Navamsha D9

N avamsha is the ninth division of a sign. Each navamsha division measures 3° - 20' which is also the one fourth part of a nakshatra called pada or charan. There are 108 navamsha in total. It is also known as Dharmamsha. It is an important divisional chart.

Parashari Navamsha

Parashari navamsha is cyclical. We have four methods of casting this chart.

First Method

The counting of navamsha starts from the movable sign of the triad in which the planet is placed in the birth chart. There are four triads namely: fiery, earthy, airy and watery. Each next navamsha occupy next sign in direct order.

First Method		
Triad	**Signs**	**Sequence of Navamsha**
Fiery	Ari. Leo. Sag	Ari. Tau. Gem. Can. Leo. Vir. Lib. Sco. Sag
Earthy	Tau. Vir. Cap	Cap. Aqu. Pis. Ari. Tau. Gem. Can. Leo. Vir
Ariy	Gem. Lib. Aqu	Lib. Sco. Sag. Cap. Aqu. Pis. Ari. Tau. Gem
Watery	Can. Sco. Pis	Can. Leo. Vir. Lib. Sco. Sag. Cap. Aqu. Pis

Second Method

For movable signs, the first navamsha occupy the sign itself. For fixed signs, the first navamsha occupy the ninth sign from itself. For dual signs, the first navamsha occupy the fifth sign from itself. The other navamsha follows in direct order.

Third Method

Multiply the longitude of the planet (including sign) by nine. Expunge multiples of 12 signs. The resultant is the longitude of the planet in navamsha.

Fourth Method

Multiply the the number of completed signs by 9. Add the number of navamsha occupied in the sign. Expunge multiples of twelve from the sum. The reminder will be the sign occupied in navamsha.

Pushkar Navamsha

Pushkar navamshas are twenty four. Each sign has two pushkar navamsha and are the special areas of a sign. Any planet placed in this area gets its qualities enhanced and acquire the potential to give good results of its significations. These are the benefic navamsha and are lorded by the benefics in navamsha. Any planet occupying this navamsha goes to the signs of four benefics Jupiter, Venus, Mercury and Moon. Jupiter and Venus have nine each. Moon and Mercury have three each of the 24 pushkar navamsha. No pushkar navamshas falls in the sign of Sun, Mars and Saturn in D9.

Nakshatra of Jupiter and Sun contain six Pushkar navamsha each out of total twelve navamsha. Nakshatra of Venus, Moon, Rahu and Saturn contribute three Pushkar navamsha each. The nakshatra of Ketu, Mercury and M ars do not contain any Pushkar navamsha. Only three navamsha are vargottam and pushkar at the same time. These are fifth in Taurus, first in Cancer and ninth in Sagittarius.

Placement in pushkar navamsha enhances the significations of the planet. For example Jupiter is the significator of wealth. When Jupiter is in pushkar navamsha and the sign occupied by Jupiter in navamsha falls in Kendra ortrikona of the birth chart then the person is very wealthy and lucky. In case this sign is in sixth, eighth or twelfth, then along with wealth, it gives disease, bereavement or separation. (Chandra kala nadi).

Thus the planet acquires the goodness and acts through the house occupied by its navamsha in the birth chart.

Planets in pushkar navamsha are benefic and produce favourable results in Muhurat, Horary also.

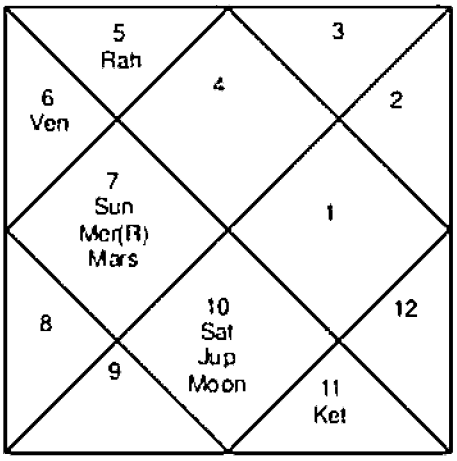

Navamsha in Nadi Astrology

Nadi astrology gives some methods for analysing the placement of a planet in navamsha. These rules are of immense value and helps in the predictive astrology.

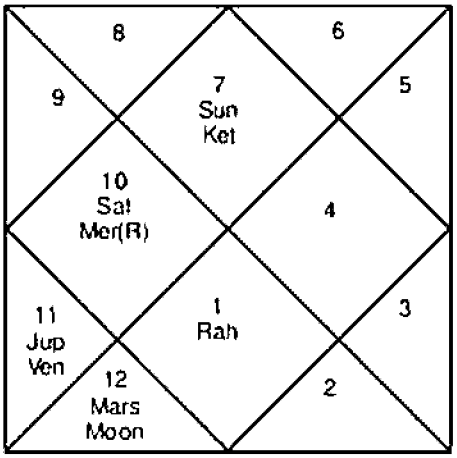

Method 1

Note the sign occupied by a planet in the navamsha chart. Also note the house which is occupied by that sign in the birth chart. This placement from the Lagna of birth chart is given a nomenclature based on the house occupied.

House	Special Nomenclature
I[11] house	Lagnamsha
2',d house	Vittamshaor Dhanamsha
3,d house	Vikramsha
4*' house	Sukhamsha
5" house	Putramsha
6* house	Shastamsha
7*' house	Bharyamsha
8"' house	Nidhanamsha or Randhramsha
9fl house	Bhagyamsha
10r' house	Karmamsha
11*' house	Labhamsha
12*' house	Vyamsha

Let us assume that Jupiter occupy Leo in birth chart with Gemini Lagna. Jupiter is in 2nd navamsha i.e. the navamsha placement of Jupiter is Taurus which is twelfth house for Gemini. Thus Jupiter is in the navamsha of twelfth house and is placed in Vyamsha. The special nomenclature given for placement of a planet in the houses of birth chart example 1 are given.

Example 1

The placement of planets in example chart 1 are as under -

Lagna - Sukhamsha
Sun - Sukhamsha
M oon - Bhagyamsha
M ars - Bhagyamsha
M ercury - Bharyamsha
Jupiter - Nidhanamsha
Venus - Nidhanamsha
Saturn - Bharyamsha
Rahu - Karmamsha
Ketu - Sukhamsha

Jupiter and Venus are placed in nidhanamsha. Both Venus and Jupiter are debilitated in birth chart. The events given by their significations are not happy one. In Jupiter mahadasha, he suffered monetary losses due to divorce case filed by his wife.

Placement of lord of any house of birth chart in Nidhanamsha is not welcome and it spoils the house in question.

Jatakdeshmarg contains a verse which means "when the lord of Lagna is placed in the navamsha in a sign which is eighth house in birth chart, the person dies of starvation or on the bare ground with no blood relative by his side." This applies fully on the chart of Indira Gandhi and M ahatma Gandhi.

Another verse says "If the lord of seventh house occupy the navamsha sign of the second house of birth chart, the spouse will be of loose character." Second house is eighth from seventh.

Generally lord of any house placed in Shastamsha, Nidhanamsha or Vyamsha is considered bad for that house.

Method 2

Treat the sign occupied by a planet in the birth chart as Lagna sign for that planet. Note the sign occupied by the planet in navamsha. Find out the house indicated by navamsha sign as counted from the Lagna sign of that planet.

For example Jupiter is in Leo and occupies Taurus in navamsha. Thus Jupiter is in tenth house from Leo and indicates the effects of tenth house. Jupiter aspects second, fourth and sixth house and influence the results of these houses. Any planet which goes to eighth sign in navamsha from the sign occupied by it in birth chart is in Astamsha position.

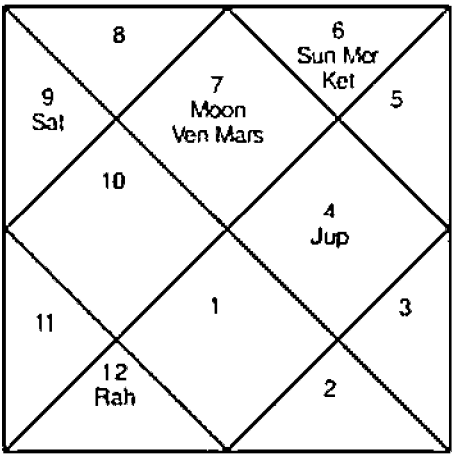

Any planet which occupy the same sign in navamsha as occupied by it in birth chart is called Vargottam. It is equal to its placement in Lagna and is therefore considered strong. Also the placement in the navamsha in Kendra and Trikona from the sign occupied in birth chart is auspicious and is a strong placement.

In addition to this if the sign of navamsha is again in Kendra or Trikona from birth Lagna sig n also, Then planet is very well placed and confers excellent results. From this discussion we can infer that placement in Tnk houses from both Lagnas w ill weaken the planet and it will give adverse results. These placements are modified by association and aspect of other planets.

We will discuss the application of these two methods.

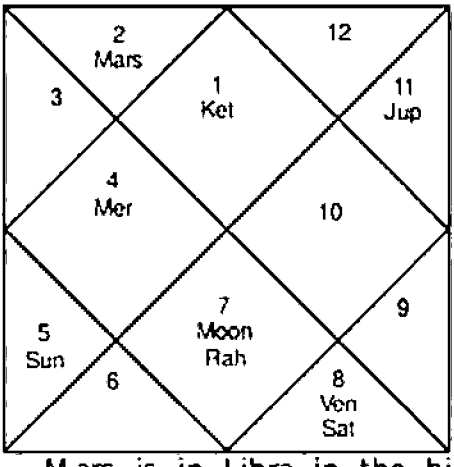

Example 2

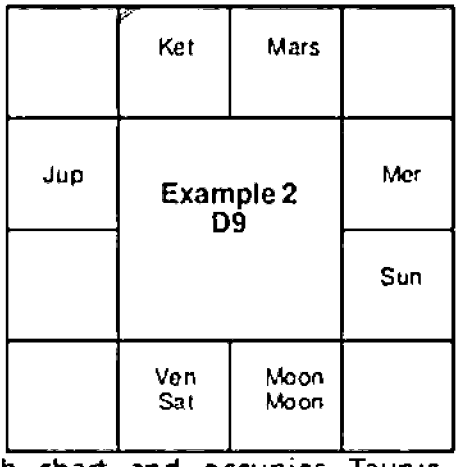

We examine the placement of Mercury. Mercury is in Virgo in birth chart and is in Cancer in navamsha. From Lagna of birth chart it goes to a Kendra position. From its natal place it has moved to eleventh house. Both are good placement. Mercury aspects fifth house from its natal position and gives super intelligence to the native.

Mars is in Libra in the birth chart and occupies Taurus in navamsha chart. This placement of Mars is in eighth from natal position of Mars and also from birth Lagna. This is both nidhanamsha and astamsha placement. Mars is seventh lord and the person is not married.

Example 3

Jupiter is placed in Virgo in birth chart and moves to Cancer in navamsha. Cancer is eleventh from Virgo and eighth from Lagna. Jupiter is the Lagna lord occupying nidhanamsha and is not a good placement. From Virgo it is aspecting fifth house. This person was a great astrologer and Jupiter is the planet of wisdom.

Saturn is in Pisces in birth chart and is in Aquarius in navamsha. From birth Lagna it is in third house and from its natal position it is twelfth house. Saturn is afflicting Moon in navamsha. He lost his eye sight.

Rashi Tulya Navamsha

All classics stress to use the navamsha for asessing the strength of planets. Any planet placed in benefic signs in navamsha are considered strong and are giver of good results. The benefic signs are the signs falling in kendra and trikona of a horoscope. We can opine that benefic signs also mean the signs of benefics. For the purpose of a particular horoscope, we consider tnnes as benefics.

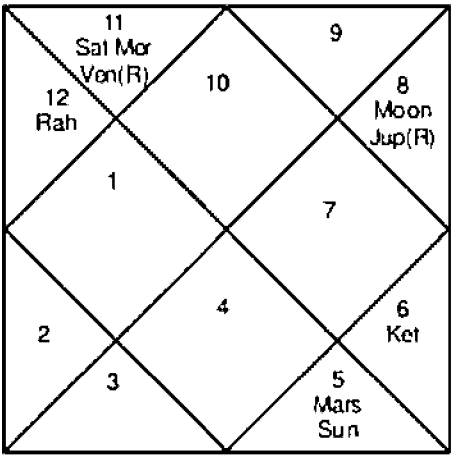

Rashi Tulya Navamsha presents the placement of planets in reference to the birth lagna. We retain the sign of the Lagna of birth chart and place the planets in the signs occupied by them in the navamsha. This recasted chart is known as Rashi Tulya Navamsha. Some refer it as Beeja Kundali.

Five planets occupy kendra and trikona position. Mars and Sun are in third house and are aspected by three planets giving good courage.

This chart is very useful and can be examined as an independent chart. The results of dasha period can be confirmed from this chart.

Navamsha Tulya Rashi

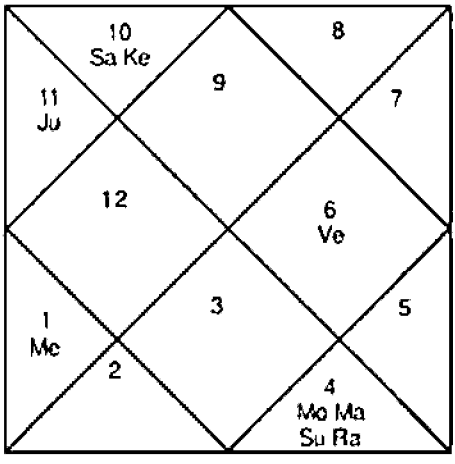

A parallel chart called navamsha tulya rashi is also used. This is erected by keeping the Lagna of navamsha and the placement of planets as per sign occupied by them in the birth chart.

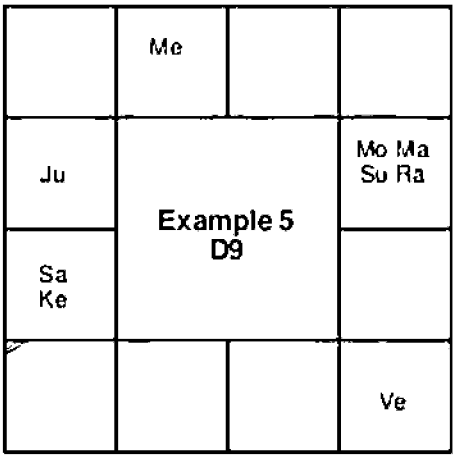

This chart is useful in assessing the potential and promises of a horoscope. We can apply all standard astrological principles on this chart. This recasted chart shows the permanent or shashwat (' hk* 0f) potential.

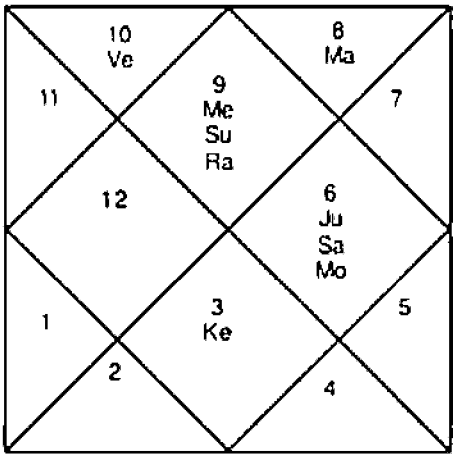

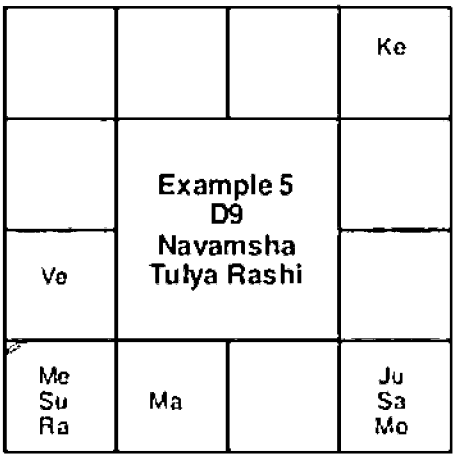

Lag	Sun	Moon	Mars	Mer	Jup	Ven	Sat	Rah
16°53'	11°55'	20°52'	00°14'	01°52'	05°02'	28°53'	00°42'	12°23'

In navamsha tulya rashi chart we find that the lagna lord and the tenth lord have exchanged sign. This relation of lagna lord and tenth

lord makes a person to establish intutions which will be permanent. He established Banaras Hindu University. He was a great Sanskrit scholar.

64th Navamsha

Sixty fourth navamsha is one of the sensitive area and its lord is a Chhidra Graha. The sixty fourth navamsha is also called Khara navamsha.

Brihat Parashar reckons it from Lagna and Moon. Jataka Parijata reckons it from Moon only.

Prashan Marg reckons it from Lagna, Moon and Sun. Why not we reckon it from all planets and houses as well?

The 64:h navamsha for any planet or Lagna will be the same navamsha in the eighth sign from it. For example if Moon is in Aries 7°
i.e. third navamsha. Then the third navamsha of Scorpio (8:" sign from Aries) will be the 64 " navamsha i.e. Virgo.

To ascertain this navamsha, we place the deg rees of the planet in the eighth sign from it and workout the navamsha in the eighth sign and for degrees of the planet.

A very simple way to locate the 64:" navamsha of a planet is to locate the sign occupied by planet in navamsha chart. The fourth sign from it will be the 64:r navamsha. For example Lagna of navamsha chart is Capricorn. The 64tr navamsha from lagna will be Aries (4th from Capricorn).

Classics have laid down rules for predicting the events with the help of 64tr navamsha. These are summarised below -

1. Transit of malefics over 64-" navamsha give events which have long lasting effects. Especially when a malefic is placed in this sign.
2. When the lord of navamsha occupied by Moon is inimical, neutral or friendly to the lord of 64~ navamsha from M oon, the person will have short, medium or long life.
3. A Malefic placed in the 64tr navamsha of any planet brings harm to the significations of that planet. In the chart of Mrs. Indira Gandhi, Ketu and Saturn are placed in 64th navamsha from Venus. Her husband died at a young age.
4. When the lord of 22ra Drekkana and 64r navamsha from Moon is same planet and it transits a sign depnved of bindu in Astakvarga then death is unavoidable. If they are different, then both transiting the sensitive point gives death.

5. The transit of malefic gives effect when transiting in the eighth house sign and the navamsha sign of 64" navamsha and vice versa. As an example, the eighth house is Capricorn and Khara navamsha is Virgo, then the event will take place when the malefic transit Capricorn sign and Virgo navamsha or Virgo sign and Capricorn navamsha.
6. Transit of slow moving planets including Rahu and Ketu over the sensitive 64s' navamsha produce events of significant nature. The fast moving planets produce events of small magnitude.
7. This principle of transit is also applicable for mundane events.

The sages have specifically mentioned 64:h navamsha and not the fourth from M oon or Lagna in the navamsha chart. This is a subtle hint given for working out the navamsha from all houses. Eighth house is the house of longevity or death of Lagna. One such combination states "when 64:r navamsha lord is with Saturn or Rahu or Ketu and is placed in 6m, 8", or 12th house in the birth chart, the person dies a unnatural death and without any blood relation by his side." This works on the chart of Indira Gandhi and Z.A. Bhutto.

We get the rule conveyed by this and have tried to extend it on the other houses. We can take these from Moon or Lagna.

1st navamsha - 1st house. It is 8th from house and if similarly placed in 6",8th and 12th and with Saturn Rahu or Ketu, it means unnatural death of significator of sixth house i.e. enemy, disease, maternal uncle etc.

The other relevant navamshas and its eighth position from the significator house are listed in table. The meaning or the results is to be interpreted by the general rule.

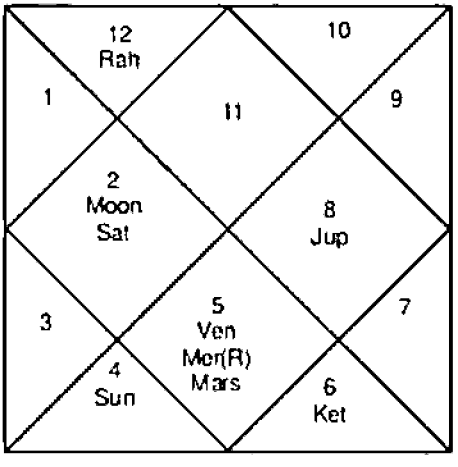

We again illustrated it with 100" navamsha. The 10(F navamsha is calculated from 12th house (eighth from fifth). Place the degrees of Moon or Lagna in the twelfth house from it and arrive at 100th navamsha. The lord of this navamsha sign is the referred planet. If this planet occupy 6th, 8th, and 12tr house in birth chart and is with Saturn, Rahu or Ketu then the fifth house suffers.

In the chart of Indira Gandhi, the 100tb navamsha from Moon is Taurus. Venus is in 6tr house and is with Rahu. The fifth house suffered and herelder son died an unnatural death.

1. Dr. B.V. Raman died on 20 Dec 1998. The 64th navamsha from Lagna is Aries in Virgo Sign. Saturn in transit was in Aries sign and Aries navamsha. Ketu was transiting Virgo navamsha in Capricorn sign. Also note that 64tn navamsha Aries contains Saturn and Venus in navamsha.
2. The 64" navamsha from Moon is Scorpio in Sagittarius sign. On 9" Sept 1963, Ketu was transiting Sagittarius 24° - 3' which is Scorpio navamsha. His son Suryaprakash died.

Navamsha chart is one of the most important divisional chart. It is generally opined that predicting without navamsha will bring bad name to the astrologer.

Navamsha is the supplementary chart to the birth chart. If rashi chart is the body then navamsha is the soul. We can analyse navamsha as an independent chart for all the significations of a person. It is mainly treated as the chart of marriage.

Birth chart is the physical existence, the M oon chart is the mental plane and the navamsha is the hidden force or the destiny that decide the result of efforts.

The karmic theory says that the birth chart is the representation of sanchit karma. The navamsha is the prarabdha i.e. the portion of total karma which you are to face in this life.

Deities of Navamsha

There are three lord of the navamsha. These are deva, nara and rakshas. A planet in the movable navamsha is deva, in fixed navamsha it is nara and is rakshas in a dual sign.

Deva (Divine, godly) - A planet in deva navamsha is calm and have pious nature.

Nara (Human) - He is next best to deva. A practical and down to earth person.

Rakshas (Demon and evil) - He can be rash and sometime even turn violent.

Applications of deities is explained in the chapter of Dwadashamsha.

The most common use of navamsha is to assess the strength of planet. Generally a well placed planet and in status in navamsha chart is considered strong and gives auspicious results.

1. Planet exalted in the navamsha chart is considered best even when it is debilitated in birth chart.
2. Any planet debilitated in navamsha give bad results even when it is exalted in birth chart.
3. A vargottam planet is strong. It gives name and fame. Even a debilitated Vargottam planet gives wealth and fame but with some problems like health or mental tensions.
4. Planet in the signs of benefics are strong.
5. Planets in navamsha occupying the signs of kendra/trikona of birth chart are auspicious.
6. The navamshas is further classified as Dhrid, Dhridh-adhrid and Adridh. The fixed sign in navamsha are dhnd, and dual are dridh-adhrid and the movable are adridh. The prarabdh signified by dndh cannot be changed, those signified by dual can be changed with effort and the one signified by movable signs can be changed with a little effort.

Marriage

Navamsha is specific chart for marriage and marriage related matters. It can be seen independently for analysing marriage of a person.

Examination

1. Lagna of navamsha is the major consideration for marriage. A strong Lagna and Lagna lord gives marriage.
2. Wealth and speech in mamage. It also shows the longevity of spouse. An afflicted second house is not welcome as it gives tensions in married life.
3. The efforts required to keep the marriage going. A malefic is welcome but it shows great efforts needed to keep the marriage intact. A benefic placed here needs no effort to sustain the mamage but gives a carefree attitude.
4. The happiness of married life. It shows the enjoyment of mamage. A malefic like Rahu or Ketu do not know the happiness of marriage even when happiness is present.
5. Intelligence of married life. It is the thought process one has towards marriage. An afflicted fifth house cames bad intentions and is the spark to ruin the marriage. A benefic fifth house can avert an ugly situation.
6. The conflicts and problems faced in marriage. A strong 6th house has no conflicts and the married life is smooth.

7. All about marriage partner. A well associated seventh house gives a good life partner.
8. Longevity of mamage. Accidents and sudden happening. Secret relations outside the mamage.
9. The religious aspect of mamage. If spoiled by malefics or trik lords, takes away the very essence of trust of marriage.
10. Actions in married life. A benefic tenth house gives auspicious ceremonies. It is the duties one has to perform in the married life. An afflicted tenth house tends to give undesirable actions which can be forced upon the marriage.
11. Lust of the mamed life. Demands of spouse. Malefic relations give a spouse who is never satisfied in his/her matenalistic desires.
12. Losses suffered. Separation, confinement. It also shows the sexual pleasures of marriage. Affliction to 12th house gives no fulfilment of sexual desires.

1. Promise of Marriage

Lagna of navamsha is the primary consideration. If the Lagna has a benefic or is aspected by benefic then marriage is assured. Second house and seventh house are next consideration. These houses should also have benefic association. Association with lord of the house even when a malefic is considered good.

When all three i.e. Lagna, second house and seventh house have malefic association then marriage is denied or delayed.

Another method is to look for the seventh lord/Lagna lord of birth chart in navamsha. If these lords are badly placed in 2,6,8,12 houses from birth Lagna and from the sign occupied by it in birth chart or in navamsha, then mamage is denied. When well placed from one of these signs, it gives marriage but with problems in married life.

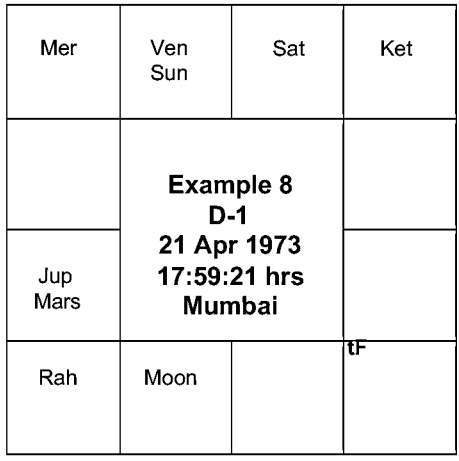

Affliction to Venus is also a hindrance to marriage. Venus in strength and well placed in birth chart and navamsha assures mamage.

Example 8

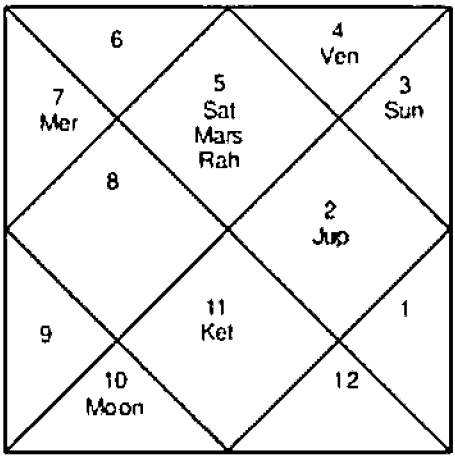

This chart is given to show that malefic influence on Lagna and seventh have given mamage. He married on 19'r May 1995 at the age of 22rd year which is considered little early for a boy.

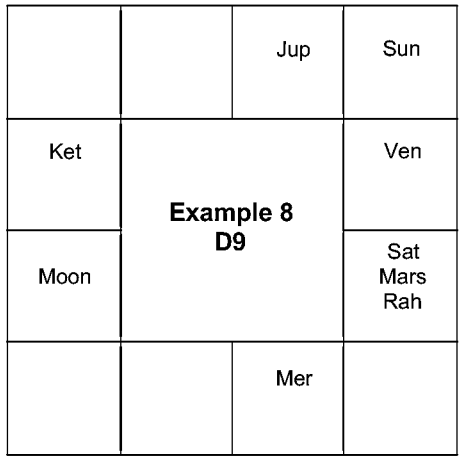

Lagna is occupied by Saturn, Mars and Rahu with no benefic aspect. Seventh house has Ketu and is aspected by seventh lord Saturn. Saturn aspect on 7th house has promised the marriage.

The catch is the placement of seventh lord of birth chart in navamsha. Seventh lord is Jupiter and occupy Capricorn in the birth chart. In navamshaJupiter is in Taurus. Taurus is ninth house from birth Lagna, fifth house from natal Jupiter and tenth house from navamsha Lagna. Marriage is promised.

Astrological reason for early marriage will be discussed next.

2. Early Marriage

The age of getting married can be classified as early, timely and delayed. The age of marriage is dependent on Desh, Kaal, Patra. The age block of 21 to 24 years for girls and 24 years to 28 years for boys can be taken as normal and timely age of marriage in Indian families.

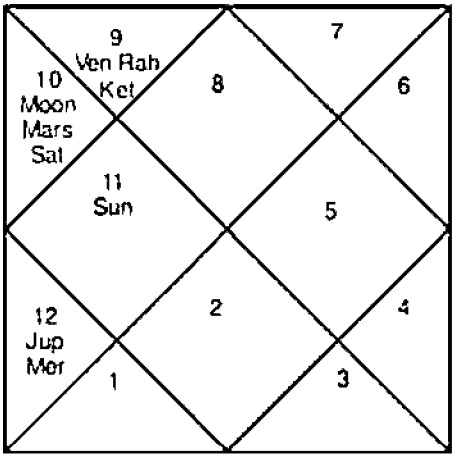

The first consideration is to look into the navamsha chart. The promise of marriage should be present and the appropriate dasha is running.

Next we look into trimshamsha chart. Benefic association with Lagna of trimshamsha promises early marriage. When a benefic planet who is associated with Lagna in DI and again is associated with trimshamsha Lagna in D30 is a sure indicator of early marriage. The judgement of trimshamsha is also vital to see the happiness of marriage. This is discussed later.

Affliction to trimshamsha Lagna causes delay. More affliction gives more delay.

We take the trimshamsha chart of example 8.

The navamsha chart is heavily afflicted and have no benefic aspect and should have delayed marriage.

The trimshamsha chart clears the picture. Lagna is aspected by Jupiter who is placed in its own sign. Jupiter isaspecting Lagna in the birth chart also. M arried at the age of 22 years.

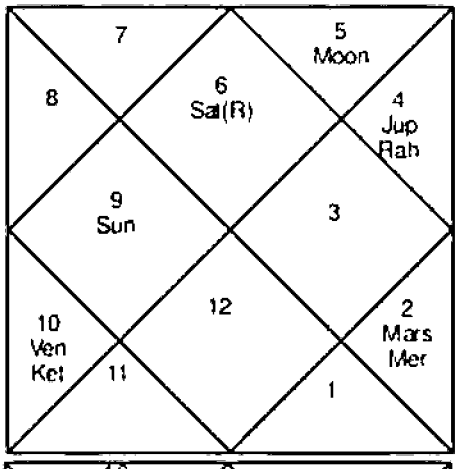

Example 9

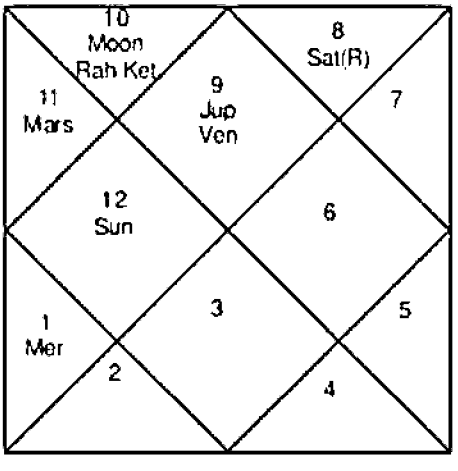

This chart is of early marriage. He got married in M ay 1897 at an age of less than thirteen year. If we consider the Kaal of 19~ century, It is still an early marriage fora boy.

Saturn is occupying navamsha Lagna and have no benefic aspect. Normally Saturn should give delay in marriage.

3. Late marriage

Example 10

This lady got married in 1998 at an age of 39 years.

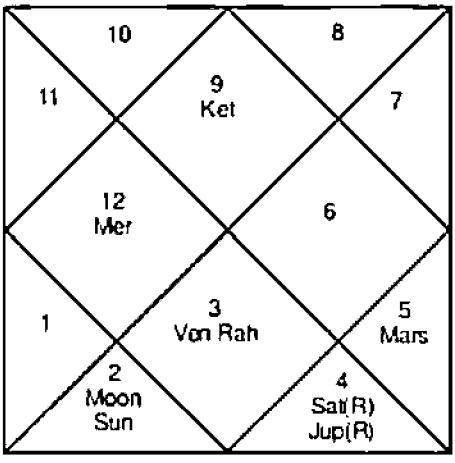

First we see the promise of marriage. Seventh lord of birth chart. Saturn, is in Cancer navamsha. From birth Lagna Saturn occupies lagnamsha. From Sagittanus, which is navamsha Lagna and the sign of Saturn in birth chart, is in eighth house. Only one factor is promising mamage.

Trimshamsha Lagna is heavily afflicted except for the aspect of exalted Mercury which gives marriage. She was married in Mercury-Rahu.

4. Multiple marriages

The conditions which are required to be present in the navamsha for multiple marriages are -

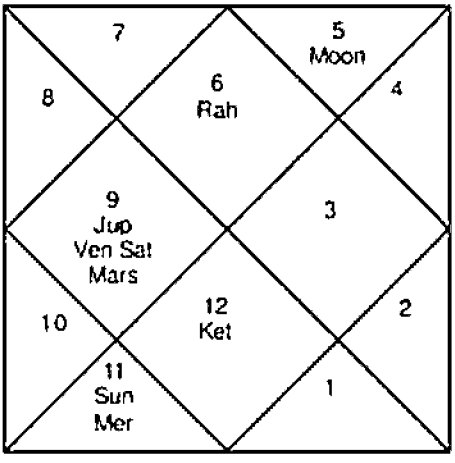

1. The most important condition is the strength ofLagnalord of the Navamsha. The Lagna lord should be exalted or retrograde or in own sign and well placed in kendra, trikona or eleventh house.
2. The seventh house should have malefic association. Normally association of benefics with seventh house/lord do not give many mamages.
3. The promise of marriage should be present from Lagna of birth chart and Lagna of navamsha chart. (Nadi principle). The promise from the sign placement may be spoiled.
4. Presence of Dhana yoga gives multiple marriage.
5. Placement of second, seventh and twelfth lord in upchaya houses give many mamage. It can also indicate rich wife.

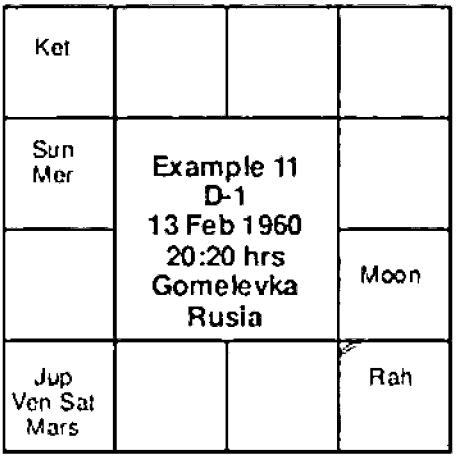

Example 11

This Russian lady had contacted sh. K.N. Rao in M arch 2004. She had a child at the age of eighteen before marriage. The first marriage took place when she was nineteen years. The second marriage was in 1985 which ended in 2000. She again married in 2001 and this third marriage was in tension when she met Sh. Rao.

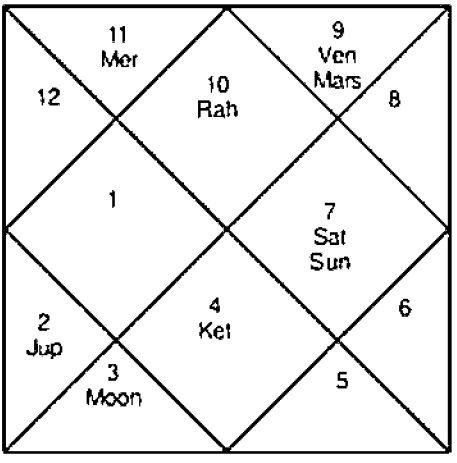

Jupiter is the seventh lord of birth chart. It is placed in Sagittarius in birth chart and Taurus in navamsha chart. This position in Taurus is in trine from birth Lagna and Navamsha Lagna. From its natal position it has gone to sixth house.

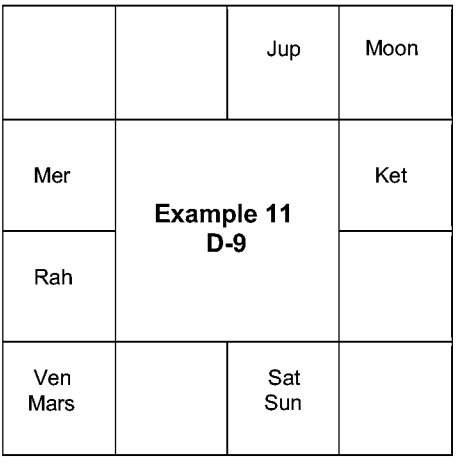

The Lagna lord of Navamsha is exalted in tenth house. The seventh house of navamsha is heavily afflicted. Ketu occupies it and is aspected by M ars and Saturn. There is no benefic aspect on seventh

house. Second house is occupied by ninth lord and second lord is exalted. Second lord and the seventh lord are in upchaya houses.

5. Status of Spouse

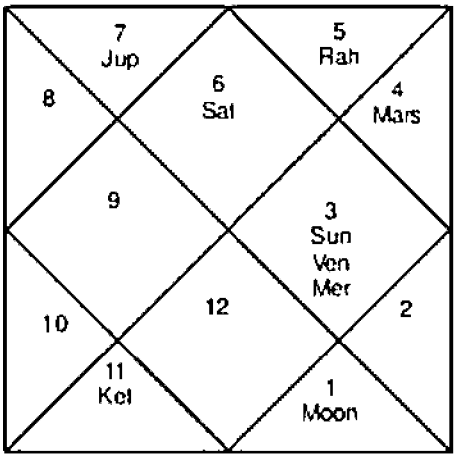

Classical text compares the strength of Lagna lord and the seventh lord. If seventh lord is more powerful, the spouse is from higher status.

The rules applicable to navamsha chart for getting a spouse from higher status or wealthier are,

1. Raj yogas present in the navamsha chart gives spouse from a rich or highly placed background.
2. Placement of seventh lord in upchaya house.
3. The seventh lord is strong and has benefic association or associated with a planet in strength.

purposes, Firstly this lady married five times and decid ed not to marry for sixth time but to live together with her mate. Secondly two of her husbands were much older to her and she married them for their wealth and status.

Seventh lord of birth isjupiter. Jupiter is in Libra in birth chart and is in Aquarius in navamsha. Aquarius is sixth house from birth Lagna, second house in navamsha and is fifth house from Libra. Mamage is assured.

Navamsha has a good Dhana yoga. Eleventh, second and Lagna lord are together in seventh house. Seventh lord occupy upchaya house. Seventh house is afflicted. Many marriages are indicated.

Conjunction of ninth, tenth and fifth lord is forming a Rajyoga in eleventh house. The status of spouse is higher than the native.

6. Caring Spouse

Loyalty in married life is a mutual relation. In the orthodox Indian society couples have mutual trust and the cases of broken mamage were rare. With the present inclination towards materialistic happiness, cases of separation and disputes in mamage are rising.

The parameters for loyal life partners as seen in navamsha are -

1. Venus and/or seventh lord have only benefic association.
2. The seventh lord is a satvik planet, well placed and have benefic association.
3. Venus and/or seventh lord occupies a benefic sign in shashtiamsha (D-60).
4. Lagna lord of navamsha chart is taken as a benefic.

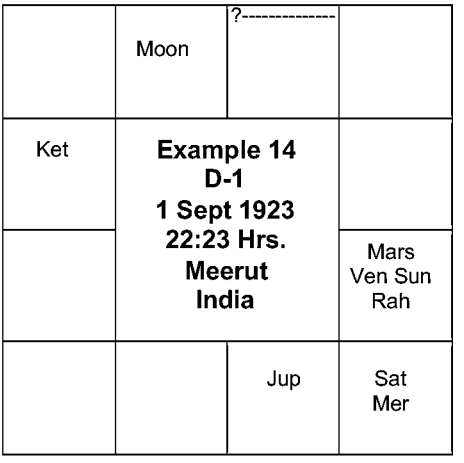

Absence of these combinations does not mean that the spouse is not of good character. If the spouse takes care of your requirement and looks after you well is the loyalty.

Example 14

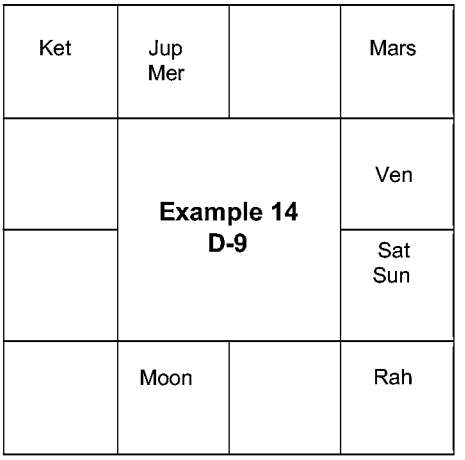

Venus is well placed and is not aspected by any malefic. M oon is the seventh lord and placed in eleventh house with no malefic association.

In shastiamsha chart Venus is in Libra and Moon is in Gemini. Both are in benefic signs.

Married life lasted for over 56 years. He was very well looked after by his wife. She always supported him.

C olour and Beauty of Spouse

Venus and Jupiter are the prime factors to judge the beauty of spouse. Venus is the significator for wife in the boy's horoscope and Jupiter is the significator in a girls horoscope.

A strong Venus without association of Saturn generally gives a beautiful wife. Same is the consideration for Jupiter to give a handsome husband.

The strongest of seventh house, seventh lord and Venus decides the complexion of spouse.

7. Mutual Attraction

For assessment of compatibility in marriage, the matching of horoscopes are done with the natal positions of Moon of bride and groom,as a general practice called guna milan. However we should examine the Lagna, Sun and Moon. Atma or the spiritual side is controlled by Sun. The mental compatibility is controlled by Moon and first house.

The astrological rules which lay own the mutual attraction between a boy and girl are given. These are necessary requirement for a happy successful married life.

1. When the Lagna of boy and girl are opposite to each other, there will be attraction.
2. M ars is the ruler of sex d esire for g iris. Venus is the ruler for boys. The Mars of girl's horoscope should be conjunct with or aspects the Venus of the boy's horoscope. Similarly Venus of boy should be conjunct with or aspects Mars of the girl. Even when one relation is present, it is good. These association if repeats in navamsha also, it is best.

In cases where this relation is present in birth chart but not

in navamsha, then there is mutual attraction in the beginning of affairs but fades out with time. On the other hand this relation of Mar/Venus is not present in birth chart and present in navamsha then the attraction develops with time.

This mutual relation of Mars/Venus can prove dangerous also unless modified.

3. The same relation of Mars or Venus is established with Sun or Moon of the horoscope, it also gives strong attachment.
4. When Sun of one partner is making relation with M oon of the other partner, or they are in mutual trine to each other, there is deep friendship after marriage. Mutual placement in 6,8,12 is not desirable.
5. The signs occupied by Lagna, Sun and Moon of partners, if afflicted in the chart of other partner, brings problems in married life. The cause of problem will be physical when Lagna is afflicted. It is spiritual when Sun is afflicted and is mental disagreement if Moon is afflicted in this manner.

8. After Marriage

How the marriage will turnout to be. It may be a happy life or unhappy. The basic parameters are the seventh lord and Venus.

1. Seventh lord or Venus should occupy 2"° house or an upchaya house. This also gives prosperity after marriage.
2. Seventh lord in trines or in ICT house.
3. Benefic association with seventh lord or Venus.
4. M alefic association w ith Venus or seventh lord when in trine or in tenth house is also good but it takes extra effort for happy life.
5. When seventh lord or Lagna lord or second lord or Venus are placed in sixth or eighth or twelfth house or are combust and have malefic association the result is unhappiness in married life. In case even one benefic is also associated then the recovery is also there.
6. The eighth lord plays an important role in deciding the life after marriage. Influence of eighth lord on the Lagna or seventh house/lords leads to divorce or even death of spouse. Benefic association can avert an ugly scene and save the mamage.
7. A well placed and well connected twelfth lord gives amicable relationship. Any affliction of malefic planets may ruin the relationship.
8. Trimshamsha chart also plays a major role - when the trimshamsha Lagna falls in the sign of M ars, Saturn or Sun and the same planet

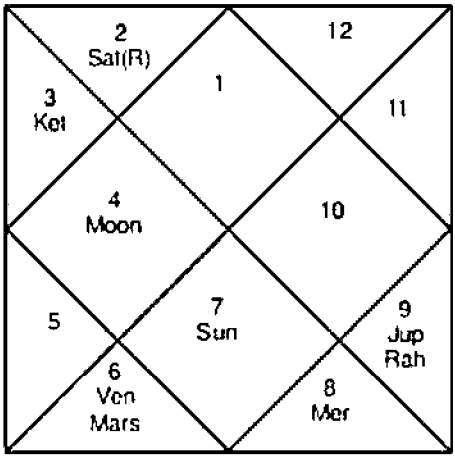

is influencing Lagna of birth chart, then the married life is disturbed. This situation becomes grave when Sun or Moon are in birth Lagna and are influenced by malefics.

Example 15

This chart belongs to an orthodox Hindu family where divorces are not very common. She was married on 26 Jan 1996. Problems started very early but marnage went on till Feb 2003 when she returned to here parents home and divorce was filed. They were divorced in Aug 2004. No child was bom.

In the navamsha chart Rahu occupy seventh house. Eighth lord Jupiter aspects the seventh house. Eighth lord is exalted.

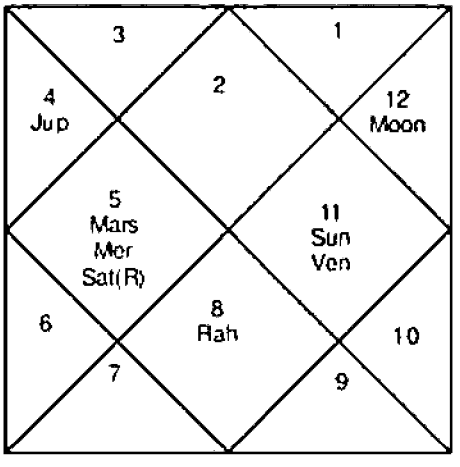

Trimshamsha Lagna is Aries. Mars aspects both birth Lagna and the trimshamsha Lagna.

9. Match Making

Match making is like fixing a game of cricket. The two players are the bride and the groom.

Traditionally the guna milan (matching) is done on the horoscope of the couple. This matching is based on the Moon sign and the Moon nakshatra. All other factors are not considered. In practical life we have seen that despite good matching mamage can turn into a disaster and vice versa.

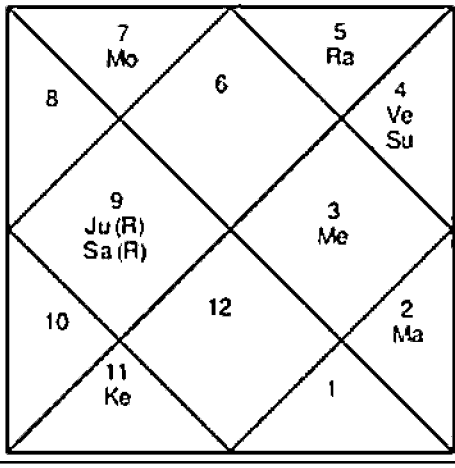

We are now giving a method to judge thebehaviour or actions of bride or groom towards the spouse in married life. This can give sufficient information about their relationship and is a good tool for match making.

Navamsha is the chart which shows all about your marriage. The seventh house is the marriage and the seventh lord is the ow ner of the marriage. We therefore check as to how this owner of marriage will behave with the partner.

1. Note the seventh lord of navamsha of one partner.
2. See the placement of this seventh lord in the navamsha chart of the other partner.
3. A badly placed and afflicted owner is not considered good.
4. A benefic association safe guards the marriage.
5. The behaviour towards spouse is seen from placement in the house of navamsha. For example if it is in 12th house then the owner spends a lot for other partner.
6. Repeat with seventh lord of navamsha of the second partner in the navamsha of first partner.
7. Two way good placement and association is the best matching.

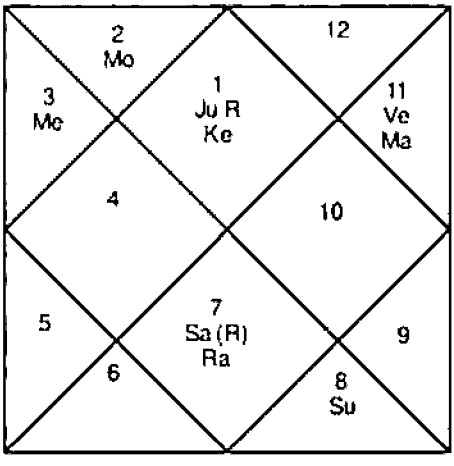

Example 16

These charts are of a happily married couple. The ashtkoot milan gives only 17 matching point.

J aimini Navamsha

In the Jaimini System, the signs are divided into two categories. One is direct counting (Savya) and the other is indirect counting (Apsavya).

All navamsha have the movable sign as the starting navamsha or the first navamsha in any sign. Aries and Libra are the Savya signs. Cancer and Capricorn are the apsavya signs. Thus the sequence of next navamshas are direct for Aries and Libra where as it is indirect for Cancer and Capricorn. This is taken from Jyotish Phalaratnamala written by Knshna Mishra.

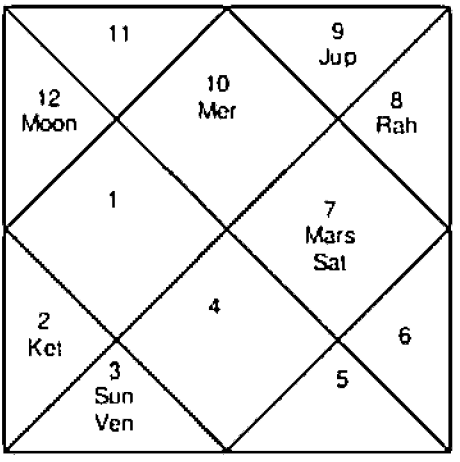

This is the underlying principle of Jaimini navamsha and the rest is similar to Parashari Navamsha.

Navamsha is specific chart for marriage. We can also refer it for all events and promises as seen from birth chart.
