Preface

Every astrologer and the books of astrology stress the use of navamsha. Navamsha is added in every horoscope. Normally it remains over looked and often remains just a decorative chart. Therefore, budding astrologers are at a loss to understand the use of navamsha. I have experienced this during my lectures in the Institute of Astrology.

Navamsha chart is of tremendous predictive use. Senior astrologers even say that a prediction given without consulting navamsha is like committing a crime!

Although Navamsha is seen to predict marriage, this is not the only use of navamsha. In fact it has been given more weight than even the birth chart by Parashar. It is a complete chart to assess the strength of planets. It is called the permanent (sashwat) chart. It helps in confirmation of any promise of birth chart. The understanding of dasha results are fine tuned with the help of navamsha. The religious devotion is also seen from navamsha.

I have attempted to explain the use of navamsha in a simple way which is understandable by a beginner of astrology. Most of the rules are from the practical application gathered during my interaction with students. Any suggestions for improvement are most welcome.

I thank Mr. Narender Sagar for his continued support and encouragement.

Chapter 01

Basics

Navamsha is the ninth division of a sign. Each navamsha division measures 3° – 20' which is also the one fourth part of a nakshatra called pad or charan. There are 108 navamsha in total. It is also known as Dharmamsha. It is an important divisional chart.

Parashar Navamsha

Parashar navamsha is cyclical. We have four methods of casting this chart.

First Method

The counting of navamsha starts from the movable sign of the triad in which the planet is placed in the birth chart. There are four triads namely: fiery, earthy, airy and watery. Each next navamsha occupy next sign in direct order.

First Method

Triad	Signs	Sequence of Navamsha
Fiery	Aries, Leo, Sagittarius	Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius
Earthy	Taurus, Virgo, Capricorn	Capricorn, Aquarius, Pisces, Aries, Taurus, Gemini, Cancer, Leo, Virgo

Airy	Gemini, Libra, Aquarius	Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces, Aries, Taurus, Gemini
Watery	Cancer, Scorpio, Pisces	Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius, Pisces

Second Method

For movable signs, the first navamsha occupy the sign itself. For fixed signs, the first navamsha occupy the ninth sign from itself. For dual signs, the first navamsha occupy the fifth sign from itself. The other navamsha follows in direct order.

Third Method

Multiply the longitude of the planet (including sign) by nine. Expunge multiples of 12 signs. The resultant is the longitude of the planet in navamsha. For example we take Sun placed at 16 deg. 20 minutes in Aries. Multiply 16 deg. 20 minutes by 9. We get 147 degrees. It is four sign completed and current sign is fifth. Sun is in Leo navamsha.

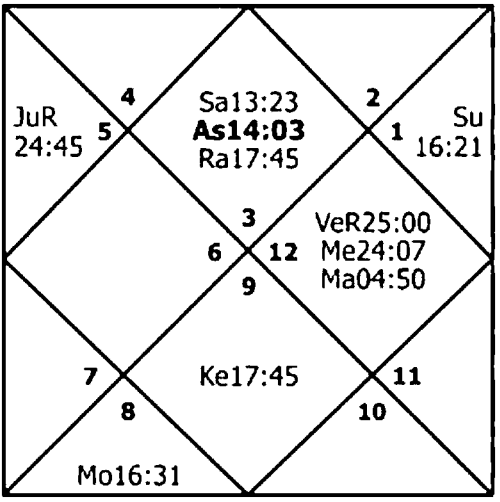

Fourth Method

Note the number of sign in the previous house to the planet. Multiply this number by nine. Add the number of navamsha occupied by planet. Expunge multiples of 12 from the sum so obtained. The result is the sign occupied by planet in navamsha. For example we take Sun placed at 16 deg. 20 minutes in Aries. Pisces is the previous sign to Aries. Multiply 12 by 9. We get 108. Sun is in fifth navamsha. Add five to 108 to get 113. Expunge 108 and the sign occupied by Sun in navamsha is 5. Thus Sun is in Leo in navamsha.

The lagan is Gemini 14 degree 03 minutes. The first navamsha of Gemini starts from Libra. It is fifth navamsha. Counting five from Libra we get Aquarius. Thus lagan of navamsha is Aquarius.

Sun is in fifth navamsha. Counting five from Aries gives us Leo. Sun goes to Leo in navamsha.

Moon is also in fifth navamsha. Counting for Scorpio starts from Cancer. Fifth from Cancer is Scorpio. Thus Moon is vargottam and occupies Scorpio in navamsha.

Mars is in Pisces in second navamsha. Counting from Cancer we get Leo as the sign occupied by Mars in navamsha.

Mercury is in Pisces. It is in eighth navamsha. From Cancer eighth is Aquarius. Mercury moves to Aquarius in navamsha.

Jupiter is in Leo in eighth navamsha. Counting starts from Aries. Jupiter goes to Scorpio in navamsha.

Venus is in same sign and navamsha as that of Mercury. Venus also moves to Aquarius in navamsha.

Saturn is in fifth navamsha in Gemini. It moves to Libra in navamsha and is exalted.

Rahu is in sixth navamsha in Gemini. The first navamsha is from Libra. Sixth from Libra is Pisces.

Ketu is opposite to Rahu and is in Virgo.

Pushkar Navamsha

Pushkar navamsha are twenty four. Each sign has two pushkar navamsha and are the special areas of a sign. Any planet placed in this area gets its qualities enhanced and acquire the potential to give good results of its significations. These are the benefic navamsha and are lorded by the benefics in navamsha. Any planet occupying this navamsha goes to the signs of four benefics Jupiter, Venus, Mercury and Moon. Jupiter and Venus have nine each. Moon and Mercury have three each of the 24 pushkar navamsha. No pushkar navamsha falls in the sign of Sun, Mars and Saturn in D9.

Some authors have taken pushkar bhag as pushkar navamsha. We are giving two versions of pushkar navamsha.

Nakshatra of Jupiter and Sun contain six Pushkar navamsha each out of total twelve navamsha. Nakshatra of Venus, Moon, Rahu and Saturn contribute three Pushkar navamsha each. The nakshatra of Ketu, Mercury and Mars do not contain any Pushkar navamsha. Only three navamsha are vargottam and pushkar at the same time. These are fifth in Taurus, first in Cancer and ninth in Sagittarius.

Placement in pushkar navamsha enhances the significations of the planet. For example Jupiter is the significator of wealth. When Jupiter is in pushkar navamsha and the sign occupied by Jupiter in navamsha falls in **Kendra or trikona of the birth chart then the person is very wealthy and lucky. In case this sign is in sixth, eighth or twelfth, then along with wealth, it gives disease, bereavement or separation. (Chandra kala nadi).**

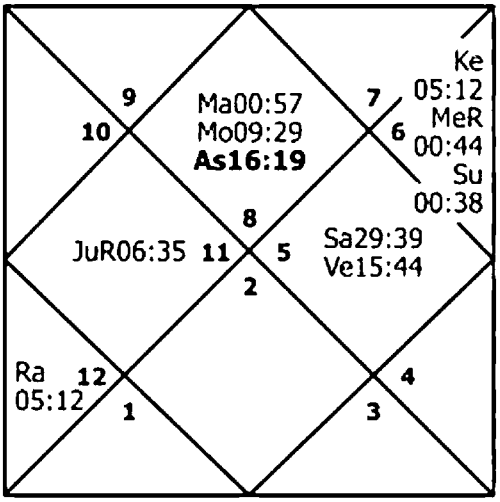

Thus the planet acquires the goodness and acts through the house occupied by its navamsha in the birth chart.

Planets in pushkar navamsha are benefic and produce favorable results in Muhurat, Horary also. Some rules for application of pushkar navamsha are given.

1. Dasha of planets in pushkar navamsha is favorable and give results of the house of its placement.
2. Planets aspected by planets in pushkar navamsha also give favorable results.
3. More planets in pushkar navamsha lift the level of horoscope.
4. **Placement of pushkar navamsha planet in navamsha is of maximum importance. This is discussed in chapter of RTN.** Placement in pushkar navamsha is not sufficient to deliver good results.

We will take example to understand the application of pushkar navamsha.

We are using second version of pushkar navamsha.

Three planets occupy pushkar navamsha in this horoscope. They also influence other planets.

1. Saturn is in Leo in ninth navamsha.
2. Moon is in Scorpio in third navamsha.
3. Mars is in Scorpio in first navamsha.
4. Saturn and Mars aspect Jupiter.
5. Saturn is with Venus.
6. Six planets are related to pushkar navamsha.

Dasha of Venus started in 1984 and lasted till 2004. Again Moon Dasha started in 2010. In Moon/ Jupiter he was elected to high post of prime minister of India.

This horoscope is of a young boy who lost his father before his birth. His mother was working as a domestic

help. He was not good at studies but has an analytical brain. Two planets Saturn and Rahu are in pushkar navamsha. Rahu is with Jupiter. His Dasha of Rahu ended in 2016. Rahu Dasha was not at all favorable. The answer is in the sign occupation by Rahu in navamsha. It is in Taurus in navamsha. Taurus is eighth house of birth chart. Jupiter goes to Aquarius in navamsha. Aquarius is fifth house of birth chart and is having Saturn. Jupiter Dasha will be very fruitful.

Vargottam Navamsha

Vargottam navamsha is also considered a highly favorable placement. When a planet occupies same sign in navamsha which was occupied by it in birth chart then the placement is called vargottam navamsha. Even when a planet is debilitated in birth chart and remains debilitated in navamsha still it is praised.

These results are not felt in many charts. The key may be in the sign occupied in navamsha. This will be further examined in other chapter.

Vish Navamsha

Certain navamsha position of planets is termed as vish navamsha. These are,

a. First navamsha of Aries, Taurus, Virgo and Sagittarius. These are also called Sarp navamsha.

b. Fifth navamsha of Gemini, Leo, Libra and Aquarius. These are also called gridha navamsha.

c. Ninth navamsha of Cancer, Scorpio, Capricorn and Pisces. These are also called shookar navamsha.

Any planet placed in these navamsha is harmful to the relative signified by the planet. If Moon occupy any of these navamsha then it brings harm to mother. **We will**

discuss the application of vish navamsha in the chapter of sixty fourth navamsha.

Deities of Navamsha

There are three lords of the navamsha chart. These are Deva, Nara and Rakshash. A planet in the movable navamsha is Deva, in fixed navamsha it is Nara and is Rakshash in a dual sign.

Deva (Divine, godly) – A planet in Deva navamsha is calm and have pious nature. He like to give and share his significations with others.

Nara (Human) – He is next best to Deva. The person is practical and has down to earth approach to life.

Rakshash (Demon and evil) – He can be rash and sometime even turn violent. He is materlistic. He likes to possess everything for himself. He is hard working under any situation.

The most common use of navamsha is to assess the strength of planet. Generally a well placed planet and in status in navamsha chart is considered strong and gives auspicious results.

1. Planet exalted in the navamsha chart is considered best even when it is debilitated in birth chart.
2. Any planet debilitated in navamsha give bad results even when it is exalted in birth chart.
3. A vargottam planet is strong. It gives name and fame. Even a debilitated Vargottam planet gives wealth, fame but with some problems like health or mental tensions.
4. Planets in the signs of benefic planets are strong.
5. **Planets in navamsha occupying the signs of Kendra/trikona of birth chart are auspicious.**

6. The navamsha are further classified as Dhrid, Dhridh-adhrid and Adridh. The fixed sign in navamsha are dhrid, and dual are dridh-adhrid and the movable are adridh. The prarabdha signified by dridh cannot be changed, those signified by dual can be changed with effort and the one signified by movable signs can be changed with little effort.

Chapter 02:

Marriage Matters

In this chapter we will discuss some important questions often asked about marriage. Firstly we will understand some basic rules regarding marriage. In a horoscope seventh house is the house of marriage. We also have lord of seventh house and a karaka of seventh house. We try to understand the significations and the area ruled by each of them.

1. **Seventh house** – It is the house that governs marriage. The promise of marriage is seen from this house.

2. **Seventh lord** – The seventh lord is the owner of the house. His responsibility is to look after the house. An afflicted lord will not be able to look after the house. Well connected lord will manage the house well.

3. **Karaka** – The karaka of marriage for male is Venus. The karaka of marriage for female is Jupiter. Venus also represents the lust and luxury for both sexes. The sexual energy of male is controlled by Venus. The sexual energy in female is controlled by Mars. Karaka is the inner beauty in marriage. It is not the physical charm but the caring attitude.

Kaal Purush

Kaal purush chart is the basic chart. This chart gives a lot of information through the ownership, exaltation

and debilitation signs of planets in this chart. We understand this in reference to seventh house. This applies to navamsha as well.

1. **Exaltation** – Saturn gets exalted in seventh house. Exalted planet gives ego and status in marriage.
2. **Debilitation** – Sun is debilitated in seventh house. It gives no ego or status in marriage.
3. **Lord** – Venus is the lord of this house. Venus is the owner and is responsible to maintain this house.
4. **Sign** - Libra is the sign of seventh house in kaal purush chart. Libra is also seen for promise and quality of marriage.
5. **Jupiter** – Jupiter is exalted in fourth house. It is therefore significator of happiness in marriage. Jupiter is debilitated in tenth house.
6. **Sun** – Sun is exalted in lagan. Exalted Sun gives ego in marriage life.
7. **Mars** – Mars is exalted in tenth house and gives authority in marriage life.
8. **Venus** – Venus exalts in twelfth house of bed room.
9. **Mercury** – sixth house is the exaltation and causes rift in marriage life.

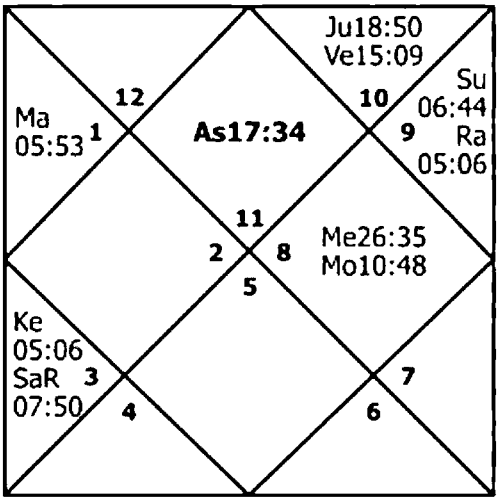

Promise of Marriage

Seventh house is the house of marriage. The promise is marriage is seen from seventh house. It is not the purview of seventh lord as seen by many. The promise is checked first in birth horoscope. The seventh house can be unoccupied and un aspected. There can be a malefic relation but it should have a benefic relation. The lagan lord and seventh lord even when a malefic their association with seventh house can still promise marriage.

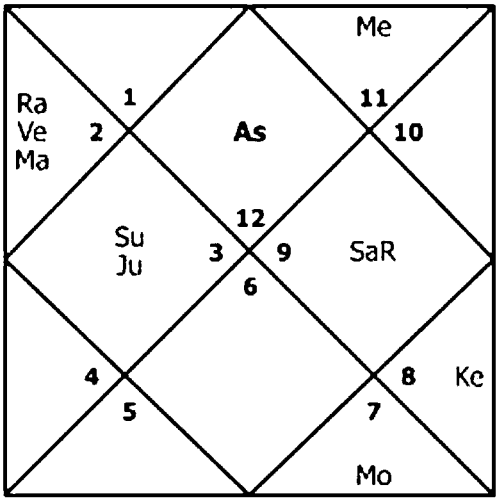

Association of only benefics with seventh house is good for promise of marriage.

Now we check the lagan and seventh house of navamsha. Lagan is the desire of marriage. The lagan should have benefic relation to make a person desirous of getting married. Seventh house of navamsha is the house of marriage. It should meet conditions as discussed for birth horoscope. The sign Libra is also seen for its association and aspect.

Example DOB 22 December 1973, TOB 11.25, POB Delhi

Seventh house of birth horoscope is not having any planet. It is aspected by Saturn. Saturn is considered malefic but not for this horoscope since it is lagan lord also. The promise of marriage is present.

In navamsha the seventh house is vacant and not aspected by any planet. It is not a denial but seventh house is average and have no malefic relation. Lagan also is vacant and not aspected. Libra is occupied by Moon and aspected by Jupiter. Jupiter is benefic and is lagan lord.

Marriage is promised.

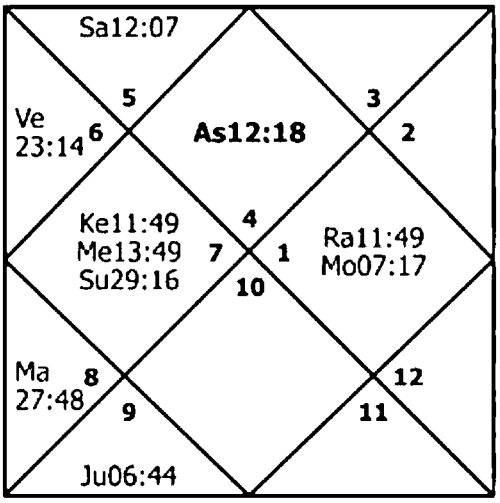

Quality of Marriage

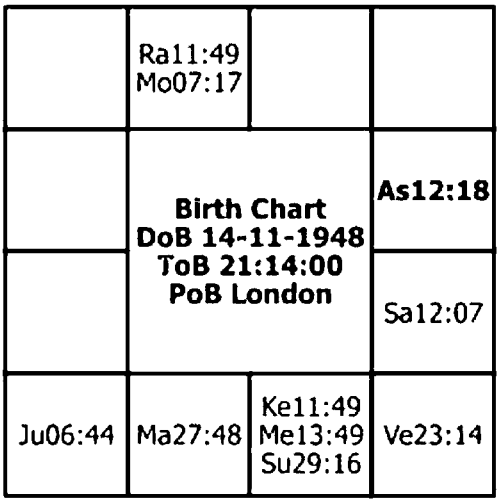

We have noted that karaka of marriage is the beauty of marriage and gives a clue about quality of marriage.

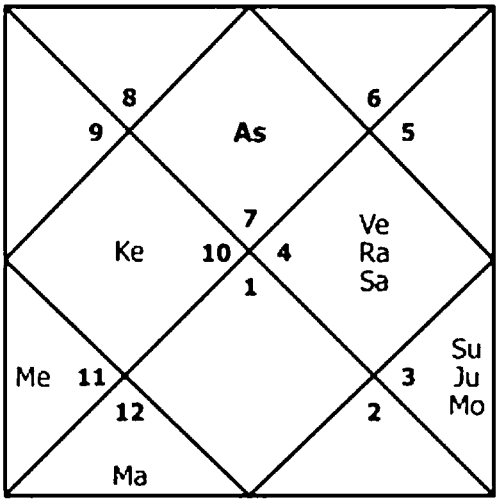

1. The karaka of marriage is checked in birth horoscope and navamsha. It should not have malefic association. It can be debilitated but should not be afflicted. One affliction is tolerable. More afflictions spoil the marriage. Benefic association improves the quality of marriage. Navamsha is the final outcome.
2. Two or more benefic association with seventh house also enhances quality of marriage. This is seen in birth horoscope and navamsha.
3. A combination in Trimshamsha and birth horoscope provides good information about quality of marriage. When sign of Saturn or Mars or Sun rises in lagan of Trimshamsha and these planets also influence lagan of birth horoscope then the marriage is disturbed. The problem is manifold if Sun or Moon occupy birth lagan and have malefic relation. When these are replaced by benefics then marriage is a quality marriage.

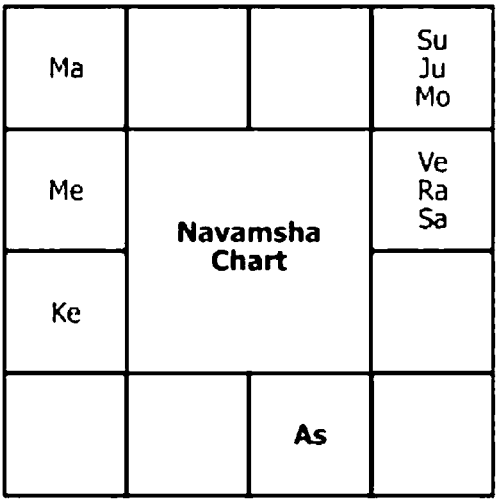

Sometimes marriage starts on a happy relation but turns bad over a period of time. The reverse is also true. We should also check this. The birth horoscope and navamsha are consulted for this. The navamsha is shashvat chart and show the ultimate condition. When quality is good in birth horoscope and is bad in navamsha then the relations turn sour over a period of time. When it is not so good in birth horoscope but is good in navamsha then relations improve after some time.

Example Male DOB 14 November 1948, TOB 21.14, POB London

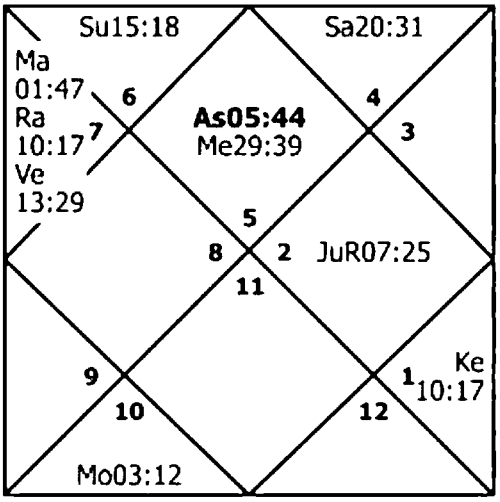

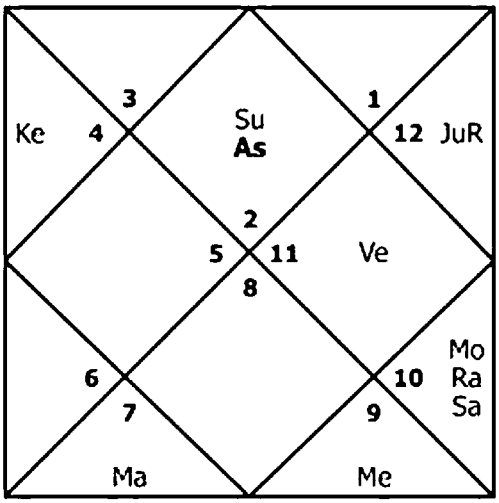

This is a male chart. Venus is the karaka of marriage. In birth horoscope Venus is debilitate but have no malefic association. In navamsha Venus is with Rahu and Saturn. It has no benefic association. Seventh house is under malefic aspect of Saturn. The marriage turned bad later even when it started on a good note.

This girl was not married. She was engaged for marriage in September 2010. Marriage was fixed for November 2010. Immediately after marriage she returned back to her parental home.

In birth horoscope Jupiter is under aspect of Mars. It has no benefic association. In navamsha Jupiter is again have the influence of Saturn. There is no benefic association or aspect with Jupiter.

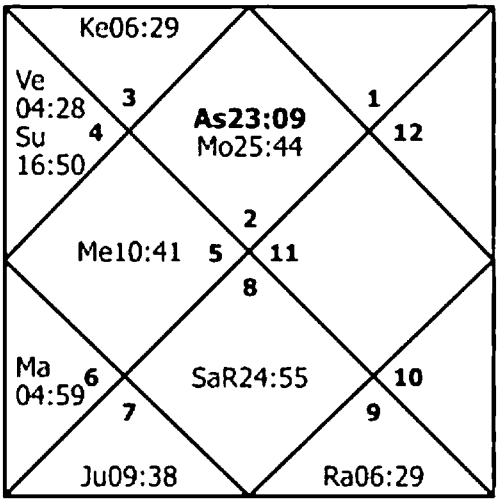

Early Marriage

Every society has an average or standard age of marriage for boys and girls. When a marriage is performed before this age then it is called an early marriage. This standard age of marriage is changing with times.

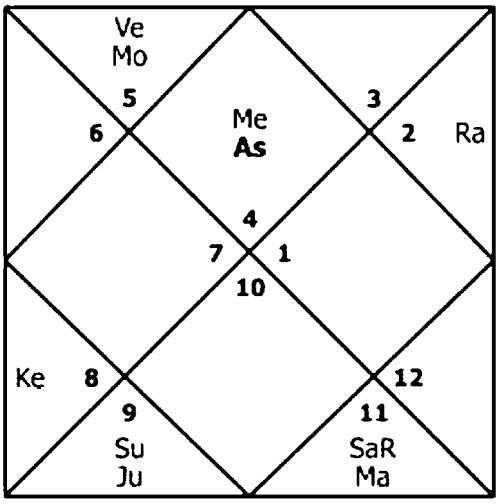

The first consideration is the promise of marriage. The seventh house is connected to benefics or its lord to promise marriage. A specific use of Trimshamsha chart is made to see early marriage. The rule is;

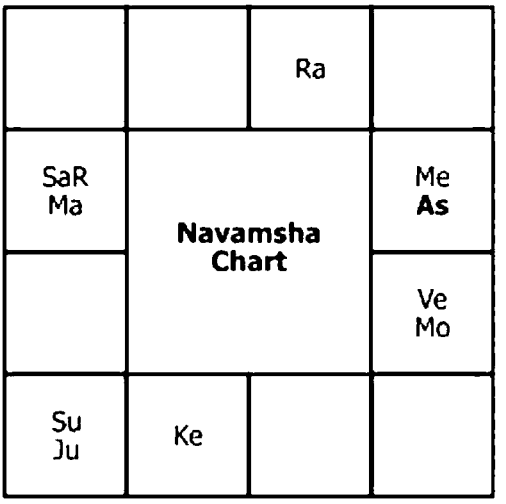

See if any planet is placed or aspecting lagan of birth chart. Now if the same planet is again placed or aspecting lagan of Trimshamsha chart, then this gives early marriage. This planet can be a malefic or benefic.

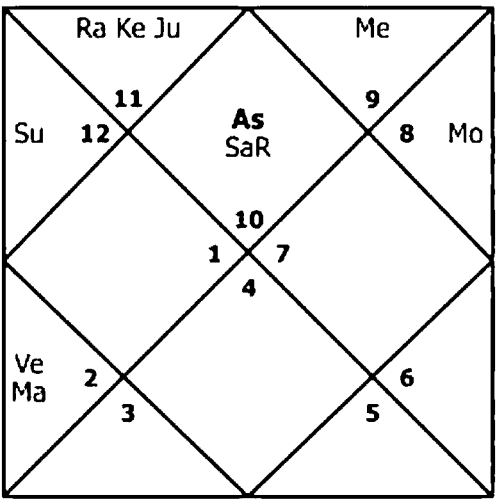

Example – Kamala Nehru, DOB 2 August 1899, TOB 01.45, POB Delhi

First we check the promise of marriage. In birth chart Saturn is placed in seventh house. This gives marriage of status. In navamsha seventh house is aspected by Mercury. It is a benefic aspect and marriage is promised.

Saturn is aspecting lagan in birth chart. Saturn is placed in lagan of Trimshamsha. Early marriage is promised. She was married at the age of sixteen. The quality of marriage is not good because of this Saturn.

In birth horoscope seventh house is aspected by exalted Venus. Seventh house is in papa kartari. The aspect of Venus gives marriage but papa kartari is not a happy marriage.

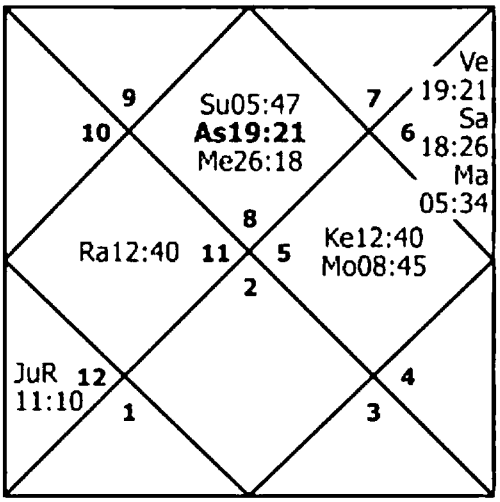

In navamsha seventh house is in subh kartari and aspected by its lord Saturn. Again constraints are seen in marriage. These constraints are fruitful now.

Now Trimshamsha solves the problem. Venus is in lagan of birth chart. Venus is aspecting lagan in Trimshamsha and gives early marriage. She was married at the age of thirteen.

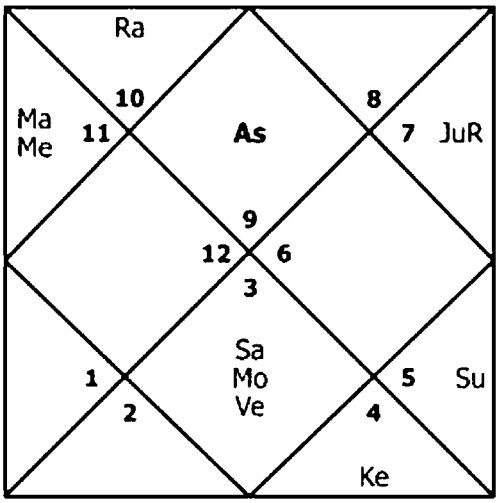

Timely Marriage

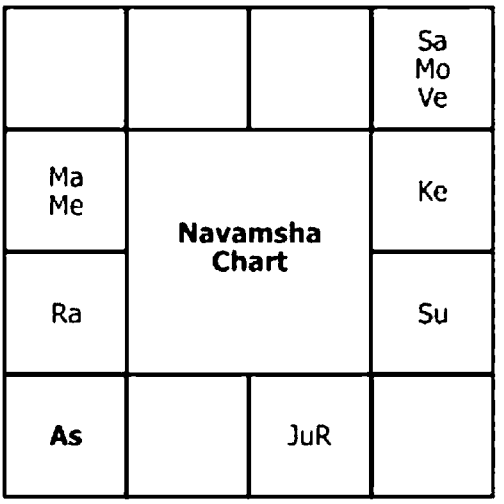

Seventh house is house of marriage. For timely marriage it should not be afflicted. It should have at least one benefic connection by aspect or conjunction in birth horoscope and in navamsha. Most important is the right dasha operates at the age of marriage.

Example – DOB 22 November 1951, TOB 07.55, POB Meerut

JuR 11:10			
Ra12:40	**Birth Chart DoB 22-11-1951 ToB 07:55 PoB Meerut**

Seventh house of navamsha is Gemini. Moon and Venus with Saturn are placed there. Normally this Saturn gives delay in marriage. Seventh house is aspected by Jupiter. The marriage is timely. She was married at the age of twenty one years. Saturn gave age difference with husband. This Saturn also gives status in marriage.

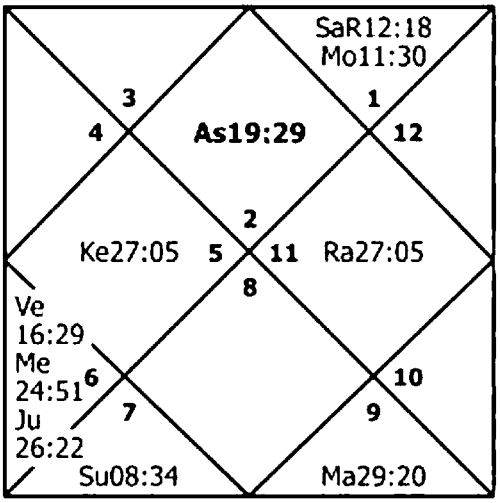

Late Marriage

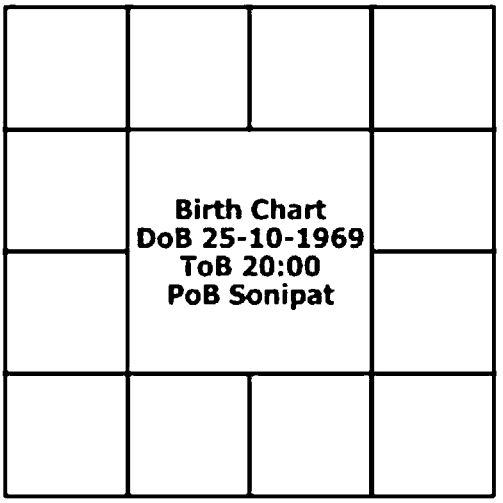

Seventh house should have malefic association in birth chart. More malefic association gives more delay. There should be a promise of marriage. The right dasha period do not operate at standard marriage age. The seventh house is devoid of benefic association in navamsha. It should have benefic association in birth chart or vice versa. Navamsha is shaswat chart. At least one benefic association in birth chart or navamsha is required.

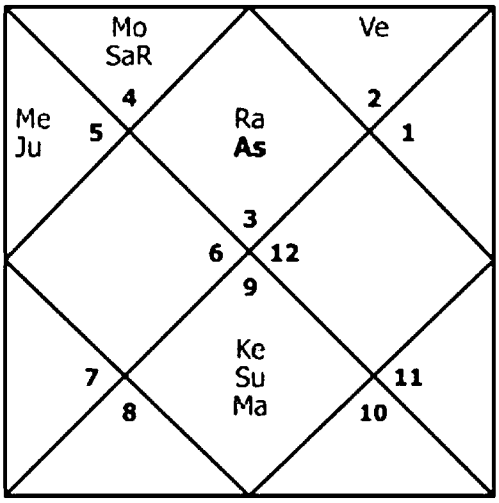

Another factor is desire of marriage. This is confirmed from lagan of navamsha. If lagan of navamsha is having malefic relation than desire is not present or the person is reluctant to marry.

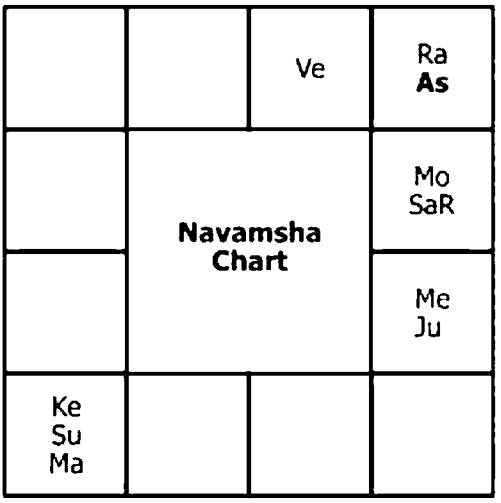

Example – DOB 25 October 1969, TOB 20.00, POB Sonipat

She married in March 2002 at the age of 33 years in Dasha of Moon / Rahu.

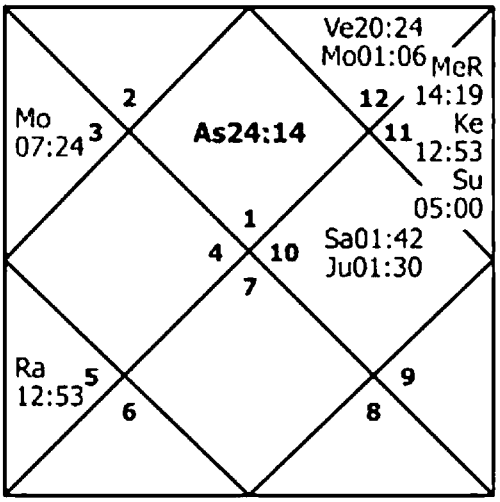

In the birth chart seventh house has no benefic association. It is in papa kartari. Birth chart do not present promise of marriage.

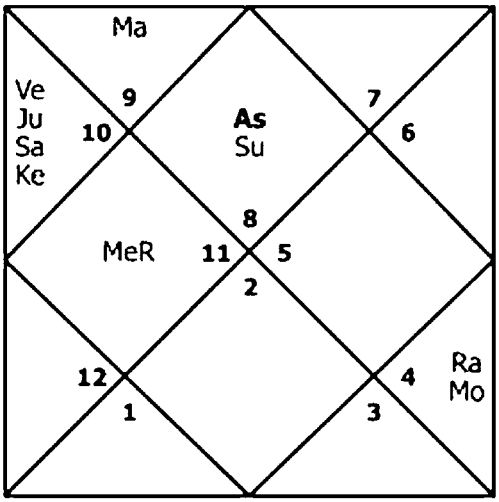

In navamsha seventh house is again have malefic planets. Lord of seventh is Jupiter. Jupiter is aspecting seventh house. This gives promise of marriage. The lagan of navamsha is having Rahu and has no benefic relation.

Example – DOB 17 February 1961, TOB 10.55, POB Delhi

In birth chart seventh house is aspected by Saturn. There is no benefic aspect.

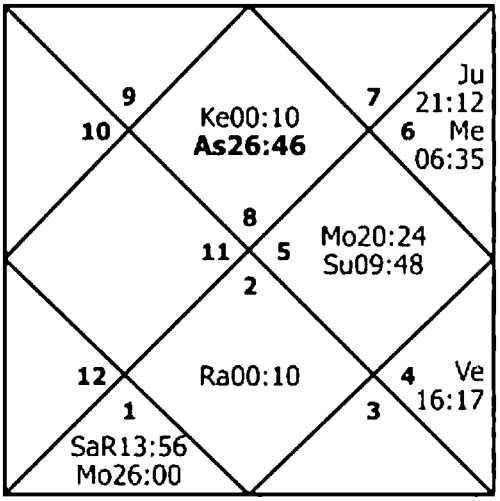

In navamsha Jupiter is aspecting seventh house giving hope of late marriage. She married at the age of 40 years. The Dasha was Ketu/ Venus.

Denial of Marriage

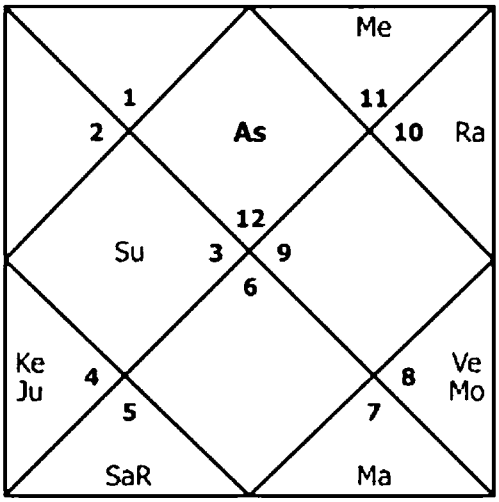

A person may not marry by choice or is not able to find a match. The astrological reasons can be many. We are listing some of them.

1. Seventh house of birth and navamsha charts is badly afflicted. This means three afflictions without any benefic relation.
2. A malefic is in seventh house in birth or navamsha chart. Any planet is in ninth house. This combination can deny a marriage. In case marriage takes place even than the person does not enjoy marriage. This combination takes a person towards spiritual life.
3. Karaka of marriage is placed singly in lagan of navamsha. The karaka is Venus for male and Jupiter for female. If this karaka has malefic relation then it is confirmed.
4. Trimshamsha is an important divisional chart for marriage. We have seen its application for early marriage. This is also consulted to confirm denial of marriage. **The seventh and eighth house of Trimshamsha is afflicted by malefic to deny marriage.** A benefic relation will give marriage.

Birth chart – Seventh house contains Rahu. It is aspected by Jupiter. It can promise marriage.

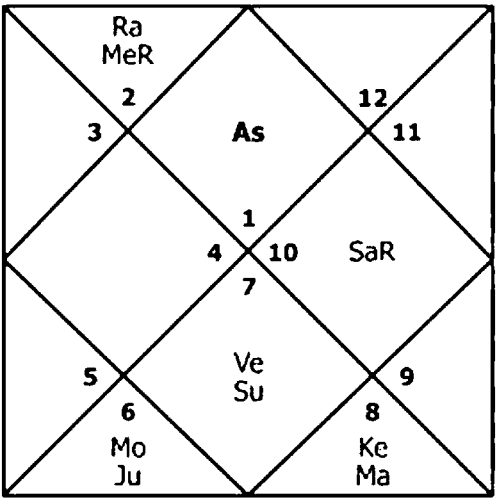

Navamsha – The condition of navamsha is not good. The seventh house is in papa kartari. It has no benefic association. The lagan is aspected by lagan lord Jupiter. This indicates the desire to marry.

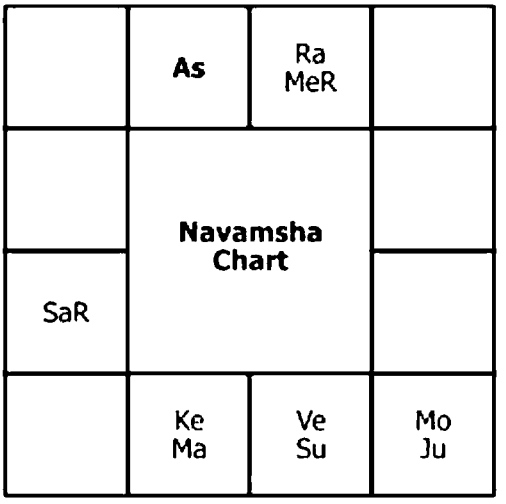

Trimshamsha – This unfolds the story. The seventh house has Rahu. Seventh house is aspected by Jupiter. The eighth house is badly afflicted. Mars is placed there and is aspected by Saturn. There is no benefic association with eighth house. Both seventh and eighth house have malefic to deny marriage.

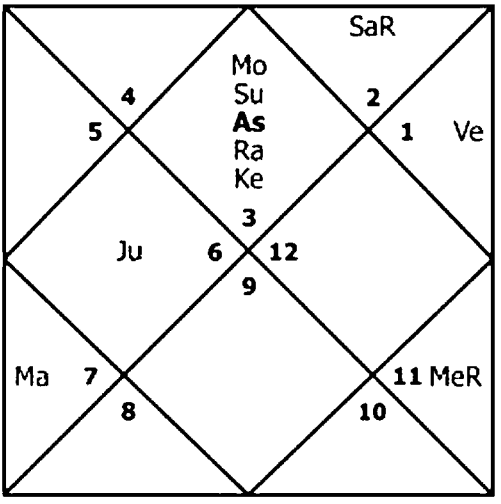

Example – Leela Samson, DOB 6 May 1951, 02.08, Nilgiri

Birth chart – Seventh house is having Ketu. It is not aspected by any planet. The condition of seventh house is average and it is not denial of marriage.

Navamsha – Seventh house has Sun and Venus. They are fifth and seventh lords. This combination indicates marriage by own choice. Seventh house is aspected by Saturn causing delay or a spouse elder to her. Denial of marriage is not indicated even in navamsha.

Trimshamsha – The Trimshamsha gives the final clue. Seventh house has Ketu aspected by Sun. eighth house is aspected by Mars.

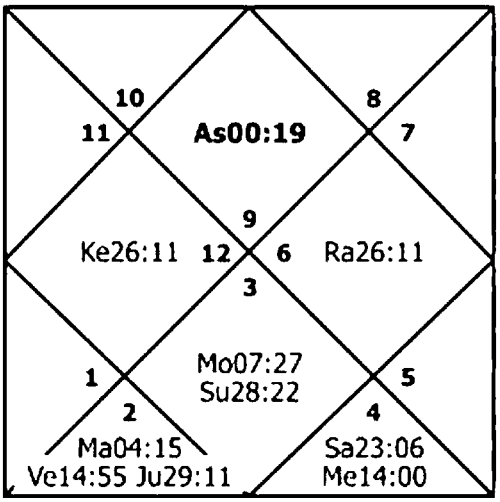

She had many opportunities to get married but marriage did not materialize due to professional compulsions. Another interesting observation in Trimshamsha is noted. Rahu is in lagan in birth chart. Rahu is again in lagan of Trimshamsha. This should give early marriage. This malefic relation will give unhappy marriage.

Marriage in Foreign Land

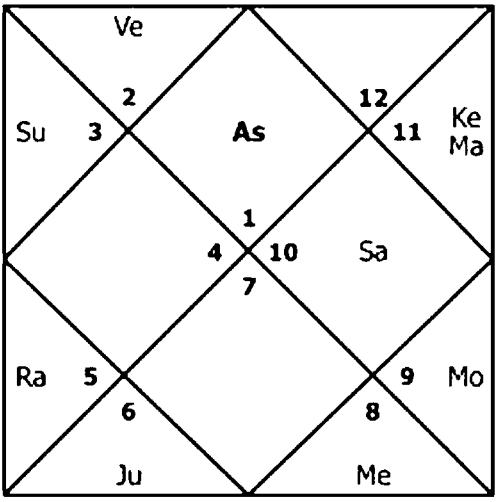

Seventh house is the house of marriage in navamsha also. The lord of seventh is the way to do it. Therefore the seventh lord is connected to ninth and twelfth lords to make a person marry abroad. The fourth lord of navamsha is also related to ninth/ twelfth house to move the home abroad. In some cases the twelfth lord is influencing seventh house.

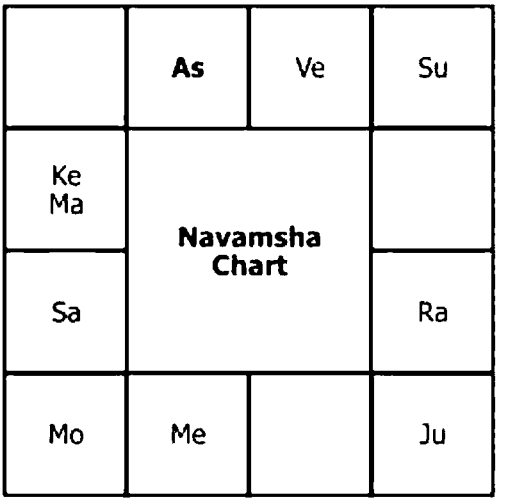

This is the chart of an Indian girl settled in USA. She married a Pakistani boy and moved to Pakistan. She is not having a happy marriage and has returned to USA to live with her mother.

In navamsha seventh lord is Venus. Venus is aspected by Jupiter. Jupiter is the ninth and twelfth lord. Fourth lord Moon has moved to ninth house. The fourth house is in papa kartari. Rahu is in retrograde motion and Sun is in direct motion making the kartari effect stronger.

Marriage with a Foreigner

This is better checked using Jaimini karaka. We take Dara karaka (DK). DK is seen for its association and aspect with Saturn, Rahu or Ketu. Association of DK with Saturn indicates marriage with a lower caste person. Association with Rahu or Ketu gives marriage with a foreigner. Ketu is considered worst. This marriage with a foreigner is confirmed in navamsha.

In the horoscope given above Mars is DK. In navamsha Mars is with Ketu. She married a Muslim boy.

Separation and Divorce

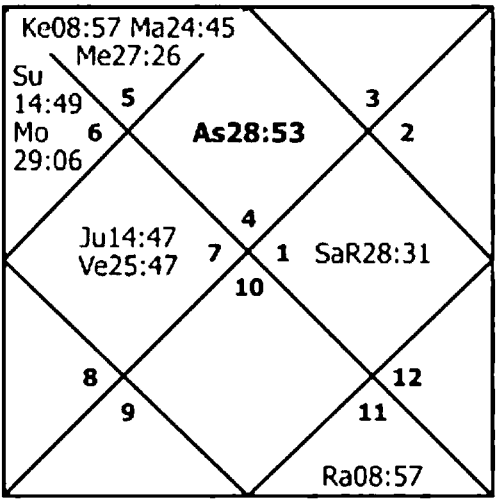

This has become a grave problem in modern society. We witness many cases of divorce within a short period after marriage.

The lord of seventh house is the manager of marriage and seventh house is the house of marriage. When a person is not able to manage marriage then separation or divorce results. We list some combinations that lead to this situation.

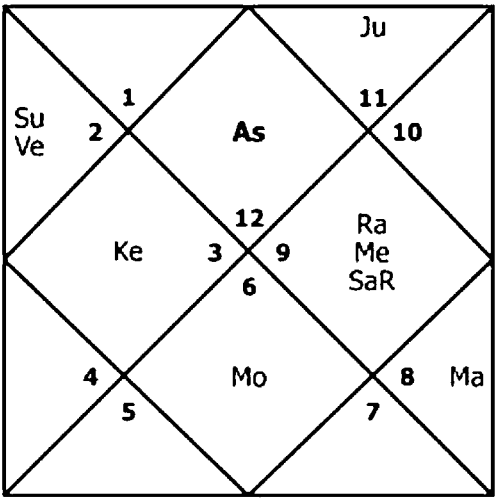

1. Seventh lord in navamsha is afflicted by malefic. Seventh lord is manager of marriage.
2. The seventh and eighth houses are related with each other. The eighth lord influence on seventh house or seventh lord is present.
3. There may a combination of multiple marriages present in the horoscope. This is not a must.
4. Some time the seventh lord in navamsha is retrograde. This becomes prominent when it is placed in dual sign and related to malefic.
5. Lagan or lagan lord of navamsha is under malefic influence.
6. Benefic influence will balance the situation and divorce is avoided.
7. Dasha is very important to decide the timing.

Example Girl, DOB 15 June 1976, TOB 21.00, POB Bhopal MP

In her navamsha the seventh lord is Mercury. Mercury is with Rahu and aspected by Saturn. Aspect of Jupiter is providing support. Her breakup came in Rahu/ Venus. Venus is with debilitated Sun.

Death of Spouse

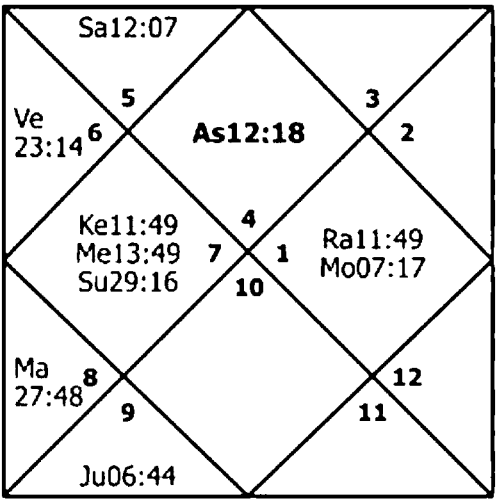

Many times a query is put "who will die first "? The classic rule says that seventh lord in sixth or twelfth with malefic the spouse dies. This is not true always. This can

indicate problems to spouse. We give simple rules applicable in navamsha.

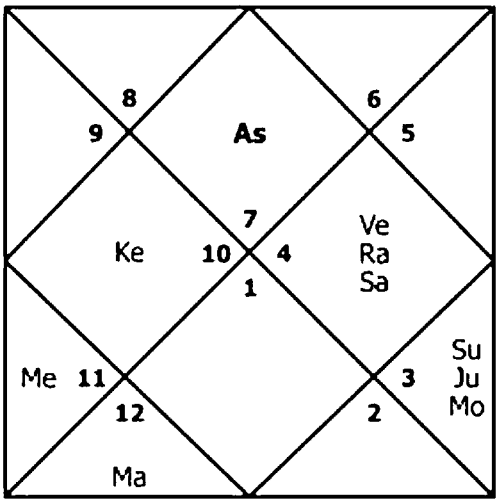

1. When seventh house has malefic relation then spouse dies first.
2. When eighth house has malefic relation then you die first.
3. Eighth house is manglya house of marriage. We check eighth lord of birth horoscope and of navamsha mutually in the boy and girl charts. Note the eighth lord of girl navamsha and check for its association and aspect in boy's navamsha. If it is inimically placed and has relation with malefic or pap kartari then the boy dies first. It is repeated with eighth lord of boy navamsha and checked in girl's navamsha. A benefic relation can improve the situation.

Replace malefic with benefics and the result is reversed.

Chapter 03:

Match Making

Match making or kundali Milan is an important topic. This is a matching of horoscopes of prospective bride and groom. Every individual wants a compatible bride or groom to lead a happy married life. Traditional methods consider mainly the following points.

1. Guna Milan.
2. Mangal dosha.

With this matching by Guna Milan, many marriages are not happy and end in separation. Regarding mangal dosha there are many views. Some scholars recommend to consider mangal dosha from lagan, moon and Venus. Others want it to be checked in navamsha as well. This way no chart is without mangal dosha and will lead to a happy situation. All will have mangal dosha. Life will be easier if we extend it to Saturn and Rahu dosha as well.

Another approach is based on the complete horoscope and covers a wider range of human life. This approach considers the following,

1. Longevity.
2. Dasha.
3. Bhava Milan
4. Graha Milan.
5. Trimshamsha.
6. Mangal dosha.

7. Guna Milan.

8. Transit on day of marriage.

We are not going into details of these Milan. These are available in any standard astrology books.

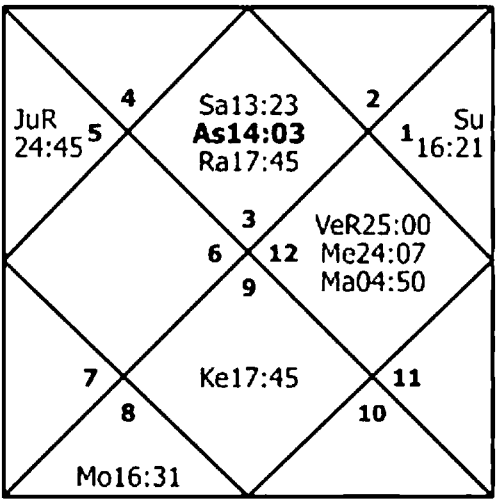

A step by step practical method of match making is now given. This method is a result of extensive research and the classical approach.

1. Dasha at Birth

It is a common saying that marriages are fixed in heaven. It says that marriage is decided at the time of birth itself. The Vimshottary dasha at birth is calculated for both bride and groom. The dasha of birth of groom must be related to the seventh house or seventh lord of bride. Similarly the dasha of birth of bride must be related to the seventh house or seventh lord of groom. This matching is done in D 1. In very few cases it is related with lagan/ lagan lord mutually. **This condition is a must for marriage of two individuals.**

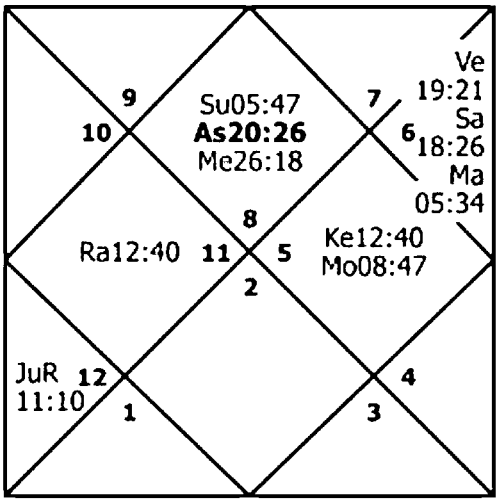

Example

Male chart - The dasha at birth was Saturn/ Jupiter. In the female chart both Saturn and Jupiter are with Venus. Venus is the seventh lord. Here even the lagan lord is also connected with them.

Female chart - The dasha at birth is Ketu/Jupiter. In the male chart Ketu is in seventh house. Jupiter is seventh lord and aspects Ketu.

This matching does not certify the quality of marriage. This is a pre condition for two persons to get married. If this matching is not present then it is not worth to proceed further. These two persons are not likely to marry.

2. Lagan Lord of D 9

Next step is to check the lagan lord of navamsha mutually in the navamsha charts. Lagan lord of navamsha indicates the way of fulfillment of desires of marriage. This way we are checking the support to marriage by other partner.

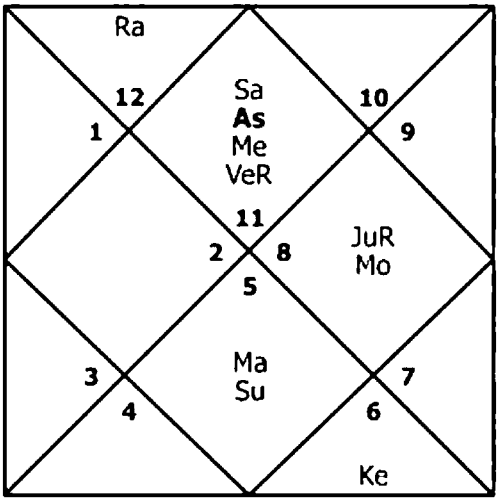

Note the lagan lord of navamsha of bride and take this lord. See this planet in the navamsha chart of

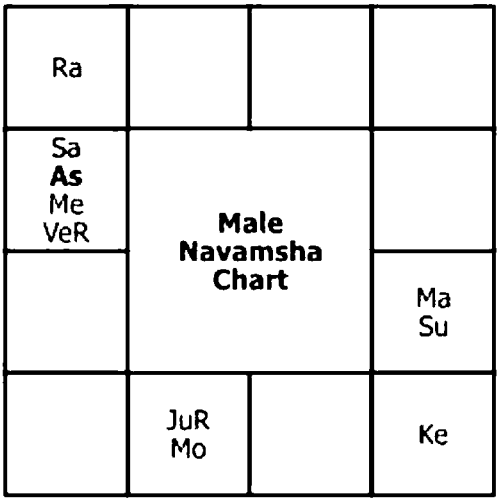

groom. It is checked for its placement and other association. It is repeated with the navamsha lagan lord of groom and seen in navamsha of bride.

This lord should not occupy a trik house of navamsha and not associated with malefic. The lord can be a malefic.

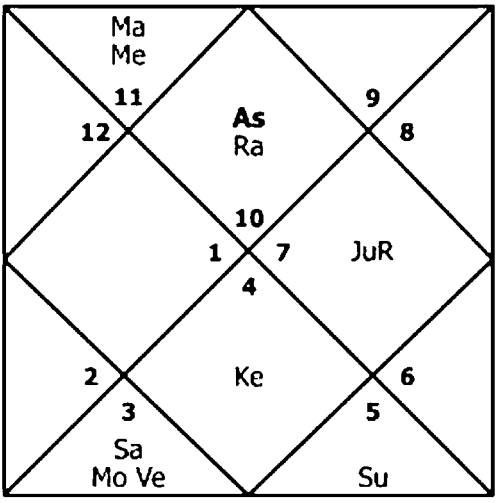

We now see this in the navamsha charts of example given in step 1.

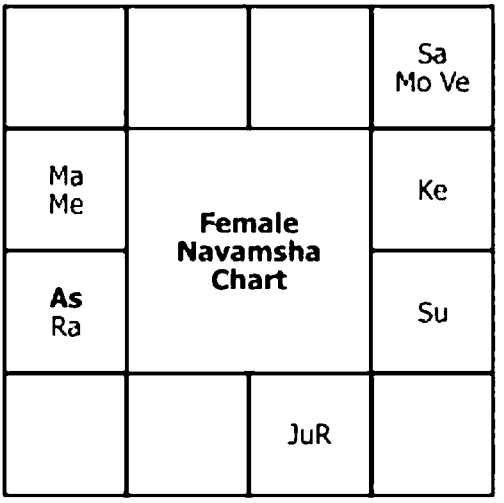

Male Navamsha

Female Navamsha

The lagan lord of male navamsha is Saturn. Saturn is seen in navamsha chart of female. Saturn is placed in sixth house with Moon and Venus. It is aspected by Jupiter. The male faces resistance in fulfilling his desires. The benefic relation tones down the resistance.

Now see the lagan lord of female navamsha. It is Saturn again. Saturn is in lagan of male navamsha. It is with two benefics and aspected by two malefic. The female is not managing marriage with ease. There is anger with female. She is not fully supportive. Partial support is there because of two benefic connections.

3. Seventh house/ lord of navamsha

Next check is the seventh house of navamsha. This check is done in two ways. Firstly it is seen in the individual navamsha chart. We see the house for its association and aspect. The seventh house of navamsha is the main house of marriage. It should ideally be vacant and aspected by benefic. The next best is benefic placement and aspect.

Male navamsha seventh house

Seventh house is Leo. Lord of seventh house is placed there. It is aspected by two benefics. It can be combination of multiple marriages but placement of strong Sun is safe guard.

Female navamsha seventh house

Ketu is placed in seventh house. It has no relation with any planet. It is average.

The seventh lord is now checked in individual navamsha and also in mutual navamsha. The lord is the manager of marriage. So we see the management of marriage by each individual and how the other partner will manage the marriage of partner.

Male seventh lord in male navamsha

Sun is seventh lord and strongly placed in Leo. It has two benefic aspects. The marriage is managed well.

Female seventh lord in female navamsha

Moon is the seventh lord. It is placed in sixth. Management of marriage is lacking.

Male seventh lord in female navamsha

We see Sun in the navamsha of female. Sun is in eighth house. It is aspected by Mars and Saturn. Marriage is problem for male.

Female seventh lord in male navamsha

Moon is lord of seventh in female navamsha. It is in tenth house of male navamsha. It is with Jupiter and aspected by Mars and Saturn. Benefic relation is taking care of female despite anger and with calmness.

4. Fourth house of navamsha

Fourth house of navamsha is the happiness of marriage life. If fourth house is free from affliction then the person is happy in married life. This happiness can be from any source or by any means. This is seen in individual charts.

Male navamsha fourth house

Fourth house is aspected by two benefics. There is no malefic connection.

Female navamsha fourth house

It is aspected by Jupiter and has no malefic connection.

By traditional matching we get 25.5 Guna and there is no manglik dosha. With this method of matching we get a clear idea. There is happiness in marriage. The couple has points of differences also. The age of marriage is now 43 years.

5. Complexion

Complexion is a relative term. A Negro can have a combination of fair complexion, it do not mean that he becomes a European. First we refresh our knowledge about colors of planets and signs given in BPHS.

Planets	Sun	Moon	Mars	Mercury	Jupiter	Venus	Saturn
Color	Blood red	White yellow	Blood red	Green	Yellow	Variegated	Dark

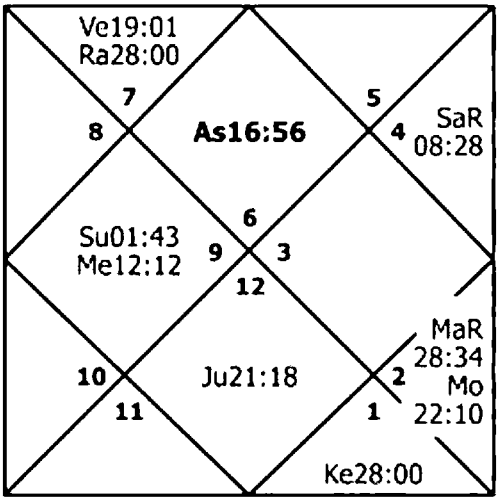

Sign	Aries	Taurus	Gemini	Cancer	Leo	Virgo
Color	Blood red	White	Grass green	Pale red	Pale	Variegated

Sign	Libra	Scorpio	Sagittarius	Capricorn	Aquarius	Pisces
Color	Black	Reddish brown	Pale	Variegated	Brown	Brown violet

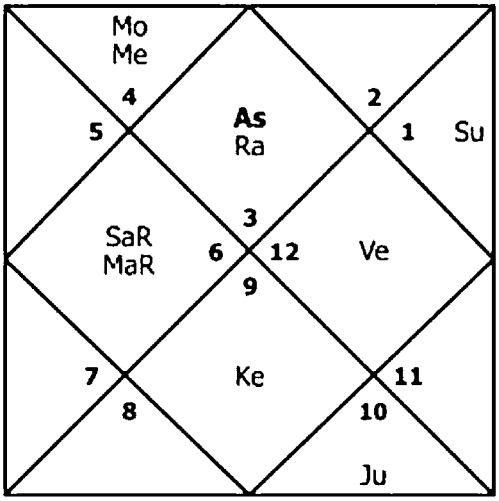

The complexion is indicated by Moon in navamsha. The sign occupied by Moon and the planets conjoined with Moon are the primary factors. It is modified by aspecting planet.

From the horoscope we can find the complexion of a person by looking at Moon in navamsha. We can try to find the complexion of spouse from seventh house from Moon. It may not give correct indication all the times. We take an example of a couple to check the complexion individually and mutually.

Chapter 04:

Multiple Marriage and Affairs

In this chapter we will examine promise in a horoscope of a person to see more than one marriage or affairs. First we deal with common factors of having multiple affairs or marriage. Then we will differentiate between marriage and affairs.

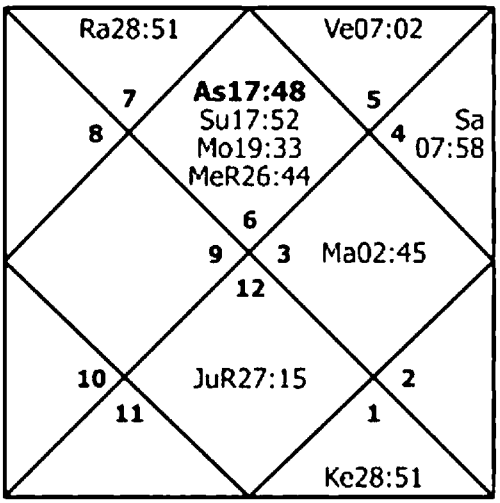

Multiple Relations

These can result in marriage or can remain affair. The basic factor is the lagan and lagan lord of navamsha.

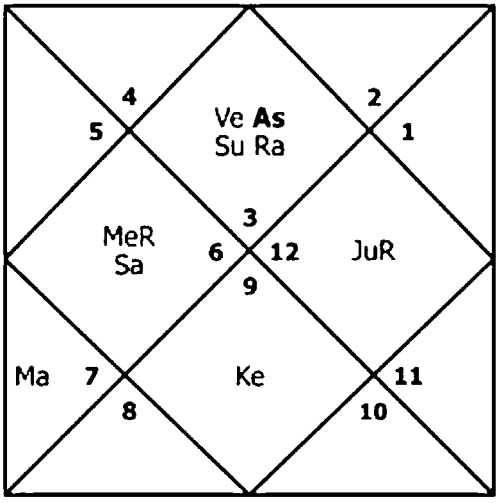

1. Lagan of navamsha is the desire of marriage. The lord of lagan is the source to fulfill it. Thus lagan lord must be well placed and well aspected in navamsha. It should be in special status like exaltation, debilitation, own sign or vargottam. It gives multiple relations.
2. Dhana yoga is present in navamsha.
3. Upchaya houses have planets. The tenth house must have planets. Any two of other Upchaya houses can be occupied. These can be malefic or benefics. Benefics make life easy.
4. Jupiter is the planet to give adherence to dharma or social binding. Jupiter should be afflicted in navamsha and influence the lagan, seventh or tenth house.

5. Second house is sanskars. The second lord is examined in navamsha. If it is under malefic influence by conjunction or aspect it will show lack of good sanskars.

Example – Kate Winslet, DOB 5 October 1975, TOB 7. 15, POB Reading UK

This chart is of Kate Winslet. She has married three times. We examine the promise of multiple marriages.

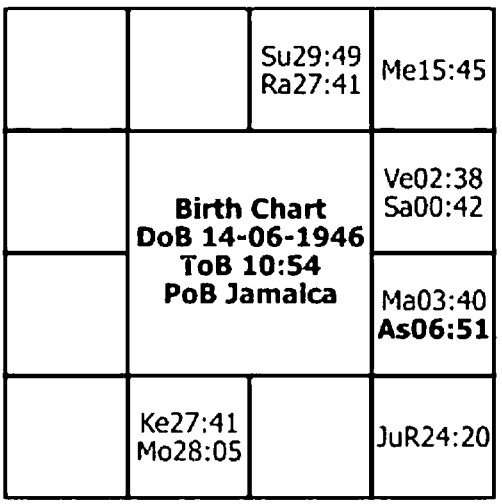

1. Lagan of navamsha is having both benefic and malefic influence.

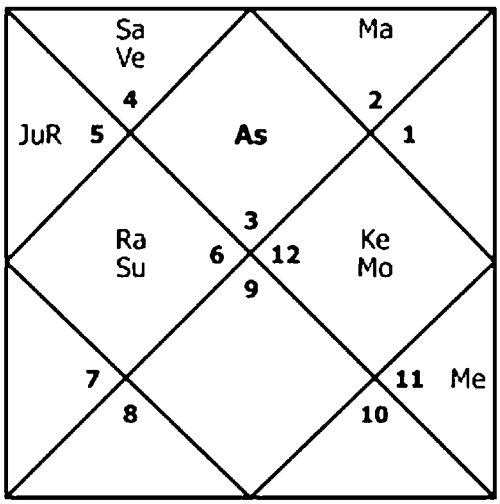

2. **Lagan lord Mercury is exalted in fourth house and aspected by Jupiter.**
3. Only one Upchaya has Jupiter.
4. Dhana yoga is present in navamsha.
5. Jupiter is under malefic aspect of Saturn. Jupiter is retrograde and is in tenth house.
6. Second lord of birth chart is Venus. Venus is under malefic influence of Rahu.

   All conditions of having multiple relations are met.

Example – Donald Trump, DOB 14 June 1946, TOB 10.54, POB Jamaica USA

Donald Trump had three marriages. We apply the parameters of multiple marriages on his chart.

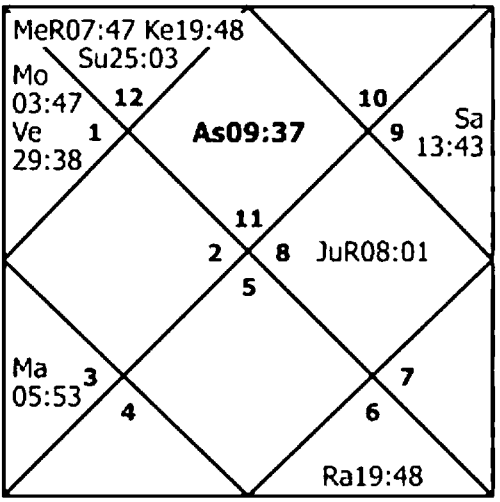

1. Lagan of navamsha is not aspected by any planet. It is in kartari. Lagan lord is well placed in ninth house and aspected by Jupiter.
2. Dhana yoga is not present in navamsha.
3. Two Upchaya houses are occupied by benefics.
4. Afflicted Jupiter is aspecting seventh house.
5. Second lord of birth chart is not afflicted in navamsha.

Strength of lagan lord of navamsha is important.

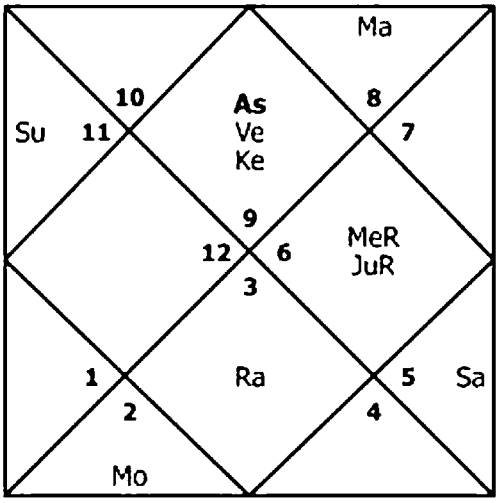

Marriage or Affairs

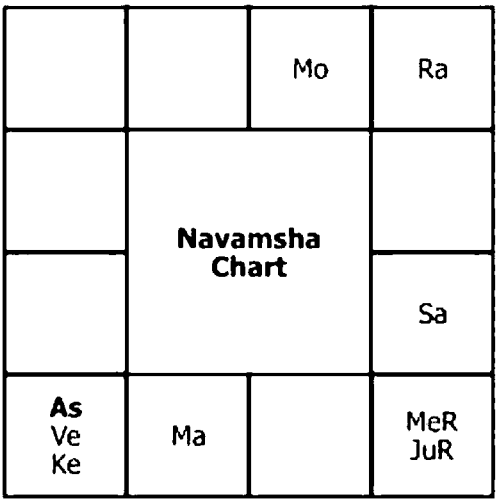

A benefic seventh house and afflicted seventh lord gives more marriages. A malefic seventh house and a benefic un- afflicted seventh lord give affairs.

When the couple is involved in an affair and secretly marry can be termed as elopement. Thus the house of secrecy is involved in the affair. The relation of fifth, seventh and eighth house points to secret affair. It is seen in birth chart. These lords of birth chart influence the related houses in navamsha. Most important is the condition of third house. The third house must be strong to give will power to take own decision. For running away from home the twelfth house also involved.

1. Firstly the couple is in love.
2. They are not in a position to get married. This is seen from Dasha.
3. Another factor is the malefic association with planets giving love.

Example DOB 1 June 1960, TOB 09.30, POB Havana Cuba

This lady consulted me in 2004. She asked me about her marriage and children. She gave me the birth data of her two children. I was not able to connect the Dasha with her marriage. Sexual Urge

The desire to have sexual relations varies from person to person. Venus is the significator of sexual desire of male and Mars and Venus are the significator of sexual desire of female. Mars is also the sexual energy of female. Jupiter is also a significator of marriage of females. Saturn is the planet which gives lack of desire. The combinations for various levels of desires are given.

Excessive Desire

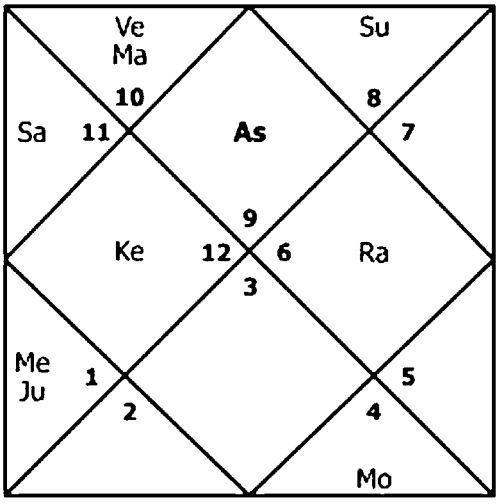

1. **Conjunction or opposition of Mars and Venus in navamsha gives excessive desire.** The person is ever ready for having sexual relation. He or she is always thinking of sex.
2. Afflicted Jupiter should be related to seventh house by aspect or conjunction with seventh house. This is more serious if Jupiter is lord of seventh and is retrograde.

3. Saturn relation with Mars or Venus will provide a control on the desire due to circumstances. This is especially applicable with Venus for males and with Mars for females.
4. When this combination is present with afflicted fourth house of navamsha then the affairs results due to un happy marriage.
5. If seventh house is not having malefic relation the affair will go along with marriage.

In navamsha Venus should occupy the trik houses sign of birth chart. Venus is the significator for male and Mars is the significator for female. Retrogression is deviation from normal behavior.

Chapter 05:

Timing of Marriage

Timing of marriage is a difficult area. The problem is the proper definition of marriage in the present social scene. We are therefore not able to fix the parameters of marriage. Many methods of timing are given in the books. We will discuss the standard classical approach of timing marriage with three dasha. These are Vimshottary, progress Yogini and Chara. Other short methods are also given.

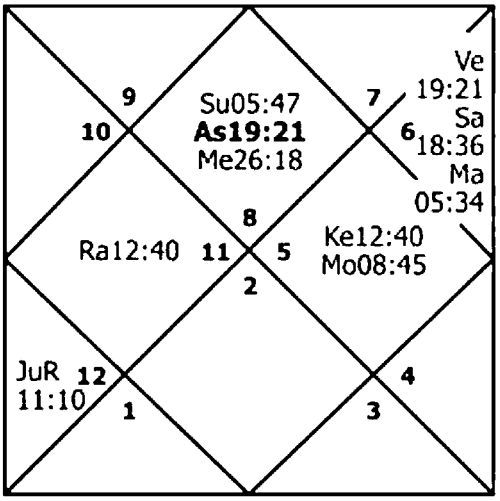

Vimshottary Dasha

In the birth horoscope seventh house is the house of marriage. Therefore in the dynamic analysis of Vimshottary dasha the dasha related to seventh house or seventh lord is capable of giving marriage. The first step is to identify these planets.

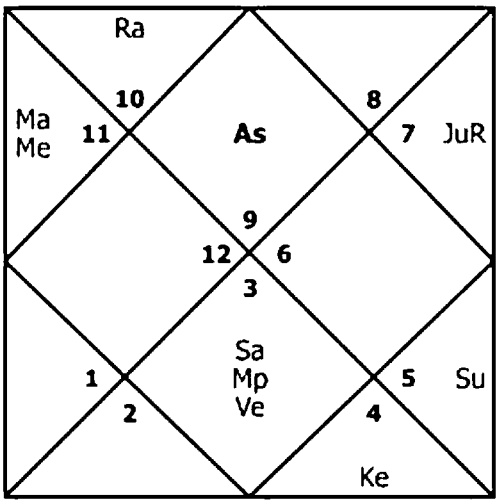

Next we check the navamsha. Here the lagan and seventh house are the marriage giver. In any divisional chart the houses that give dynamic results are lagan, tenth, second and the concerned house of the divisional chart. For navamsha it is seventh house. Now we check the planets related to these houses and lords.

The common planets selected in birth chart and navamsha chart can give marriage in their dasha. We will understand the approach with practical examples.

Chara Dasha

We will use the Chara dasha as taught in BVB. We must note the Dara karaka. The other very **important** point is to note the seventh lord from dasha and see its relation. It can be the lord of seventh from lagan or related to DK. This gives vital clue for timing. If we see relation of DK only with Dasha then almost every Dasha will promise marriage.

If we consider DK than we see it is placed in twelfth from Libra and should not give marriage.

Progress Yogini Dasha gives best timing. The events take place only with confirmation in progress Yogini Dasha.

It is recommended to check the timing with three Dashas. Results of Vimshottary are to be confirmed by progress Yogini Dasha.

Other Methods

Some methods of timing of marriage are practiced by traditional astrologers. They predict the age at which the person will get married. We will discuss seven such methods. These are normally kept as family secret. We like to share the astrological knowledge freely so that it is recorded and improved by generations to come.

1. Transit

Transit is used to aid the Dasha for fine tuning the time of an event promised by Dasha. The factors considered are Saturn, Jupiter and Dasha lord. These should activate the house and lord of the event. The method is as under;

A. Saturn and or Jupiter should aspect or transit over natal Moon.

B. Saturn and or Jupiter should aspect or transit over lagan or seventh house or lord.

C. Jupiter aspects Dasha lord.

D. Dasha lord transits over Venus and or seventh lord.

Example 1

A. Saturn and Jupiter are not aspecting natal Moon. Saturn was in Taurus and Jupiter was in Capricorn on the day of marriage.

B. Saturn was in seventh house. Jupiter was aspecting seventh house.

C. Dasha lord of MD was Venus. Venus is in Virgo in birth horoscope. Jupiter is aspecting Venus.

D. Venus is seventh lord. Venus was in Capricorn on day of marriage and not aspecting natal Venus.

Conditions B and C are met

Example 2

A. Saturn was in Aries and Jupiter was in Taurus. Both are aspecting natal Moon.

B. Both are aspecting seventh house.

C. MD at marriage was of Rahu. Jupiter is not aspecting Dasha lord.

D. Dasha lord Rahu was in Leo. It is not aspecting Venus or seventh lord.

Conditions A and B are met.

Example 3

A. Saturn was in Cancer and Jupiter was in Pisces. Natal Moon is in Pisces and Jupiter was transiting over Moon.

B. Jupiter is aspecting natal seventh lord Jupiter. Natal Jupiter is in Scorpio.

C. Dasha was of Mercury and Jupiter is not aspecting Mercury.

D. Dasha lord Mercury was in Aquarius. Mercury is not aspecting Venus or seventh lord.

Conditions A and B are met.

Example 4

A. Saturn was in Taurus and Jupiter was in Capricorn. Natal Moon is in Leo. Moon is not aspected by Saturn or Jupiter.

B. This condition is not met.

C. This condition is not met.

D. Rahu was in Sagittarius and was over Venus in seventh house.

Condition D is only met.

Example 5

A. Saturn was transiting in Gemini and was over natal Moon.

B. Saturn is over lagan lord. Jupiter aspects seventh house.

C. Jupiter is not aspecting Dasha lord Mercury.

D. Dasha lord Mercury was in Aries and had transited opposite Venus few days before marriage.

Conditions A, B and D are met.

2. Vivah saham (VS)

Vivah saham is a mathematical point calculated from birth horoscope. The longitudes of lagan lord and seventh lord are added to arrive at VS. The signs are also included.

After calculating VS the transit of Jupiter is seen for marriage. The marriage takes place when Jupiter

aspects or transit VS. We will apply this on the example charts. We can count one year from the birth Jupiter sign and reach VS.

Example 1

Mars and Venus are first and seventh lords. The longitude of Mars is 5 sign 5 deg. 34 min. and of Venus is 5 sign 19 deg. 21 min. adding them we get 10 sign 24 deg. 55 min. The marriage date is 8 February 1973. Jupiter was transiting in Capricorn at 3 deg. Jupiter is not aspecting VS. The method does not apply.

Example 2

The VS is 0 sign 27 deg. 22 min. Jupiter was transiting Taurus. The method does not apply.

Example 3

VS works to 2 sign 5 deg. 40 min. On the day of marriage Jupiter was transiting Pisces .The method does not apply.

Example 4

VS is in Pisces 29 deg. 35 min. Jupiter was transiting in Capricorn. The method does not apply.

Example 5

The VS calculated is Cancer 9 deg. 11 min. Jupiter was transiting in Virgo. The method does not apply.

Some astrologers take the transit of Jupiter one year before marriage also. For retrograde Jupiter the aspect is taken from previous sign also. This way all case will be covered. But we cannot pin point the year of marriage.

3. Sudarshan dasha

Sudarshan Dasha is derived from Sudarshan chakra as given in BPHS. It advocates analysis of horoscope from three lagans. These are lagan, Moon sign and Sun sign. First twelve years are analyzed from lagan. Second twelve years are from Moon and third twelve years from Sun. This covers thirty six years of life. After this the cycle repeats for another thirty six years.

Lagan is the starting sign for first twelve years. Moon sign is the starting sign for 13 to 24 year. Sun sign is the starting from 25 to 36 year.

The first year of any block is the first Antar period and others follow in sequence. For example if Gemini is lagan sign then first year belongs to Gemini. Second year belongs to Cancer and so on.

The thirteenth year will be of Moon sign. Moon is in Scorpio. The first year of Moon block is of Scorpio. The second year of Moon block will be of Sagittarius. Similarly the years from 25 to 36 will start from Sun sign. This Dasha is Rashi Dasha.

This way we can find the ruling sign for every year. The marriage takes place when ruling sign,

1. Is in seventh house.
2. Aspected by seventh lord of birth horoscope.
3. Aspected by seventh lord from the Dasha sign.
4. The seventh lord from Dasha sign is in exchange with seventh lord from lagan.
5. The seventh lord from Dasha sign is related to seventh lord from lagan.

Example 1- she was married in her twenty second year. The Sudarshan Dasha was of Leo. Leo is the

sign occupied by Moon. The seventh lord from Leo is Saturn. Saturn is with seventh lord from lagan. The antar Dasha was of Aries. From Aries the seventh lord is Venus. Venus is also seventh lord from lagan. The event is justified.

Example 2 – She married in twenty fifth year. Sun Dasha starts from twenty fifth year. Sun is in Scorpio. Dasha was Scorpio/ Scorpio. From Scorpio seventh house has Jupiter. Jupiter is involved in exchange with Venus. Venus is the seventh lord from Scorpio.

Example 3 – Hillary had long affair but married on 11 October 1975 in her twenty eighth year. The Dasha was Libra/ Capricorn. From Libra Mars is seventh lord who is aspected by birth seventh lord Jupiter. Moon is seventh lord from Capricorn. Moon is also aspected by Jupiter.

Example 4 – Married in March 1973 at thirty first year of age. The Sudarshan Dasha was Sagittarius/ Gemini. Mercury is lord of seventh house from Sagittarius. Mercury is aspected by Jupiter who is seventh lord from lagan. Gemini is the lagan and Jupiter is placed there.

Example 5 – It was late marriage in the thirty fifth year. The Dasha is Libra/ Leo. From Libra Saturn is placed in seventh house. Seventh from Leo is the sigh of Saturn.

Sudarshan Dasha gives an idea of likely year of marriage correctly. This is helpful to decide the result of Dasha.

4. Ketu Method

This method is commonly practiced by astrologers. Some time it does not indicate correct year of marriage. Some refinement is needed.

The sign lord of Ketu is noted. From this sign lord each sign is taken as one year. The sign which is in seventh house or contains seventh lord gives marriage in that year.

Example 1 – Ketu is in Leo and Sun is the sign dispositor of Ketu. Counting starts from Scorpio. The twenty second year will be in Leo. In twenty third year it will be in Virgo which contains Venus. The method is not applicable.

Example 2 – Mercury is the sign dispositor of Ketu. Counting from Mercury we reach Scorpio in twenty fifth year. The method is not applicable.

Example 3 – Mars is the sign dispositor of Ketu. At twenty eighth year it will be in Libra. Libra is in twelfth from seventh lord Jupiter. The method is not applicable.

Example 4 – Ketu is in Aquarius. Count from Saturn. It reaches Scorpio in thirty first year. The method is not applicable.

Example 5 – Counting starts from Sun. At thirty fifth year the progression is in Leo. Leo contains Ketu and has no aspect. The method is not applicable.

5. Bhrigu Bindu (BB)

Bhrigu bindu is an imaginary mathematical point calculated from the longitude of Rahu and Moon. This is the midpoint of Rahu and Moon. It is not midpoint of Moon and Rahu which is called destiny point. Add the longitude of Rahu and Moon. Divide the sum by 2 to get Bhrigu bindu. The transiting Jupiter or benefics when are in Bhrigu bindu or aspects it, it gives marriage. Jupiter makes a relation with Bhrigu bindu up to one year prior to marriage.

Example 1 – BB is in Taurus. Jupiter was transiting Capricorn at the time of marriage. It was aspecting Taurus.

Example 2 – BB is in Sagittarius. Jupiter was in Taurus. One year before Jupiter was in Aries and aspecting Sagittarius.

Example 3 – BB is in Aries. Jupiter was in Pisces 26 degrees. It was to enter Aries shortly.

Example 4 – Leo is the sign of BB. Jupiter was transiting Capricorn. Jupiter was in Sagittarius few months before marriage and was aspecting Leo.

Example 5 – BB is in Aries. One year before marriage Jupiter was in Leo. From Leo Jupiter was aspecting Aries.

6. Nadi Principle1

This method uses navamsha also with birth horoscope. Mars is also important. The basic rules are given.

1. Saturn in transit conjoin or aspect natal Mars or seventh sign from natal Mars.
2. Jupiter in transit conjoin or aspect natal Mars or seventh sign from natal Mars.
3. Saturn in transit conjoin or aspect navamsha lagan or navamsha lagan lord.
4. Saturn in transit conjoin or aspect navamsha lagan or navamsha lagan lord.

Some modifications of the above rules are applicable.

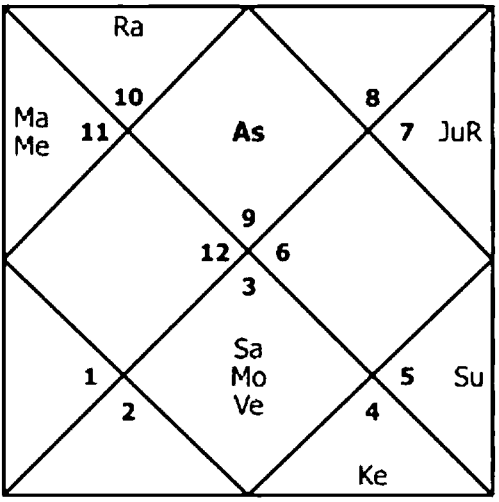

1. When Rahu is with Mars or in next sign to Mars, the fourth sign from Mars is activated in transit of Jupiter and Saturn.
2. When Rahu is in opposite sign to Mars, then

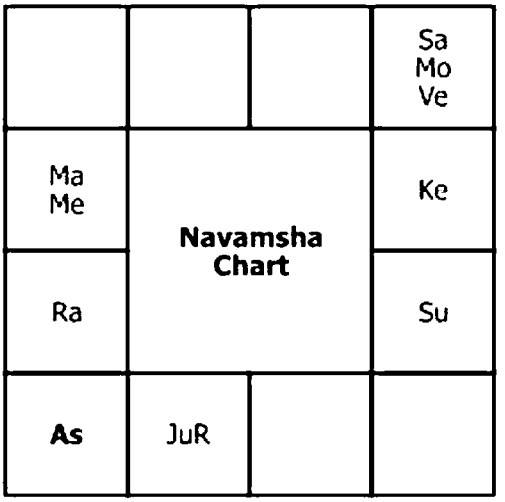

tenth sign from Mars is activated.

3. When Mars is in exchange of sign with other planet then consider own sign of Mars as sensitive sign.

We will need the navamsha horoscope for the examples to apply nadi rules.

Example 1

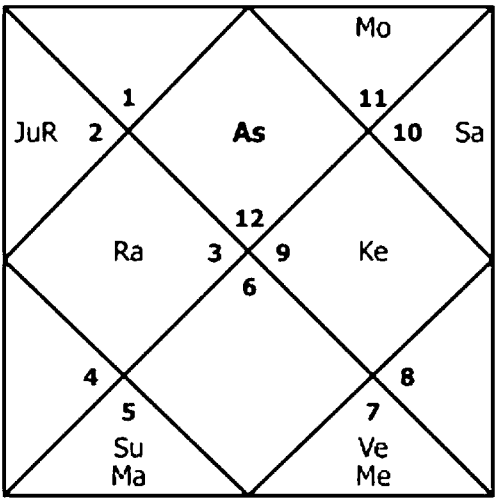

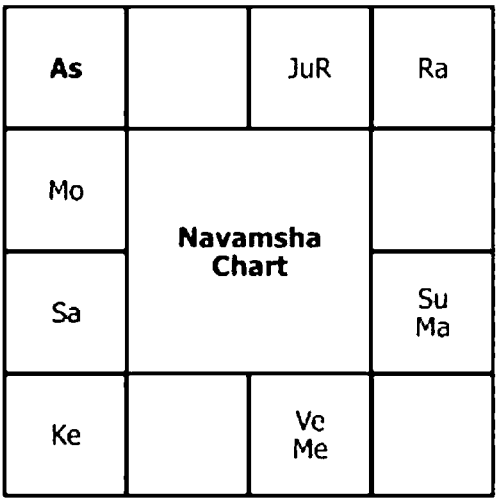

In the birth horoscope Mars has exchanged sign with Mercury. The sign of Mars Scorpio will be considered.

1. Saturn was transiting Taurus and aspects Scorpio.
2. Jupiter was transiting Capricorn and do not aspect Scorpio.
3. Condition not met.
4. Condition not met.

Example 2

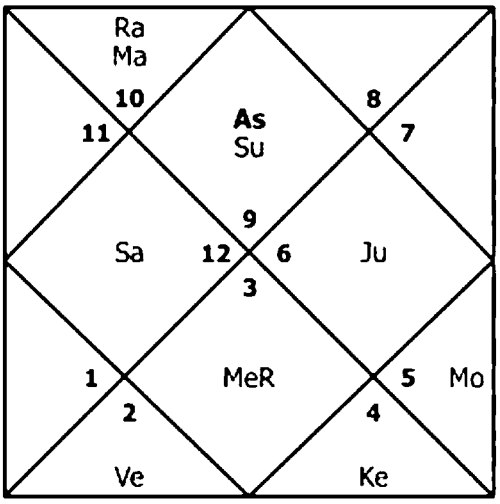

In this case also Mars exchange sign with Sun. The sign of Mars Scorpio will be considered.

1. Saturn was in Aries and does not aspect Scorpio or Taurus.
2. Jupiter was in Taurus and aspects Scorpio.
3. Saturn aspects seventh lord of navamsha and not lagan lord.
4. Jupiter is transiting over lagan lord of navamsha in navamsha.

2. Jupiter transiting in Capricorn is aspecting seventh from Mars.
3. Navamsha lagan is Scorpio and Mars is lord. Saturn aspects both in navamsha and birth horoscope.
4. Jupiter also meets the condition.

Example 5

Rahu is in next sign to Mars. The fourth sign from Mars will be the sensitive sign. It is Aries.

1. Saturn was transiting in Gemini. It is not aspecting Aries or Libra.
2. Jupiter was transiting in Virgo. The condition is not met. It was aspecting natal Mars.
3. Navamsha lagan is Cancer and lord is Moon. Saturn was in Gemini and transiting over Moon in navamsha and birth horoscope.
4. Condition not met.

Nadi Principle2

Thumb Rule for Counting Age

Counting of age is to be started from natal Jupiter sign at the rate for one year per sign in clockwise direction, from natal Saturn sign at the rate of 2 1/2 years per sign in clockwise direction and from natal Rahu sign at the rate of 1 1/2 years per sign in anti-clockwise direction. This means that Jupiter transit on the natal Jupiter sign is considered as completion of one year age and accordingly Jupiter transit on the next sign is taken as completion of two years and so on. Similarly Saturn on natal Saturn sign is considered as completion of 2 1/2 years and on the next sign completion of 5 years and so on. Rahu transit on natal Rahu is taken as completion of 1 1/2 years and on the previous sign since Rahu moves anti-clockwise completion of 3 years and so on. By this thumb rule, it can be quickly checked in which signs Jupiter, Saturn and Rahu would be during transit for completed years. As already stated earlier, the transit positions of Saturn, Jupiter and Rahu can be noted from 21 years age onward to check their interaction with natal Mars, navamsha lagan and navamsha lagan lord to eliminate the unproductive ages for marriage due to Rahu interaction with Mars.

Readers are requested to adopt the method or methods which apply on at least eighty percent horoscope. The problem comes when the couple carries their affairs for long durations.

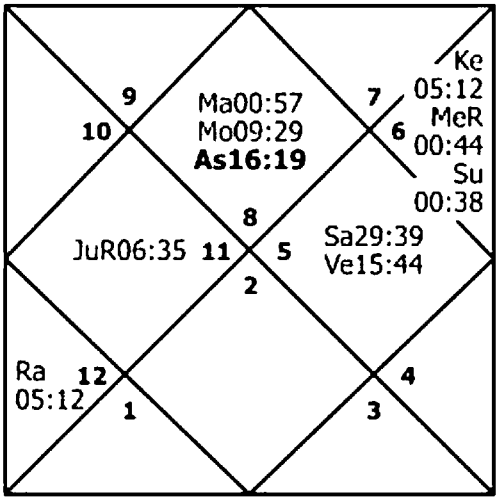

Chapter 06:

Rashi Tulya Navamsha

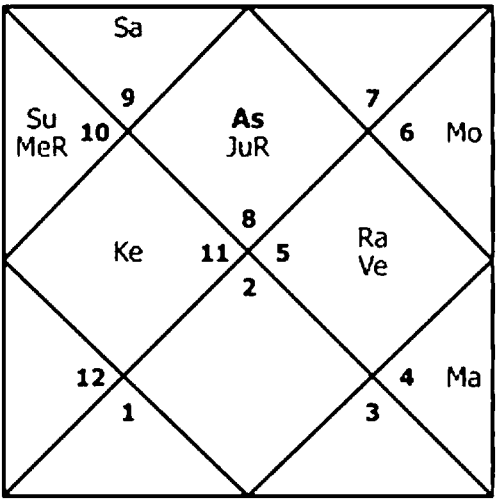

All classics stress to use the navamsha for assessing the strength of planets. Any planet placed in benefic signs in navamsha is considered strong and is giver of good results. **The benefic signs are the signs falling in Kendra and trikona of birth chart. The eleventh sign of birth chart is considered good and can give advancement in life.** This is the rule to examine Rashi Tulya navamsha. We can also opine that benefic signs also mean the signs of benefics. For the purpose of a particular horoscope, we consider trines and angles as benefic signs.

Rashi Tulya Navamsha presents the placement of planets in reference to the birth sign. We retain the sign of the Lagan of birth chart and place the planets in the signs occupied by them in the navamsha. This re casted chart is known as Rashi Tulya Navamsha. Some refer it to as Beeja Kundali.

Example – Narender Modi, DOB 17 September 1950, TOB 12.09, POB Vadnagar

Lagan is vargottam and the lagan sign of birth is repeated in navamsha. Five planets occupy Kendra and trikona signs. Four fixed signs along with Cancer and Pisces are Kendra and trikona signs. One planet is in eleventh sign.

This chart is very useful and can be examined as an independent chart. The results of dasha period are better defined from this chart. We will discuss this in detail later in this chapter.

A parallel chart called navamsha Tulya Rashi is also used. This is erected by keeping the Lagan of navamsha and the placement of planets as per sign occupied by them in the birth chart.

Dasha Result

Parashar has stressed the use of at least shad Vargas for analyzing a horoscope. These are D1, D2, D3, D9, D12 and D30. We will make use of the directions of Parashar to understand effects of dasha.

The broad effect of Vimshottary dasha can be accessed from Rashi Tulya navamsha and other shad Vargas. A step by step method is given for accessing the broad results of a dasha period. This can be MD, AD or PD. We can even go to finer dasha periods.

Hora

Every planet can occupy a hora of Sun or Moon. Sun hora represents efforts and Moon hora is calm. Any planet in Sun hora will indicate efforts or to deal with adverse circumstances. Moon hora gives an easy attitude. The intensity is maximum at the start of a hora division. It reduces to zero at the end of hora division.

Dreshkana

This divisional chart shows courage of planets. Three lords rule the Dreshkana divisions. Planet in movable sign in Dreshkana is ruled by Narad. Planet in fixed sign in Dreshkana is ruled by August. Planet in dual sign in Dreshkana is ruled by Durvasa. The planets acquire the traits of the saint ruling the Dreshkana it is placed.

Navamsha

The three deities of navamsha are Deva, Nara and Rakshash. Apart from these we check the sign placement in Rashi Tulya navamsha. The signs in navamsha are

checked for tatva also. These are fiery, earthy, airy and watery. The nature of planet is modified by its occupation of a particular tatva. The blending of result is by considering the sign. This sign has two effects. One is the house of birth chart and the other is the house of kaal purush. As an example a planet occupy the tenth house sign in navamsha and this sign is Gemini. The result will be great efforts in profession.

Dwadamsha

There are four deities of Dwadamsha. These are Ganesh, Ashwini Kumar, Yama and Ahi. These are tabulated for easy reference.

Division of Dwadamsha	**Deity**
1,5,9	Ganesh
2,6,10	Ashwini Kumar
3,7,11	Yama
4,8,12	Ahi

Trimshamsha

The Trimshamsha is tatva based chart. There are five tatva ruled by five planets. A ready table is given.

Relation of Planet, Tatva and Senses

Sign of planet in Trimshamsha	**Deity**	**Physical Tatva**	**Sense**
Mars	Agni	Fire	Sight
Saturn	Vayu	Air	Touch
Jupiter	Indra	Ether	Hearing
Mercury	Kubera	Earth	Smell
Venus	Varun	Water	Speech

We can combine the effects gathered by the planet by its occupation in these divisional charts. The dasha results will be largely dependent on these occupations.

We now examine dasha of Moon in the example given above with these parameters.

Birth Chart

Moon is ninth lord. It is placed in lagan with lagan lord causing neechbhanga also. It is a good position for Moon.

Hora

Moon is in the hora of Moon. This is a soft hora and not much adverse results are expected.

Dreshkana

Moon is in august Dreshkana. It shows determination for doing well.

Navamsha

In Rashi Tulya navamsha it is in eleventh house. The determination for gain is again seen. The deity is Rakshash. Virgo is sixth house of kaal purush and gives a sense of competition. The material side of things is given. The tatva is earthy. A down to earth approach is seen.

Dwadamsha

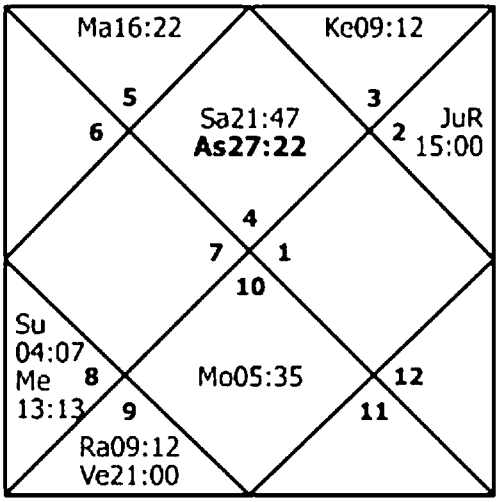

Moon is in fourth Dwadamsha ruled by Ahi. The snake imparts its venom to Moon.

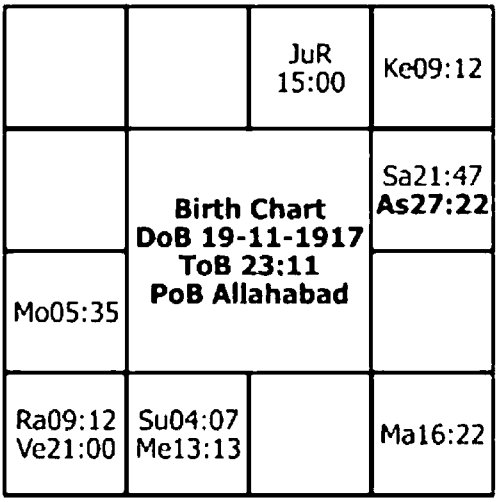

Trimshamsha

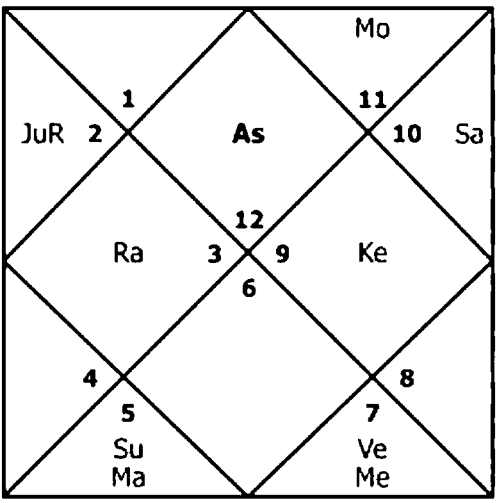

Moon is in Trimshamsha of benefic Mercury. The deity is Kubera and tatva is earthy. Work at ground level and like Kubera is granted.

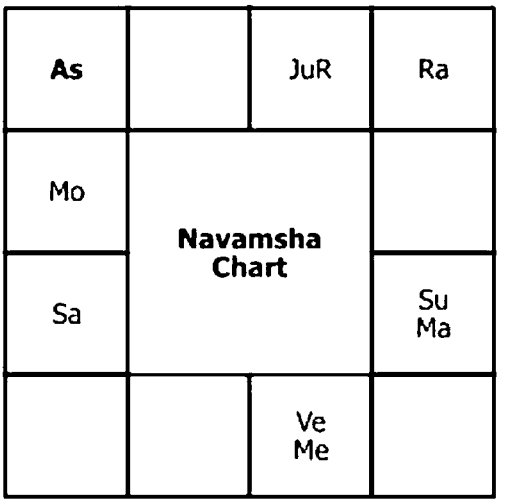

Thus Moon dasha is not giving big upsets. It is a period of worldly achievements with determination.

Example – Indira Gandhi, DOB 19 November 1917, TOB 23.11, POB Allahabad.

We check dasha of Saturn.

Birth Chart

Saturn is seventh and eighth lord. It is aspected by lagan lord Moon. Saturn is in lagan. Thus Saturn is strong to give its results of seventh house which are pad prapati and maraca house.

Hora

Saturn is in the hora of Sun. the dasha can give many unwanted events which need to be handled.

Dreshkana

Saturn is in Durvasa Dreshkana. It shows anger. Durvasa is a great knowledgeable person.

Navamsha

In Rashi Tulya navamsha it is in seventh house confirming the results of seventh house again. The deity is Deva. Virgo is sixth house of kaal purush and gives a sense of competition. The person has to give to others like a Deva. The tatva is earthy. A down to earth approach is seen. Seventh house is a maraca house also.

Dwadamsha

Saturn is in ninth Dwadamsha ruled by Ganesh. Ganesh is protector.

Trimshamsha

Saturn is in Trimshamsha of benefic Mercury. The deity is Kubera and tatva is earthy. Work at ground level and like Kubera is granted.

During this dasha she got acclaim and also loss of power. She regained it. She was killed by her body guards.

Chapter 07:

Sixty Fourth Navamsha

Sixty fourth navamsha sign is one of the sensitive areas and its lord is a Chhidra Graha. The sixty fourth navamsha is also called Khara navamsha.

Brihat Parashar reckons it from Lagan and Moon. Jatak Parijata reckons it from Moon only.

Prashan Marg reckons it from Lagan, Moon and Sun. Why not we reckon it from all planets and houses as well?

The sixty fourth navamsha of any planet or Lagan will be the same navamsha in the eighth sign from it. For example if Moon is in Aries 7 degrees i.e. third navamsha. Then the third navamsha of Scorpio (eighth sign from Aries) will be the sixty fourth navamsha i.e. Virgo.

To ascertain this navamsha, we place the degrees of the planet in the eighth sign from it and workout the navamsha in the eighth sign and for degrees of the planet.

A very simple way to locate the sixty fourth navamsha of a planet is to locate the sign occupied by planet in navamsha chart. The fourth sign from it will be the sixty fourth navamsha. For example Lagan of navamsha chart is Capricorn. The sixty fourth navamsha will be Aries (fourth from Capricorn).

Classics have laid down rules for predicting the events with the help of sixty fourth navamsha. These are summarized below –

1. Transit of malefic over sixty fourth navamsha give events which have long lasting effects, Especially when a malefic is placed in that sign.
2. When the lord of navamsha occupied by Moon is inimical, neutral or friendly to the lord of sixty fourth navamsha from Moon, the person will have short, medium or long life.
3. A Malefic placed in the sixty fourth navamsha of any planet brings harm to the significations of that planet. In the chart of Mrs. Indira Gandhi, Ketu and Saturn are placed in sixty fourth navamsha from Venus. Her husband died at a young age.
4. When the lord of twenty second Dreshkana and sixty fourth navamsha from Moon is same planet and it transits a sign deprived of bindu in Astakvarga then death is unavoidable. If they are different, then both transiting the sensitive point gives death.
5. The transit of malefic gives effect when transiting in the eighth house sign and the navamsha sign of sixty fourth navamsha and vice versa. As an example, the eighth house is Capricorn and Khara navamsha is Virgo, then the event will take place when the malefic transit Capricorn sign and Virgo navamsha or Virgo sign and Capricorn navamsha.
6. Transit of slow moving planets including Rahu and Ketu over the sensitive sixty fourth navamsha produces events of significant nature. The fast moving planets produce events of small magnitude.
7. This principle of transit is also applicable for mundane events.

The sages have specifically mentioned sixty fourth navamsha and not the fourth from Moon or Lagan in the navamsha chart. This is a subtle hint given for working out the navamsha from all houses.

Taking clue from point number 4 above we can try to get both Khara signs for a planet. Twenty second Dreshkana sign of a planet can be similarly calculated. For some longitudes both these signs are same. This sign and its lord is the most harmful planet for the planet in consideration.

The first, fifth and ninth navamsha of dual sign have common sign as the sixty fourth navamsha and twenty second Dreshkana.

For example a planet is at 3 degrees in Gemini. The sixty fourth navamsha sign and twenty second Dreshkana sign will be Capricorn and its lord is Saturn. For any planet in this navamsha Saturn becomes a malefic Khara for the planet.

This malefic nature increases many fold if the planet is also in **vish navamsha**. The conditions are;

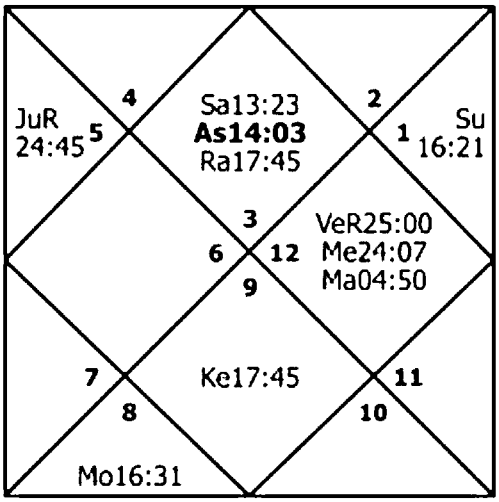

1. The sixty fourth navamsha sign and twenty second Dreshkana sign of the planet is same.
2. The planet is in vish navamsha.
3. The planet is in Sun hora.

Summing up we get three navamsha as the most malefic placement which meet all conditions. These are first navamsha of Sagittarius, fifth navamsha of Gemini and ninth navamsha of Pisces. The fifth

navamsha of Gemini (from 15 degree to 16 degree 40 minutes) and first navamsha of Virgo do not meet the condition of Sun hora and they are less malefic but still give adverse results.

The dasha period of this Khara and the planet gives inauspicious results. The results are more pronounced when the dasha lords are in hora of Sun. We take an example to illustrate it.

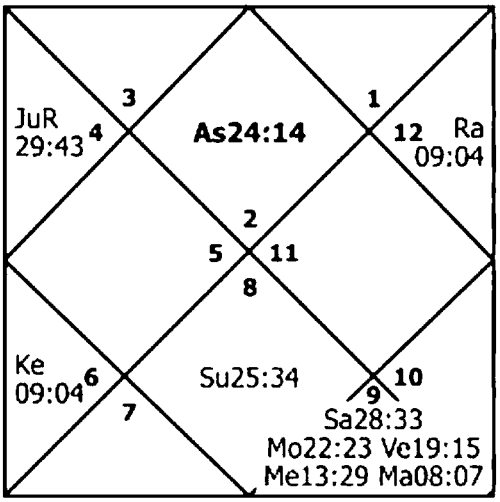

Example – DOB 30 April 1945, TOB 09- 27, POB Delhi

Chapter 08:

Devotion to Religion

Navamsha is also referred to check the devotion of a person towards his/ her religion. We must differentiate between religion and spiritualism. Religion is the path imposed by the society and the family you are born in. Spiritualism is not bound by them and is the inner urge of a person. Here we are discussing religion and not spiritualism. Every person is religious at least to some extent.

1. Trines

Trines of a horoscope are the dharma trines. Simply we must therefore check the trines of navamsha for the involvement of a person in religion. The lords of a house carry out the wish of house. The trine lords of navamsha must be related with each other and with the trine houses of navamsha to make a person religious. Ninth house is the most important house for religion.

The trines of birth chart are also dharma houses. Thus the lords of trines of birth chart are also to be related in navamsha.

Another version says that the lord of ninth house of birth horoscope should be related to trines of navamsha. This rule must be seen for devotion to religion. Secondly the ninth lord of navamsha should also relate to the trines of navamsha. Any malefic influence (except trine lords) is not welcome. They will not allow the person to follow religion faithfully.

The three houses of dharma trine are first, fifth and ninth. We check their significations.

First house

First house must be strong. It should be related to trine lords or natural benefics. The lord of lagan need not be strong.

Fifth house

This is the house of intuition and poorva punya. A relation with lagan or lagan lord with fifth house is a gift of God. The relation with ninth promotes intuition towards religion.

Ninth house

It is the main house of religion. Its lord is the indicator of direction where the devotion will be carried out by the person.

2. Mental strength

Moon is the significator of mind. For devotion to any karma we need determination. Devotion needs concentrated effort for long duration. Moon must have capacity to sustain adversity. The malefic influence on moon is required. This is seen in navamsha.

Mars and Saturn are two malefic planets. Signs ruled by them are also considered malefic. Moon should occupy sign of Mars and be with Saturn or aspected by Saturn. Moon should occupy sign of Saturn and be with Mars or aspected by Mars. This combination is classical sanyas yoga. Benefic association makes the Moon soft and person lacks endurance. Placement of Moon in a sign of benefic planet and aspect of a benefic is not welcome for continued devotion. Benefic relation with Moon give calm mind.

Even Rahu, being malefic, its association with Moon is not good. Rahu distracts towards material things.

3. Overcoming lust

Venus is the planet of lust and luxury. The condition of Venus is checked in navamsha. Venus must be under check to overcome the lust and luxury. Therefore Venus should be under double malefic influence. Venus can be exalted but debilitation of Venus gives base thoughts.

4. Ninth lord from Moon

Ninth lord from Moon in navamsha is now seen in navamsha. This lord must influence trines from Moon in the navamsha. When Moon is debilitated in navamsha then ninth lord from Moon is Moon itself. Such persons have inbuilt devotion to religion. The benefic or malefic association will further mould the devotion. **This is an important condition.**

5. Jupiter in navamsha

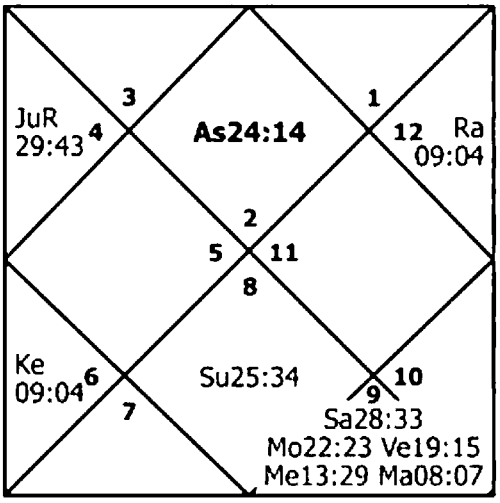

In navamsha chart Jupiter must influence lagan or lagan lord of navamsha. An afflicted Jupiter is of no use. Jupiter influence on tenth house of navamsha is equally beneficial.

6. Ninth lord of birth chart

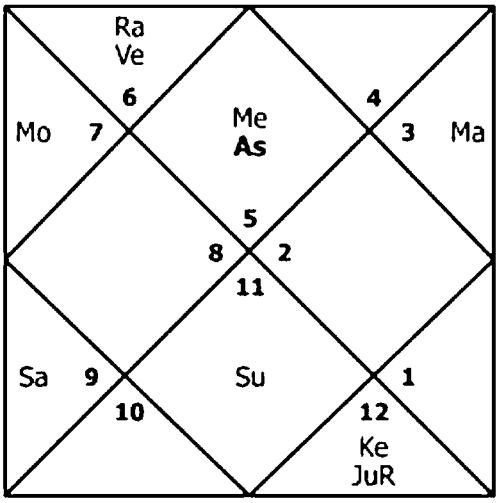

Another important factor is the ninth lord of birth chart. The ninth lord of birth chart should be in first or ninth house of navamsha. This lord should influence first or ninth house by aspect as a second option. As third option it should be conjunct or aspect first or ninth lord. Ninth lord of birth horoscope should occupy a trine or Kendra sign of birth chart.

We take a horoscope for understanding these points.

Deity to worship

Navamsha indicates the deities one is to worship. Second house is the family deity, fourth house is the village deity and fifth house is deity to worship. It is not the lord but the house. Odd sign in fifth house gives male deity. A sign of benefic planet gives a pleasant form of deity. Association of Rahu indicates tantric worship.

In example 1, fifth house is Sagittarius. Saturn is placed there aspected by Mars. Male deity is seen. It is modified by placement of Saturn and aspect of Mars.

Change of Religion

Religion is seen from ninth house of navamsha. Twelfth house to any house is the loss of that house. Change of religion is the loss of religion or faith in which you are born. The influence of eighth lord on ninth house/ lord gives change of religion.

Religion is the family values and sanskars. When sanskars are not deep rooted or not accepted by the person he changes his religion. Second lord of birth chart is checked in navamsha to understand the depth and goodness of sanskars. When this lord of second house of birth chart is under malefic influence then the sanskars are weak.

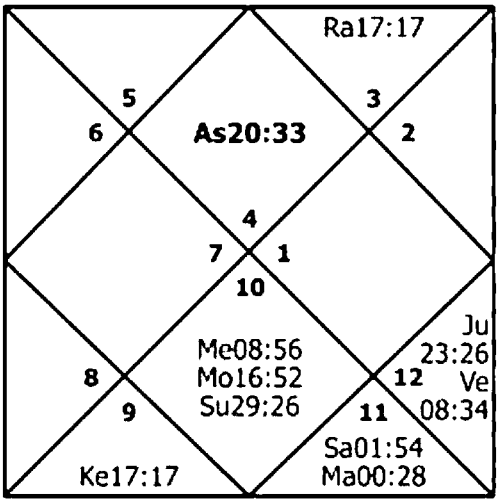

Jupiter is the significator of dharma. Jupiter is badly placed from ninth house then it prompts a person to deviate from religion.

We therefore have three conditions to be met for change of religion. These are,

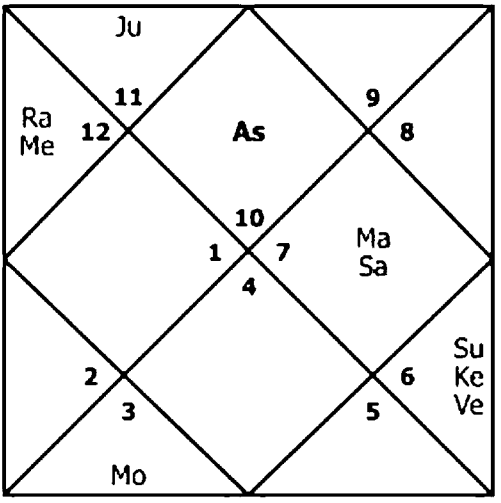

1. Influence of eighth lord on ninth house in navamsha.
2. Second lord of birth chart under malefic influence in navamsha.
3. Jupiter in trik house from ninth house in navamsha.

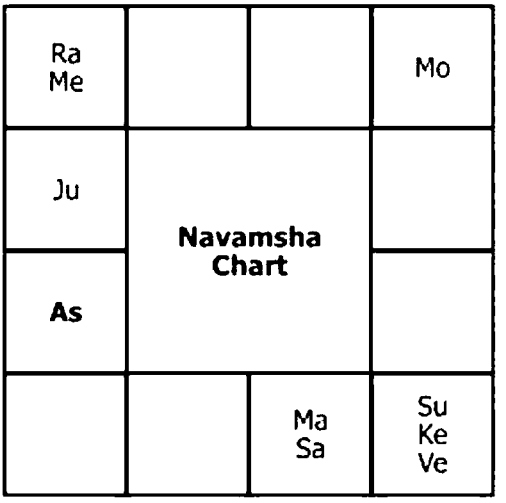

We take an example to apply these rules.

Example – DOB 12 February 1964, TOB 17.25, POB jalandhar

Ju23:26 Ve08:34			Ra17:17
Sa01:54 Ma00:28	**Birth Chart** **DoB 12-02-1964** **ToB 17:25** **PoB Jalandhar**		**As20:33**
Me08:56 Mo16:52 Su29:26			
Ke17:17			

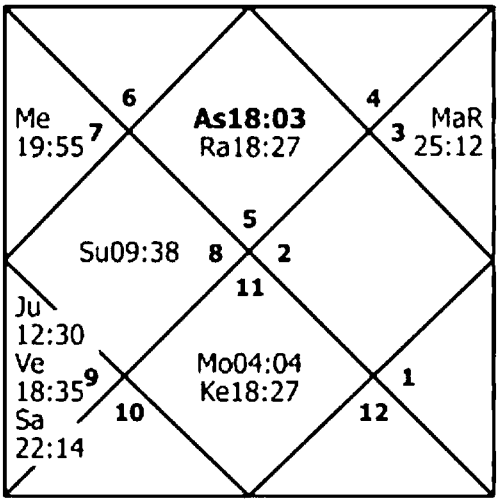

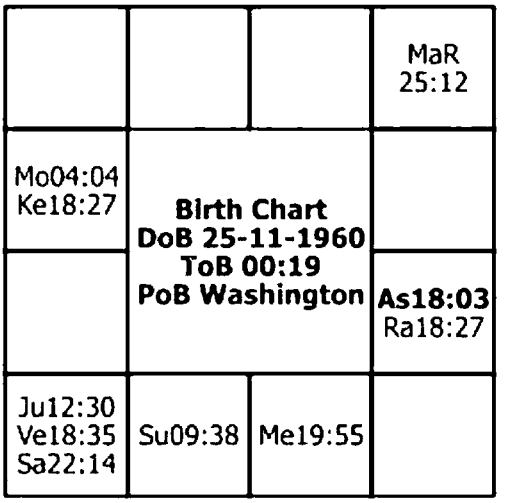

In birth chart the ninth house is occupied by two benefics. The lord of ninth is in ninth with exalted Venus. She should be a follower of religion. She is born in a Hindu Sindhi family and now follows Buddhism.

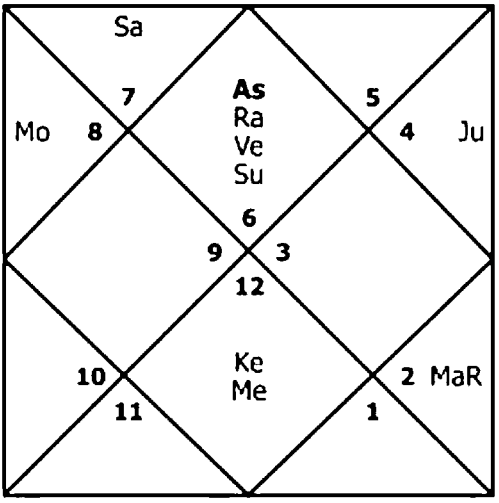

We now apply the rules and find the reason of change of heart.

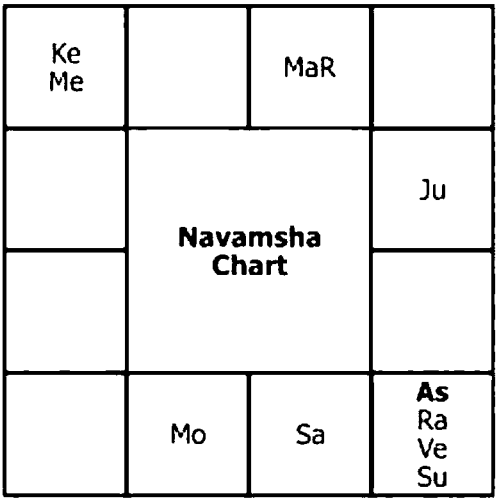

1. In navamsha eighth lord is Sun. sun is placed in ninth house.
2. Second lord of birth chart is Sun. in navamsha Sun is in Rahu Ketu axis.
3. Jupiter is placed in sixth from ninth house.

Example – JFK Junior, DOB 25 November 1960, TOB 0.19, POB Washington

Timing of Worship

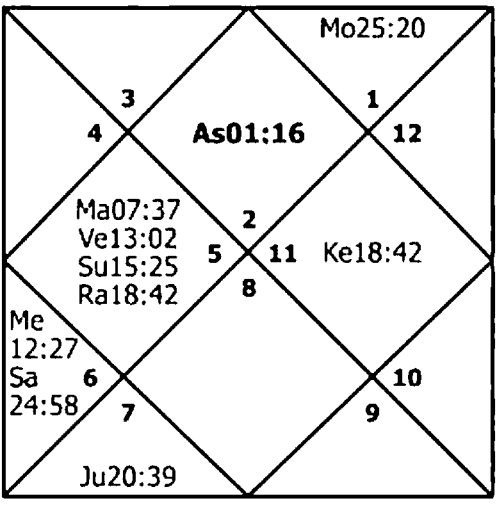

All times are good times for doing worship. We only try to indicate the time when you are inclined to be involved in worship. There are four types of worshippers as mentioned in Bhagwat Gita. These are;

1. In trouble.
2. Needy.
3. Curious.
4. Knowledgeable.

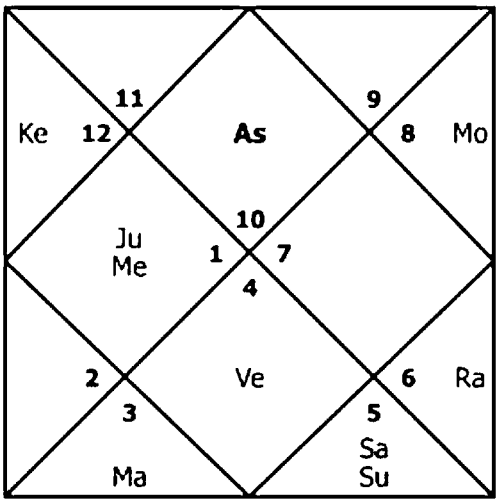

The worship is seen from the dasha in the birth chart. The dasha of lords of trines and angles gives worship. These should be related to trine or angles in navamsha. These Dasha gives devotion and the worship peaks in these Dasha periods. The promise of devotion has to be present for Dasha to give results.

We discuss the example of Ma AnandmayMa. She initiated herself on the full moon night in August 1922. The Dasha at birth was of Venus. In navamsha Venus is aspected by Jupiter and Sun. both are trine lords of navamsha. In August the Dasha was Sun / Jupiter. The trine lords give devotion.

First we see the promise of devotion. The trine lords are not related except Venus. Venus is aspecting lagan. The lagan lord is in eighth with eighth lord. Jupiter is aspecting tenth house along with Saturn. Saturn is ninth lord of birth. Ninth lord from Moon is Moon itself. Moon is not related to trines except it is lord of ninth. Devotion is not much.

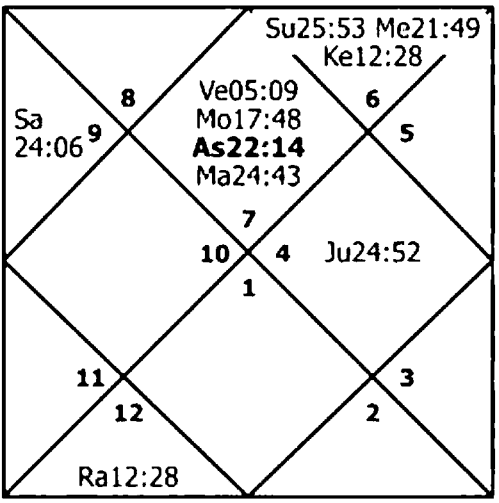

He was born in Dasha of Venus. Saturn is the first Dasha of trine lord. Saturn is not conducive for devotion. Saturn Dasha came in 1982. Mercury started in 2001. Dasha did not allowed him to have time for devotion.
