More Money but not Higher Post

As has been explained already, we will proceed to analysis each horoscope under three captions for a methodical approach to the art of astrological prediction. Three *Memory Tablets* have been evolved for this purpose.

The first memory tablet is CBI or complete background Information.

In this case, the only information I had was that the native was a big officer in the central government and that he wanted to consult me as a good friend of mine had advised him in order to help him to overcome the problem he was fadng.

I got the horoscope and noted it down in my records. t then formed some impressions out of which would arise the questions after verifying which only would I be sure that I was working on a correct horoscope.

Illustration 8

The C87 *Verification*

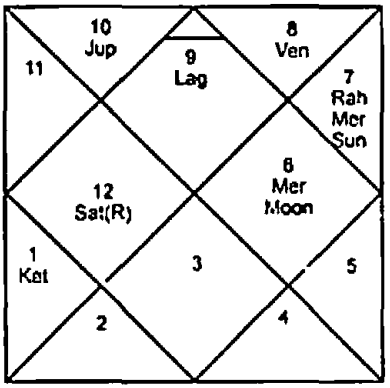

The first question I asked him was whether he had technical education. At a glance it b clear that the presence of Ketu in the 5th house aspected by Mars and the 5* lord, Mars In the 10* aspected by Saturn has to give him education in non humanities group.

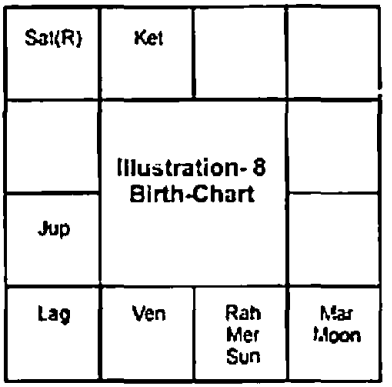

Examine it from Mercury now. (I have discussed this In my book *Astrology Destiny and the Wheel of Time).*

To have a good educational background in India, he should generally have a very favourable dasha at the right time in hb student days. Now see the horoscope and the Navamsha first.

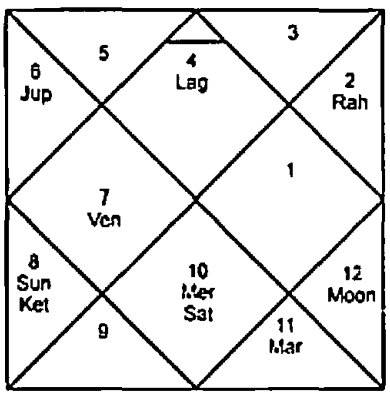

From 1949 to 19S6, he got the dasha of Mars who Is posited In the 10th house, the house of distinction aspected by Satum and Jupiter.

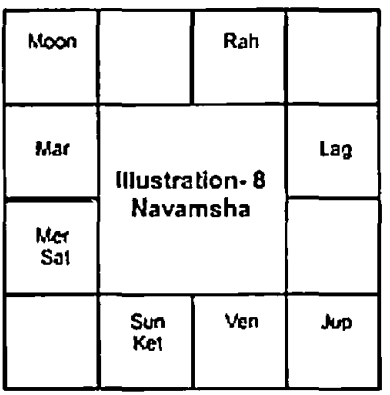

The next dasha lord Rahu in the 11th was bound to be better as here Rahu was partidpating in the rajyoga formed by the conjunction of the 9* and the 10* ford. in Rahu period, he has successively the

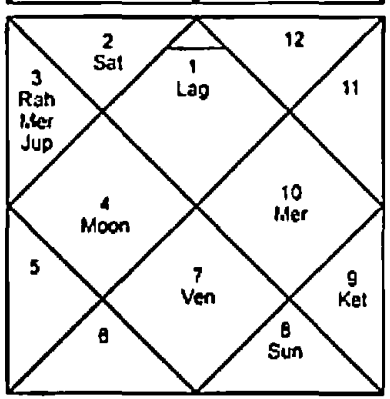

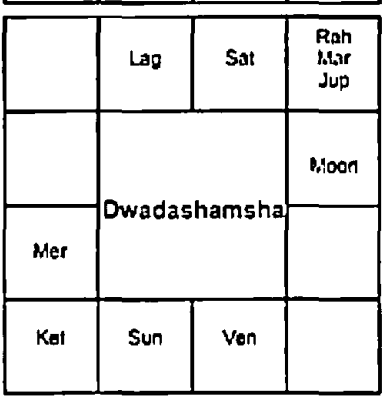

Lagna	Sun	Moon	Mars	Mercury	Jupiter	Venus	Saturn(R)	Rahu
12°55'	04°11'	07°50'	04°28'	11°25'	29°21'	10°16'	20°37'	24°42'

sub-periods of Jupiter aspecting the 10th house and then, again, Satum too. Achievements through hard struggle In Rahu-Saturn period was possible through a competitive examination.

Why competitive examination?

See here the position of Rahu both from the lagna and the Moon. From the lagna. Rahu is in the **11th** house Joining a rajyoga white from the **Moon.** he is with the **10th** ford, **Mercury,** and the Sun. a planet representing administrative service.

Now the condition of Satum. the **sub-period** ford **will** have to be examined.

First, **Saturn In** kendra form the birth lagna **and** in the house of Jupiter, which has been praised in ***Uttar-Kalamrita.*** **Is** aspected by **Mars.** the **5th** lord in the **10th** house. Then from Rahu, it **Is In** the 6* house of competition, from the Moon, he **Is** the **5th** and the 6* ford In the **7th** house, a kendra, particularly the 7* house which has been described as the place of ***pada-prapti*** the position giver. More **Important Is** the next **sub-period** of Mercury, the 7* and the **10th** ford. Viewed retrospectively and **prospectively,** the future Indicated both a high position and marriage.

In the Navamsha, Rahu b in the **11th** house again and Satum b in the *7"* house of *pada-prapti* and **marriage** or talk of marriage or eligibility for marriage. From Rahu. in the Navamsha, **Saturn** b In a trine aspected by Jupiter and **Is with Mercury,** the **5th** lord also receiving the aspect of Jupiter from the 5* house. The best feature of the Navamsha **Is** that Jupiter aspects Mercury, Saturn and Rahu and the Moon from the **3rd** house. The Rahu period is bound to be good.

The next period of Jupiter would have been comfortable but not as good as **Rahu's** because **It** is debilitated. But being involved in an exchange **with Saturn,** it must have been a **period** of making of property and a comfortable but a run of the mill career.

What must have remained towards the end of the Jupiter period **Is** an undistinguished record. See **It In** three ways:

From the debilitated Jupiter in the birth horoscope, Rahu is in the 10* house with 6* and 8* lord, though Mercury here as the 9* lord could have prevented the ruination of **his** career.

In the Navamsha Rahu is being aspected by the 8* and **12th** lord from Jupiter.

In the **Dashamsha,** Rahu b **with** the **8th** and **12th** lord **In** the **3rd** house, hardly good for rise **In** career.

Now the next dasha of Satum aspected by **Mars,** the **12th** ford In the birth horoscope, shows some controversy, bad confidential reports or lack lustre performance as a result of which he would be overlooked for an Important promotion If ft became due.

If all **this Is** correct then Satum **In** the Navamsha with the **12th** lord

aspected by the 6* ford Jupiter does show an impediment In his career.

In the **Dashamsha.** Saturn as the **10th** lord opposed by the Sun from the 8* house and the 8* lord Mars aspecting the **10th** house must mean his being overlooked for an **important** promotion.

I would have to greet him with these **questions.** But of I started straightaway with these questions he would be disappointed. So I **asked him** some of the pleasant questions and then asked **him** if **his** name had been sent for some **public** sector undertaking particularly where there was some construction, house building activity. The reason for asking **this** questions was that **Saturn** In **the** 4* house shows **houses.** Mars represents, lands, and being the **12th** ford a **deputation** as **well.** a deputation which may necessitate hb retirement from his service.

The **10th** ford of the Navamsha b **In** the 8* house **while** the **10th** lord of the Dashamsha **is** aspected by the Sun from the 8* house. In such **cases. it** b my experience that early retirement becomes beneficial.

*/ **must** sfafe here that I had seen It all from Jaimini angle also and was on surer **grounds.***

TASK

The second Memory Tablet I have given **Is TASK.** thesis **(T),** anti-thesis **(A), synthesis** (S) and kinds of **synthesis(K).**

I have covered all that **In** my discussion so far.

IPC

Now I come to the last Memory Tablet IPC.

Inference — **It Is** clear to me that he would not get his promotion **If** that was **his** question. Since he was coming to me in the dasha of Saturn which **Is** aspected by Mars from the **10th. his** question must be related to **his** Job and promotion. **I did** not want to disappoint **him.**

So I told him that **It** being the period of his **2nd** lord. Satum, he would get more money than higher position.

From the Moon, Satum was being aspected by the 8* ford. So I saw retirement and more money. The Inference that naturally flows from **this Is** that he would get lump sum terminal benefits which would be a lot of money and his career was not to an end because Saturn was aspecting hb **10th** house.

Perception — I then examined the transit of Saturn and Jupiter (1992). Saturn In Capricorn was 2nd from the lagna and 5* from the

Moon and Jupiter in Leo was 12* from the Moon but 9* from the lagna. So some sudden good luck was indicated.

Clarity — For clarity I re-examined from Jaimini angle and gave him the following readings:

1. He would not be empanelled as an additional secretary to the government of India but would be offered a good deputation.
2. My second prediction was that he would have to retire from his service and get absorbed in his new job where he would have a better house and greater authority than now.
3. My third prediction was that his children would go abroad during this period.

Confirmation

He joined one of the most prestigious house building organisations of the government after seeking retirement from his service.

Hb son has gone to USA for higher education.

He has always warmly appreciated this advice.
