Chapter 05

Status

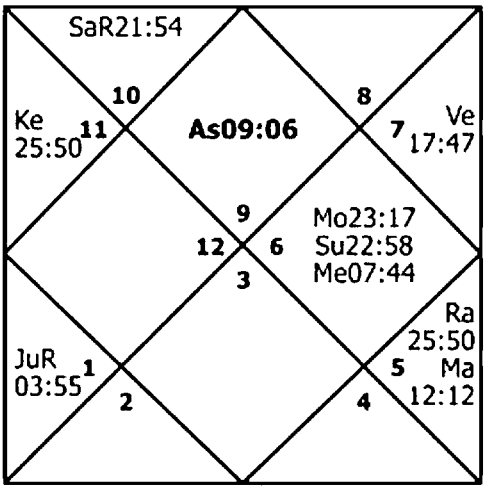

Status of a person is a personal matter. A person can hold high position in society. This is seen from tenth house. This type of status is the subject of our discussion. A person can have high status as saint, preacher, warrior etc. Status is normally comes with fame and honor.

Dasha at birth

The Vimshottary Dasha at the time of birth gives us valuable clues. This is used as the first check to decide the status a person is likely to achieve in life. The condition to be satisfied is "the **MD and AD of birth must be connected with tenth house in birth horoscope".** If this condition is present in a horoscope than the person will be famous for his / her karma and will be a king even when born in low circumstances. This condition is not present in most of the horoscopes. This condition is further confirmed in Dashamsha. Best position is the placement of these Dasha lords in tenth house. The lordship of tenth house and aspect on tenth house is next to placement. Relation with lagan makes a person rise at personal level.

We will take some outstanding horoscope to understand this rule.

Raj yoga

Another important factor is presence of raj yoga. These should be present in birth horoscope and repeats in Dashamsha for confirmation of results. When these are present in birth horoscope and not in Dashamsha the potential of yoga is lost. The classics give a number of raj yoga. It is not possible to remember and apply these. We are mentioning few practical yoga's which can be applied easily. For other raj yoga please refer to standard classical texts. **Presence of yoga is a must to sustain the status and position.** In the absence of yoga the status is temporary. This is more so when trik houses are involved in yoga.

1. **Kendra trikona relation** – The Kendra are Vishnu sthana and trikona are Laxmi sthana. Their mutual relation gives rise to raj yoga. The relation of ninth and tenth is considered as most powerful. These should not be related to trik houses and lords to give pure raj yoga. This relation of Kendra and trikona lords exist when;

   a. They are conjoined together.

   b. They mutually aspect each other.

   c. They exchange sign.

   d. They exchange nakshatra.

   e. The trine lord aspects the Kendra and the Kendra lord aspects the trine sign.

   The raj yoga is now seen in Dashamsha. This can be Kendra trikona yoga formed in Dashamsha. The yoga is also said to exist when the yoga forming planets of birth horoscope are related in Dashamsha irrespective of the lordship in Dashamsha.

2. **Maha bhagya yoga** – This yoga is based on the sign occupied by lagan, Moon and Sun. It is seen differently for a male and a female horoscope. The time of birth is also important. All of five parameters must be met. It is a very strong yoga and gives status and fame. The conditions for formation of this yoga are;

   a. For a male nativity birth is in day time. For a female nativity birth is in night time.

   b. For a male nativity lagan, Moon and Sun must occupy an odd sign. For a female nativity lagan, Moon and Sun must occupy an even sign.

3. **Great exception of Parashar** – Parashar has given one great rule which is of importance to understand

the manifestation of yoga in a horoscope. The rule is;

a. Any planet when debilitated and placed in third, sixth or eighth house is yoga karaka.

b. When lords of third, sixth or eighth house are debilitated they also become Yogini karaka.

4. **Panch Maha purush yoga** – we are all conversant with this yoga which is caused by five planets except Sun and Moon. Wonder why they are left out?

We can apply them in divisional charts also. We now apply them on example horoscopes. Other yoga when present in example horoscope then it will be mentioned.

Example Mahatma Gandhi

Birth horoscope – Lagan lord Venus is conjunct ninth lord Mercury. Mercury is conjunct with seventh lord Mars. Lords of first, seventh and ninth house are conjunct in lagan. Venus is causing Malavya yoga. Parvat yoga is present which makes a person renowned, illustrious, leader and lustful.

Dashamsha – The Yoga karaka of birth are Venus and Mars. They are together in fourth house of Dashamsha.

Example Lal Bahadur Shashtri

Birth horoscope – Sun, ninth lord, conjoined with tenth lord in tenth house. Bhadra yoga is present but conjunction of Mercury with other planet weakens it. The results are felt in Mercury Dasha. Parvat yoga is present. Seventh lord in tenth and the lords of ninth and tenth conjunct give rise to srinath yoga which makes a person glorious like Indra. Rahu in Kendra or trikona and conjunct Kendra or trikona lord is raj yoga.

Dashamsha – Mercury and Jupiter in sixth and eighth from tenth house. Venus is exalted in lagan.

Example Narender Modi

Birth horoscope – conjunction of lagan lord and ninth lord in lagan. The fourth and fifth lords are in mutual aspect in Kendra. Mars is in own sign causing Ruchaka yoga and the results will be felt in Mars Dasha. Placement of ninth and fourth lords in mutual Kendra creates kahal yoga. This makes a person aggressive, courageous and commander of an army. Placement of fourth and fifth lords in mutual Kendra creates Shankha yoga which a person authority to punish.

Dashamsha – Saturn and Sun causing yoga in birth horoscope are together in Dashamsha. Also Jupiter and Moon are in mutual aspect. Sun and Mercury are ninth and tenth lords of Dashamsha. They are conjunct in sixth house. Rahu in lagan is aspected by lagan and fourth lord Jupiter.

Example Mujib

Birth horoscope – The eighth lord is debilitated creating raj yoga. Trine lords are in mutual aspect.

Dashamsha – Rahu is in Kendra and aspected by trine lord Saturn.

Example King George VI

Birth horoscope – Fifth lord Saturn conjunct lagan lord Venus in lagan. Ninth and tenth lords are in second house. Seventh lord joins them. Two maha purush yoga Malavya and shash are formed by Venus and Saturn. Placement of fourth and fifth lords in mutual Kendra creates Shankha yoga which a person authority to punish. Lords of fourth and tenth related to lords of fifth and ninth makes a person to be a king. There is many other yoga present in this horoscope.

Dashamsha – Mars and Mercury are in mutual aspect. They were involved in Kendra trikona yoga in birth horoscope. Tenth lord is exalted and aspected by lagan lord Mars. Lord of eighth house is debilitated. Rise was in Mercury Dasha.

Example N D Tiwari

Birth horoscope – Tenth lord is with fifth lord. Lagan lord is with fifth lord.

Dashamsha – ninth and tenth lords are conjunct. The lord of twelfth house also join and aspects tenth house. This makes the position unstable. The yoga planets of birth, Mercury and Saturn, are in six eight position from each other.

Example, Engineer

Birth horoscope – fourth and fifth lords are in close conjunction. This is spoiled by association of sixth lord Mars. The ninth lord is aspecting tenth house and tenth lord is aspecting ninth house.

Dashamsha – The yoga planets of birth are again conjunct in Dashamsha. Here Mercury becomes twelfth lord and Venus is also eighth lord.
