstruction.

7. The Argala effects will be felt in dasha of sign or planets concerned.

Parashar has given the effects of Argala. The results of Argala as stated in BPHS are;

1. When there is an Argala on lagan, Arudh lagan and from seventh from them, the person will be famous and fortunate.

2. A malefic or a benefic causing unobstructed Argala and aspecting lagan will make a person famous.

   Similarly any house having unobstructed Argala and aspecting the house will enhance the signification of the house.

   These are tabulated for easy reference.

House	**Result**
First	Famous
Second	Acquisition of wealth and grains
Third	Happiness from co born
Fourth	Gain of Residence, conveyance, relatives
Fifth	Sons, grandsons, intelligence
Sixth	Fear from enemy
Seventh	Abundant wealth and marital happiness
Eighth	Difficulty (long life)
Ninth	Fortunes
Tenth	Royal honor
Eleventh	Gains
Twelfth	Expenses

3. If there is an unobstructed Argala for lagan, 5th and 9th house, the person will definitely be famous and a king.

4. It is observed if the Argala causing planet happens to be the lord of the house also the effect of Argala is many fold.

5. This can be understood by a simple rule of grading the potential of Argala.

   The strongest Argala is caused when a planet is;

   a. Causing un obstructed Argala.

   b. Lord of the sign on which Argala is caused.

c. Also aspecting the sign on which Argala is caused. The aspect can be Parashar or Jaimini.

The strength of Argala is reduced when any or more conditions are not met. The strongest Argala is caused when all three conditions are met.

We take a horoscope for understanding Argala on tenth house.

Example DOB 13 January 1962, TOB 6.25, POB Chandigarh

Mo26:50			
	Birth Chart DoB 13-01-1962 ToB 06.25 PoB Chandigarh		Ra24:59
Ke24:59 Ju19:52 Me15:13 Sa07:45			
Su29:02 Ve25:35 Ma21:19 As13:48			

Eight planets are causing Argala on tenth house.

1. Argala from fourth house. Mars, Venus and Sun are placed in fourth house. They are not lords of Virgo. They do not aspect Virgo by planet aspect. They are aspecting by Jaimini aspect.
2. Argala from fifth house. Four planets Saturn, Jupiter, Mercury and Ketu are in fifth house from Virgo. Mercury is lord of Virgo. Jupiter is aspecting Virgo.
3. Rahu is in eleventh from Virgo and is gain Argala.

The Argala of birth horoscope is fine tuned with Argala in Dashamsha. **The application of Argala on status and timing of rise or fall in career will be discussed in respective chapters.**

Chapter 03

Avocation

Avocation is the means of acquiring money for livelihood. It is difficult to predict the avocation of a person in the present society where thousands of means of earnings are available. This needs a lot of experience to pinpoint the avocation of a person. We have to blend the significations of planets, signs, nakshatra and houses to arrive at some conclusion.

1. Education

Normally a person pursues an avocation in the area in which he gets his education. We can therefore try to find the education he has received or the skill he has acquired. A simple method is given to assess the field of education a person is likely to get.

Rule- Note the star lord of the fifth house lord. Analyze this star lord in birth chart for its placement in sign, association and aspect to decide the stream of education. We can take the lagan cusp degrees as the cusp of fifth house.

Application of the rule will be demonstrated in the example charts.

Linking with Dashamsha

The planet indicating education is linked with profession. Profession is indicated by Dashamsha. This planet is taken to Dashamsha and is analyzed for its placement, association and aspect to see its

importance in profession. This gives a confirmation regarding the education becoming profession or not.

2. Brihadjataka

Our start is from classics. Brihadjataka by Varahmihir has only one chapter on avocation. It contains only four shlokas and is the base for our study. These shlokas are now explained.

Shloka 1. Planets placed in tenth house from lagan and Moon bestows wealth as per their significations.

It states that the planet placed in tenth from lagan and Moon is the source of wealth. If there are planets in tenth from lagan and from Moon then all of them will provide wealth. The sources are as under;

Sun – from father; Moon – from mother; Mars – from enemy; Mercury – from friend; Jupiter – from brothers; Venus – from wife; Saturn – from servants. When planets are placed in tenth house sill we move to next Shloka.

Shloka 2 and 3. Note the lord of navamsha sign occupied by the lord of tenth house from lagan, Moon and Sun. The source of income will be according to the navamsha lord.

We have to note the navamsha sign lord of tenth lord from all three lagans. Some interpret it as the strongest of the three. The problem is the interpretation of strongest. Do we take strongest of lagan, Moon and Sun? Do we take strongest tenth lord from all three? Do we take strongest navamsha lord from these three?

In our opinion we should consider all three navamsha lords. Each of them will contribute to avocation. The avocation given by the navamsha lords are as under.

Sun – gold, scents, woolen materials, drugs.

Moon – cultivation, conch shell, whalebones, pearls, from women, protecting others.

Mars – metals, cooking, related to fire, from bravery, using weapons.

Mercury – reading and writing, arithmetic, poetry, fine arts, mechanical arts.

Jupiter – Brahmans, gods, mines, deal with ores, religious sacrifice, gifts, austerities, pilgrimages, serving religious people.

Venus – dealing with jewels, silver, cows and buffaloes.

Saturn – Hard labor, marching on road, hunting and act of torture, by lower acts not suiting to his rank.

Shloka 4 - When the said navamsha lord is placed in a friend's house then wealth is obtained from friends. When in enemy house then wealth is obtained from enemies. When it is in own sign then gets wealth from own house. When it is Sun and is exalted and have benefic aspect then earns through own prowess. If there are benefic planets in lagan, second and eleventh house then gets wealth easily from various sources.

3. Second method

This method is based on the star lord of tenth house. The profession is a signification of tenth house and not tenth lord. The lord is the manager of the house. We analyze the cuspal lord of tenth house for its placement, association and aspects in birth chart. The degree of lagan is taken as the degree of tenth house also. This is from the consideration that the degree of lagan is the mid cusp of lagan. Technically

it is not true. The rising degree of lagan is the start of lagan. Therefore we add fifteen degrees to arrive at the cusp of lagan. As such the cusp of tenth house is also arrived by adding fifteen degrees. We will use this method in our analysis.

We will understand application of these rules with practical examples. Before that we need to understand the significations of signs, planets and houses.

Chapter 04

Self Employed-Service

Everyone wants be independent in life. Nations have fought wars for independence. Nations have fought war to have authority over others and rule them. It is a basic instinct to be independent. This can even be observed in animals.

This way we can define profession as independent or dependent on others. **The profession in which we can take our own decision is called as self employed.** It can be service also. Any profession which does not allow this independence of decision making is service.

We will discuss some checks which are applied on a horoscope to decide the independence of decision or otherwise. The important checks are only given.

1. **Saturn** – Saturn is the kaal which controls our karma. He is servant of the planetary cabinet. Saturn is assigned two conditions in a horoscope. These are gocharastha and agocharashtha.
    a. **Gocharashtha** – This is the condition of Saturn when he is exalted, in own sign and not related to trik houses. When Saturn is exalted or in own sign and is related to trik houses than it indicate Government job of administrative level.
    b. **Agocharashtha** – When Saturn is debilitated, with Rahu or Ketu, combust, defeated in planetary war or related to trik houses is the condition of agocharashtha.

c. When Saturn is Gocharashtha the person is self employed.

d. When Saturn is Agocharashtha the person is in service.

e. If Saturn is Agocharashtha in birth horoscope and turns into Gocharashtha in navamsha or Dashamsha the person changes from service to self employment.

f. When Agocharashtha Saturn aspects its sign which is a trik house then Saturn becomes Gocharashtha.

g. If Saturn is Gocharashtha in birth horoscope and turns into Agocharashtha in navamsha or Dashamsha the person changes from self employment to service.

h. If Saturn remains in same condition in birth horoscope, navamsha and Dashamsha the person continues in same stream.

2. **Relation Of Saturn** – Next step is to check the aspect or conjunction of Saturn with Sun, Moon, tenth house and tenth lord in birth horoscope and Dashamsha. We have qualified Saturn and now we seek confirmation by Saturn relation.

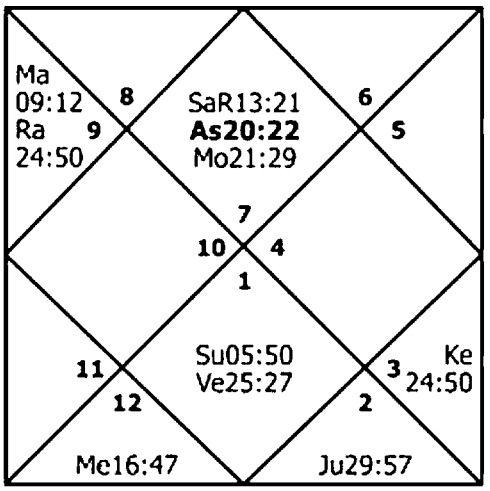

3. **Poorna Paramatma planets (PP Planets)** - Four planets are termed PP Planets. These are Sun, Moon, Mars and Rahu. They have the capacity to act independently. In birth horoscope at least two PP planets must influence lagan/ tenth house or lagan/ tenth lord. Influence on lagan or lagan lord make a person independent in life. Influence on tenth house or tenth lord makes a person independent in profession.

The influence of PP Planets on lagan and tenth of Dashamsha is more important and must for independent profession.

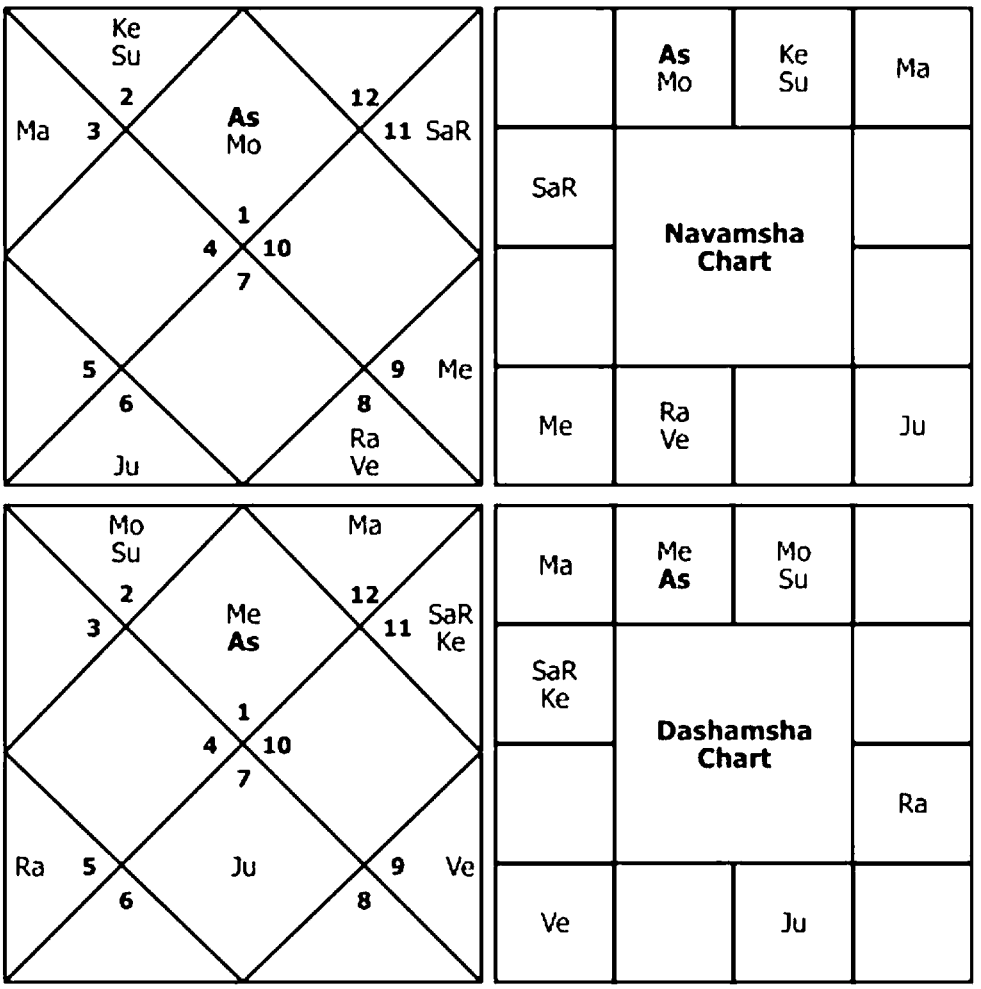

4. **Five planets**- lagan and tenth houses is the pivot of a horoscope when we consider profession. The rule is that there should be at least five planets from seventh to twelfth house or from tenth to third house. **These five planets should have at least two PP planets.** This gives independent profession.

5. **Third house / lord** – Third house or third lord should be related to tenth house or tenth lord for independent profession. This connection provides courage for independence. This relation assumes more importance in Dashamsha. Absence of this relation can still give independent profession. This relation provides an additional support. Third house or third lord can be related to ninth house or ninth lord to provide support of luck factor.

Status

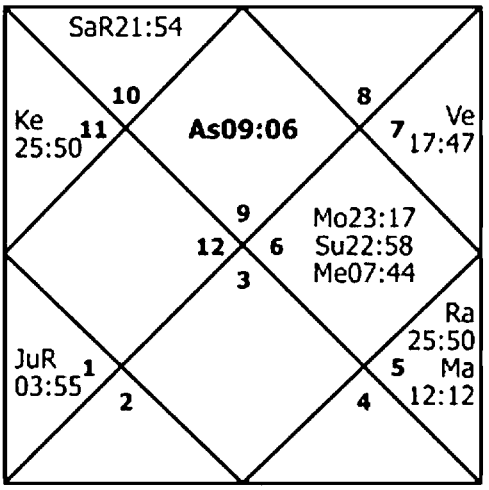

Status of a person is a personal matter. A person can hold high position in society. This is seen from tenth house. This type of status is the subject of our discussion. A person can have high status as saint, preacher, warrior etc. Status is normally comes with fame and honor.

Dasha at birth

The Vimshottary Dasha at the time of birth gives us valuable clues. This is used as the first check to decide the status a person is likely to achieve in life. The condition to be satisfied is "the **MD and AD of birth must be connected with tenth house in birth horoscope".** If this condition is present in a horoscope than the person will be famous for his / her karma and will be a king even when born in low circumstances. This condition is not present in most of the horoscopes. This condition is further confirmed in Dashamsha. Best position is the placement of these Dasha lords in tenth house. The lordship of tenth house and aspect on tenth house is next to placement. Relation with lagan makes a person rise at personal level.

We will take some outstanding horoscope to understand this rule.

Birth horoscope – Seven planets give argala to tenth house. The argala caused by Moon is strongest. Moon is lord of tenth and is aspecting tenth house also. Jupiter is placed in tenth house.

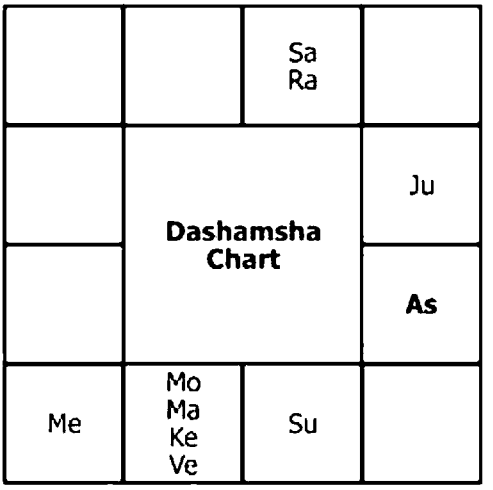

Dashamsha – Four planets cause argala on lagan. This include lord of lagan Mars. Jupiter is again in tenth house. Tenth house gets argala from three planets. Out of these Ketu and Mars assume importance. These strong argala indicate high status.

Example N.D. Tiwari, DOB 18 October 1925, TOB 4.50, POB Nainital

	Birth Chart DoB 18-10-1925 ToB 04.50 PoB Nainital		Ra07:57

Birth horoscope – Six planets are causing argala on tenth house. These include tenth and lagan lord Mercury.

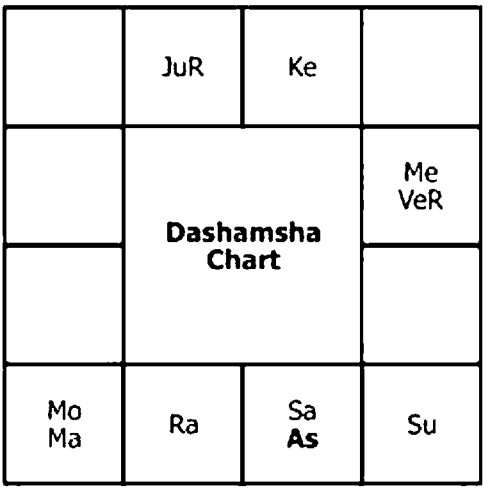

Dashamsha – Lagan gets argala from five planets. The argala of Mercury is repeated. The argala of Moon is also repeating. But the argala of Mercury is stronger because of lordship of tenth house in birth horoscope. The tenth house is not having any argala support.

Example, Engineer DOB 30 April 1945, TOB 9.27, POB Delhi

Birth horoscope – Tenth house gets argala from three planets. None of them is lord of tenth house. Saturn and Rahu aspects tenth house by Jaimini aspect.

Dashamsha – Lagan gets argala from Rahu only. This argala is repeating. Rahu is good for status. Tenth house is getting argala from Saturn, Rahu and Ketu. Mercury and Venus are again in tenth house. The status comes by these planets.

Raj yoga

Another important factor is presence of raj yoga. These should be present in birth horoscope and repeats in Dashamsha for confirmation of results. When these are present in birth horoscope and not in Dashamsha the potential of yoga is lost. The classics give a number of raj yoga. It is not possible to remember and apply these. We are mentioning few practical yoga's which can be applied easily. For other raj yoga please refer to standard classical texts. **Presence of yoga is a must to sustain the status and position.** In the absence of yoga the status is temporary. This is more so when trik houses are involved in yoga.

1. **Kendra trikona relation** – The Kendra are Vishnu sthana and trikona are Laxmi sthana. Their mutual relation gives rise to raj yoga. The relation of ninth and tenth is considered as most powerful. These should not be related to trik houses and lords to give pure raj yoga. This relation of Kendra and trikona lords exist when;

   a. They are conjoined together.

   b. They mutually aspect each other.

   c. They exchange sign.

   d. They exchange nakshatra.

   e. The trine lord aspects the Kendra and the Kendra lord aspects the trine sign.

   The raj yoga is now seen in Dashamsha. This can be Kendra trikona yoga formed in Dashamsha. The yoga is also said to exist when the yoga forming planets of birth horoscope are related in Dashamsha irrespective of the lordship in Dashamsha.

2. **Maha bhagya yoga** – This yoga is based on the sign occupied by lagan, Moon and Sun. It is seen differently for a male and a female horoscope. The time of birth is also important. All of five parameters must be met. It is a very strong yoga and gives status and fame. The conditions for formation of this yoga are;

   a. For a male nativity birth is in day time. For a female nativity birth is in night time.

   b. For a male nativity lagan, Moon and Sun must occupy an odd sign. For a female nativity lagan, Moon and Sun must occupy an even sign.

3. **Great exception of Parashar** – Parashar has given one great rule which is of importance to understand

the manifestation of yoga in a horoscope. The rule is;

a. Any planet when debilitated and placed in third, sixth or eighth house is yoga karaka.

b. When lords of third, sixth or eighth house are debilitated they also become Yogini karaka.

4. **Panch Maha purush yoga** – we are all conversant with this yoga which is caused by five planets except Sun and Moon. Wonder why they are left out?

We can apply them in divisional charts also. We now apply them on example horoscopes. Other yoga when present in example horoscope then it will be mentioned.

Example Mahatma Gandhi

Birth horoscope – Lagan lord Venus is conjunct ninth lord Mercury. Mercury is conjunct with seventh lord Mars. Lords of first, seventh and ninth house are conjunct in lagan. Venus is causing Malavya yoga. Parvat yoga is present which makes a person renowned, illustrious, leader and lustful.

Dashamsha – The Yoga karaka of birth are Venus and Mars. They are together in fourth house of Dashamsha.

Example Lal Bahadur Shashtri

Birth horoscope – Sun, ninth lord, conjoined with tenth lord in tenth house. Bhadra yoga is present but conjunction of Mercury with other planet weakens it. The results are felt in Mercury Dasha. Parvat yoga is present. Seventh lord in tenth and the lords of ninth and tenth conjunct give rise to srinath yoga which makes a person glorious like Indra. Rahu in Kendra or trikona and conjunct Kendra or trikona lord is raj yoga.

Dashamsha – Mercury and Jupiter in sixth and eighth from tenth house. Venus is exalted in lagan.

Example Narender Modi

Birth horoscope – conjunction of lagan lord and ninth lord in lagan. The fourth and fifth lords are in mutual aspect in Kendra. Mars is in own sign causing Ruchaka yoga and the results will be felt in Mars Dasha. Placement of ninth and fourth lords in mutual Kendra creates kahal yoga. This makes a person aggressive, courageous and commander of an army. Placement of fourth and fifth lords in mutual Kendra creates Shankha yoga which a person authority to punish.

Dashamsha – Saturn and Sun causing yoga in birth horoscope are together in Dashamsha. Also Jupiter and Moon are in mutual aspect. Sun and Mercury are ninth and tenth lords of Dashamsha. They are conjunct in sixth house. Rahu in lagan is aspected by lagan and fourth lord Jupiter.

Example Mujib

Birth horoscope – The eighth lord is debilitated creating raj yoga. Trine lords are in mutual aspect.

Dashamsha – Rahu is in Kendra and aspected by trine lord Saturn.

Example King George VI

Birth horoscope – Fifth lord Saturn conjunct lagan lord Venus in lagan. Ninth and tenth lords are in second house. Seventh lord joins them. Two maha purush yoga Malavya and shash are formed by Venus and Saturn. Placement of fourth and fifth lords in mutual Kendra creates Shankha yoga which a person authority to punish. Lords of fourth and tenth related to lords of fifth and ninth makes a person to be a king. There is many other yoga present in this horoscope.

Dashamsha – Mars and Mercury are in mutual aspect. They were involved in Kendra trikona yoga in birth horoscope. Tenth lord is exalted and aspected by lagan lord Mars. Lord of eighth house is debilitated. Rise was in Mercury Dasha.

Example N D Tiwari

Birth horoscope – Tenth lord is with fifth lord. Lagan lord is with fifth lord.

Dashamsha – ninth and tenth lords are conjunct. The lord of twelfth house also join and aspects tenth house. This makes the position unstable. The yoga planets of birth, Mercury and Saturn, are in six eight position from each other.

Example, Engineer

Birth horoscope – fourth and fifth lords are in close conjunction. This is spoiled by association of sixth lord Mars. The ninth lord is aspecting tenth house and tenth lord is aspecting ninth house.

Dashamsha – The yoga planets of birth are again conjunct in Dashamsha. Here Mercury becomes twelfth lord and Venus is also eighth lord.

Chapter 06

Rise

Every individual wants to be happy in life. Status in society is the prime consideration. Secondly everyone wants to have a smooth career without any downs. It is not possible to have only rise and rise in your profession and life. It is the law of nature that everything which goes up must come down also. Thus the rise and fall are interlinked and are not separate. However the balance must exist and we must understand the periods of rise and fall and live with them. Rise is associated with fame or honor.

Astrologically the rise or fall can be analyzed in two ways.

1. Promise or the static analysis
2. Timing or the dynamic analysis.

Promise of rise

Static analysis for promise of rise in life is primarily seen by the status promised in the basic birth horoscope and the Dashamsha.

Birth horoscope

The other factors apart from the discussion in the chapter "status" are,

1. **Raj yoga**. These are first seen in birth horoscope. The birth horoscope must have raj yoga. We are well

aware of Parashar raj yoga formed by Kendra and trikona lords. Many other combinations are given in the classics and it is impossible to remember and apply them. We are restricting our discussion to the yoga caused by lordship.

Raj yoga is normally caused by two planets. The yoga will be confirmed in Dashamsha. The method and approach will be given in coming discussion.

2. **Upchaya houses.** Upchaya means rising. The Upchaya houses are the houses which also promise rise. The Upchaya houses should be occupied by planets in birth horoscope. The tenth house must have at least one planet. Any two of the other three houses should have planets. When this condition is met then we can say that the Upchaya houses are capable of giving results.

3. **Argala.** We have discussed this in the status chapter.

Dashamsha

1. **Raj yoga**. Dashamsha should have raj yoga. The planets causing yoga have an important say in timing of rise. In birth horoscope the planets causing yoga if repeats the yoga in Dashamsha then these become important and gives rise in their Dasha. The planets causing yoga in Dashamsha can be different from the planets that caused yoga in birth horoscope. In such cases all of them have a say in indicating period of rise but the force is reduced.

2. **Upchaya houses**. Upchaya houses assume great signification in Dashamsha. These are seen from lagan of Dashamsha. In this way it shows the overall rise in all areas of karma. Planets which repeat occupation of Upchaya houses in birth horoscope and Dashamsha assume more significations.

3. **Capricorn**. This has been discussed earlier.

Fame

When we talk of rise the question arises about the fame and honor in life. Our sages have provided a clue in the Amla kirti yoga. This yoga is formed by placement of UN afflicted benefic in tenth house from Moon. It conveys that the fame is granted by Moon through good deeds. A simple rule to see the promise of getting honor and fame is given.

1. In birth horoscope, note the planet placed in tenth house from Moon. A benefic is desired. A malefic also gives fame.
2. Now confirm in Dashamsha. The tenth house from Moon is seen. The tenth house or tenth lord from Moon should be connected with the planet in tenth from Moon in birth horoscope.
3. The eleventh house of Dashamsha is the house of fame. Please note that eleventh house is the house of fame and honor and not the eleventh lord. The fame giving planets should be in eleventh house of Dashamsha.

Dynamic or timing

The dynamic analysis is the analysis of Dasha. These Dasha can be Vimshottary, progress yogini or Chara Dasha. Some guidelines to grant of rise or fame by a Dasha are given.

Vimshottary Dasha

1. Dasha must be first analyzed in birth horoscope. See its involvement in yoga. It should not be involved in bad yoga. These will be discussed in the next topic of fall.

2. For Vimshottary Dasha the MD should be related to Kendra of birth horoscope.
3. We check the MD lord in navamsha. In navamsha it should occupy any sign which is a Kendra sign in birth horoscope. The best placement is the sign of tenth house in birth horoscope. It should be related with tenth or eleventh house in navamsha. Other placement can give happiness if it is under influence of Kendra lord but it does not have much influence on the person.
4. Now check this MD lord in shodashamsha. Shodashamsha is the chart of happiness. The Kendra of shodashamsha is the giver of happiness. For best results the MD lord should be in a Kendra in shodashamsha.
5. Finally MD is checked in Dashamsha. Here also the MD lord must be connected to Kendra or eleventh house.
6. Repeat with AD lord.

Progress Yogini Dasha

1. Recast the birth horoscope with the progress lagan as the lagan for the current Dasha.
2. Check the nakshatra lord of progress Dasha. Lordship of tenth house from progress lagan or the birth lagan is desired.
3. The progress nakshatra lord can be placed in tenth house of birth or progress horoscope.
4. Next is the aspect of progress nakshatra on the tenth house or tenth lord from birth or progress horoscope.

5. The progress nakshatra lord is related to tenth lord of birth or progress horoscope.
6. Raj yoga is formed from progress lagan.

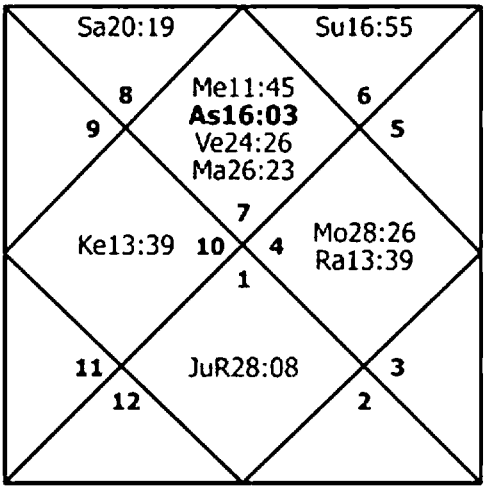

Chara Dasha

1. Treat the MD sign as lagan. Call it Dasha lagan.
2. Check the tenth lord/ house from Dasha lagan.
3. Tenth lord from Dasha lagan is related to tenth lord of birth horoscope or AmK.
4. AmK is related to tenth or eleventh house from Dasha lagan by aspect or placement.

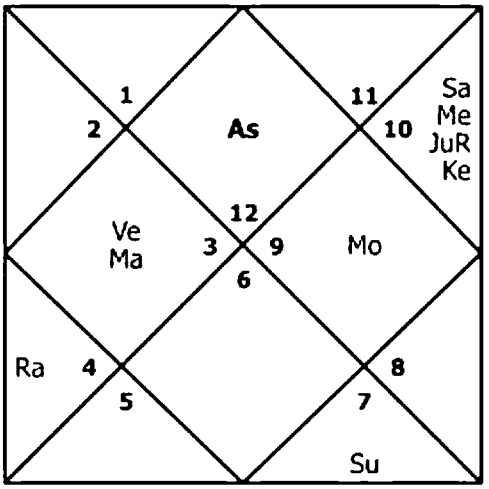

We will take some examples of rise and fame only.

Inter-Relation

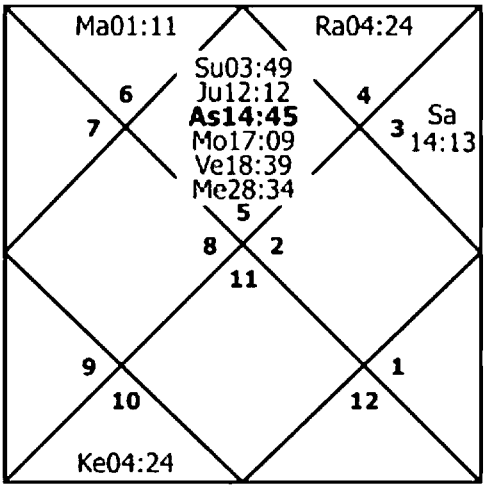

Dashamsha is seen for very important results according to Parashar. An interesting use of Dashamsha is to check your relations with other family members. It can also be used to check your relations with your friends or foes. This is a very versatile chart. The basic theory is that Dashamsha shows your karmas or actions in life. The lagan lord and tenth lord are the key factors.

1. The lagan lord of Dashamsha is the way you carry out your all karma. We take this lord of your Dashamsha to other related divisional charts of your horoscope to see how you carry out your karmas towards the relations of other chart. This shows your actions towards that divisional chart. As an example we see this lord in saptamsha to know your actions towards your children.

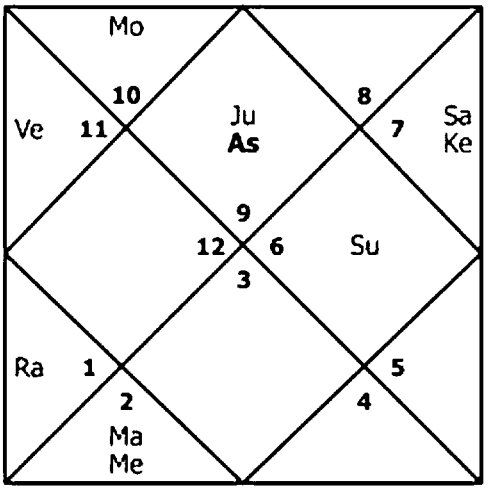

2. Similarly the tenth lord of your Dashamsha show the way you carry your professional obligations. We take this lord to other related charts of your horoscope to see how you carry out your professional interests towards the relations with other chart.

   We will apply it on some example charts.

Relation between partners

From the horoscope of two would be partners we must check the mutual relationship they are likely to

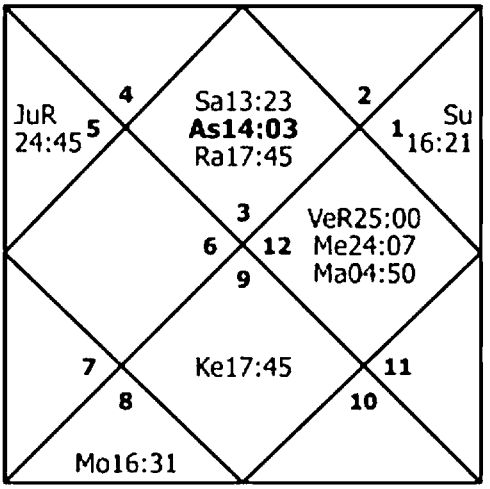

have in partnership. First we must ensure that partnership is promised in a horoscope. The next step will be to verify their mutual relations in profession. The method of this check is given.

1. The lagan lord of Dashamsha is the way a person conducts his all karma in life. It is checked individually in Dashamsha. Its placement in Kendra is welcome. Association with Kendra lord will improve his value. Connection with malefic (except Rahu/ Ketu) gives a nature to work hard. Benefics makes him soft.
2. The strength of Moon gives good mental attitude.
3. Placement of Sun in the sign of benefics gives a benefic soul in profession.
4. The tenth lord of Dashamsha holds the key for this analysis. The tenth lord of Dashamsha indicates the manner in which a person conducts himself in his professional life. We mutually check the relation of this tenth lord in the Dashamsha of two partners. Note the tenth lord of Dashamsha of one partner. Take this planet to the Dashamsha of second partner and check for its placement and association in the Dashamsha of second partner. It should not be placed in trik houses and not afflicted by malefic. This is repeated with tenth lord of second partner and checked in Dashamsha of first partner.

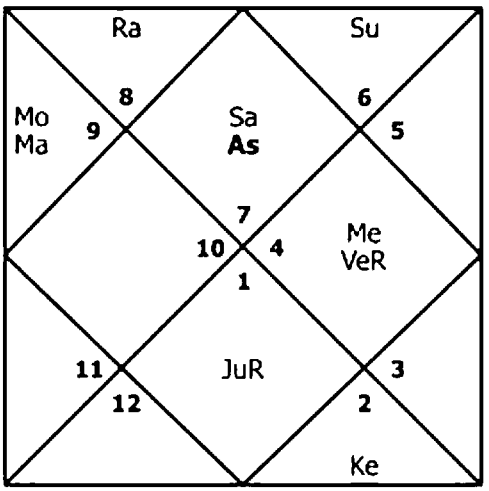

This will be examined in example horoscopes to understand the rule.

Chapter 10

Career Graph

This chapter deals with various mile stones a person faces in his professional career. The first mile stone is joining a career or start of career. We can time it with the first legal earning by our own efforts. In this journey we face many moments of enjoyment or disappointment. It finally ends with retirement.

These mile stones in the path of career are analyzed astrologically to get an idea of future and plan our career graph.

In this analysis the tenth house is most important. In birth horoscope it is tenth house which govern our profession, fame honor and the legal earnings.

In Dashamsha the tenth house assume greater signification when the earnings are under consideration. Dashamsha is important as it represent our karma. The overall rise and fall of life is seen from lagan of Dashamsha. The rise and fall in profession is seen from tenth house of Dashamsha. **This difference must be remembered while analyzing Dashamsha.**

The Start

To earn legal money the first consideration is that the person is capable of earning. Almost all persons have this capability. This is first examined in birth horoscope and Dashamsha. The promise in Dashamsha is more important.

Promise

Birth horoscope

1. Tenth house is having good relations with benefics.
2. Tenth lord is well placed. An ill placed tenth lord can promise earning from career but with breaks and difficulty.
3. Dhana yoga is present. This is not a must but promises more money.

Dashamsha

1. In Dashamsha we will see the combination of no interest in working. As a matter of fact no one can remain idle without doing work. Here we are checking the desire of a person to earn by his efforts. We see many enjoying the wealth of parents and do no effort to earn. House wife can be an example. Some do not get a job and do nothing to earn in his life.
2. Lagan of Dashamsha is under double affliction or in papa kartari. This shows no desire to work.
3. The lagan lord is ill placed and afflicted. This shows no effort.
4. Eleventh house is afflicted and eleventh lord is ill placed.
5. Tenth house and tenth lord is under affliction.
6. When these conditions are met the person is not interested to work.

Time of start

The start of earning is a dynamic affair. This depends on the Dasha. We can use any Dasha like Vimshottary, progress Yogini Dasha, Chara Dasha and apply on birth horoscope. Since we are using Dashamsha we will restrict to Vimshottary Dasha. Another important consideration is the age. The Dasha capable of starting work and giving earnings should meet the following conditions.

Birth horoscope

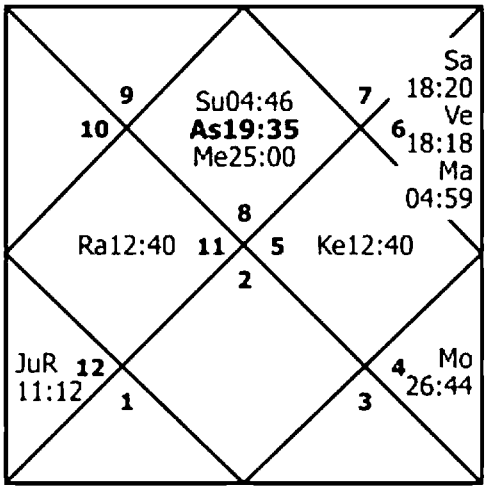

1. MD/ AD should relate to tenth house, second or eleventh house/ lords.
2. The Dasha is connected to Indu lagan or second or eleventh house from Indu lagan. The Dasha can be connected to these lords.

Dashamsha

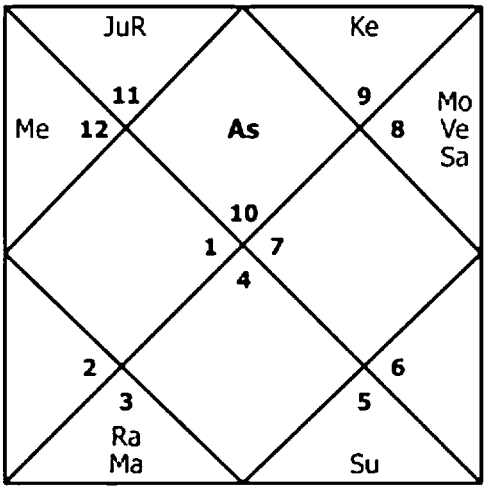

1. Dasha should relate to lagan, tenth house, second or eleventh house/ lords.

We will take few horoscopes to see the application.
