Chapter 08:

Devotion to Religion

Navamsha is also referred to check the devotion of a person towards his/ her religion. We must differentiate between religion and spiritualism. Religion is the path imposed by the society and the family you are born in. Spiritualism is not bound by them and is the inner urge of a person. Here we are discussing religion and not spiritualism. Every person is religious at least to some extent.

1. Trines

Trines of a horoscope are the dharma trines. Simply we must therefore check the trines of navamsha for the involvement of a person in religion. The lords of a house carry out the wish of house. The trine lords of navamsha must be related with each other and with the trine houses of navamsha to make a person religious. Ninth house is the most important house for religion.

The trines of birth chart are also dharma houses. Thus the lords of trines of birth chart are also to be related in navamsha.

Another version says that the lord of ninth house of birth horoscope should be related to trines of navamsha. This rule must be seen for devotion to religion. Secondly the ninth lord of navamsha should also relate to the trines of navamsha. Any malefic influence (except trine lords) is not welcome. They will not allow the person to follow religion faithfully.

The three houses of dharma trine are first, fifth and ninth. We check their significations.

First house

First house must be strong. It should be related to trine lords or natural benefics. The lord of lagan need not be strong.

Fifth house

This is the house of intuition and poorva punya. A relation with lagan or lagan lord with fifth house is a gift of God. The relation with ninth promotes intuition towards religion.

Ninth house

It is the main house of religion. Its lord is the indicator of direction where the devotion will be carried out by the person.

2. Mental strength

Moon is the significator of mind. For devotion to any karma we need determination. Devotion needs concentrated effort for long duration. Moon must have capacity to sustain adversity. The malefic influence on moon is required. This is seen in navamsha.

Mars and Saturn are two malefic planets. Signs ruled by them are also considered malefic. Moon should occupy sign of Mars and be with Saturn or aspected by Saturn. Moon should occupy sign of Saturn and be with Mars or aspected by Mars. This combination is classical sanyas yoga. Benefic association makes the Moon soft and person lacks endurance. Placement of Moon in a sign of benefic planet and aspect of a benefic is not welcome for continued devotion. Benefic relation with Moon give calm mind.

Even Rahu, being malefic, its association with Moon is not good. Rahu distracts towards material things.

3. Overcoming lust

Venus is the planet of lust and luxury. The condition of Venus is checked in navamsha. Venus must be under check to overcome the lust and luxury. Therefore Venus should be under double malefic influence. Venus can be exalted but debilitation of Venus gives base thoughts.

4. Ninth lord from Moon

Ninth lord from Moon in navamsha is now seen in navamsha. This lord must influence trines from Moon in the navamsha. When Moon is debilitated in navamsha then ninth lord from Moon is Moon itself. Such persons have inbuilt devotion to religion. The benefic or malefic association will further mould the devotion. **This is an important condition.**

5. Jupiter in navamsha

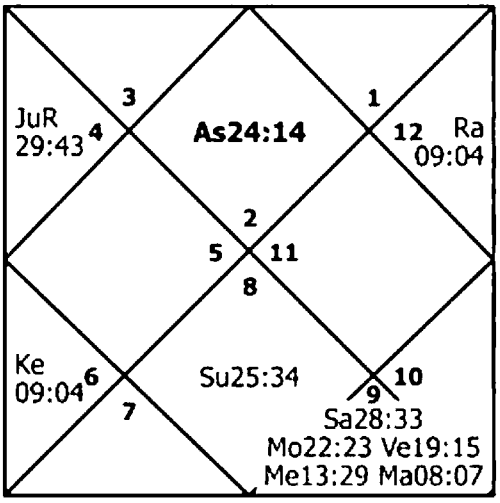

In navamsha chart Jupiter must influence lagan or lagan lord of navamsha. An afflicted Jupiter is of no use. Jupiter influence on tenth house of navamsha is equally beneficial.

6. Ninth lord of birth chart

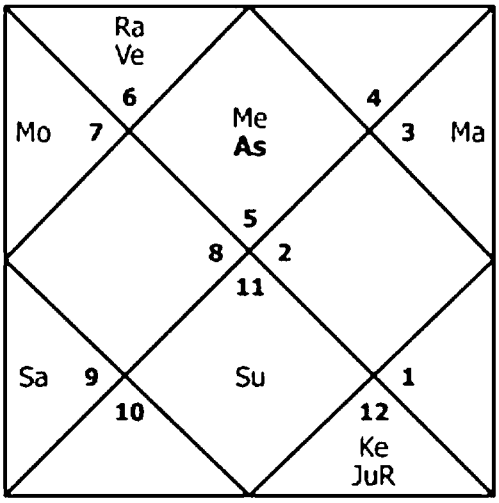

Another important factor is the ninth lord of birth chart. The ninth lord of birth chart should be in first or ninth house of navamsha. This lord should influence first or ninth house by aspect as a second option. As third option it should be conjunct or aspect first or ninth lord. Ninth lord of birth horoscope should occupy a trine or Kendra sign of birth chart.

We take a horoscope for understanding these points.

Deity to worship

Navamsha indicates the deities one is to worship. Second house is the family deity, fourth house is the village deity and fifth house is deity to worship. It is not the lord but the house. Odd sign in fifth house gives male deity. A sign of benefic planet gives a pleasant form of deity. Association of Rahu indicates tantric worship.

In example 1, fifth house is Sagittarius. Saturn is placed there aspected by Mars. Male deity is seen. It is modified by placement of Saturn and aspect of Mars.

Example 2 also has Sagittarius as fifth house. Rahu is placed there giving tantric worship also.

Example 3 has Taurus as fifth house with Mars and Mercury placed there. It is a mix of male and female deity.

How and Where

Where ever fifth lord goes in navamsha that house is the place and style of worship. Signification of each house is given.

First – Self. The person prays for self and does good deeds for self.

Second – Speech is used in worship and religious activity. It can be reading of holy texts.

Third - It is house of communication and travel. Person takes pilgrimage for worship. He follows the path shown by his Guru. Writing is also indicated.

Fourth – It is seat of God. The person does good deeds to society.

Fifth – It is house of mantra siddhi. Worship is done with full devotion and emotion.

Sixth – House of service. The person is engaged in the service of the Lord. It indicates obstacles in the path of worship. A good sixth house will make a person follow his worship despite problems.

Seventh – It is house of community worship. It gives charitable attitude. The peace is granted by God and the person is able to meditate closely on God.

Eighth – This is the house of Samadhi and the ashram of Guru. All karma caused by self is killed in this house. Great intuitive power is bestowed on the person.

Ninth – Long pilgrimages are undertaken. It is the house of Guru and temple. Person has inner purity and does Japa.

Tenth – It is the strength of your karma which gives determination to worship and follow the path of devotion. Presence of God is felt by the person.

Twelfth – This is fourth from ninth and is the home of Guru. House of salvation. Worship is done in confinement or in isolation. The person can attain Samadhi.

In example 1 the fifth lord is in eighth house giving a state of Samadhi. In example 2 the fifth lord is in second house to give knowledge of holy texts. Fifth lord goes to tenth house in example 3.

Change of Religion

Religion is seen from ninth house of navamsha. Twelfth house to any house is the loss of that house. Change of religion is the loss of religion or faith in which you are born. The influence of eighth lord on ninth house/ lord gives change of religion.

Religion is the family values and sanskars. When sanskars are not deep rooted or not accepted by the person he changes his religion. Second lord of birth chart is checked in navamsha to understand the depth and goodness of sanskars. When this lord of second house of birth chart is under malefic influence then the sanskars are weak.

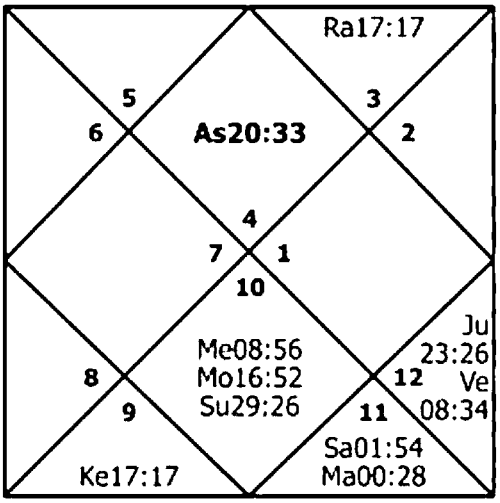

Jupiter is the significator of dharma. Jupiter is badly placed from ninth house then it prompts a person to deviate from religion.

We therefore have three conditions to be met for change of religion. These are,

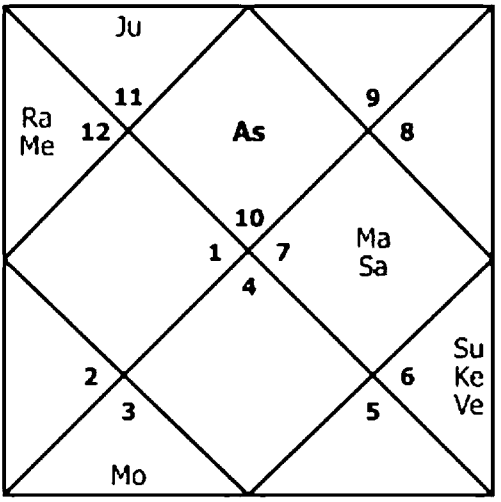

1. Influence of eighth lord on ninth house in navamsha.
2. Second lord of birth chart under malefic influence in navamsha.
3. Jupiter in trik house from ninth house in navamsha.

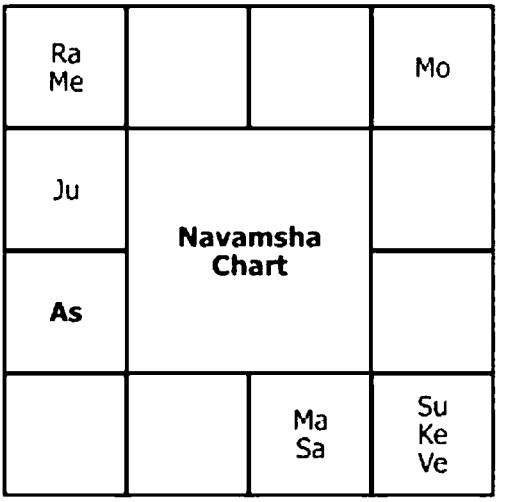

We take an example to apply these rules.

Example – DOB 12 February 1964, TOB 17.25, POB jalandhar

Ju23:26 Ve08:34			Ra17:17
Sa01:54 Ma00:28	**Birth Chart** **DoB 12-02-1964** **ToB 17:25** **PoB Jalandhar**		**As20:33**
Me08:56 Mo16:52 Su29:26			
Ke17:17			

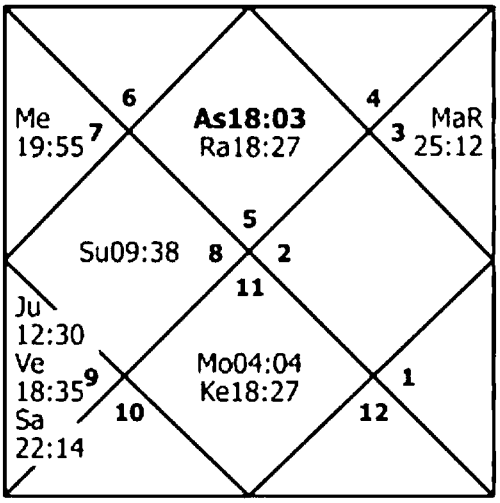

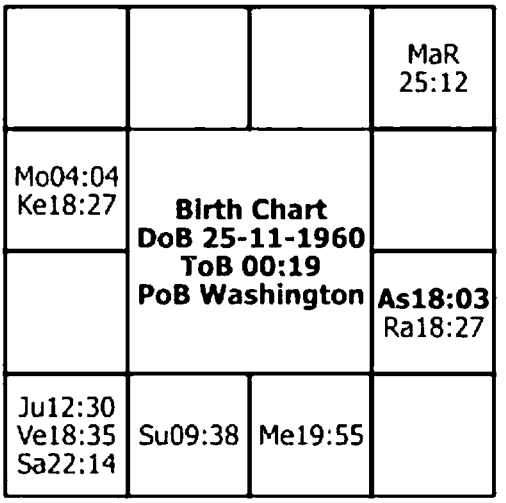

In birth chart the ninth house is occupied by two benefics. The lord of ninth is in ninth with exalted Venus. She should be a follower of religion. She is born in a Hindu Sindhi family and now follows Buddhism.

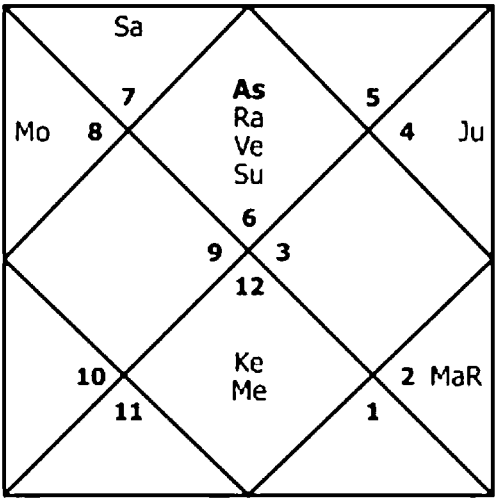

We now apply the rules and find the reason of change of heart.

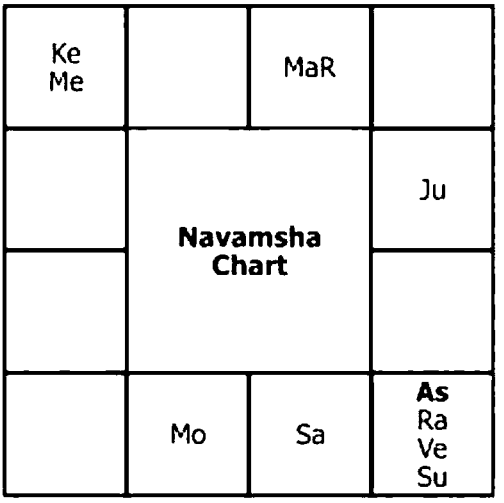

1. In navamsha eighth lord is Sun. sun is placed in ninth house.
2. Second lord of birth chart is Sun. in navamsha Sun is in Rahu Ketu axis.
3. Jupiter is placed in sixth from ninth house.

Example – JFK Junior, DOB 25 November 1960, TOB 0.19, POB Washington

We now apply the rules and find the reason of change of heart.

1. In navamsha eighth lord is Mars. Mars is placed in ninth house.
2. Second lord of birth chart is Mercury. In navamsha Mercury is in Rahu Ketu axis and aspected by Sun.
3. Jupiter is placed in third from ninth house.

Timing of Worship

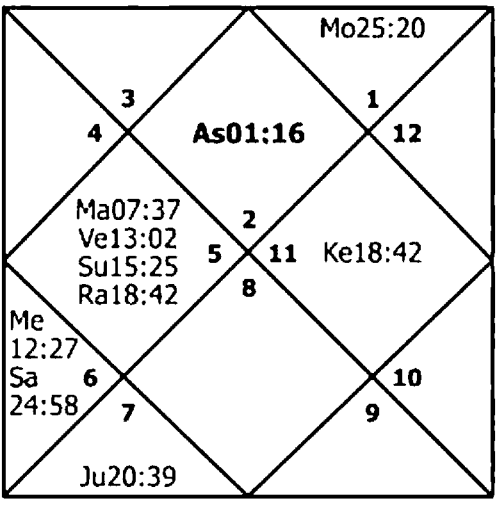

All times are good times for doing worship. We only try to indicate the time when you are inclined to be involved in worship. There are four types of worshippers as mentioned in Bhagwat Gita. These are;

1. In trouble.
2. Needy.
3. Curious.
4. Knowledgeable.

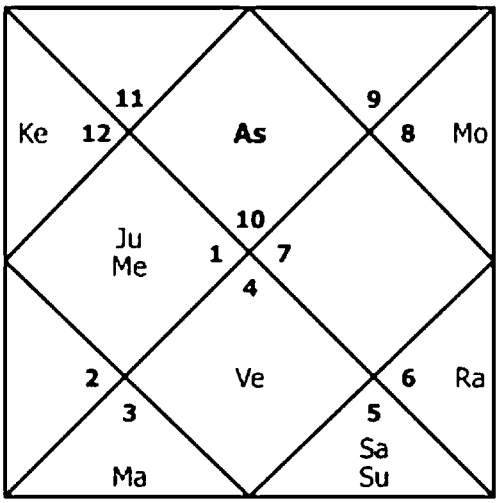

The worship is seen from the dasha in the birth chart. The dasha of lords of trines and angles gives worship. These should be related to trine or angles in navamsha. These Dasha gives devotion and the worship peaks in these Dasha periods. The promise of devotion has to be present for Dasha to give results.

We discuss the example of Ma AnandmayMa. She initiated herself on the full moon night in August 1922. The Dasha at birth was of Venus. In navamsha Venus is aspected by Jupiter and Sun. both are trine lords of navamsha. In August the Dasha was Sun / Jupiter. The trine lords give devotion.

Example – DOB 1 September 1923, TOB 22:23:10, POB Meerut

First we see the promise of devotion. The trine lords are not related except Venus. Venus is aspecting lagan. The lagan lord is in eighth with eighth lord. Jupiter is aspecting tenth house along with Saturn. Saturn is ninth lord of birth. Ninth lord from Moon is Moon itself. Moon is not related to trines except it is lord of ninth. Devotion is not much.

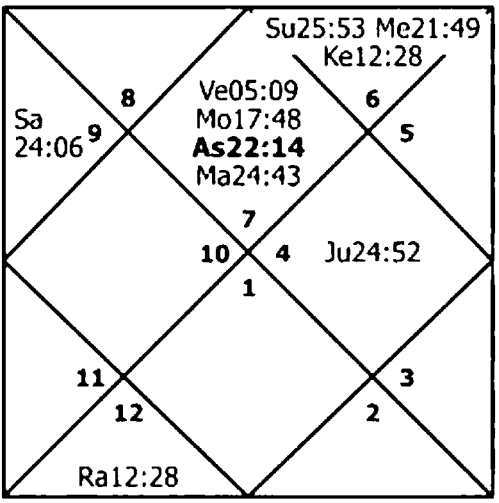

He was born in Dasha of Venus. Saturn is the first Dasha of trine lord. Saturn is not conducive for devotion. Saturn Dasha came in 1982. Mercury started in 2001. Dasha did not allowed him to have time for devotion.

Learning Astrology

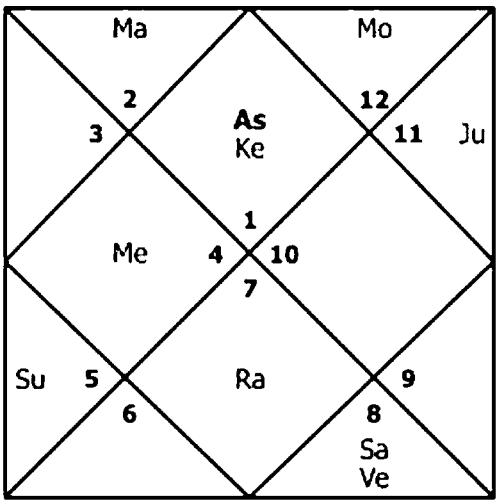

Astrology is an occult science. Navamsha helps us to understand the time a person can learn astrology or any other occult science. Eighth house is mystic house. The trine is fourth, eighth and twelfth houses. Planets connected with eighth house and eighth lord promotes quest to learn these sciences. This can be seen in birth horoscope. The confirmation is from navamsha. Mercury and Jupiter are the karaka for astrology. Ketu is the planet which gives deep and fine analysis. These should be related to occult trine or their lords. The occult trine lords

when connected with dharma trines or their lord's then learning are for noble cause. The eighth house or lord should be connected with lagan or lagan lord to make a person take interest in astrology.
