Basics

Parashar has attributed "Mahat phalam "to dashamsha. It means that results of great importance are seen from dashamsha. The complete dashamsha chart is a representation of all karmas which a person is destined to undergo in this life. We must understand the difference between all karmas and the karmas with which we earn our living and daily needs. The " mahat Phalam" are the great karmas which must be undertaken to make this life meaningful. The basic understanding of Dashamsha is from lagan, tenth house and Capricorn.

Lagan

Lagan of dashamsha is the key to all aspects of karmas of life. The sign rising in lagan and the influence on it indicate and determine our intentions and inspirations regarding all karmas of this life. The strength of these influences is the deciders. The lagan lord shows the ways a person adopts to fulfill these aspirations. It is indicator of inward aspirations.

Tenth house

The tenth house of dashamsha is the house from which we earn our daily needs. The tenth lord is way and means to earn it. Tenth house is your outward aspirations. The social influence is seen from this house. It indicates your career, profession, honor, fame and status. This house is seventh from fourth house and takes you away from family and home. It tells you about your identity.

Capricorn

Capricorn is the tenth house of kaal purush chart and must be analyzed for profession. Planets in Capricorn and influencing Capricorn are important to decide the path of your career. This is especially true for Dashamsha.

Kaal purush

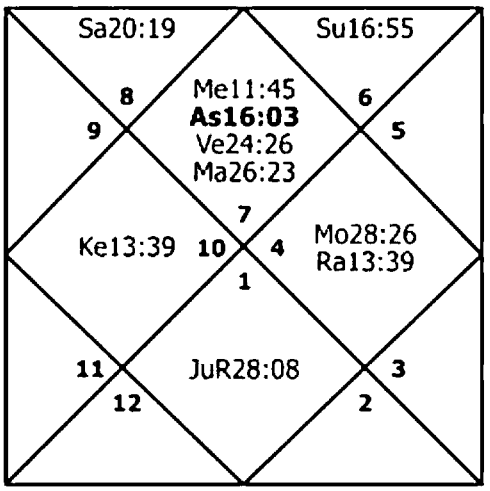

Kaal purush chart is the basic chart. This chart gives a lot of information through the ownership, exaltation and debilitation signs of planets in this chart. We understand this in reference to tenth house. This applies to Dashamsha as well.

1. **Exaltation** – Mars gets exalted in tenth house. Exalted planet gives ego and status in profession.
2. **Debilitation** – Jupiter is debilitated in tenth house. It gives no ego or status in profession.

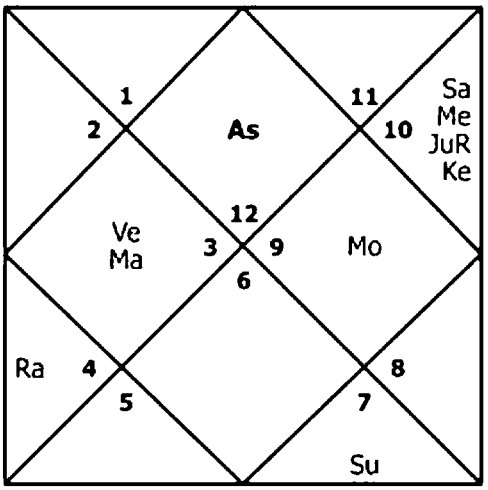

3. **Lord** – Saturn is the lord of this house. Saturn is the owner and is responsible to maintain this house.
4. **Sign** – Capricorn is the sign of tenth house in kaal purush chart. Capricorn is also seen for promise and quality of profession.
5. **Jupiter** – Jupiter is exalted in fourth house. It is therefore significator of happiness in profession. Jupiter is debilitated in tenth house. Happiness and status do not go together.
6. **Sun** – Sun is exalted in lagan. Exalted Sun gives ego in professional life.
7. **Mars** – Mars is exalted in tenth house and gives authority in professional life.
8. **Venus** – Venus exalts in twelfth house of bed room. It is third from tenth.
9. **Mercury** – sixth house is the exaltation.

Argala

Argala is an important consideration in deciding the mutual relation of houses, signs and the planets. The real picture emerges when we apply the Argala. It helps in correct assessment of the horoscope and in deciding the results of dasha. Argala means lock. A lock is used for keeping

Articles safely. It can also be used to prevent something to escape.

From any planet or house there are three types of Argala.

1. The planets in 4th, 2nd, and 11th cause Argala. These are countered or obstructed by planets in 10th, 12th and 3rd house respectively.
2. Planets in 5th also cause Argala. This is countered by planets in 9th.

3. When there are three or more malefic in 3rd house, they cause Vipreet Argala and is very favorable.
4. When the planets causing Argala is stronger than those obstructing then the former will prevail. This is true also for number of planets in both houses. More planets together give stronger Argala.
5. There is no counter for the Argala caused by three malefic planets in third house.
6. The Argala caused by placement of a planet in first one fourth quarter of the sign is obstructed by planet placed in fourth quarter of obstructing sign. Similarly 2nd quarter Argala is obstructed by planet placed in 3rd quarter.

   This is tabulated below.

Longitude of planet causing Argala	**Longitude of obstructing planet**
First quarter (0 to 7 – 30)	Fourth quarter (22 – 30 to 30 – 0)
Second quarter (7 – 30 to 15 – 0)	Third quarter (15 – 0 to 22 – 30)
Third quarter (15 – 0 to 22 – 30)	Second quarter (7 – 30 to 15 – 0)
Fourth quarter (22 – 30 to 30 – 0)	First quarter (0 to 7 – 30)

   Any planet not occupying this longitude will not cause obstruction.

7. The Argala effects will be felt in dasha of sign or planets concerned.

Parashar has given the effects of Argala. The results of Argala as stated in BPHS are;

1. When there is an Argala on lagan, Arudh lagan and from seventh from them, the person will be famous and fortunate.

2. A malefic or a benefic causing unobstructed Argala and aspecting lagan will make a person famous.

   Similarly any house having unobstructed Argala and aspecting the house will enhance the signification of the house.

   These are tabulated for easy reference.

House	**Result**
First	Famous
Second	Acquisition of wealth and grains
Third	Happiness from co born
Fourth	Gain of Residence, conveyance, relatives
Fifth	Sons, grandsons, intelligence
Sixth	Fear from enemy
Seventh	Abundant wealth and marital happiness
Eighth	Difficulty (long life)
Ninth	Fortunes
Tenth	Royal honor
Eleventh	Gains
Twelfth	Expenses

3. If there is an unobstructed Argala for lagan, 5th and 9th house, the person will definitely be famous and a king.

4. It is observed if the Argala causing planet happens to be the lord of the house also the effect of Argala is many fold.

5. This can be understood by a simple rule of grading the potential of Argala.

   The strongest Argala is caused when a planet is;

   a. Causing un obstructed Argala.

   b. Lord of the sign on which Argala is caused.

c. Also aspecting the sign on which Argala is caused. The aspect can be Parashar or Jaimini.

The strength of Argala is reduced when any or more conditions are not met. The strongest Argala is caused when all three conditions are met.

We take a horoscope for understanding Argala on tenth house.

Example DOB 13 January 1962, TOB 6.25, POB Chandigarh

Mo26:50
