ORIGINAL-PAGE RULE REFERENCE COLLECTION

Scope: six supplied books, 1,338 original PDF pages.
This collection extracts original pages. It is not a rewritten,
machine-readable rule catalog and makes no new predictions.
Whole chapters retain formulas, charts, exceptions, counterexamples
and rules embedded in case studies. Focused extracts overlap them.
No source page is omitted across the complete reference set.
No originals or application files were changed by this extraction.

HOW TO USE
01 marriage/Navamsa: promise, quality, timing, matching, spouse
   appearance/status/care, affairs and further D9 applications.
02 career/D10: field, service/business, status, rise/fall, partnership
   and milestones/timing.
03 children/D7: promise, Beeja/Kshetra, bonds, adoption, twins,
   sex/number and childbirth timing.
04 every divisional chapter and higher/linked divisions.
05 Jaimini basics, Argala and all sign-dasha chapters.
06 Vimshottari/event-timing book, including case-study methods.
07 available progressed Yogini marriage/childbirth material.
08 title pages, contents and prefaces; Vimshottari introductory
   discussion is preserved because it contains methodological material.

PROVENANCE AND LIMITATIONS
Each PDF bookmark identifies the book section and original PDF range.
coverage-manifest.json maps every extract page back to a source page.
References use 1-based PDF page numbers, NOT printed page numbers.
Contents-page printed start labels are recorded separately where
available. Navamsa has shifting numbering; no fixed offset is assumed.
Page extraction preserves the scanned pages and existing OCR.
OCR spelling, numbers and chart notation have NOT been corrected.
Some pages begin/end another subtopic; these are kept for context.
No standalone Yogini book is among the six supplied files.
The timing chapters explicitly refer readers to a separate Snapshot
Prediction by/using Yogini Dasha book for the progression method.
Included Yogini applications are not a complete independent manual.
Page coverage does NOT establish that each statement is a universal
rule, or that examples, alternative methods and contradictions agree.
Astrological claims are source material, not established scientific
facts or medical advice; no factual conclusions about people are made.
Keep this as a local reference to the supplied books, with attribution.

VERIFICATION
All output page counts, extracted text, page dimensions and decoded
drawing streams were compared with the corresponding source pages.
Coverage is 100% for each source, including source context.
